Part 1

General Provisions

15-1-101. Definitions. (1) Except as otherwise specifically provided, when terms mentioned in this section are used in connection with taxation, they are defined in the following manner:

(a) The term "agricultural" refers to the raising of livestock, poultry, bees, and other species of domestic animals and wildlife in domestication or a captive environment, and the raising of field crops, fruit, and other animal and vegetable matter for food or fiber.

(b) The term "assessed value" means the value of property as defined in 15-8-111.

(c) The term "average wholesale value" means the value to a dealer prior to reconditioning and profit margin shown in national appraisal guides and manuals or the valuation schedules of the department of revenue.

(d) (i) The term "commercial", when used to describe property, means any property used or owned by a business, a trade, or a nonprofit corporation as defined in 35-2-102 or used for the production of income, except that property described in subsection (ii).

(ii) The following types of property are not commercial:

(A) agricultural lands;

(B) timberlands;

(C) single-family residences and ancillary improvements and improvements necessary to the function of a bona fide farm, ranch, or stock operation;

(D) mobile homes used exclusively as a residence except when held by a distributor or dealer of trailers or mobile homes as his stock in trade;

(E) all property described in 15-6-135; and

(F) all property described in 15-6-136.

(e) The term "comparable property" means property that has similar use, function, and utility; that is influenced by the same set of economic trends and physical, governmental, and social factors; and that has the potential of a similar highest and best use.

(f) The term "credit" means solvent debts, secured or unsecured, owing to a person.

(g) The term "improvements" includes all buildings, structures, fences, and improvements situated upon, erected upon, or affixed to land. When the department of revenue or its agent determines that the permanency of location of a mobile home or housetrailer has been established, the mobile home or housetrailer is presumed to be an improvement to real property. A mobile home or housetrailer may be determined to be permanently located only when it is attached to a foundation which cannot feasibly be relocated and only when the wheels are removed.

(h) The term "leasehold improvements" means improvements to mobile homes and mobile homes located on land owned by another person. This property is assessed under the appropriate classification and the taxes are due and payable in two payments as provided in 15-24-202. Delinquent taxes on such leasehold improvements are a lien only on such leasehold improvements.

(i) The term "livestock" means cattle, sheep, swine, goats, horses, mules, and asses.

(j) The term "mobile home" means forms of housing known as "trailers", "housetrailers", or "trailer coaches" exceeding 8 feet in width or 45 feet in length, designed to be moved from one place to another by an independent power connected to them, or any "trailer", "housetrailer", or "trailer coach" up to 8 feet in width or 45 feet in length used as a principal residence.

(k) The term "personal property" includes everything that is the subject of ownership but that is not included within the meaning of the terms "real estate" and "improvements".

(l) The term "poultry" includes all chickens, turkeys, geese, ducks, and other birds raised in domestication to produce food or feathers.

(m) The term "property" includes moneys, credits, bonds, stocks, franchises, and all other matters and things, real, personal, and mixed, capable of private ownership. This definition must not be construed to authorize the taxation of the stocks of any company or corporation when the property of such company or corporation represented by the stocks is within the state and has been taxed.

(n) The term "real estate" includes:

(i) the possession of, claim to, ownership of, or right to the possession of land;

(ii) all mines, minerals, and quarries in and under the land subject to the provisions of 15-23-501 and Title 15, chapter 23, part 8; all timber belonging to individuals or corporations growing or being on the lands of the United States; and all rights and privileges appertaining thereto.

(o) "Research and development firm" means an entity incorporated under the laws of this state or a foreign corporation authorized to do business in this state whose principal purpose is to engage in theoretical analysis, exploration, and experimentation and the extension of investigative findings and theories of a scientific and technical nature into practical application for experimental and demonstration purposes, including the experimental production and testing of models, devices, equipment, materials, and processes.

(p) The term "taxable value" means the percentage of market or assessed value as provided for in Title 15, chapter 6, part 1.

(q) The term "weighted mean assessment ratio" means the total of the assessed values divided by the total of the selling prices of all area sales in the stratum.

(2) The phrase "municipal corporation" or "municipality" or "taxing unit" shall be deemed to include a county, city, incorporated town, township, school district, irrigation district, drainage district, or any person, persons, or organized body authorized by law to establish tax levies for the purpose of raising public revenue.

(3) The term "state board" or "board" when used without other qualification shall mean the state tax appeal board.

15-1-111. Reimbursement to local governments and schools — duties of department and county treasurer — statutory appropriation. (1) (a) On or before May 1, 1990, the department of revenue shall remit to the county treasurer of each county 30% of the reimbursement amount specified in subsection (1)(b), as computed by the department. The department shall base the reimbursement on the reduction in personal property tax revenues due to the reduction in personal property tax rates for class eight property, as provided for in 15-6-138, and any reduction in taxes based upon recalculation of the effective tax rate for property in 15-6-145 and 15-6-147. The reimbursement basis must also include loss of personal property tax revenue due to the reclassification of new industrial property from class five to class eight with the reduced tax rate. The determination of the reimbursement basis must be made in the year in which the reclassification is made.

(b) The reimbursement revenue must be based on the county's taxable value and mill levies for tax year 1989.

(2) Prior to September 1, 1990, the department's agent in the county shall supply the following information to the department for each taxing jurisdiction within the county:

(a) the number of mills levied in the jurisdiction for taxable year 1989;

(b) the number of mills levied in the jurisdiction for taxable year 1990;

(c) the total taxable valuation for taxable years 1989 and 1990, reported separately for each year, of all personal property not secured by real property; and

(d) the total taxable valuation for taxable years 1989 and 1990, reported separately for each year, of all personal property secured by real property.

(3) After receipt of the information from its agent, the department shall calculate the amount of revenue lost to each taxing jurisdiction, using current year mill levies, due to the annual reduction in personal property tax rates set forth in 15-6-138, and any reduction in taxes based upon recalculation of the effective tax rate for property in 15-6-145 and 15-6-147. The department shall total the amounts for all taxing jurisdictions within the county.

(4) For taxable year 1990 and for each year thereafter, the department shall remit to the county treasurer the base amount of revenue reimbursable, determined pursuant to subsection (3), as follows:

(a) on or before November 30, 1990, and on or before each November 30 thereafter, the department shall remit 50% of the base amount of the revenue reimbursable to the county; and

(b) on or before May 31, 1991, and on or before each May 31 thereafter, the department shall remit 50% of the base amount of the revenue reimbursable to the county.

(5) Upon receipt of the reimbursement from the department, the county treasurer shall distribute the reimbursement to each taxing jurisdiction in the relative proportions required by the levies for state, county, school district, and municipal purposes in the same manner as current year mill levies on personal property taxes are distributed.

(6) For the purposes of this section, "taxing jurisdiction" means local governments and includes school districts, each municipality with tax increment financing, and the state of Montana.

(7) The amounts necessary for the administration of this section are statutorily appropriated, as provided in 17-7-502, from the general fund to reimburse school districts and local governments for reductions in tax rates on personal property.

15-1-301. Investigations by department. (1) The department of revenue may examine all cases where evasion or violation of the laws for taxation of property, proceeds, occupation, or business is alleged, complained of, or discovered and ascertain wherein existing laws are ineffective or are improperly or negligently administered.

(2) (a) The department may inspect and examine or cause an inspection and examination of the records of the officers of any municipality whenever such officer has failed, neglected, or refused to return properly the information required by 15-1-201 within the time set by the department. Upon completion of such inspection and examination, the department shall transmit to the clerk or other proper official of the municipality a statement of the expenses incurred by the department to secure the necessary information. Within 60 days after the receipt by the municipality of the above statement, the same shall be audited as other claims of the municipal corporation are audited and shall be paid into the state treasury. If the statement is not paid, the attorney general shall institute an action in the proper court against the municipality to recover the same.

(b) The officers responsible for the furnishing of the information collected pursuant to 15-1-201 shall be jointly and severally liable for any loss the municipality may suffer through their delinquency. No payment may be made to them for salary or on any other account until the cost of such inspection and examination as provided above has been paid into the treasury or to the proper officers of such municipality. They shall also be subject to the other fines and penalties as prescribed by law.

(3) The department may require persons to furnish information concerning their capital, funded or other debt, current assets and liabilities, cost and value of property, earnings, operating and other expenses, taxes, and all other facts which may enable the department to ascertain the value of the relative burdens borne by all kinds of property and occupations in the state.

(5) In any matter which the department has authority to investigate and determine, it may cause the deposition of witnesses residing within or without the state or absent therefrom to be taken upon notice to the interested party, if any, in like manner that depositions are taken in actions pending in the district court.

15-1-303. Penalty for refusal to furnish information. (1) If any person shall refuse inspection of any books or records when requested by the department or its authorized agent or shall refuse or neglect to furnish any information called for by the department in the performance of its official duties relating to the assessment and taxation of property, the department shall make such determination and assessment of his or its property as in its judgment appears to be just and equitable and may add to its assessment thus made not more than 20% thereof as a penalty for such refusal or neglect. The department shall immediately notify the person so assessed of its action, either by certified or registered mail or by personal service of such notice.

(2) Upon receiving an assessment made pursuant to subsection (1), the taxpayer has the following remedies:

(a) Within 15 days after receipt of the assessment, or by April 1, whichever is later, he may request an informal conference with the agent of the department. At the conference, the taxpayer may present evidence in mitigation or extenuation of his failure to supply the information requested by the department. Within 10 days after the conference, the agent of the department shall notify the taxpayer by certified mail whether the assessment will be modified. The department may modify the penalty if the taxpayer presents sufficient evidence in mitigation or extenuation of his failure to supply the information sought by the department and if it finds that the taxpayer did not willfully refuse to supply the information.

(b) If the taxpayer is aggrieved as a result of the informal conference, he may appeal to the county tax appeal board within 20 days after receipt of the decision of the department. The county tax appeal board has the authority to modify the:

(i) assessment only if it finds that the assessment exceeds 100% of the value of the property specified in 15-8-111; and

(ii) penalty if the taxpayer presents by a preponderance of the evidence facts in mitigation or extenuation of his failure to supply the information which the department sought.

(c) If the county tax appeal board modifies a penalty pursuant to subsection (2)(b)(ii), it may not reduce the penalty to less than 20% of the assessment, or if the assessment is modified pursuant to subsection (2)(b)(i), to less than 20% of the modified assessment.

(3) Either party aggrieved as a result of the decision of the county tax appeal board may appeal to the state tax appeal board within 20 days after receipt of the county tax appeal board's decision. When deciding an appeal brought under this subsection, the state tax appeal board must follow the provisions of subsections (2)(b) and (2)(c).

(4) Either party aggrieved as a result of the decision of the state tax appeal board may seek judicial review pursuant to 15-2-303.

15-1-402. Payment of taxes under protest — action to recover. (1) The person upon whom a tax or license fee is being imposed may proceed under 15-1-406 or may, before the tax or license fee becomes delinquent, pay under written protest that portion of the tax or license fee protested. The payment must:

(a) be made to the officer designated and authorized to collect it;

(b) specify the grounds of protest; and

(c) not exceed the difference between the payment for the immediately preceding tax year and the amount owing in the tax year protested unless a different amount results from the specified grounds of protest, which grounds may include but are not limited to changes in assessment due to reappraisal under 15-7-111.

(2) After having exhausted the administrative appeals available under Title 15, chapters 2 and 15, a person or his legal representative may bring an action in any court of competent jurisdiction against the officers to whom said tax or license fee was paid or against the county or municipality in whose behalf the same was collected and the department of revenue.

(3) Both the officers to whom the tax or license fee was paid or the county or municipality in whose behalf the same was collected and the department of revenue must be served with timely summons and complaint within the time prescribed.

(4) An action instituted to recover any such portions of tax or license fee paid under protest must be commenced and summons timely served within 60 days after the date of the final decision of the state tax appeal board.

(5) If a protested tax or license fee is payable in installments, a subsequent installment portion considered unlawful by the state tax appeal board need not be paid and no action or suit need be commenced to recover the subsequent installment. The determination of the action or suit commenced to recover the first installment portion paid under protest determines the right of the party paying such subsequent installment to have the same or any part thereof refunded to him or the right of the taxing authority to collect a subsequent installment not paid by the taxpayer plus interest from the date the subsequent installment was due.

(6) All taxes and license fees paid under protest to a county or municipality must be deposited by the treasurer of the county or municipality to the credit of a special fund to be designated as a protest fund and must be retained in the protest fund until the final determination of any action or suit to recover the same unless released at the request of the county, municipality, or other local taxing jurisdiction pursuant to subsection (7). Nothing contained herein prohibits the investment of the money of this fund in the state unified investment program or in any manner provided in Title 7, chapter 6. The provision creating the special protest fund does not apply to any payments made under protest directly to the state.

(7) The governing board of a taxing jurisdiction affected by the payment of taxes under protest in the second and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled, except the amount paid by the taxpayer in the first year of the protest. The decision in a previous year of a taxing jurisdiction to leave protested taxes in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled, except the first-year protest amount.

(8) (a) If no action is commenced within the time herein specified or if such action is commenced and finally determined in favor of the county or municipality or treasurer thereof, the amount of the protested portions of the tax or license fee must be taken from the protest fund and deposited to the credit of the fund or funds to which the same property belongs, less a pro rata deduction for the costs of administration of the protest fund and related expenses charged the local government units.

(b) If such action is finally determined adversely to a county or municipality or the treasurer thereof, then the treasurer shall, upon receiving a certified copy of the final judgment in said action from the state tax appeal board, or from the district or supreme court, as appropriate, if the final action of the state tax appeal board is appealed in the time prescribed, refund to the person in whose favor such judgment is rendered the amount of such protested portions of the tax or license fee deposited in the protest fund, and not released pursuant to subsection (7), as the person holding such judgment is entitled to recover, together with interest thereon from the date of payment under protest, at the greater of:

(i) the rate of interest generated from the pooled investment fund provided for in 17-6-203 for the applicable period; or

(ii) 6% a year.

(c) If the amount retained in the protest fund is insufficient to pay all sums due the taxpayer, the treasurer shall apply the available amount first to tax repayment, then interest owed, and lastly to costs.

(d) If the protest action is decided adversely to a taxing jurisdiction and the amount retained in the protest fund is insufficient to refund the tax payments and costs to which the taxpayer is entitled and for which local government units are responsible, the treasurer shall bill and the taxing jurisdiction shall refund to the treasurer that portion of the taxpayer refund, including tax payments and costs, for which the taxing jurisdiction is proratably responsible.

(e) In satisfying the requirements of subsection (8)(d), the taxing jurisdiction is allowed not more than 1 year from the beginning of the fiscal year following a final resolution of the protest. The taxpayer is entitled to interest on the unpaid balance at the greater of the rates referred to in subsections (8)(b)(i) and (8)(b)(ii) from the date of payment under protest until the date of final resolution of the protest and at the combined rate of the federal reserve discount rate quoted from the federal reserve bank in New York, New York, on the date of final resolution, plus four percentage points, from the date of final resolution of the protest until refund is made.

(9) A taxing jurisdiction may satisfy the requirements of this section by use of funds from one or more of the following sources:

(a) imposition of a property tax to be collected by a special tax protest refund levy;

(b) the general fund, except that amount generated by the all-purpose mill levy, or any other funds legally available to the governing body; and

(c) proceeds from the sale of bonds issued by a county, city, or school district for the purpose of deriving revenue for the repayment of tax protests lost by the taxing jurisdiction. The governing body of a county, city, or school district is hereby authorized to issue such bonds pursuant to procedures established by law. The bonds may be issued without being submitted to an election. Property taxes may be levied to amortize the bonds.

15-1-601. Compact adopted — text. The Multistate Tax Compact is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as set forth herein below. Article VIII of the Multistate Tax Compact relating to interstate audits is specifically adopted.

Article I. Purposes

The purposes of this compact are to:

(1) facilitate proper determination of state and local tax liability of multistate taxpayers, including the equitable apportionment of tax bases and settlement of apportionment disputes;

(2) promote uniformity or compatibility in significant components of tax systems;

(3) facilitate taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration;

(4) avoid duplicative taxation.

Article II. Definitions

As used in this compact:

(1) "state" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States;

(2) "subdivision" means any government unit or special district of a state;

(3) "taxpayer" means any corporation, partnership, firm, association, governmental unit or agency, or person acting as a business entity in more than one state;

(4) "income tax" means a tax imposed on or measured by net income including any tax imposed on or measured by an amount arrived at by deducting expenses from gross income, one or more forms of which expenses are not specifically and directly related to particular transactions;

(5) "capital stock tax" means a tax measured in any way by the capital of a corporation considered in its entirety;

(6) "gross receipts tax" means a tax, other than a sales tax, which is imposed on or measured by the gross volume of business, in terms of gross

receipts or in other terms, and in the determination of which no deduction is allowed which would constitute the tax an income tax;

(7) "sales tax" means a tax imposed with respect to the transfer for a consideration of ownership, possession, or custody of tangible personal property or the rendering of services measured by the price of the tangible personal property transferred or services rendered and which is required by state or local law to be separately stated from the sales price by the seller or which is customarily separately stated from the sales price but does not include a tax imposed exclusively on the sale of a specifically identified commodity or article or class of commodities or articles;

(8) "use tax" means a nonrecurring tax, other than a sales tax, which:

(a) is imposed on or with respect to the exercise or enjoyment of any right or power over tangible personal property incident to the ownership, possession, or custody of that property or the leasing of that property from another including any consumption, keeping, retention, or other use of tangible personal property; and

(9) "tax" means an income tax, capital stock tax, gross receipts tax, sales tax, use tax, and any other tax which has a multistate impact, except that the provisions of Articles III, IV, and V of this compact shall apply only to the taxes specifically designated therein and the provisions of Article IX of this compact shall apply only in respect to determinations pursuant to Article IV.

Article III. Elements Of Income Tax Laws

Taxpayer Option, State and Local Taxes

(1) Any taxpayer subject to an income tax whose income is subject to apportionment and allocation for tax purposes pursuant to the laws of a party state or pursuant to the laws of subdivisions in two or more party states may elect to apportion and allocate his income in the manner provided by the laws of such state or by the laws of such states and subdivisions without reference to this compact or may elect to apportion and allocate in accordance with Article IV. This election for any tax year may be made in all party states or subdivisions thereof or in any one or more of the party states or subdivisions thereof without reference to the election made in the others. For the purposes of this subsection, taxes imposed by subdivisions shall be considered separately from state taxes and the apportionment and allocation also may be applied to the entire tax base. In no instance wherein Article IV is employed for all subdivisions of a state may the sum of all apportionments and allocations to subdivisions within a state be greater than the apportionment and allocation that would be assignable to that state if the apportionment or allocation were being made with respect to a state income tax.

Taxpayer Option, Short Form

(2) Each party state or any subdivision thereof which imposes an income tax shall provide by law that any taxpayer required to file a return whose only activities within the taxing jurisdiction consist of sales and do not include owning or renting real estate or tangible personal property and whose dollar volume of gross sales made during the tax year within the state or subdivision, as the case may be, is not in excess of $100,000 may elect to report and

pay any tax due on the basis of a percentage of such volume and shall adopt rates which shall produce a tax which reasonably approximates the tax otherwise due. The multistate tax commission, not more than once in 5 years, may adjust the $100,000 figure in order to reflect such changes as may occur in the real value of the dollar, and such adjusted figure, upon adoption by the commission, shall replace the $100,000 figure specifically provided herein. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this subsection.

Coverage

(3) Nothing in this article relates to the reporting or payment of any tax other than an income tax.

Article IV. Division Of Income

(1) As used in this article, unless the context otherwise requires:

(a) "business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations;

(b) "commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed;

(c) "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services;

(d) "financial organization" means any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, credit union, cooperative bank, small loan company, sales finance company, investment company, or any type of insurance company;

(e) "nonbusiness income" means all income other than business income;

(f) "public utility" means any business entity:

(i) which owns or operates any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, except by pipeline, or the production, transmission, sale, delivery, or furnishing of electricity, water, or steam; and

(ii) whose rates of charges for goods or services have been established or approved by a federal, state, or local government or governmental agency;

(g) "sales" means all gross receipts of the taxpayer not allocated under subsections of this article;

(h) "state" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof;

(i) "this state" means the state in which the relevant tax return is filed or, in the case of application of this article to the apportionment and allocation of income for local tax purposes, the subdivision or local taxing district in which the relevant tax return is filed.

(2) Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in this article.

If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this article, the taxpayer may elect to allocate and apportion his entire net income as provided in this article.

(3) For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if:

(a) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(b) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

(4) Rents and royalties from real or tangible personal property, capital gains, interest, dividends, or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in subsections (5) through (8) of this article.

(5) (a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state:

(i) if and to the extent that the property is utilized in this state; or

(ii) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

(6) (a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if:

(i) the property had a situs in this state at the time of the sale; or

(ii) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

(7) Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

(8) (a) Patent and copyright royalties are allocable to this state:

(i) if and to the extent that the patent or copyright is utilized by the payer in this state; or

(ii) if and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

(9) All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor and the denominator of which is 3.

(10) The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

(11) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(12) The average value of property shall be determined by averaging the values at the beginning and ending of the tax period, but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

(13) The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

(14) Compensation is paid in this state if:

(a) the individual's service is performed entirely within the state;

(b) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

(c) some of the service is performed in the state and:

(i) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or

(ii) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

(15) The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

(16) Sales of tangible personal property are in this state if:

(a) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and:

(i) the purchaser is the United States government; or

(ii) the taxpayer is not taxable in the state of the purchaser.

(17) Sales, other than sales of tangible personal property, are in this state if:

(a) the income-producing activity is performed in this state; or

(b) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

(18) If the allocation and apportionment provisions of this article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(a) separate accounting;

(b) the exclusion of any one or more of the factors;

(c) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(d) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

Article V. Elements Of Sales And Use Tax Laws

Tax Credit

(1) Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

Exemption Certificates — Vendors May Rely

(2) Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

Article VI. The Commission

Organization and Management

(1) (a) The Multistate Tax Commission is hereby established. It shall be composed of one member from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency, the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate, but only if there is on file with the commission written notification of the designation and identity of the alternate.

The attorney general of each party state or his designee or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under subsection (1)(e) of this article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings and shall provide for the giving of notice of annual, regular, and special meetings. Notice of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice-chairman, and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel, or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept, or contract for the services of personnel from any state, the United States, or any other governmental entity.

(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any governmental entity and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission and shall include the nature, amount, and conditions, if any, of the donation, gift, grant, or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

Committees

(2) (a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice-chairman, treasurer, and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

Powers

(3) In addition to powers conferred elsewhere in this compact, the commission shall have power to:

(a) study state and local tax systems and particular types of state and local taxes;

(b) develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration;

(c) compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws;

(d) do all things necessary and incidental to the administration of its functions pursuant to this compact.

Finance

(4) (a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this subsection.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under subsection (1)(i) of this article, provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under subsection (1)(i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any person authorized by the commission.

(f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VII. Uniform Regulations And Forms

(1) Whenever any two or more party states or subdivisions of party states have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax or prescribing uniform tax forms. The commission may also act with respect to the provisions of Article IV of this compact.

(2) Prior to the adoption of any regulation, the commission shall:

(a) as provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings;

(b) afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

(3) The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

Article VIII. Interstate Audits

(1) This article shall be in force only in those party states that specifically provide therefor by statute.

(2) Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records, or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may

enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

(3) The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property, or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission within the state of which he is a resident, provided that such state has adopted this article.

(4) The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article, and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in which the object of the order being sought is situated. The provisions of this subsection apply only to courts in a state that has adopted this article.

(5) The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

(6) Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions, or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

(7) Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.

(8) In no event shall the commission make any charge against a taxpayer for an audit.

(9) As used in this article, "tax", in addition to the meaning ascribed to it in Article II, means any tax or license fee imposed in whole or in part for revenue purposes.

Article IX. Arbitration

(1) Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of Article VII.

(2) The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.

(3) Whenever a taxpayer who has elected to employ Article IV or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of Article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein and agrees to be bound thereby.

(4) The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this subsection shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if he is an officer or employee or is otherwise affiliated with any party to the arbitration proceeding. Residents within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this subsection.

(5) The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence, or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.

(6) The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.

(7) The board shall have power to administer oaths, take testimony, subpoena and require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoenas, and the court may punish failure to obey the order as a contempt. The provisions of this subsection apply only in states that have adopted this article.

(8) Unless the parties otherwise agree, the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in

such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless he is required on account of his service to forego the regular compensation attaching to his public employment, but any such board member shall be entitled to expenses.

(9) The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.

(10) The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board, the board's written statement of its reasons therefor, the record of the board's proceedings, and any other documents required by the arbitration rules of the commission to be filed.

(11) The commission shall publish the determinations of boards, together with the statements of the reasons therefor.

(12) The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.

(13) Nothing contained herein shall prevent at any time a written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceedings.

Article X. Entry Into Force And Withdrawal

(1) This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

(2) Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

(3) No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

Article XI. Effect On Other Laws And Jurisdiction

Nothing in this compact shall be construed to:

(1) affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement Article III, subsection (2), of this compact;

(2) apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax; provided that the definition of "tax" in Article VIII, subsection (9), may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to Article VI, subsection (3), may apply;

(3) withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation, or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body;

(4) supersede or limit the jurisdiction of any court of the United States.

Article XII. Construction And Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

Part 7

Collection of Delinquent Taxes — Warrant for Distraint

15-1-701. Warrant for distraint. (1) A warrant for distraint is an order, under the official seal of the department of revenue, directed to a sheriff of any county of Montana or to any agent authorized by law to collect a tax. The order commands the recipient to levy upon and sell the real and personal property of a delinquent taxpayer.

(2) Upon filing the warrant as provided in 15-1-704, there is a lien against all real and personal property of the delinquent taxpayer located in the county where the warrant is filed. The resulting lien is treated in the same manner as a properly docketed judgment lien, and the department may collect delinquent taxes and enforce the tax lien in the same manner as a judgment is enforced.

(3) A warrant may be issued for the amount of unpaid tax plus penalty, if any, and accumulated interest. The lien is for the amount indicated on the warrant plus accrued interest from the date of the warrant.

History: En. Sec. 1, Ch. 439, L. 1981.

15-1-702. Issuance of warrant. (1) If a tax administered and collected by the department is not paid within 30 days of the due date, the department may issue a notice to the taxpayer notifying him that unless payment is received within 30 days of the date of the notice a warrant for distraint may be issued. Thirty days after the date of the notice, the department may issue a warrant if payment is not received.

(2) Use of the procedure to issue a warrant under this section does not preclude use of the procedure under 15-1-703 if the department determines that it is appropriate to utilize 15-1-703.

History: En. Sec. 2, Ch. 439, L. 1981; amd. Sec. 1, Ch. 131, L. 1989.

Compiler's Comments

1989 Amendment: Near beginning of (1), after "If a tax", deleted "other than inheritance or estate tax". Amendment effective March 18, 1989.

Retroactive Applicability: Section 6, Ch. 131, L. 1989, provided: "[This act] applies retroactively, within the meaning of 1-2-109, to tax years beginning after December 31, 1988."

15-1-703. Emergency issuance of warrant. (1) The department may issue a warrant for distraint without waiting for the expiration of either 30-day period provided for in 15-1-702 if:

(a) the department determines that the collection of the tax is or may be jeopardized because of the delay imposed by the waiting period; or

(b) the tax involved is a tax considered to be held in trust by the taxpayer under state law.

(2) Whenever the provisions of this section are utilized, the department must notify the taxpayer that warrants have been issued.

History: En. Sec. 3, Ch. 439, L. 1981.

15-1-704. Filing with district court. (1) After issuing a warrant, the department may file the warrant with the clerk of a district court. The clerk shall file the warrant in the judgment docket, with the name of the taxpayer listed as the judgment debtor.

(2) A copy of the filed warrant may be sent by the department to the sheriff or agent authorized to collect the tax.

History: En. Sec. 4, Ch. 439, L. 1981.

15-1-705. Hearing. (1) Except as provided in 15-1-707, a taxpayer has the right to request a hearing on the matter of tax liability prior to execution on a filed warrant for distraint.

(2) The department must provide notice of the right to hearing to the taxpayer. A request for a hearing must be made in writing within 30 days of the date of the notice. This notice may be given prior to the notice referred to in 15-1-702. If a written request for a hearing is received, the warrant may not be executed upon until after the date the hearing is held or, if the taxpayer fails to attend a scheduled hearing, the date the hearing is scheduled.

(3) The hearing is subject to the contested case provisions of the Montana Administrative Procedure Act. Before a decision may be appealed to the district court, an appeal must first be taken to the state tax appeal board. A

request for a hearing must be in writing in order to postpone execution on a warrant.

History: En. Sec. 5, Ch. 439, L. 1981.

15-1-706. Execution upon warrant. (1) Upon receipt of a copy of the filed warrant and notice from the department that the applicable hearing provisions have been complied with, the sheriff or agent authorized to collect the tax shall proceed to execute upon the warrant in the same manner as prescribed for execution upon a judgment.

(2) A notice of levy may be made by means of a certified letter by an agent authorized to collect the tax. An agent is not entitled to any fee or compensation in excess of actual expenses incurred in enforcing the warrant.

(3) A sheriff or agent shall return a warrant, along with any funds collected, within 90 days of the date of the warrant.

(4) If the warrant is returned not satisfied in full, the department has the same remedies to collect the deficiency as are available for any civil judgment.

History: En. Sec. 6, Ch. 439, L. 1981.

15-1-707. Emergency execution upon warrant. (1) The department may execute upon a filed warrant for distraint without providing an opportunity for a hearing prior to execution if the department determines that the collection of the tax is jeopardized because of the delay imposed by the hearing requirement.

(2) When the provisions of this section are utilized, the department must notify the taxpayer and inform the taxpayer that he has a right to request a hearing to be held subsequent to execution. A hearing, if desired, must be requested in writing within 30 days of the date of the notice and, if requested, must be held as soon as possible. The commencement of a proceeding under 15-1-705 does not preclude the use of the provisions of this section if the department determines that such action is appropriate.

History: En. Sec. 7, Ch. 439, L. 1981.

15-1-708. Release of lien. (1) Upon payment in full of the unpaid tax plus penalty, if any, and accumulated interest, the department shall release the lien acquired by filing the warrant for distraint.

(2) Upon partial payment or whenever the department determines that a release or partial release of the lien will facilitate the collection of the unpaid tax, penalty, and interest, the department may release or may partially release the lien acquired by filing the warrant for distraint. The department may release the lien if it determines that the lien is unenforceable.

History: En. Sec. 8, Ch. 439, L. 1981.

15-1-709. Remedy not exclusive. The use of the warrant for distraint provided for in 15-1-701 through 15-1-708 is not exclusive, and the department may use any other remedy provided by law for the collection of tax debts.

History: En. Sec. 9, Ch. 439, L. 1981.

Any person or the department in behalf of the state or any municipal corporation aggrieved by the action of the county tax appeal board may appeal to the state board by filing with the state tax appeal board a notice of appeal within

30 calendar days after the receipt of the decision of the county board, which notice shall specify the action complained of and the reasons assigned for such complaint. The state board may, in its discretion, determine the appeal on such record if all parties receive a copy of the transcript and are permitted to submit additional sworn statements, or the state board may hear further testimony. For the purpose of expediting its work, the state board may refer any appeal to one of its members and the person so designated shall have and exercise all the powers of the board in conducting such hearings and shall, as soon as possible thereafter, report the proceedings, together with a transcript or a tape recording of the hearing, to the board, and the state board shall determine such appeal on the record so made.

(3) On all hearings at county seats throughout the state, the state board or the member designated to conduct a hearing may employ the local court reporter or other competent stenographer to take and transcribe the testimony received and the cost thereof may be paid out of the general appropriation for the board.

(4) In connection with any appeal under this section, the state board shall not be bound by common law and statutory rules of evidence or rules of discovery and may affirm, reverse, or modify any decision. The decision of the state tax appeal board shall be final and binding upon all interested parties unless reversed or modified by judicial review. To the extent this section is in conflict with the Montana Administrative Procedure Act, this section shall supersede that act. The state tax appeal board may not amend or repeal any administrative rule of the department. The state tax appeal board must give an administrative rule full effect unless the board finds any such rule arbitrary, capricious, or otherwise unlawful.

(2) Class three property is taxed at the taxable percentage rate "P" of its productive capacity.

(3) Until July 1, 1986, the taxable percentage rate "P" for class three property is 30%.

(4) Prior to July 1, 1986, the department of revenue shall determine the taxable percentage rate "P" applicable to class three property for the revaluation cycle beginning January 1, 1986, as follows:

(a) The director of the department of revenue shall certify to the governor before July 1, 1986, the percentage by which the appraised value of all property in the state classified under class three as of January 1, 1986, has increased due to the revaluation conducted under 15-7-111. This figure is the "certified statewide percentage increase".

(b) The taxable value of property in class three is determined as a function of the certified statewide percentage increase in accordance with the table shown below.

(c) This table limits the statewide increase in taxable valuation resulting from reappraisal to 0%. In calculating the percentage increase, the department may not consider agricultural use changes during calendar year 1985.

(d) The taxable percentage must be calculated by interpolation to coincide with the nearest whole number certified statewide percentage increase from the following table:

Certified Statewide Percentage Increase	Class Three Taxable Percentage "P"
0	30.00
10	27.27
20	25.00
30	23.08
40	21.43
50	20.00

(5) After July 1, 1986, no adjustment may be made by the department to the taxable percentage rate "P" until a revaluation has been made as provided in 15-7-111.

(1) It shall be the duty of the department of revenue, through its agent as specified in subsection (2), to cause to be mailed to each owner and purchaser under contract for deed a notice of the classification of the land owned or being purchased by him and the appraisal of the improvements on the land only if one or more of the following changes pertaining to the land or improvements have been made since the last notice:

(a) change in ownership;

(b) change in classification;

(c) change in valuation; or

(d) addition or subtraction of personal property affixed to the land.

(2) The county assessor shall assign each assessment to the correct owner or purchaser under contract for deed and mail the notice of classification and appraisal on a standardized form, adopted by the department, containing sufficient information in a comprehensible manner designed to fully inform the taxpayer as to the classification and appraisal of his property and of changes over the prior tax year.

(3) If the owner of any land and improvements is dissatisfied with the appraisal or classification of his land or improvements, he may submit his objection in writing to the department's agent. The department shall give reasonable notice to the taxpayer of the time and place of hearing and hear any testimony or other evidence that the taxpayer may desire to produce at that time and afford the opportunity to other interested persons to produce evidence at the hearing. After the hearing, the department shall determine the true and correct appraisal and classification of the land or improvements and notify the taxpayer of its determination. In the notification, the department must state its reasons for revising the classification or appraisal. When the proper appraisal and classification have been determined, the land shall be classified and the improvements appraised in the manner ordered by the department.

(6) If any property owner feels aggrieved at the classification and/or the appraisal made by the department, he shall have the right to appeal to the county tax appeal board and then to the state tax appeal board, whose findings shall be final subject to the right of review in the courts. (1) The department of revenue shall administer and supervise a program for the revaluation of all taxable property within the state at least every 5 years. A comprehensive written reappraisal plan shall be promulgated by the department. The reappraisal plan adopted shall provide that all property in each county shall be revalued at least every 5 years. The department shall furnish a copy of the plan and all amendments to the plan to the board of county commissioners in each county.

(2) The new values determined during a revaluation cycle must be provided to the taxpayers at the end of the revaluation cycle but may not be placed on the tax rolls until 1 year following the completion of the revaluation cycle.

(4) For the taxable year beginning January 1, 1990, and for every taxable year thereafter, the department shall conduct a stratified sales assessment ratio study of all residential land and improvements, agricultural 1-acre homesites and improvements, and commercial land and improvements. The sales assessment ratio based on property sales finalized and recorded by no later than November 1 must be used to determine appraisals for the immediately succeeding tax year.

(5) The study required in subsection (4) must be based on:

(a) commonly accepted statistical standards and methodology;

(b) a statistically valid sample of sales, using data from realty transfer certificates filed for up to 3 taxable years prior to the year the study is made, taking into account the dates of the included sales in the statistical analysis; and

(c) the assessments and sales for areas of the state that are economically, demographically, and geographically similar in order to determine the sales assessment ratios for a specific area.

(6) For purposes of conducting the study required by subsection (4), the department shall partition the state into as many as 100 areas for residential property and as many as 20 areas for commercial property. The areas must contain statistically sufficient numbers of sales and be as economically and demographically homogeneous as reasonably practicable.

(7) The department shall use the following procedure to validate sales information:

(a) Department staff who did not participate in the determination of appraised values are required to review the sales transactions evidenced by a realty transfer certificate. The review must be conducted to determine whether each sale used in the study was a valid, arm's-length transaction. Only valid, arm's-length sales may be used in the sales assessment ratio study.

(b) The sales information entered in the computer-assisted appraisal system is considered confidential, as provided in 15-7-308. However, the department shall annually publish a report containing the results of all sales assessment ratio studies done in each of the areas described in subsection (6). The report containing the results of the study must be made available to the public by request or by general disclosure.

(c) The department shall exclude from the sales assessment ratio study any parcels in which the improvements have been remodeled, reconstructed, or expanded between the time of the assessment and the time of the sales.

(d) The department shall exclude sales assessment ratios of less than 50% or greater than 200%.

(8) (a) The department shall have equalized property values throughout the state and may not make further adjustments to values under this section when the assessments for each stratum within each area identified in subsection (6) are rescaled to bring all ratios to common value 1 and when the sample size produces a standard error of less than 5%.

(b) Under the method described in subsection (8)(a), taxable property in each area is considered revalued for each tax year, based on the results of the sales assessment ratio study and the adjustments required by that study.

(c) Assessments in an area are considered equalized under subsection (8)(a) if the ratio for the area is within plus or minus 5% of common value 1.

(a) an extension of the time period from which sales are drawn and an adjustment of the sales price to acknowledge the different time period. At a minimum, the time adjustment must coincide with the consumer price index for that same time period.

(b) the use of fee appraisals in lieu of sales prices. The fee appraisal must be conducted by a certified appraiser who is not an employee of the department.

(c) the input of assessment ratio statistics developed from a model of the area. The information to be input into the study must be statistically valid and must be developed by a certified statistician who is not an employee of the department"; in (7)(a) substituted language relating to staff review of sales transactions for former language that read: "Department field staff are required to manually review each sales transaction evidenced by a realty transfer certificate. (b) coefficients of dispersion with respect to the weighted mean assessment ratio for residential properties located within each area identified in subsection (6) are equal to or less than 20%;

(c) coefficients of dispersion with respect to the weighted mean assessment ratio for income-producing properties located within each area identified in subsection (6) are equal to or less than 20%; and

(d) coefficients of dispersion with respect to the weighted mean assessment ratio for other types of real property and improvements located within each area identified in subsection (6) are equal to or less than 20%"; deleted former (10) that read: "(10) (a) When the overall assessment level of each stratum exceeds 10% of the legal level of assessment and when the coefficients of dispersion with respect to the weighted mean for each stratum exceed 20%, the department shall make percentage adjustments to the valuations of all the properties in a specific area stratum. The percentage adjustments must create compliance with subsection (9). The percentage adjustments must account for unique factors that affect values in the various areas.

(b) Under this method, all taxable property in each area is considered revalued for each tax year, based on the results of the sales assessment ratio study and any percentage adjustments required by that study"; and made minor changes in phraseology. Amendment effective April 28, 1989.

Classification and taxable percentage of agricultural land, 15-6-133.

Assessment of agricultural land, 15-8-111.

15-7-201. *(Temporary — applicable to 1986 land valuation schedules)* **Legislative intent — value of agricultural property.** (1) Since the market value of many agricultural properties is based upon speculative purchases which do not reflect the productive capability of agricultural land, it is the legislative intent that bona fide agricultural properties shall be classified and assessed at a value that is exclusive of values attributed to urban influences or speculative purposes.

(2) Agricultural land shall be classified according to its use, which classifications shall include but not be limited to irrigated use, nonirrigated use, and grazing use. Except as provided in subsections (3) and (4), within each class of agricultural land, such land shall be assessed at a value that is fairly based on its ability to produce.

(3) Capital costs such as improved water distribution, fertilizer, and land shaping that increase productivity shall not be used in determining assessed values.

(4) For the revaluation beginning January 1, 1986, the department of revenue shall continue to use the agricultural land valuation schedules in effect on January 12, 1984, except that irrigated land values shall be revised, taking noncapital water distribution costs into consideration. However, at no time may the value of irrigated land be below the value such land would have if it were not irrigated. *(Terminates January 1, 1991—sec. 10, Ch. 681, L. 1985.)*

15-7-201. *(Applicable to 1991 land valuation schedules)* **Legislative intent — value of agricultural property.** (1) Since the market value of many agricultural properties is based upon speculative purchases which do not reflect the productive capability of agricultural land, it is the legislative intent that bona fide agricultural properties shall be classified and assessed at a value that is exclusive of values attributed to urban influences or speculative purposes.

(2) Agricultural land shall be classified according to its use, which classifications shall include but not be limited to irrigated use, nonirrigated use, and grazing use.

(3) Within each class, land shall be assessed at a value that is fairly based on its productive capacity.

(4) In computing the agricultural land valuation schedules to take effect on January 1, 1991, or on the date that the revaluation cycle commencing January 2, 1986, takes effect pursuant to 15-7-111, the department of revenue shall determine the productive capacity value of all agricultural lands using the formula $V = I/R$ where:

(a) V is the per-acre productive capacity value of agricultural land in each land use and production category;

(b) I is the per-acre net income of agricultural land in each land use and production category and is to be determined by the department using the formula $I = (P - C) U$ where:

(i) I is the per-acre net income;

(ii) P is the per-unit price of the commodity being produced;

(iii) C is the per-unit production cost of the commodity being produced; and

(iv) U is the yield in units per acre; and

(c) R is the capitalization rate to be determined by the department as provided in subsection (9).

(5) Net income shall be:

(a) calculated for each year of a base period, which is the most recent 3-year period for which data are available, prior to a revaluation of property as provided in 15-7-111; and

(b) based on commodity price and production cost data for the base period from such sources as may be considered appropriate by the department, which sources shall include Montana state university.

(6) To the degree available, the department shall compile:

(a) commodity price data reflecting the average prices received per unit of measure by Montana farmers and ranchers. Such data may be obtained from all geographical areas of the state. Commodity prices may include wheat, barley, alfalfa hay, grass hay, corn for grain, corn for silage, sugar beets, dry beans, potatoes, cattle, and sheep. Government payments may be considered. Typical rental arrangements may be considered.

(b) production cost data reflecting average costs per unit of measure paid by Montana farmers and ranchers. Such data may be obtained from all geographical areas of the state. Such production costs may include costs relating to irrigation, fertilization, fuel, seed, weed control, hired labor, management, insurance, repairs and maintenance, and miscellaneous items. Variations in specific production cost data, when affected by different levels of production, and typical rental arrangements may be considered.

(7) The department shall appoint an advisory committee of persons knowledgeable in agriculture and agricultural economics to review the data prepared by Montana state university and advise the department on the implementation of subsections (2) through (6). The advisory committee shall include one member of the Montana state university staff.

(8) Net income shall be determined separately for lands in irrigated use, nonirrigated use, and grazing use and shall be calculated for each use and production level according to the provisions of subsections (4) through (7).

(9) The capitalization rate shall be calculated for each year of the base period and is the annual average interest rate on agricultural loans as reported by the federal land bank association of Spokane, Washington, plus the effective tax rate in Montana.

(10) The effective tax rate shall be calculated by the department for each year of the base period by dividing the total estimated tax due on agricultural land in the state by the total productive capacity value of agricultural land in the state.

15-7-202. Eligibility of land for valuation as agricultural. (1) Contiguous parcels of land totaling 20 acres or more under one ownership shall be eligible for valuation, assessment, and taxation as agricultural land each year that none of the parcels is devoted to a commercial or industrial use.

(2) Contiguous or noncontiguous parcels of land totaling less than 20 acres under one ownership that are actively devoted to agricultural use shall be eligible for valuation, assessment, and taxation as herein provided each year the parcels meet any of the following qualifications:

(a) the parcels produce and the owner or the owner's agent, employee, or lessee markets not less than $1,500 in annual gross income from the raising of livestock, poultry, field crops, fruit, and other animal and vegetable matter for food or fiber; or

(b) the parcels would have met the qualification set out in subsection (2)(a) were it not for independent intervening causes of production failure beyond the control of the producer or marketing delay for economic advantage, in which case proof of qualification in a prior year will suffice.

(3) Parcels that do not meet the qualifications set out in subsections (1) and (2) shall not be classified or valued as agricultural if they are part of a platted subdivision that is filed with the county clerk and recorder in compliance with the Montana Subdivision and Platting Act.

(4) Land shall not be classified or valued as agricultural if it is subdivided with stated restrictions prohibiting its use for agricultural purposes.

(5) The grazing on land by a horse or other animals kept as a hobby and not as a part of a bona fide agricultural enterprise shall not be considered a bona fide agricultural operation.

(6) If land has been valued, assessed, and taxed as agricultural land in any year, it shall continue to be so valued, assessed, and taxed until the department reclassifies the property. A reclassification does not mean revaluation pursuant to 15-7-111.

(7) For the purposes of this part, growing timber is not an agricultural use. *(Subsection (7) terminates January 1, 1991—sec. 10, Ch. 681, L. 1985.)*

15-7-309. Classification or assessment methods. (1) This part shall not change or modify the methods of classification or assessment of real estate as provided for in this title or in any law of this state.

(2) The sale price of real estate shall not be the sole determinant of assessed value. The department shall consider, wherein the consideration is to be paid in deferred installments over a period of 10 years or more, the terms of the contract, amount of down payment, amount of each installment, rate of interest, and other covenants or exceptional circumstances which may affect the consideration paid for real estate.

Part 4

Appraisal of Residential Property in Areas of Changing Use

15-7-401. Purpose. The legislature finds that the rapid commercial and industrial growth in many Montana cities and towns is engulfing homes. Owners of these homes are often forced to pay higher property taxes upon these homes because their property is appraised on its industrial or commercial use. The legislature intends that houses and lots in these areas of changing use shall be appraised on their value as residential property.

History: **En. Sec. 1, Ch. 702, L. 1979.**

15-7-402. Application for residential appraisal of certain land and improvements. (1) Any person wishing to insure that his residential land and improvements are appraised as residential may file a signed application with the department of revenue or its agents.

(2) In the application, the owner must:

(a) assert that the property is used only for human habitation and is the principal residence of the owner;

(b) sign a statement pledging that the property will continue to be used as residential property; and

(c) show that the statement has been filed with the county clerk and recorder of the county in which the property is located.

(3) When the department has approved an application for residential use, the department and its agents shall consider only those indicia of value that the property has for residential use.

(4) Failure to file an application under this section shall not result in reclassification on real property unless there has been an actual change in use.

History: **En. Sec. 2, Ch. 702, L. 1979.**

15-7-403. Rollback tax — computation. (1) (a) If land and improvements appraised as residential as a result of an application filed under 15-7-402 are changed to industrial or commercial use, the property is subject to a rollback tax in addition to the property tax levied on the property. The rollback tax is a lien on the property and is due and payable by the owner of the property at the time of the change in use.

(b) As used in this section, "rollback" means the period preceding the change in use, not to exceed 5 years, during which the property was appraised as residential.

(2) The department's agent shall determine the amount of rollback tax due on the property by:

(a) determining the taxable value of the property as industrial or commercial property;

(b) multiplying this value by the sum of the annual mill levies applied in the taxing jurisdiction in which the land is located during the rollback period; and

(c) subtracting from this figure the actual property tax paid on the property during this period.

History: **En. Sec. 3, Ch. 702, L. 1979.**

(1) The county assessors of the various counties of the state are agents of the department of revenue for the purpose of locating and providing the department a description of all taxable property within the county, together with other pertinent information, and for the purpose of performing such other administrative duties as are required for placing taxable property on the assessment rolls. The assessors shall perform such other duties as are required by law, not in conflict with the provisions of this subsection.

(2) The county commissioners of the various counties shall provide existing office space in the county courthouse for use by the county assessor, his deputies and staff, and the state appraiser and staff, if such space is reasonably available. If such space is not reasonably available in the courthouse and the same must be contracted for, the department shall pay the cost thereof. Additional personal property required by the department for the assessor to perform his duties as agent of the department shall be provided by the department.

(3) The department must provide maps for the use of its agents, showing the private lands owned or claimed in the county and, if surveyed under authority of the United States, the divisions and subdivisions of the survey. Maps of cities and villages or school districts may in like manner be provided. The cost of making such maps is a state charge and must be paid from the state general fund.

15-8-111. Assessment — market value standard — exceptions. (1) All taxable property must be assessed at 100% of its market value except as otherwise provided.

(2) (a) Market value is the value at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts.

(b) If the department uses construction cost as one approximation of market value, the department shall fully consider reduction in value caused by depreciation, whether through physical depreciation, functional obsolescence, or economic obsolescence.

(c) Except as provided in subsection (3), the market value of all motor trucks; agricultural tools, implements, and machinery; and vehicles of all kinds, including but not limited to boats and all watercraft, is the average wholesale value shown in national appraisal guides and manuals or the value of the vehicle before reconditioning and profit margin. The department of revenue shall prepare valuation schedules showing the average wholesale value when no national appraisal guide exists.

(3) The department of revenue or its agents may not adopt a lower or different standard of value from market value in making the official assessment and appraisal of the value of property, except:

(a) the wholesale value for agricultural implements and machinery is the loan value as shown in the Official Guide, Tractor and Farm Equipment, published by the national farm and power equipment dealers association, St. Louis, Missouri;

(c) as otherwise authorized in Title 15 and Title 61.

(4) For purposes of taxation, assessed value is the same as appraised value.

(5) The taxable value for all property is the percentage of market or assessed value established for each class of property.

(6) The assessed value of properties in 15-6-131 through 15-6-133 is as follows:

(a) Properties in 15-6-131, under class one, are assessed at 100% of the annual net proceeds after deducting the expenses specified and allowed by 15-23-503 or, if applicable, as provided in 15-23-515.

(b) Properties in 15-6-132, under class two, are assessed at 100% of the annual gross proceeds.

(c) Properties in 15-6-133, under class three, are assessed at 100% of the productive capacity of the lands when valued for agricultural purposes. All lands that meet the qualifications of 15-7-202 are valued as agricultural lands for tax purposes.

(d) Properties in 15-6-143, under class thirteen, are assessed at 100% of the combined appraised value of the standing timber and grazing productivity of the land when valued as timberland.

(7) Land and the improvements thereon are separately assessed when any of the following conditions occur:

(a) ownership of the improvements is different from ownership of the land;

(b) the taxpayer makes a written request; or

(c) the land is outside an incorporated city or town. *(Subsection (6)(d) terminates January 1, 1991—sec. 10, Ch. 681, L. 1985.)*

(1) The department of revenue or its agent must require from each person a statement under oath setting forth specifically all the real and personal property owned by such person or in his possession or under his control at midnight on January 1. Such statement must be in writing, showing separately:

(a) all property belonging to, claimed by, or in the possession or under the control or management of such person;

(b) all property belonging to, claimed by, or in the possession or under the control or management of any firm of which such person is a member;

(c) all property belonging to, claimed by, or in the possession or under the control or management of any corporation of which such person is president, secretary, cashier, or managing agent;

(e) an exact description of all lands in parcels or subdivisions not exceeding 640 acres each and the sections and fractional sections of all tracts of land containing more than 640 acres which have been sectionized by the United States government; improvements and personal property; all taxable state, county, city, or other municipal or public bonds and the taxable bonds of any person, firm, or corporation and deposits of money, gold dust, or other valuables and the names of the persons with whom such deposits are made and the places in which they may be found; all mortgages, deeds of trust, contracts, and other obligations by which a debt is secured and the property in the county affected thereby;

(f) all solvent credits, secured or unsecured, due or owing to such person or any firm of which he is a member or due or owing to any corporation of which he is president, secretary, cashier, or managing agent;

(g) all depots, shops, stations, buildings, and other structures erected on the space covered by the right-of-way and all other property owned by any person owning or operating any railroad within the county.

(2) Whenever one member of a firm or one of the proper officers of a corporation has made a statement showing the property of the firm or corporation, another member of the firm or another officer need not include such property in the statement made by him but this statement must show the name of the person or officer who made the statement in which such property is included.

(3) The fact that such statement is not required or that a person has not made such statement, under oath or otherwise, does not relieve his property from taxation.

Assessment Revision

15-8-601. Assessment revision — conference for review. (1) Whenever the department of revenue discovers that any taxable property of any person has in any year escaped assessment, been erroneously assessed, or been omitted from taxation, the department may assess the same provided the property is under the ownership or control of the same person who owned or controlled it at the time it escaped assessment, was erroneously assessed, or was omitted from taxation. All such revised assessments must be made within 10 years after the end of the calendar year in which the original assessment was or should have been made.

(2) Whenever the department or its agent proposes to increase the valuation of locally assessed property above the value reported by the taxpayer under 15-8-301, the action of the department is subject to the notice and conference provisions of this section.

(3) (a) Notice of revised assessment pursuant to this section shall be made by the department or its agent by postpaid letter addressed to the person interested within 10 days after the revised assessment has been made. The notice shall include opportunity for a conference on the matter, at the request of the person interested, not less than 15 or more than 30 days after notice is given.

(b) An assessment revision review conference is not a contested case as defined in the Montana Administrative Procedure Act. The department shall keep minutes in writing of each assessment review conference, which are public records.

(c) Following an assessment review conference or expiration of opportunity therefor, the department shall order such assessment as it considers proper. Any party to the conference aggrieved by the action of the department may appeal directly to the state tax appeal board within 30 days or, if the property is locally assessed, may appeal to the county tax appeal board at its next meeting.

(4) The department must record in a book to be kept for that purpose all changes, corrections, and orders made by it and must direct its agent to enter upon the assessment book all changes and corrections made by it.

(5) Immediately upon receipt of a revised assessment, the county official possessing the assessment roll book shall enter the revised assessment. If the revised assessment corrects an original assessment, the previous entry shall be canceled upon order of the department.

Assessment and Map Books

15-8-701. Assessment book — definition — listing property in. (1) Unless the context clearly indicates otherwise, the term "assessment book" means the record kept in each county by the agent of the department of revenue and which contains the information described in subsection (3). The term includes, in a county wherein the assessment book is kept on a computer system, the information on the system analogous to the information described in subsection (3).

(2) The form of the assessment book must be as directed by the department.

(3) The department must prepare an assessment book with appropriate headings, alphabetically arranged, in which must be listed all property within the state and in which must be specified, in separate columns under the appropriate head:

(a) the name of the person to whom the property is assessed;

(b) land, by township, range, section or fractional section, and when such land is not a United States land division or subdivision, by metes and bounds or other description sufficient to identify it, giving an estimate of the number of acres, not exceeding in each and every tract 640 acres, locality, and the improvements thereon;

(c) city and town lots, naming the city or town and the number of the lot and block, according to the system of numbering in such city or town, and the value of same with improvements thereon;

(d) all taxable personal property, showing the number, kind, amount, and quality; but a failure to enumerate in detail such personal property does not invalidate the assessment;

(e) the assessed value of real estate other than city or town lots;

(f) the assessed value of city and town lots with improvements thereon, except that a lot and improvements thereon shall be separately listed when required under 15-8-111;

(g) the assessed value of improvements on real estate assessed to persons other than the owners of the real estate. Taxable improvements owned by a person, located upon land exempt from taxation, shall, as to the manner of assessment, be assessed as other real estate upon the assessment roll. No value, however, may be assessed against the exempt land, nor under any circumstances may the land be charged with or become responsible for the assessment made against any taxable improvements located thereon.

(h) the assessed value of all taxable personal property;

(i) the school, road, and other revenue districts in which each piece of property assessed is situated;

(j) the total assessed value of all property.

15-10-203. Increase of tax revenue — notice of intention required. No taxing authority may budget an increased amount of ad valorem tax revenue exclusive of revenue from ad valorem taxation on properties appearing for the first time on the assessment roll unless it gives notice of its intention to do so at the same time and in the same manner that it gives notice of its hearing on its preliminary or proposed budget for the forthcoming fiscal year.

No millage in excess of the department of revenue's certified millage may be levied until a resolution or ordinance is approved by the governing board of the taxing authority, which resolution or ordinance must be approved by the taxing authority according to the following procedure:

(1) The taxing authority shall publish notice of its intent to exceed the department's certified millage in the same manner that it gives notice of hearings on its preliminary or proposed budget for the forthcoming fiscal year. The notice must state that the taxing authority will meet on a day, at a time and place fixed in the notice, which must be approximately 7 days after the day that the notice is published, for the purpose of hearing comments regarding the proposed increase and to explain the reasons for the proposed increase. The meeting may coincide with the meeting on the tentative budget as required by law.

(2) After the public hearing has been held in accordance with the above procedures, the taxing authority may adopt a resolution or ordinance levying a millage rate in excess of the certified millage. If the resolution or ordinance adopting such millage rate is not approved on the day of the public hearing, the day, time, and place at which the resolution or ordinance will be scheduled for consideration and approval by the taxing authority must be announced at the public hearing. If the resolution or ordinance is to be considered at a day and time that is more than 2 weeks from the public hearing, the taxing authority must again publish notice in the same manner as provided in subsection (1).

15-10-205. Approval and copies of resolution or ordinance. The resolution or ordinance approved in the manner provided for in this part shall be forwarded to the assessor, treasurer, and the department of revenue. No millage in excess of the department's certified millage can be levied until the resolution or ordinance to levy required in subsections (1) and (2) of 15-10-204 is approved by the governing board of the taxing authority and submitted to the assessor and the department.

The department or its agent shall notify each taxing authority of any change in the assessment roll which results from actions by the state or county tax appeal boards. An increase in the taxing authority's millage above that certified by the department or its agent or adopted by resolution or ordinance of the governing body of the taxing authority which is required solely by a reduction of the assessment roll by the state or county tax appeal board may be adopted without further notice.

Part 4

Limitation on Property Taxes

15-10-401. Declaration of policy. (1) The state of Montana's reliance on the taxation of property to support education and local government has placed an unreasonable burden on the owners of classes three, four, six, nine, twelve, and fourteen property, as those classes are defined in Title 15, chapter 6, part 1.

(2) The legislature's failure to give local governments and local school districts the flexibility to develop alternative sources of revenue will only lead to increases in the tax burden on the already overburdened property taxpayer.

(3) The legislature is the appropriate forum to make the difficult and complex decisions to develop:

(a) a tax system that is fair to property taxpayers; and

(b) a method of providing adequate funding for local government and education.

(4) The legislature has failed in its responsibility to taxpayers, education, and local government to relieve the tax burden on property classes three, four, six, nine, twelve, and fourteen.

(5) The people of the state of Montana declare it is the policy of the state of Montana that no further property tax increases be imposed on property classes three, four, six, nine, twelve, and fourteen.

History: En. Sec. 1, I.M. No. 105, approved Nov. 4, 1986.

15-10-402. *(Temporary)* **Property tax limited to 1986 levels.** (1) Except as provided in subsections (2) and (3), the amount of taxes levied on property described in 15-6-133, 15-6-134, 15-6-136, 15-6-142, and 15-6-144 may not, for any taxing jurisdiction, exceed the amount levied for taxable year 1986.

(2) The limitation contained in subsection (1) does not apply to levies for rural improvement districts, Title 7, chapter 12, part 21; special improvement districts, Title 7, chapter 12, part 41; or bonded indebtedness.

(3) New construction or improvements to or deletions from property described in subsection (1) are subject to taxation at 1986 levels.

(4) As used in this section, the "amount of taxes levied" and the "amount levied" mean the actual dollar amount of taxes imposed on an individual piece of property, notwithstanding an increase or decrease in value due to inflation, reappraisal, adjustments in the percentage multiplier used to convert appraised value to taxable value, changes in the number of mills levied, or increase or decrease in the value of a mill.

15-10-402. *(Effective July 1, 1990)* **Property tax limited to 1986 levels.** (1) Except as provided in subsections (2) and (3), the amount of taxes levied on property described in 15-6-133, 15-6-134, 15-6-136, 15-6-142, and 15-6-144 may not, for any taxing jurisdiction, exceed the amount levied for taxable year 1986.

(2) The limitation contained in subsection (1) does not apply to levies for rural improvement districts, Title 7, chapter 12, part 21; special improvement districts, Title 7, chapter 12, part 41; elementary and high school districts, Title 20; or bonded indebtedness.

(3) New construction or improvements to or deletions from property described in subsection (1) are subject to taxation at 1986 levels.

Chapter 11 in (2) inserted "elementary and high school districts, Title 20". Amendment effective July 1, 1990.

15-10-403 through 15-10-410 reserved.

15-10-411. Declaration of policy — clarification — extension to all property classes. Section 15-10-401 is interpreted, clarified, and extended as follows:

(1) In order to avoid constitutional challenges based on discriminatory treatment of taxpayers in tax classes not enumerated in 15-10-401 and 15-10-402, the limitation to 1986 levels is extended to apply to all classes of property described in Title 15, chapter 6, part 1.

(2) The policy declaration in 15-10-401(5) that no further property tax increases be imposed is interpreted to mean no further increase may be made in the tax rate applied to property in each class in 1986.

(3) No new class of property may be created solely to circumvent the policy underlying 15-10-401 and 15-10-402. If a new class of property is created in order to afford preferential treatment to a category of property, the taxable rate that applies may not exceed the rate at which such property was taxed in 1986.

History: En. Sec. 1, Ch. 654, L. 1987.

15-10-412. Property tax limited to 1986 levels — clarification — extension to all property classes. Section 15-10-402 is interpreted and clarified as follows:

(1) The limitation to 1986 levels is extended to apply to all classes of property described in Title 15, chapter 6, part 1.

(2) The limitation on the amount of taxes levied is interpreted to mean that, except as otherwise provided in this section, the actual tax liability for an individual property is capped at the dollar amount due in each taxing unit for the 1986 tax year. In tax years thereafter, the property must be taxed in each taxing unit at the 1986 cap or the product of the taxable value and mills levied, whichever is less for each taxing unit, except in a taxing unit that levied a tax in tax years 1983 through 1985 but did not levy a tax in 1986, in which case the actual tax liability for an individual property is capped at the dollar amount due in that taxing unit for the 1985 tax year.

(3) The limitation on the amount of taxes levied does not mean that no further increase may be made in the total taxable valuation of a taxing unit as a result of:

(a) annexation of real property and improvements into a taxing unit;

(b) construction, expansion, or remodeling of improvements;

(c) transfer of property into a taxing unit;

(d) subdivision of real property;

(e) reclassification of property;

(f) increases in the amount of production or the value of production for property described in 15-6-131 or 15-6-132;

(g) transfer of property from tax-exempt to taxable status;

(h) revaluations caused by:

(i) cyclical reappraisal; or

(ii) expansion, addition, replacement, or remodeling of improvements; or

(i) increases in property valuation pursuant to 15-7-111(4) through (8) in order to equalize property values annually.

(4) The limitation on the amount of taxes levied does not mean that no further increase may be made in the taxable valuation or in the actual tax liability on individual property in each class as a result of:

(a) a revaluation caused by:

(i) construction, expansion, replacement, or remodeling of improvements that adds value to the property; or

(ii) cyclical reappraisal;

(b) transfer of property into a taxing unit;

(c) reclassification of property;

(d) increases in the amount of production or the value of production for property described in 15-6-131 or 15-6-132;

(e) annexation of the individual property into a new taxing unit;

(f) conversion of the individual property from tax-exempt to taxable status; or

(g) increases in property valuation pursuant to 15-7-111(4) through (8) in order to equalize property values annually.

(5) Property in classes four, twelve, and fourteen is valued according to the procedures used in 1986, including the designation of 1982 as the base year, until the reappraisal cycle beginning January 1, 1986, is completed and new valuations are placed on the tax rolls and a new base year designated, if the property is:

(a) new construction;

(b) expanded, deleted, replaced, or remodeled improvements;

(c) annexed property; or

(d) property converted from tax-exempt to taxable status.

(6) Property described in subsections (5)(a) through (5)(d) that is not class four, class twelve, or class fourteen property is valued according to the procedures used in 1986 but is also subject to the dollar cap in each taxing unit based on 1986 mills levied.

(7) The limitation on the amount of taxes, as clarified in this section, is intended to leave the property appraisal and valuation methodology of the department of revenue intact. Determinations of county classifications, salaries of local government officers, and all other matters in which total taxable valuation is an integral component are not affected by 15-10-401 and 15-10-402 except for the use of taxable valuation in fixing tax levies. In fixing tax levies, the taxing units of local government may anticipate the deficiency in revenues resulting from the tax limitations in 15-10-401 and 15-10-402,

while understanding that regardless of the amount of mills levied, a taxpayer's liability may not exceed the dollar amount due in each taxing unit for the 1986 tax year unless:

(a) the taxing unit's taxable valuation decreases by 5% or more from the 1986 tax year. If a taxing unit's taxable valuation decreases by 5% or more from the 1986 tax year, it may levy additional mills to compensate for the decreased taxable valuation, but in no case may the mills levied exceed a number calculated to equal the revenue from property taxes for the 1986 tax year in that taxing unit.

(b) a levy authorized under Title 20 raised less revenue in 1986 than was raised in either 1984 or 1985, in which case the taxing unit may, after approval by the voters in the taxing unit, raise each year thereafter an additional number of mills but may not levy more revenue than the 3-year average of revenue raised for that purpose during 1984, 1985, and 1986;

(c) a levy authorized in 50-2-111 that was made in 1986 was for less than the number of mills levied in either 1984 or 1985, in which case the taxing unit may, after approval by the voters in the taxing unit, levy each year thereafter an additional number of mills but may not levy more than the 3-year average number of mills levied for that purpose during 1984, 1985, and 1986.

(8) The limitation on the amount of taxes levied does not apply to the following levy or special assessment categories, whether or not they are based on commitments made before or after approval of 15-10-401 and 15-10-402:

(a) rural improvement districts;

(b) special improvement districts;

(c) levies pledged for the repayment of bonded indebtedness, including tax increment bonds;

(d) city street maintenance districts;

(e) tax increment financing districts;

(f) satisfaction of judgments against a taxing unit;

(g) street lighting assessments;

(h) revolving funds to support any categories specified in this subsection (8);

(i) levies for economic development authorized pursuant to 90-5-112(4); and

(j) elementary and high school districts.

(9) The limitation on the amount of taxes levied does not apply in a taxing unit if the voters in the taxing unit approve an increase in tax liability following a resolution of the governing body of the taxing unit containing:

(a) a finding that there are insufficient funds to adequately operate the taxing unit as a result of 15-10-401 and 15-10-402;

(b) an explanation of the nature of the financial emergency;

(c) an estimate of the amount of funding shortfall expected by the taxing unit;

(d) a statement that applicable fund balances are or by the end of the fiscal year will be depleted;

(e) a finding that there are no alternative sources of revenue;

(f) a summary of the alternatives that the governing body of the taxing unit has considered; and

(g) a statement of the need for the increased revenue and how it will be used.

(10) (a) The limitation on the amount of taxes levied does not apply to levies required to address the funding of relief of suffering of inhabitants caused by famine, conflagration, or other public calamity.

(b) The limitation set forth in this chapter on the amount of taxes levied does not apply to levies to support a city-county board of health as provided in Title 50, chapter 2, if the governing bodies of the taxing units served by the board of health determine, after a public hearing, that public health programs require funds to ensure the public health. A levy for the support of a local board of health may not exceed the 5-mill limit established in 50-2-111.

(11) The limitation on the amount of taxes levied by a taxing jurisdiction subject to a statutory maximum mill levy does not prevent a taxing jurisdiction from increasing its number of mills beyond the statutory maximum mill levy to produce revenue equal to its 1986 revenue.

(12) The limitation on the amount of taxes levied does not apply to a levy increase to repay taxes paid under protest in accordance with 15-1-402. *(Subsection (8)(j) effective July 1, 1990—sec. 98, Ch. 11, Sp. L. June 1989.)*

Part 1

County Tax Appeal Board

15-15-101. County tax appeal board — meetings and compensation. (1) The board of county commissioners of each county shall appoint a three-member county tax appeal board, with the members to serve staggered terms of 3 years each. The members of each county tax appeal board shall be residents of the county in which they serve. They shall receive compensation of $45 a day and travel expenses as provided for in 2-18-501 through 2-18-503, as amended, only when the county tax appeal board is in session to hear taxpayers' appeals from property tax assessments or when they are attending meetings called by the state tax appeal board. Travel expenses and compensation shall be paid from the appropriation to the state tax appeal board. Office space and equipment for the county tax appeal boards shall be furnished by the county. All other incidental expenses shall be paid from the appropriation of the state tax appeal board.

(2) The county tax appeal board must meet on the third Monday of April in each year to hear protests concerning assessments made by the department of revenue. It must continue in session for that purpose from time to time until the business of hearing protests is disposed of, but, except as provided in 15-2-201, not later than 60 days after the department of revenue or its agent:

(a) has mailed notice of classification and appraisal to all property owners and purchasers under contracts for deed as required in 15-7-102; and

(b) has notified the county tax appeal board that classification and appraisal notices have been mailed to all property owners and purchasers under contracts for deed.

(3) In connection with any such appeal, the county tax appeal board may change any assessment or fix the assessment at some other level. The county clerk shall publish a notice to taxpayers, giving the time the county tax appeal board will meet to hear protests concerning assessments and the latest date the county tax appeal board may take applications for such hearings. The notice shall be published in a newspaper if any is printed in the county or, if none, then in such manner as the board may direct. The notice shall be published at least 7 days prior to the first meeting of the county tax appeal board.

(4) Challenges to a department of revenue rule governing the assessment of property or to an assessment procedure shall apply only to the taxpayer bringing the challenge and may not apply to all similarly situated taxpayers unless an action is brought in the district court as provided in 15-2-307 through 15-2-310.

Notice and Payment

15-16-101. Treasurer to publish notice — manner of publication. (1) Within 10 days after the receipt of the assessment book, the county treasurer must publish a notice specifying:

(a) that one-half of all taxes levied and assessed will be due and payable before 5 p.m. on November 30 next thereafter or within 30 days after the notice is postmarked and that unless paid prior to that time the amount then due will be delinquent and will draw interest at the rate of 5/6 of 1% per month from and after such delinquency until paid and 2% will be added to the delinquent taxes as a penalty;

(b) that one-half of all taxes levied and assessed will be due and payable on or before 5 p.m. on May 31 next thereafter and that unless paid prior to that time the taxes will be delinquent and will draw interest at the rate of 5/6 of 1% per month from and after such delinquency until paid and 2% will be added to the delinquent taxes as a penalty; and

(c) the time and place at which payment of taxes may be made.

(2) He must send to the last-known address of each taxpayer written notice, postage prepaid, showing the amount of taxes and assessments due the current year and the amount due and delinquent for other years. The written notice shall include:

(a) the taxable value of the property;

(b) the total mill levy applied to that taxable value;

(c) the value of each mill in that county;

(d) itemized city services and special improvement district assessments collected by the county;

(e) the number of the school district in which the property is located; and

(f) the amount of the total tax due that is levied as city tax, county tax, state tax, school district tax, and other tax.

(3) The municipality shall, upon request of the county treasurer, provide the information to be included under subsection (2)(d) ready for mailing.

(4) The notice in every case must be published once a week for 2 weeks in a weekly or daily newspaper published in the county, if there is one, or if there is not, then by posting it in three public places. Failure to publish or post notices does not relieve the taxpayer from any of his liabilities. Any failure to give notice of the tax due for the current year or of delinquent tax will not affect the legality of the tax.

(2) The taxes upon personal property based upon a taxable value up to and including $1,000 shall be a first and prior lien upon the real property of the owner of such personal property. Taxes upon personal property based upon the taxable value thereof in excess of $1,000 shall be a first and prior lien upon the real property of the owner unless the owner or holder of any mortgage or other lien upon said real property appearing of record in the

office of the clerk and recorder of the county where such real property is situated, at or before the time such personal property tax attached thereto, shall have filed the notice hereinafter provided for, in which event the taxes upon such excess of $1,000 of taxable value shall not be a lien on the real property of such owner. It shall be the duty of the county treasurer to issue to any mortgagee or lien holder, upon his request, a statement of the personal property tax due upon the taxable value up to and including $1,000. Personal property taxes upon a taxable value up to $1,000 may be paid, redeemed from a tax sale as by law provided, or discharged separately from any personal property taxes in excess of such amount. Payment of such taxes upon a taxable value up to $1,000, as herein provided, shall operate to discharge the tax lien upon the personal property of the owner to the extent of such payment in the order that the person paying such tax shall direct.

If the mortgage be not paid at maturity, such notice shall thereafter be filed annually unless the mortgage be extended for a definite period to be stated in such notice.

(5) Any owner of a mortgage on real estate upon which personal property taxes are by this section made a lien, where the owner of such real estate and personal property has failed to pay taxes due upon such real estate and personal property for 1 or more years, may file with the department of revenue or its agent in the county in which such property is located a written request to have the personal property and real estate of the owner separately assessed. Such request must be made by registered or certified mail at least 10 days prior to January 1 in the year for which property is assessed. Upon receipt by the department or its agent of such request, it is hereby made the duty of the department or its agent to make a separate assessment of real and personal property of the owner thereof, and such personal taxes shall not be a lien upon the real estate so mortgaged of the owner thereof, and the personal property taxes shall be collected in the manner provided by law for other personal property.

(1) (a) Any taxes, interest, penalties, or costs paid more than once or erroneously or illegally collected or any amount of tax paid for which a taxpayer is entitled to a refund under 15-16-612 or 15-16-613 or any part or portion of taxes paid which were mistakenly computed on government bonus or subsidy received by the taxpayer may, by order of the board of county commissioners, be refunded by the county treasurer. Whenever any payment has been made to the state treasurer as provided in 15-1-504 and it afterwards appears to the satisfaction of the board of county commissioners that a portion of the money so paid should be refunded as herein provided, the board of county commissioners may refund the portion of the taxes, interest, penalties, and costs so paid to the state treasurer, and upon the rendering of the report required by 15-1-505 the county clerk and recorder shall certify to the state auditor, in such form as the state auditor may prescribe, all amounts so refunded. In the next settlement of the county treasurer with the state, the state auditor shall give the county treasurer credit for the state's portion of the amounts so refunded.

(b) When any part of the taxes, interest, penalties, or costs hereinbefore referred to were levied in behalf of any school district or municipal or other public corporation and collected by the county treasurer, the same may be refunded upon the order of the board of county commissioners.

(c) No order for the refund of any taxes, interest, penalties, or costs under this section shall be made except upon a claim therefor, verified by the person who has paid the taxes, interest, penalties, or costs or his guardian or, in case of his death, by his executor or administrator, which claim must be filed within 10 years after the date when the second half of such taxes would have become delinquent if the same had not been paid.

(d) All refunds ordered to be paid by the board of county commissioners must be paid by the county treasurer out of the general fund of the county, and the county treasurer shall then make such transfers from other county funds and from state, school district, and other public corporation funds in his possession as may be necessary to reimburse the county general fund for payments made therefrom.

(2) Upon the entering of judgment under 15-2-306, the county commissioners of the affected county shall order a refund of such portion of the taxes as the state tax appeal board has judged should be refunded.

(3) An assignment by a municipality under this section discharges the trust created under 15-17-317. The municipality may also discharge the trust

15-17-319. Sale or lease and disposition of proceeds from lands acquired by municipality. A municipality may sell or lease property it acquires under 15-17-317 in the same manner as a county may sell or lease tax-deed property under Title 7, chapter 8, part 23. All money received by the municipality from the sale or lease of such land, after payment of the cost of sale, not to exceed $25, must be paid into the improvement fund to the extent of the delinquent assessments, interest, and penalties. The surplus, if any, must be paid into any revolving fund that secures payment of such special assessments or, if none, to the general fund of the municipality.

History: En. Sec. 11, Ch. 617, L. 1987.

15-17-320. Taxes and subsequent installments of special assessments on land acquired by a municipality. For property that is acquired by a municipality as provided in 15-17-317, subsequent installments of the special assessment or assessments, if any, and other special assessments not then delinquent must be levied, and taxes for the following years must be assessed in the same manner as if the property had not been so acquired. If the special assessments or installments thereof or taxes are not paid when due, the property must again be sold in the manner provided by law and the levies of special assessments, assessments of taxes, and the sale of the property for delinquent special assessments and taxes must continue until the time when the property has been redeemed from such sale.

History: En. Sec. 12, Ch. 617, L. 1987.

15-17-321. Resale for nonpayment. (1) If a purchaser other than the county does not pay the delinquent taxes, including penalties, interest, and costs, before 10 a.m. on the next business day following the day of purchase at a tax sale, the property must be made available for sale for the amount of the delinquent taxes, including penalties, interest, and costs, on the following business day of the sale, except as provided in subsection (2).

(2) If the sale was made on the last day of the tax sale and payment was not received as provided in subsection (1), the county is considered to be the purchaser as provided in 15-17-214.

History: En. Sec. 9, Ch. 587, L. 1987.

15-17-322. Disposition of money from tax sale. All money received from purchasers for delinquent taxes, penalties, interest, and costs must be deposited in the county treasury. The money received, other than costs, must be credited to the various funds to which the taxes would have originally been distributed and in the same proportion as the taxes would have originally been distributed. Any money received for costs or any money remaining after crediting the separate funds must be deposited to the credit of the county general fund.

(3) An assignment made by a purchaser other than the county, by an assignee of the county, or by a previous assignee may be made for any consideration whatsoever. An assignment so made is legal and binding only upon filing with the county treasurer a statement that the purchaser's or other assignee's interest in the property has been assigned. The statement must contain:

(a) the name and address of the new assignee;

(b) the name and address of the original purchaser of the tax sale certificate;

(c) the name and address of each previous assignee, if any;

(d) a description of the property upon which the property tax lien was issued, which description must contain the same information as contained in the tax sale certificate or assignment certificate, as appropriate;

(e) the signature of the party, be it purchaser or assignee, making the assignment;

(f) the signature of the new assignee; and

(g) the date on which the statement was signed.

(4) If the certificate described in subsection (1) or the statement described in subsection (3) is lost or destroyed, the county treasurer shall, upon adequate proof and signed affidavit by the assignee that loss or destruction has occurred, issue a duplicate certificate to the assignee.

(5) The provisions of this section apply to any sale of land for which a treasurer's deed was not issued on or before March 5, 1917, or for which a tax deed was not issued on or before April 23, 1987, and the holder of any certificate described in subsection (1) has the same rights, powers, and privileges with regard to securing a deed as any purchaser of land at a tax sale may now have.

When a tax sale certificate is acquired as provided in 15-17-212 or when the county is listed as the purchaser as provided in 15-17-214 and the taxes were properly assessed on the property of a particular person, no misnomer of ownership or other mistake relating to ownership affects the sale or renders it void or voidable.

History: **En. Sec. 13, Ch. 587, L. 1987.**

15-17-326. Voided sale — refund — limitation on action for royalty interest. (1) If a tax sale held under the provisions of this chapter is declared void by a court for irregularity in the assessment, levy, or sale, the money paid by the purchaser at the sale or by any assignee must be refunded, with interest at the rate payable upon delinquencies as provided in 15-16-102 from the date of the payment, to the purchaser or owner of the tax sale certificate, together with any penalty paid by the purchaser.

(2) Following the payment of a refund as provided in subsection (1), the county is considered the purchaser and has a property tax lien upon the property for the legal taxes on the property accruing from the date of delinquency, plus penalties and interest as provided in 15-16-102. Any money refunded that was received as provided in 15-17-212 and distributed by the treasurer to the state or a city, town, or district must be charged to the state, city, town, or district, respectively, by the treasurer and deducted from the next money due the state, city, town, or district on account of taxes paid or collected. A purchaser of a property tax lien or owner thereof by assignment where sales have been made by a city or town which by resolution or ordinance collects its own taxes instead of having the same collected by the county treasurer must be reimbursed in similar manner and in similar circumstances out of the city or town treasury upon order of the mayor or, where applicable, the city manager or chairman of the city commission. The city or town clerk or city or town treasurer, as appropriate, shall make proper charges and deductions against the respective funds of the city or town upon the next collection of taxes by the city or town.

(3) The purchaser has a lien upon the property for the amount of taxes, penalties, interest, and costs paid, with the interest to be at the rate specified for delinquencies in 15-16-102. If the purchaser is in possession of the property and resides thereon, he may not be ejected from the property until his lien has been liquidated.

(4) All affirmative defenses at law or equity, including but not limited to estoppel, laches, and adverse possession, may apply in a suit brought to challenge the title to a royalty interest in land claimed to have been acquired by a county by tax deed.

(5) An action against a county to recover a royalty interest in land acquired by the county by tax deed must be brought within the period prescribed in 27-2-210.

15-17-911. Sale of personal property for delinquent taxes — fee — disposition of proceeds — unsold property. (1) The tax on personal property may be collected and payment enforced by the seizure and sale of any personal property in the possession of the person assessed. Seizure and sale are authorized at any time after the date the taxes become delinquent or by the institution of a civil action for its collection in any court of competent jurisdiction. A resort to one method does not bar the right to resort to any other method. Any of the methods provided may be used until the full amount of the tax is collected.

(2) The provisions of 15-16-113 and this section apply to a seizure and sale under subsection (1).

(3) A sale under subsection (1) must be at public auction. The minimum bid for any property offered for sale must be of a sufficient amount to pay the delinquent taxes, including penalties, interest, and costs.

(4) For seizing and selling personal property, the treasurer shall charge $25, plus the mileage allowance provided by law to the sheriff, plus reasonable expenses for seizing, handling, keeping, or caring for any property so seized. The charge and other costs may be charged only when property is actually seized and offered for sale or sold.

(5) On payment of the price bid for any property sold as provided in this section, delivery of the property, with a bill of sale, vests the title of the property in the purchaser.

(6) (a) All money collected from the sale of property in liquidation of the delinquency, including delinquent taxes, penalties, and interest but not costs, must be credited by the treasurer to the appropriate funds.

(b) Any money collected in excess of the delinquent tax, penalties, interest, costs, and charges must be returned to the person owning the property prior to the sale, if known. If the person does not claim the excess immediately following the sale, the treasurer shall deposit the money in the county treasury for a period of 1 year from the date of sale. If the person has not claimed the excess within 1 year from the date of sale, the county treasurer shall deposit the amount in the county general fund and the person has no claim to it thereafter.

(7) Any property seized for the purpose of liquidating a delinquency by a tax sale that remains unsold following a sale may be left at the place of sale at the risk of the owner.

(8) The provisions of this section do not apply to property for which delinquent property taxes have been suspended or canceled under the provisions of Title 15, chapter 24, part 17. *(Subsection (8) terminates December 31, 1993—sec. 17, Ch. 631, L. 1989.)*

History: En. Sec. 18, Ch. 587, L. 1987.

15-18-114. Distribution of redemption proceeds. (1) When a property tax lien for which the county is listed as purchaser is redeemed, the money received from the redemption, including penalties and interest but not costs, must be distributed to the credit of the various funds to which the taxes would have originally been distributed and in the same proportion as the taxes would have originally been distributed.

(2) (a) When a property tax lien for which the recorded purchaser is other than the county is redeemed, the county treasurer shall distribute to the person listed as the purchaser on the tax sale certificate and in the record kept by the county treasurer the amount the purchaser paid the county for the property tax lien plus any subsequent amount paid pursuant to 15-18-112 plus interest, as specified in 15-16-102, from the date of payment until the date of redemption. Any money remaining after distributing redemption proceeds to the purchaser other than the county must be distributed pursuant to subsection (1).

(b) (i) The distribution must be made by certified mail by the county treasurer to the purchaser at the address listed on the tax sale certificate as provided in 15-17-212(1)(e).

(ii) If the money distributed to the purchaser is returned unopened to the county treasurer, the treasurer shall publish once a week for 2 consecutive weeks in the official newspaper of the county a notice stating that:

(A) the county treasurer is in possession of money belonging to the purchaser for the redemption of the delinquency on the property named in the tax sale certificate;

(B) the money will be held by the county treasurer for a period of 1 year from the date of publication; and

(C) if the money is not claimed by the purchaser within the 1-year period, the purchaser relinquishes all claim to the money and the money will be credited to the county general fund.

(3) The publication required in subsection (2)(b)(ii) must be made at least annually, but the 1-year period described in subsection (2)(b)(ii)(B) may not begin until the date of publication.

(4) The county treasurer shall keep an accurate account of all money paid in redemption, including a separate accounting of other delinquent taxes, interest, penalties, and costs, and when and to whom distributed.

15-18-211. Tax deed — fee. (1) Except as provided in subsection (3), if the property tax lien is not redeemed in the time allowed under 15-18-111, the county treasurer shall grant the purchaser a tax deed for the property. The deed must contain the same information as is required in a tax sale certificate under 15-17-212, except the description of the property must be the full legal description, and a statement that the property tax lien was not redeemed during the redemption period provided in 15-18-111.

(2) (a) Except as provided in subsection (2)(b), the county treasurer shall charge the purchaser $25 plus all actual costs incurred by the county in giving the notice or assisting another purchaser or assignee in giving the notice

required in 15-18-212 for making the deed, which fee must be deposited in the county general fund.

(b) If the purchaser is the county, no fee may be charged for making the deed.

(c) Reasonable costs incurred by the county in searching the county records to identify persons entitled to notice are considered part of the actual costs of the notice provided in subsection (2)(a).

(3) If the purchaser is the county and no assignment has been made, the county treasurer may not issue a tax deed to the county unless the board of county commissioners, by resolution, directs him to issue a tax deed.

(4) Deeds issued to purchasers must be recorded by the county clerk as provided in Title 7, chapter 4, part 26, except that when the county is the purchaser and subsequent tax deed holder, the county clerk may not charge a fee for recording the deed.

History: **En. Sec. 20, Ch. 587, L. 1987.**

15-18-212. Notice — proof of notice — penalty for failure to notify. (1) Not more than 60 days prior to and not more than 60 days following the expiration of the redemption period provided in 15-18-111, a notice must be given as follows:

(a) for each property for which there has been issued to the county a tax sale certificate or for which the county is otherwise listed as the purchaser or assignee, the county clerk shall notify all persons considered interested parties in the property and the current occupant of the property, if any, that a tax deed may be issued to the county unless the property tax lien is redeemed prior to the expiration date of the redemption period; or

(b) for each property for which there has been issued a tax sale certificate to a purchaser other than the county or for which an assignment has been made, the purchaser or assignee, as appropriate, shall notify all persons considered interested parties in the property, if any, that a tax deed will be issued to the purchaser or assignee unless the property tax lien is redeemed prior to the expiration date of the redemption period.

(2) (a) Except as provided in subsection (2)(b), if the county is the purchaser, no assignment has been made, and the board of county commissioners has not directed the county treasurer to issue a tax deed during the period described in subsection (1) but the board of county commissioners at a time subsequent to the period described in subsection (1) does direct the county treasurer to issue a tax deed, the county clerk must provide notification to all interested parties and the current occupant, if any, in the manner provided in subsection (1)(a). The notification required under this subsection must be made not less than 60 days or more than 120 days prior to the date on which the county treasurer will issue the tax deed.

(b) If the county commissioners direct the county treasurer to issue a tax deed within 6 months after giving the notice required by subsection (1)(a), no additional notice need be given.

(3) (a) If a purchaser other than the county or an assignee fails or neglects to give notice as required by subsection (1)(b), which failure or neglect is evidenced by failure of the purchaser or assignee to file proof of notice with the county clerk as required in subsection (7), the county treasurer shall proceed to give notice in the manner provided in subsection (1)(a).

(b) Notice given under this subsection (3) must be given not less than 60 days or more than 120 days prior to the date on which the county treasurer will issue the tax deed.

(c) A purchaser or assignee who fails to give notice as required by subsection (1)(b), thereby forcing notification to be given under this subsection (3), must be charged a penalty of $500 plus all actual costs of notification incurred by the county proceeding under this subsection (3).

(4) The notice required under subsections (1) through (3) must be made by certified mail to each interested party and the current occupant, if any, of the property. The address to which the notice must be sent is, for each interested party, the address disclosed by the records in the office of the county clerk and, for the occupant, the street address or other known address of the subject property.

(5) In all cases in which the address of an interested party is not known, the person required to give notice shall, within the period described in subsection (1) or not less than 60 days or more than 120 days prior to the date upon which the county treasurer will otherwise issue a tax deed, whichever is appropriate, commence publishing once a week for 2 successive weeks, in the official newspaper of the county or such other newspaper as the board of county commissioners may by resolution designate, a notice containing the information contained in subsection (6), plus:

(a) the name of the interested party for whom the address is unknown;

(b) a statement that the address of the interested party is unknown;

(c) a statement that the published notice meets the legal requirements for notice of a pending tax deed issuance; and

(d) a statement that the interested party's rights in the property may be in jeopardy.

(6) The notices required by subsections (1) through (3) and (5) must contain the following:

(a) a statement that a property tax lien exists on the property as a result of a property tax delinquency;

(b) a description of the property on which the taxes are or were delinquent, which description must be the same as the description of the property on the tax sale certificate or in the record described in 15-17-214(2)(b);

(c) the date that the property taxes became delinquent;

(d) the date that the property tax lien attached as the result of a tax sale;

(e) the amount of taxes due, including penalties, interest, and costs, as of the date of the notice of pending tax deed issuance, which amount must include a separate listing of the delinquent taxes, penalties, interest, and costs that must be paid for the property tax lien to be liquidated;

(f) the name and address of the purchaser;

(g) the name of the assignee if an assignment was made as provided in 15-17-323;

(h) the date that the redemption period expires or expired;

(i) a statement that if all taxes, penalties, interest, and costs are not paid to the county treasurer on or prior to the date on which the redemption period expires or on or prior to the date on which the county treasurer will otherwise issue a tax deed that a tax deed may be issued to the purchaser on the day following the date on which the redemption period expires or on the date on which the county treasurer will otherwise issue a tax deed; and

(j) the business address and telephone number of the county treasurer who is responsible for issuing the tax deed.

(7) Proof of notice in whatever manner given must be filed with the county clerk. If the purchaser or assignee is other than the county, the proof of notice must be filed with the county clerk within 30 days of the mailing or publishing of the notice. If the purchaser or assignee is the county or if the county treasurer is required to give notice pursuant to subsection (3), the proof of notice must be filed before the issuance of the tax deed under this chapter. Once filed, the proof of notice is prima facie evidence of the sufficiency of the notice.

(8) A county or any officer of a county may not be held liable for any error of notification.

1989 Amendments: Chapter 83 in (7), near end of first sentence, substituted "within 30 days" for "not less than 30 days". (Amendment by Ch. 704, L. 1989, rendered this amendment ineffectual.)

Chapter 704 in (2)(a), near end, in (3)(b), and near middle of (5) increased maximum period from 90 days to 120 days; in middle of (5) substituted "commence publishing" for "publish"; in (7), before "with the county clerk", deleted "by the county clerk, county treasurer, purchaser, or assignee, as appropriate", after "with the county clerk" deleted "not less than 30 days following the mailing or publication of the notice", and inserted second and third sentences relating to when purchaser is other than the county and when purchaser is the county; and made minor changes in phraseology. Amendment effective May 22, 1989.

15-18-411. Action to quiet title to tax deed — notice. (1) (a) In an action brought to set aside or annul any tax deed or to determine the rights of a purchaser to real property claimed to have been acquired through tax proceedings or a tax sale, the purchaser, upon filing an affidavit, may obtain from the court an order directed to the person claiming to:

(i) own the property;

(ii) have any interest in or lien upon the property;

(iii) have a right to redeem the property; or

(iv) have rights hostile to the tax title.

(b) The person described in subsections (1)(a)(i) through (1)(a)(iv) is hereafter referred to as the true owner.

(c) The order described in subsection (1)(a) may command the true owner to:

(i) deposit with the court for the use of the purchaser:

(A) the amount of all taxes, interest, penalties, and costs that would have accrued if the property had been regularly and legally assessed and taxed as the property of the true owner and was about to be redeemed by the true owner; and

(B) the amount of all sums reasonably paid by the purchaser following the order and after 3 years from the date of the tax sale to preserve the property or to make improvements thereon while in the purchaser's possession, as the total amount of the taxes, interest, penalties, costs, and improvements is alleged by the plaintiff and as must appear in the order; or

(ii) show cause on a date to be fixed in the order, not exceeding 30 days from the date of the order, why such payment should not be made.

(2) The affidavit must list the name and address of the true owner and whether he is in the state of Montana, if known to the plaintiff, or state that the address of the true owner is not known to the plaintiff.

(3) (a) The order must be filed with the county clerk and a copy served personally upon each person shown in the affidavit claiming to be a true owner and who is, at that time, known to be in the state of Montana.

(b) Jurisdiction is acquired over all other persons by:

(i) publishing the order once in the official newspaper of the county;

(ii) posting the order in three public places in the county at least 10 days prior to the hearing; and

(iii) giving a copy to the county treasurer.

(2) (a) Except as provided in subsection (2)(b), if the amount is not paid within the time fixed by the court, the true owner is considered to have waived any defects in the tax proceedings and any right of redemption. In the event of waiver, the true owner has no claim of any kind against the state or purchaser and a decree must be entered in the action quieting the title of the purchaser as against the true owner.

(b) The proceedings are void if the taxes were not delinquent or have been paid.

(3) If payment is made to the court and the true owner is successful in the action and the tax proceedings are declared void, the amount deposited with the court must be paid to the purchaser.

(4) If the purported true owner is not successful in the action and the title of the purchaser is sustained, the money must be returned to the purported true owner.

(6) In the final judgment, the court shall also determine the rights resulting from any additional taxes on the property accruing or being paid by either party during the pendency of the suit.

(7) In the quiet title action, the court has complete jurisdiction to fix the amount of taxes that should have been paid, including penalties, interest, and costs, and to determine all questions necessary in granting full relief, including the power to order any assessor or other tax officer to make and certify to the court a corrected or new assessment or to do any other act necessary to enable the court to do complete justice. History: **En. Sec. 25, Ch. 587, L. 1987.**

15-18-413. Title conveyed by deed — defects. (1) All deeds executed more than 3 years after the applicable tax sale convey to the grantee absolute title to the property described in the deed as of 3 years following the date of sale of the property interest at the tax sale.

(2) The conveyance includes:

(a) all right, title, interest, estate, lien, claim, and demand of the state of Montana and of the county in and to the property; and

(b) the right, if the tax deed, tax sale, or any of the tax proceedings upon which the deed may be based are attacked and held irregular or void, to recover the unpaid taxes, interest, penalties, and costs that would accrue if the tax proceedings had been regular and it was desired to redeem the property.

(3) The tax deed is free of all encumbrances except as provided in 15-18-214(1)(a) through (1)(c).

(4) A tax deed is prima facie evidence of the right of possession accruing as of the date of the expiration of the redemption period described in 15-18-111.

(5) If any tax deed or deed purporting to be a tax deed is issued more than 3 years and 30 days after the date of the sale of the property interest at the applicable tax sale, the grantee may publish in the official newspaper of the county, once a week for 2 consecutive weeks, a notice entitled "Notice of Claim of a Tax Title". The notice must:

(a) describe all property claimed to have been acquired by a tax deed;

(b) contain an estimate of the amount due on the property for delinquent taxes, interest, penalties, and costs;

(c) contain a statement that for further specific information, reference must be made to the records in the office of the county treasurer;

(d) list the name and address of record of the person in whose name the property was assessed or taxed; and

(e) contain a statement that demand is made that the person assessed or taxed must, within 30 days after the first publication of the notice, pay to the claimant or to the county treasurer for use by the claimant the amount of taxes, interest, penalties, and costs as the same appear in the records of the county treasurer or bring a suit to quiet the true owner's title or to set aside the tax deed.

(6) A mistake in the amount or in any name specified in the notice does not invalidate the notice.

(7) (a) If within the 30-day period the taxes, interest, penalties, and costs are not paid or a quiet title action is not brought, all defects in the tax proceedings and any right of redemption is considered waived. Except as provided in subsection (7)(b), after the 30-day period the title to the property described in the notice and in the tax deed is valid and binding, irrespective of any irregularities, defects, omissions, or total failure to observe any of the provisions of the laws of Montana regarding the assessment, levying of taxes, or sale of property for taxes and the giving of notices, whether or not such irregularities, defects, omissions, or failures could void the proceedings.

(b) The proceedings in subsection (7)(a) are void if the taxes were not delinquent or have been paid.

Composite of 1981 Amendment and Effective Date: Section 4, Ch. 478, L. 1981, provided: "This act is not effective until congress passes legislation that allows the state to tax property owned by an agency created by congress to transmit or distribute electrical energy." The Code Commissioner has composited this effective date with the substantive amendment made by sec. 3, Ch. 478, L. 1981, in subsection (2). In the composite the Code Commissioner has substituted "if" for "This act is not effective until" to reflect the substance of the effective date within the code section.

15-23-102. Independent appraisal option — notice of assessment — opportunity for conference — appeal. (1) The department of revenue may have property subject to the provisions of this chapter assessed by a qualified independent appraiser when both the department and the owner of the property subject to the assessment agree in writing:

(a) on a particular independent appraiser to do an appraisal;

(b) to share the costs of the independent appraisal; and

(c) to accept the results of the appraisal.

(2) (a) After assessing property under 15-23-101, the department shall notify the owner and any purchaser under contract for deed of such property, in writing, of the assessed value it has determined.

(b) Within 20 days following notification, the taxpayer may demand a review of the validity of the department's assessment. The department shall conduct an assessment review conference, which is not subject to the contested case procedures of the Montana Administrative Procedure Act. However, a party has the right of discovery prior to any assessment revision review conference. Upon consideration following such conference, the department may revise the assessment.

(c) Appeals from the final decision may be taken to the state tax appeal board.

15-23-116. Statute of limitations. (1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

Except as provided in 15-23-515, net proceeds shall be determined by subtracting from the value of the gross product of the mine the following:

(2) In computing the deductions allowable for repairs, improvements, and betterments to the mine, the department shall allow 10% of the cost each year for a period of 10 years.

If any report required by this part contains any willfully false or fraudulent statements as to the gross amount received by any person engaged in mining for any mine's product, then the department shall compute the gross value of such mine's product based upon the average quotations of the price of such mine's product in New York City or the relative market value at the point of delivery as evidenced by some established authority or market report. If any such person has sold or otherwise disposed of any of its mine's product at a price substantially below the true market price of such product at the time and place of such sale or disposal, then the department shall compute the gross value of such portion of the mine's product so sold or disposed of substantially below the market price, which gross value shall be based upon the quotations of the price of such mine's product in New York City or the relative market value at the point of delivery at the time such portion of the product was so sold or otherwise disposed of as evidenced by some established authority or market report. Should there be no quotation covering any particular product, then the department shall fix the value of such gross product or such portion thereof as shall have been sold or otherwise disposed of at a price substantially below the true market price at the time and place of such sale or disposal in such a manner as may seem to be equitable.

Thereupon the county assessor shall prepare from such net proceeds and royalty assessments a tax roll which shall be by him furnished to the county treasurer on or before September 15 following, as specified in this section. 15-23-508. Lien of tax — enforcement of payment. (1) The taxes on such net proceeds must be levied as the levy of other taxes is provided for, and every such tax is a lien upon the mine or mining claim from which the ore or mineral products or deposits are mined or extracted and is a prior lien upon all personal property and improvements used in the process of extracting such ore or mineral products or deposits, provided such personal or real property is owned by or under lease by the person who extracted said ore, mineral products, or deposits.

(2) The tax on such net proceeds may be collected and the payment thereof enforced by the seizure and sale of the personal property upon which the tax is a lien in the same manner as other personal property is seized and sold for delinquent taxes or by the sale of the mine or mining claim and improvements, as provided for the sale of real property for delinquent taxes, or by the institution of a civil action for its collection in any court of competent jurisdiction. A resort to any one of the methods of enforcing collection as herein provided for shall not bar the right to resort to either or both of the other methods, but any two or all of the methods herein provided for may be used until the full amount of such tax is collected.

(b) "PCE" means the implicit price deflator for personal consumption expenditures as published quarterly in the Survey of Current Business by the bureau of economic analysis of the U.S. department of commerce.

(2) "Interim production" means the production of natural gas, petroleum, or other crude or mineral oil from any well that:

(a) has not produced natural gas, petroleum, or other crude or mineral oil during the 5 years immediately preceding the first month of interim production; and

(b) began interim production after June 30, 1985, and before April 1, 1987.

(3) The term "new production" means the production of natural gas, petroleum, or other crude or mineral oil from any well:

(a) that has not produced natural gas, petroleum, or other crude or mineral oil during the 5 years immediately preceding the first month of qualified new production; and

(b) on which the notification required in 15-36-121(2) was given.

(4) The terms "operator" and "producer" mean any person who engages in the business of drilling for, extracting, or producing any natural gas, petroleum, or other crude or mineral oil.

(5) The term "well" includes each single well or group of wells, including dry wells, in one field or production unit and under the control of one operator or producer.

15-23-602. Statement of sales proceeds on interim production and new production. (1) As provided in subsection (2), each operator or producer of interim production or new production of natural gas, petroleum, or other crude or mineral oil shall make out and deliver to the department of revenue a statement of the gross sales proceeds of interim production or new production of natural gas, petroleum, or other crude or mineral oil from each well owned or worked by the person. The gross sales proceeds must be determined by multiplying the units of production sold from the well times the royalty unit value of that production at the well. The statement must be in the form prescribed by the department and must be verified by the oath of the operator or producer or the manager, superintendent, agent, president, or vice-president of the corporation, association, or partnership. The statement must show the following:

(a) the name and address of the operator, together with a list in duplicate of the names and addresses of any persons owning or claiming any royalty interest in the production from the well or the proceeds derived from the sale of the production, and the amount paid or yielded as royalty to each of those persons during the period covered by the statement;

(b) the description and location of the well;

(c) the number of cubic feet of natural gas, barrels of petroleum or other crude or mineral oil sold from the well during the period covered by the statement; and

(d) the gross sales proceeds in dollars and cents or, in the case of sales between parties not acting at arm's length, the greater of the gross sales proceeds from or the fair market value of the products sold.

(2) Each operator having interim production or new production as defined in 15-23-601 shall, on or before the last day of the months of October, January, April, and July, make out and deliver to the department of revenue a statement of the gross sales proceeds of the interim production or new production from each well owned or worked by the person during the preceding calendar quarter. The statement must be in the form prescribed by the department and verified as provided in subsection (1). The statement must show the information required in subsections (1)(a) through (1)(d).

1989 Special Session Amendment: Near beginning of (1), after "producer of", inserted "interim production or new production of", near middle of first sentence, before "make out", substituted "shall" for "must on or before April 15 in each year", after "gross sales proceeds of" inserted "interim production or new production of", and at end of first sentence deleted "during the next preceding calendar year"; deleted former (1)(e) that read: "(e) except for interim production and new production as defined in 15-23-601:

(i) actual cost of extracting product from well;

(ii) cost of construction, repairs, and betterments;

(iii) actual cost of fire insurance and workers' compensation insurance;

(iv) the amount paid or withheld in satisfaction of liability for excise taxes imposed by the U.S. government on the production, sale, or removal of the natural gas, petroleum, or other crude or mineral oil reported pursuant to subsection (1)(c), including a separate statement of the amount of such taxes paid or withheld from each royalty owner"; and made minor changes in phraseology. Amendment effective August 11, 1989, and applies retroactively to net proceeds taxes, severance taxes, and local government taxes on oil and gas, other than interim production and new production, produced after December 31, 1988.

15-23-603. Net proceeds — how computed. (1) As provided in subsection (2), the department of revenue shall calculate and compute from the returns the gross sales proceeds of the product yielded from the well for the year covered by the statement and shall calculate the net proceeds of the well yielded to the producer, which net proceeds are determined by subtracting from the gross sales proceeds of the well all royalty paid in cash by the operator or producer and the gross value of all royalty apportioned in kind by the operator or producer determined by using as the value of a barrel of oil or a cubic foot of gas the average selling price for the calendar year of a barrel of oil or a cubic foot of gas from the well out of which the royalty was paid.

(2) For interim production or new production, net proceeds are the equivalent of the gross sales proceeds, without deduction for excise taxes, of the product yielded from the well for the quarter covered by the statement, except that in computing the total number of barrels of petroleum and other mineral or crude oil or cubic feet of natural gas produced, there must be deducted so much of the product as is used in the operation of the well from which the petroleum or other mineral or crude oil or natural gas is produced for pumping the petroleum or other mineral or crude oil or natural gas from the well to a tank or pipeline.

(3) In the statement of sales proceeds required under 15-23-602 for lease or unitized areas from which interim or new production and other production have been sold, the number of barrels of interim and new production of oil or cubic feet of interim or new production of gas must be segregated from and stated separately from the number of barrels of other production of oil or cubic feet of other production of gas.

(4) In calculating the deduction for money expended for necessary chemical supplies needed and used in a tertiary recovery project approved by the department of revenue, as provided in 15-36-101, the department shall require that the necessary chemical supplies, which include but are not limited to carbon dioxide supplies, be amortized over a 10-year period beginning with the year in which the money was expended.

If any report required by this part contains any willfully false or fraudulent statement as to the gross amount received by any person engaged in mining as aforesaid for any mine's product, then the department of revenue shall compute the gross value of such mine's product, and such gross value shall be based upon the market value at the point of production. Should there be no quotation covering any particular product, then the department shall fix the value of such gross product in such manner as may seem to be equitable.

15-23-607. County assessors to compute taxes. (1) Immediately after the board of county commissioners has fixed tax levies on the second Monday in August, the county assessor shall, subject to the provisions of 15-23-612, compute the taxes on net proceeds, as provided in subsection (2) of this section, and royalty assessments and shall deliver the book to the county treasurer on or before September 15. The county treasurer shall proceed to give full notice of the assessments to the operator and shall collect the taxes as provided by law.

(2) For interim production or new production, as defined in 15-23-601, the county assessor may not levy or assess any mills against the value of the interim production or new production, but shall instead levy a tax as follows:

(a) for interim production or new production of petroleum or other mineral or crude oil, 7% of net proceeds, as described in 15-23-603(2); or

(b) for interim production or new production of natural gas, 12% of net proceeds, as described in 15-23-603(2).

(3) The amount of tax levied in subsections (2)(a) and (2)(b), divided by the appropriate tax rate and multiplied by 60%, must be treated as taxable value for county bonding purposes.

(4) The taxable value of net proceeds for the purpose of computing guaranteed tax base aid for schools is the amount of tax received by a district in the previous year divided by the number of mills levied by the district in the previous year, multiplied by 1,000. This amount must be added to the district, county, and statewide taxable value when computing guaranteed tax base aid under 20-9-368.

(5) The operator or producer is liable for the payment of the taxes that, except as provided in 15-16-121, are payable by and must be collected from the operators in the same manner and under the same penalties as provided for the collection of taxes upon net proceeds of mines. However, the operator may at his option withhold from the proceeds of royalty interest, either in kind or in money, an estimated amount of the tax to be paid by him upon the royalty or royalty interest. After the withholding, any deviation between the estimated tax and the actual tax may be accounted for by adjusting subsequent withholdings from the proceeds of royalty interests.

The average daily production per well must be determined by dividing the total production for the quarter by the number of well production days for the quarter.

(2) The number of well production days for the quarter is the sum of the number of completed wells on the first day of the quarter times the number of days in the quarter plus the number of days from the date of completion of any wells during the quarter to the end of the quarter. New production for the quarter must then be calculated by multiplying the average daily production per well times the number of wells completed after December 31, 1986, times the number of production days attributed to those wells for the quarter. The value of the production must be based on the average price received for the production for the quarter.

15-23-701. Reporting gross yield from coal. (1) Each person engaged in mining coal must, on or before March 31 each year, file with the department of revenue a statement of the gross yield from each coal mine owned or worked by such person in the preceding calendar year and the value thereof. The statement shall be in the form prescribed by the department, which may be coordinated with the form used under 15-35-104 and must be verified by an officer of the firm. The statement shall include:

(a) the name and address of the owner or lessee or operator of the mine;

(b) the location of the mine;

(c) the tons of coal extracted, treated, and sold from the mine during the taxable period;

(d) the gross yield or value in dollars and cents derived from the contract sales price as defined in 15-35-102.

(2) Whenever value is imputed under 15-35-107(1)(b), that value shall be used for purposes of reporting the value of the gross yield of coal under this section.

15-23-702. Transmission of gross proceeds to county assessor. On or before July 1 each year, the department shall transmit to the county assessor of each county in which coal mines are situated the valuation of the gross proceeds of such mines for the purpose of taxation, as the same have been determined by the department. The county assessor shall immediately enter the same upon a suitable assessment roll, the form of which shall be prescribed by the department.

History: En. 84-1321 by Sec. 10, Ch. 525, L. 1975; R.C.M. 1947, 84-1321.

15-23-703. Taxation of gross proceeds — taxable value for bonding and guaranteed tax base aid to schools. (1) The county assessor shall compute from the reported gross proceeds from coal a tax roll that he shall transmit to the county treasurer on or before September 15 each year. The county assessor may not levy or assess any mills against the reported gross proceeds of coal but shall levy a tax of 5% against the value of the reported gross proceeds as provided in 15-23-701(1)(d). The county treasurer shall proceed to give full notice to each coal producer of the taxes due and to collect the taxes as provided in 15-16-101.

(2) For bonding, county classification, and all nontax purposes, the taxable value of the gross proceeds of coal is 45% of the contract sales price as defined in 15-35-102(5).

(3) The taxable value of gross proceeds for the purpose of computing guaranteed tax base aid for schools is the amount of tax received by a district in the previous year divided by the number of mills levied by the district in the previous year, multiplied by 1,000. This amount must be added to the district, county, and statewide taxable value when computing guaranteed tax base aid under 20-9-368.

(4) The county treasurer shall credit all taxes collected under this part:

(a) to the state and to the counties that levied mills against production in the relative proportions required by the levies for state and county purposes in the same manner as property taxes were distributed in the year 1989 in the taxing jurisdiction; and

(b) to school districts in the county that either levied mills against production or used nontax revenue, such as Public Law 81-874 money, in lieu of levying mills against production, in the same manner that property taxes collected or property taxes that would have been collected would have been distributed in 1989 in the school district.

Compiler's Comments

1989 Special Session Amendment: In (1) inserted second sentence providing for 5% tax on gross proceeds of coal in lieu of mill levies and at end substituted "of the taxes due and to collect the taxes as provided in 15-16-101" for "and to collect the taxes due within 60 days after mailing"; inserted (2) relating to taxable value of gross proceeds for bonding, county classification, and nontax purposes; inserted (3) relating to taxable value of gross proceeds for computing guaranteed tax base aid for schools; inserted (4) relating to crediting taxes to taxing jurisdictions that levied mills against production or used other revenue in lieu of levying mills against production; and made minor changes in phraseology. Amendment effective August 11, 1989, and applies retroactively to net proceeds taxes, severance taxes, and local government taxes on oil and gas, other than interim production and new production, produced after December 31, 1988.

15-23-704. Lien of tax — enforcement of payment. The tax on gross proceeds from coal shall be levied as taxes on other forms of property, and this tax and the severance tax on coal production are each a lien upon the coal mine and a prior lien upon all personal property and improvements used to produce the coal. These taxes may be collected by the seizure and sale of the personal property on which the tax is a lien as provided under 15-16-113 and 15-17-911.

(1) "Agreement not at arm's length" means an agreement between parties where the sales price does not represent market value.

(2) "Department" means the department of revenue.

(3) "Gross proceeds" or "gross metal yield" or "gross value of product" means the receipts realized from the extraction and sale of metals or concentrate containing metals.

(4) "Merchantable value" means the receipts of all salable metals produced or extracted in a county over a 12-month period. If the extracted ores are milled, smelted, or reduced by the taxpayer, the merchantable value in the county in which they are extracted is the receipts received for these metals after processing.

(5) "Receipts received" means the monetary payment or refined metal received by the mining company from the metal trader, smelter, roaster, or refinery, determined by multiplying the quantity of metal received by the metal trader, smelter, roaster, or refinery by the quoted price for the metal and then subtracting basic treatment and refinery charges, quantity deductions, price deductions, interest, and penalty metal, impurity, and moisture deductions as specified by contract between the mining company and the receiving metal trader, smelter, roaster, or refinery. Deductions are not allowed, either directly or indirectly as an offset to payments, for the cost of transportation from the mine or mill to the smelter, roaster, or refinery. Demurrage, storage, interest, or any other miscellaneous costs related to transporting the mineral product are considered transportation and are not deductible.

Part 1

Motor Vehicle Fleets

15-24-101. Assessment of proportionally registered interstate motor vehicle fleets — tax payment required for registration. (1) The department of revenue shall assess, for the purpose of personal property taxes, the taxable vehicles in interstate motor vehicle fleets proportionally registered under the provisions of 61-3-711 through 61-3-733, and the assessment must be apportioned on the ratio of total miles traveled to in-state miles traveled formula as prescribed by 61-3-721. Interstate motor vehicle fleets are assessable for taxation purposes upon application for proportional registration and are assessed to the persons who own or claim or in whose possession or control the fleet is at the time of the application.

(2) With respect to any fleet contained in an original application which has a situs for purpose of property taxation in Montana by the terms of this part or any other provision of the laws of Montana, the taxes on taxable vehicles are apportioned as provided in 15-24-303.

(3) With respect to any fleet contained in a renewal application, the taxable vehicles are assessed and taxed for a full year.

(4) Automobiles and trucks having a rated capacity of three-quarters of a ton or less that are part of an interstate motor vehicle fleet are subject to property tax. If the fleet is proportionally registered, the tax is apportioned in the same fashion as the registration fee under 61-3-721.

(5) Vehicles contained in a fleet for which current taxes, fees, or both have been assessed and paid may not be assessed or charged fees under this section upon presentation to the department of proof of payment of taxes, or fees, or both for the current registration year. The payment of personal property taxes, fees, or both, is a condition precedent to proportional registration or reregistration of an interstate motor vehicle fleet.

History: **En. Sec. 1, Ch. 89, L. 1965; amd. Sec. 16, Ch. 516, L. 1973; R.C.M. 1947, 84-727; amd. Sec. 14, Ch. 614, L. 1981; amd. Sec. 8, Ch. 611, L. 1987; amd. Sec. 1, Ch. 615, L. 1989.**

Compiler's Comments

1989 Amendment: In (2), after "laws of Montana", deleted "between January 1 and April 1, the taxable vehicles are taxed for a full year. With respect to any fleet contained in an original application which acquires a situs for the purpose of property taxation in Montana under the provisions of this part or any other law of the state of Montana after April 1"; and made minor changes in phraseology. Amendment effective April 21, 1989.

Effective Date — Retroactive Applicability: Section 4, Ch. 615, L. 1989, provided: "[This act] is effective on passage and approval [approved April 21, 1989] and applies retroactively, within the meaning of 1-2-109, to taxable years beginning after December 31, 1988."

15-24-102. Valuation of interstate fleets — determination of aggregate tax due. The department of revenue shall assess the taxable vehicles of any interstate motor vehicle fleet making application for proportional registration as follows:

(1) The purchase price of the taxable vehicles depreciated by a schedule as prescribed by the department shall determine the depreciated value.

(2) The depreciated value multiplied by the percent of miles traveled in Montana as prescribed by 61-3-721 shall be the assessed value.

(3) The sum of the assessed value of all taxable vehicles included in the fleet multiplied by 16% shall be the taxable value for the entire fleet.

(4) To determine the amount of tax due, the taxable value of the entire fleet shall be multiplied by the statewide average county mill levy plus state levies as hereinafter provided.

History: **En. Sec. 2, Ch. 89, L. 1965; amd. Sec. 17, Ch. 516, L. 1973; amd. Sec. 54, Ch. 566, L. 1977; R.C.M. 1947, 84-728; amd. Sec. 20, Ch. 693, L. 1979; amd. Sec. 15, Ch. 614, L. 1981.**

15-24-103. Determination of average levy in state — application to interstate fleets — cost stated in application for registration. (1) The department of revenue shall determine the aggregate tax in the entire state for state, county, and local purposes levied on the general property of the state in the previous year, excluding special levies on property for local improvements and special state levies on livestock for bounties, inspection, and protection purposes.

(2) From the total taxable valuation of the general property of the state, including net proceeds and the aggregate tax as determined, the department shall compute the average levy by dividing the aggregate tax by the total state taxable valuation. The rate so determined shall constitute the rate of taxation on the taxable value of taxable vehicles of an interstate motor vehicle fleet.

(3) The original cost of each taxable vehicle shall be included on the application for proportional registration under the provisions of 61-3-711 through 61-3-733. The department shall determine the original cost when the owner does not have this information on new or used vehicles or in the case of rebuilt vehicles.

History: En. Sec. 3, Ch. 89, L. 1965; amd. Sec. 18, Ch. 516, L. 1973; R.C.M. 1947, 84-729; amd. Sec. 16, Ch. 614, L. 1981.

15-24-104. Situs in state of proportionally registered fleets — collection of taxes and fees. (1) For the purposes of this part, any vehicle previously registered or which has had application for registration made under the provisions of 61-3-711 through 61-3-733 is hereby declared to have a situs in the state for the purposes of taxation.

(2) The department or its designated agent shall collect the personal property taxes, or license fees, or both prescribed in this part.

History: En. Sec. 4, Ch. 89, L. 1965; amd. Sec. 19, Ch. 516, L. 1973; R.C.M. 1947, 84-730; amd. Sec. 14, Ch. 581, L. 1979; amd. Sec. 17, Ch. 614, L. 1981.

15-24-105. Deposit and distribution of taxes and fees on proportionally registered fleets. The personal property taxes and license fees collected under this part shall be deposited with the state treasurer for distribution to the general fund of each county on the following basis:

(1) for personal property taxes, according to the ratio of the taxable valuation of each county to the total state taxable valuation; and

(2) for vehicle license fees, according to the ratio of vehicle license fees, other than fees derived from interstate motor vehicle fleets, collected in each county to the sum of all such fees collected in all the counties.

History: En. Sec. 5, Ch. 89, L. 1965; R.C.M. 1947, 84-731; amd. Sec. 18, Ch. 614, L. 1981; amd. Sec. 9, Ch. 611, L. 1987.

(1) "Expansion" means that the industry has added after July 1, 1987, at least $250,000 worth of qualifying improvements or modernized processes to its property within the same jurisdiction either in the first tax year in which the benefits provided for in 15-24-1402 are to be received or in the preceding tax year.

(2) "Industry" includes but is not limited to a firm that engages in the:

(a) mechanical or chemical transformation of materials or substances into products in the manner defined as manufacturing in the 1972 Standard Industrial Classification Manual prepared by the United States office of management and budget;

(b) extraction or harvesting of minerals, ore, or forestry products; or

(c) processing of Montana raw materials such as minerals, ore, agricultural products, and forestry products.

(3) "New" means that the industry is new to the jurisdiction approving the resolution provided for in 15-24-1402(3) and has invested after July 1, 1987, at least $500,000 worth of qualifying improvements or modernized processes in the jurisdiction either in the first tax year in which the benefits provided for in 15-24-1402 are to be received or in the preceding tax year. New

industry does not include property treated as new industrial property under 15-6-135.

(4) "Qualifying" means meeting all the terms, conditions, and requirements for a reduction in taxable value under 15-24-1401 and 15-24-1402.

15-24-1402. New or expanding industry — assessment. (1) In the first 5 years after a construction permit is issued, qualifying improvements or modernized processes that represent new industry or expansion of an existing industry, as designated in the approving resolution, shall be taxed at 50% of their taxable value. Each year thereafter, the percentage shall be increased by equal percentages until the full taxable value is attained in the 10th year. In subsequent years, the property shall be taxed at 100% of its taxable value.

(2) (a) In order for a taxpayer to receive the tax benefits described in subsection (1), the governing body of the affected county or the incorporated city or town must have approved by separate resolution for each project, following due notice as defined in 76-15-103 and a public hearing, the use of the schedule provided for in subsection (1) for its respective jurisdiction. The governing body may not grant approval for the project until all of the applicant's taxes have been paid in full. Taxes paid under protest do not preclude approval.

(b) The governing body may end the tax benefits by majority vote at any time, but the tax benefits may not be denied an industrial facility that previously qualified for the benefits.

(c) The resolution provided for in subsection (2)(a) shall include a definition of the improvements or modernized processes that qualify for the tax treatment that is to be allowed in the taxing jurisdiction. The resolution may provide that real property other than land, personal property, improvements, or any combination thereof is eligible for the tax benefits described in subsection (1).

(3) The taxpayer must apply to the county assessor on a form provided by the department of revenue for the tax treatment allowed under subsection (1). The application by the taxpayer must first be approved by the governing body of the appropriate local taxing jurisdiction, and the governing body must indicate in its approval that the property of the applicant qualifies for the tax treatment provided for in this section. Upon receipt of the form with the approval of the governing body of the affected taxing jurisdiction, the assessor shall make the assessment change pursuant to this section.

(4) The tax benefit described in subsection (1) applies only to the number of mills levied and assessed for local high school district and elementary school district purposes and to the number of mills levied and assessed by the governing body approving the benefit over which the governing body has sole discretion. In no case may the benefit described in subsection (1) apply to levies or assessments required under Title 15, chapter 10, 20-9-331, 20-9-333, or otherwise required under state law.

History: En. Sec. 7, Ch. 666, L. 1987.

15-30-111. Adjusted gross income. (1) Adjusted gross income shall be the taxpayer's federal income tax adjusted gross income as defined in section 62 of the Internal Revenue Code of 1954 or as that section may be labeled or amended and in addition shall include the following:

(a) interest received on obligations of another state or territory or county, municipality, district, or other political subdivision thereof;

(b) refunds received of federal income tax, to the extent the deduction of such tax resulted in a reduction of Montana income tax liability;

(c) that portion of a shareholder's income under subchapter S. of Chapter 1 of the Internal Revenue Code of 1954, that has been reduced by any federal taxes paid by the subchapter S. corporation on the income; and

(d) depreciation or amortization taken on a title plant as defined in 33-25-105(15).

(2) Notwithstanding the provisions of the federal Internal Revenue Code of 1954, as labeled or amended, adjusted gross income does not include the following which are exempt from taxation under this chapter:

(a) all interest income from obligations of the United States government, the state of Montana, county, municipality, district, or other political subdivision thereof;

(b) interest income earned by a taxpayer age 65 or older in a taxable year up to and including $800 for a taxpayer filing a separate return and $1,600 for each joint return;

(c) all benefits, not in excess of $3,600, received:

(i) under the Federal Employees' Retirement Act;

(ii) under the public employee retirement laws of a state other than Montana; or

(iii) as an annuity, pension, or endowment under any private or corporate retirement plan or system;

(d) all benefits paid under the teachers' retirement law which are specified as exempt from taxation by 19-4-706;

(e) all benefits paid under The Public Employees' Retirement System Act which are specified as exempt from taxation by 19-3-105;

(f) all benefits paid under the highway patrol retirement law which are specified as exempt from taxation by 19-6-705;

(g) all Montana income tax refunds or credits thereof;

(h) all benefits paid under 19-11-602, 19-11-604, and 19-11-605 to retired and disabled firefighters, their surviving spouses and orphans or specified as exempt from taxation by 19-13-1003;

(i) all benefits paid under the municipal police officers' retirement system that are specified as exempt from taxation by 19-9-1005;

(j) gain required to be recognized by a liquidating corporation under 15-31-113(1)(a)(ii);

(k) all tips covered by section 3402(k) of the Internal Revenue Code of 1954, as amended and applicable on January 1, 1983, received by persons for services rendered by them to patrons of premises licensed to provide food, beverage, or lodging;

(l) all benefits received under the workers' compensation laws;

(m) all health insurance premiums paid by an employer for an employee if attributed as income to the employee under federal law;

(n) all benefits paid under an optional retirement program that are specified as exempt from taxation by 19-21-212; and

(o) all money received because of a settlement agreement or judgment in a lawsuit brought against a manufacturer or distributor of "agent orange" for damages resulting from exposure to "agent orange".

(3) In the case of a shareholder of a corporation with respect to which the election provided for under subchapter S. of the Internal Revenue Code of 1954, as amended, is in effect but with respect to which the election provided for under 15-31-202, as amended, is not in effect, adjusted gross income does not include any part of the corporation's undistributed taxable income, net operating loss, capital gains or other gains, profits, or losses required to be included in the shareholder's federal income tax adjusted gross income by reason of the election under subchapter S. However, the shareholder's adjusted gross income shall include actual distributions from the corporation to the extent they would be treated as taxable dividends if the subchapter S. election were not in effect.

(4) A shareholder of a DISC that is exempt from the corporation license tax under 15-31-102(1)(l) shall include in his adjusted gross income the earnings and profits of the DISC in the same manner as provided by federal law (section 995, Internal Revenue Code) for all periods for which the DISC election is effective.

(5) A taxpayer who, in determining federal adjusted gross income, has reduced his business deductions by an amount for wages and salaries for which a federal tax credit was elected under section 44B of the Internal Revenue Code of 1954 or as that section may be labeled or amended is allowed to deduct the amount of the wages and salaries paid regardless of the credit taken. The deduction must be made in the year the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

(6) Married taxpayers filing a joint federal return who must include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. The federal base must be split equally on the Montana return.

(7) A taxpayer receiving retirement disability benefits who has not attained age 65 by the end of the taxable year and who has retired as permanently and totally disabled may exclude from adjusted gross income up to $100 per week received as wages or payments in lieu of wages for a period during which the employee is absent from work due to the disability. If the adjusted gross income before this exclusion and before application of the two-earner married couple deduction exceeds $15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding $15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, permanently and totally disabled means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

(8) A person receiving benefits described in subsections (2)(d) through (2)(f), (2)(h), or (2)(i) may not exclude benefits described in subsection (2)(c) from adjusted gross income unless the benefits received under subsections (2)(d) through (2)(f), (2)(h), or (2)(i) are less than $3,600, in which case the person may combine benefits to exclude up to a total of $3,600 from adjusted gross income. *(Subsection (2)(k) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983.)*

Compiler's Comments

Effective Date — Retroactive Applicability: Section 4, Ch. 469, L. 1989, provided: "[This act] is effective on passage and approval and applies retroactively, within the meaning of 1-2-109, to taxable years beginning after December 31, 1988." Approved April 8, 1989.

15-30-129 and 15-30-130 reserved.

15-30-131. Nonresident and temporary resident taxpayers — adjusted gross income — deductions. (1) In the case of a taxpayer other than a resident of this state, adjusted gross income includes the entire amount of adjusted gross income from sources within this state but shall not include income from annuities, interest on bank deposits, interest on bonds, notes, or other interest-bearing obligations, or dividends on stock of corporations except to the extent to which the same shall be a part of income from any business, trade, profession, or occupation carried on in this state. Interest income from installment sales of real or tangible commercial or business property located in Montana must be included in adjusted gross income. Adjusted gross income from sources within and without this state shall be allocated and apportioned under rules prescribed by the department.

(2) In the case of a taxpayer other than a resident of this state who is a resident of a state that imposes a tax on the income of natural persons residing within that state, the deductions allowed in computing net income are restricted to those directly connected with the production of Montana income.

(3) In the case of a taxpayer other than a resident of this state who is a resident of a state that does not impose a tax on the income of natural persons residing within that state, the deductions allowed in computing net

income are restricted to the greater of those directly relating to the production of Montana income or a prorated amount of those allowed under 15-30-121. For the purposes of this subsection, deductions allowed under 15-30-121 apply only to earned income and must be prorated according to the ratio that the taxpayer's Montana earned income bears to his federal earned income.

(4) A temporary resident shall be allowed those deductions and the credit under 15-32-109 allowed a resident to the extent that such deductions or credit were actually incurred or expended in the state of Montana during the course of his residency.

(5) For the purposes of this section, "earned income" shall be defined as the same term is defined in section 43 of the Internal Revenue Code, or as that section may subsequently be amended.

(6) Notwithstanding the provisions of subsections (2) and (3), any contribution made after December 31, 1982, to the state of Montana or a political subdivision thereof shall be an allowable deduction in computing net income. The deduction is subject to the limitations set forth in section 170 of the Internal Revenue Code of 1954, as labeled or amended.

(7) For purposes of this section, "installment sales" means sales in which the buyer agrees to pay the seller in one or more deferred installments.

15-30-132. Change from nonresident to resident or vice versa. If a taxpayer changes his status from that of resident to that of nonresident or from that of nonresident to that of resident during the taxable year, he shall file a return covering the fraction of the year during which he was a resident. The exemptions provided in 15-30-112 shall be prorated on the ratio the Montana adjusted gross income bears to federal adjusted gross income. A Montana citizen moving out of the state, abandoning his residence in the state, and establishing a residence elsewhere must file a return on the fractional basis. If he obtains employment outside the state without abandoning his Montana residence, then income from such employment is taxable in Montana.

15-30-133. Income tax involving partnership — partnership statements required. Individuals carrying on a business in partnership shall be liable for income tax only in their individual capacity. There shall be included, in computing the net income of each partner, his distributive share, whether distributed or not, of the net income of the partnership for the taxable year, or if his net income for such taxable year is computed upon the basis of a period different from that upon the basis for which the net income of the partnership is computed, then there shall be included his distributive share of the net income of the partnership for any accounting period of the partnership ending within the fiscal or calendar year upon the basis of which the partner's net income is computed. (2) an individual legally separated from his spouse under a decree of divorce or of separate maintenance shall not be considered as married.

15-30-135. Tax on beneficiaries or fiduciaries of estates or trusts. (1) A tax shall be imposed upon either the fiduciaries or the beneficiaries of estates and trusts as hereinafter provided, except to the extent such estates and trusts shall be held for educational, charitable, or religious purposes, which tax shall be levied, collected, and paid annually with respect to the income of estates or of any kind of property held in trust, including:

(a) income received by estates of deceased persons during the period of administration or settlement of the estate;

(b) income accumulated in trust for the benefit of unborn or unascertained persons or persons with contingent interests;

(c) income held for future distribution under the terms of the will or trust; and

(d) income which is to be distributed to the beneficiaries periodically, whether or not at regular intervals, and the income collected by a guardian of a minor, to be held or distributed as the court may direct.

(2) The fiduciary shall be responsible for making the return of income for the estate or trust for which he acts, whether the fiduciary or the beneficiaries are taxable with reference to the income of such estate or trust. In cases under subsections (a) and (d) of subsection (1), the fiduciary shall include in the return a statement of each beneficiary's distributive share of net income, whether or not distributed before the close of the taxable year for which the return is made.

(3) In cases under subsections (a), (b), and (c) of subsection (1), the tax shall be imposed upon the fiduciary of the estate or trust with respect to the net income of the estate or trust and shall be paid by the fiduciary. If the taxpayer's net income for the taxable year of the estate or trust is computed upon the basis of a period different from that upon the basis of which the net income of the estate or trust is computed, then his distributive share of the net income of the estate or trust for any accounting period of such estate or trust ending within the fiscal or calendar year shall be computed upon the basis on which such beneficiary's net income is computed. In such cases, a beneficiary not a resident shall be taxable with respect to his income derived

through such estate or trust only to the extent provided in 15-30-131 for individuals other than residents.

(4) The fiduciary of a trust created by an employer as a part of a stock bonus, pension, or profit-sharing plan for the exclusive benefit of some or all of his employees, to which contributions are made by such employer or employees, or both, for the purpose of distributing to such employees the earnings and principal of the fund accumulated by the trust in accordance with such plan, shall not be taxable under this section, but any amount contributed to such fund by the employer and all earnings of such fund shall be included in computing the income of the distributee in the year in which distributed or made available to him.

(5) Where any part of the income of a trust other than a testamentary trust is or may be applied to the payment of premiums upon policies of insurance on the life of the grantor (except policies of insurance irrevocably payable for the purposes and in the manner specified relating to the so-called "charitable contribution" deduction) or to the payment of premiums upon policies of life insurance under which the grantor is the beneficiary, such part of the income of the trust shall be included in computing the net income of the grantor.

Credits allowed individuals under Title 15, chapter 30, also apply to estates and trusts when applicable.

15-30-139 and 15-30-140 reserved.

15-30-141. Tax as personal debt. Every tax imposed by this chapter and all increases, interest, and penalties thereon shall be from the time they are due and payable a personal debt from the person or fiduciary liable to pay the same to the state.

15-30-142. Returns and payment of tax — penalty and interest — refunds — credits. (1) Every single individual and every married individual not filing a joint return with his or her spouse and having a gross income for the taxable year of more than $1,000, as adjusted under the provisions of subsection (7), and married individuals not filing separate returns and having a combined gross income for the taxable year of more than $2,000, as adjusted under the provisions of subsection (7), shall be liable for a return to be filed on such forms and according to such rules as the department may prescribe. The gross income amounts referred to in the preceding sentence shall be increased by $800, as adjusted under the provisions of 15-30-112(7) and (8), for each additional personal exemption allowance the taxpayer is entitled to claim for himself and his spouse under 15-30-112(3) and (4). A nonresident shall be required to file a return if his gross income for the taxable year derived from sources within Montana exceeds the amount of the exemption deduction he is entitled to claim for himself and his spouse under the provisions of 15-30-112(2), (3), and (4), as prorated according to 15-30-112(6).

(2) In accordance with instructions set forth by the department, every taxpayer who is married and living with husband or wife and is required to file a return may, at his or her option, file a joint return with husband or wife even though one of the spouses has neither gross income nor deductions. If a joint return is made, the tax shall be computed on the aggregate taxable income and the liability with respect to the tax shall be joint and several. If a joint return has been filed for a taxable year, the spouses may not file separate returns after the time for filing the return of either has expired unless the department so consents.

(3) If any such taxpayer is unable to make his own return, the return shall be made by a duly authorized agent or by a guardian or other person charged with the care of the person or property of such taxpayer.

(4) All taxpayers, including but not limited to those subject to the provisions of 15-30-202 and 15-30-241, shall compute the amount of income tax payable and shall, at the time of filing the return required by this chapter, pay to the department any balance of income tax remaining unpaid after crediting the amount withheld as provided by 15-30-202 and/or any payment made by reason of an estimated tax return provided for in 15-30-241; provided, however, the tax so computed is greater by $1 than the amount withheld and/or paid by estimated return as provided in this chapter. If the amount of tax withheld and/or payment of estimated tax exceeds by more than $1 the amount of income tax as computed, the taxpayer shall be entitled to a refund of the excess.

(5) As soon as practicable after the return is filed, the department shall examine and verify the tax.

(6) If the amount of tax as verified is greater than the amount theretofore paid, the excess shall be paid by the taxpayer to the department within 60 days after notice of the amount of the tax as computed, with interest added at the rate of 9% per annum or fraction thereof on the additional tax. In such case there shall be no penalty because of such understatement, provided the deficiency is paid within 60 days after the first notice of the amount is mailed to the taxpayer.

(7) By November 1 of each year, the department shall multiply the minimum amount of gross income necessitating the filing of a return by the inflation factor for the taxable year. These adjusted amounts are effective for that taxable year, and persons having gross incomes less than these adjusted amounts are not required to file a return.

(8) Individual income tax forms distributed by the department for each taxable year must contain instructions and tables based on the adjusted base year structure for that taxable year.

If any taxpayer fails to make return as herein required, the department is authorized to make an estimate of the taxable income of such taxpayer from any information in its possession and to audit and state an account according to such return or the estimate so made by it for the taxes, penalties, and interest due the state from such taxpayer. Except in the case of a person who, with intent to evade the tax, purposely or knowingly files a false or fraudulent return violating the provisions of this chapter, the amount of tax due under any return shall be determined by the department within 5 years after the return was made and the department thereafter shall be barred from revising any such returns or recomputing the tax due thereon, and no proceeding in court for the collection of such tax shall be instituted after the expiration of said period, notwithstanding the provisions of 15-30-322. In the case of a person who, with intent to evade the tax, purposely or knowingly files a false or fraudulent return violating the provisions of this chapter, the amount of tax due may be determined at any time after the return is filed and the tax may be collected at any time after it becomes due and, where no return has been filed, the tax may be assessed at any time.

15-30-149. Credits and refunds — period of limitations. (1) If the department discovers from the examination of a return or upon claim duly filed by a taxpayer or upon final judgment of a court that the amount of income tax collected is in excess of the amount due or that any penalty or interest was erroneously or illegally collected, the amount of the overpayment shall be credited against any income tax, penalty, or interest then due from the taxpayer and the balance of such excess shall be refunded to the taxpayer.

(2) (a) A credit or refund under the provisions of this section may be allowed only if, prior to the expiration of the period provided by 15-30-145 and by 15-30-146 during which the department may determine tax liability, the taxpayer files a claim or the department determines there has been an overpayment.

(b) If an overpayment of tax results from a net operating loss carryback, the overpayment may be refunded or credited within the period that expires on the 15th day of the 40th month following the close of the taxable year of the net operating loss if that period expires later than 5 years from the due date of the return for the year to which the net operating loss is carried back.

(3) Within 6 months after a claim for refund is filed, the department shall examine said claim and either approve or disapprove it. If said claim is approved, the credit or refund shall be made to the taxpayer within 60 days after the claim is approved; if the claim is disallowed, the department shall so notify the taxpayer and shall grant a hearing thereon upon proper application by the taxpayer. If the department disapproves a claim for refund, review of the determination of the department may be had as otherwise provided in this chapter.

(4) Except as hereinafter provided for, interest shall be allowed on overpayments at the same rate as is charged on delinquent taxes due from the due date of the return or from the date of the overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment. With respect to tax paid by withholding or by estimate, the date of overpayment shall be deemed to be the date on which the return for the taxable year was due. No interest shall accrue on an overpayment if the taxpayer elects to have it applied to his estimated tax for the succeeding taxable year, nor shall interest accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment. No interest shall be allowed if:

(a) the overpayment is refunded within 6 months from the date the return is due or the date the return is filed, whichever date is later;

(b) the overpayment results from the carryback of a net operating loss; or

(c) the amount of interest is less than $1.

(5) An overpayment not made incident to a bona fide and orderly discharge of an actual income tax liability or one reasonably assumed to be imposed by this law shall not be considered an overpayment with respect to which interest is allowable.

(3) A petition filed under the authority of subsection (1) must be verified and shall set forth in detail the facts and circumstances showing the failure of the taxpayer to file the return or report and the response, if any, of the taxpayer to the written notification and demand.

(4) When a verified petition is filed under the authority of subsection (1), the court shall review the petition to determine if the department has made a prima facie showing that an order to show cause should be issued and, if such a showing has been made, shall issue an order directed to the taxpayer to file the return or report within 30 days of the order, or to show cause, at a special time and place, why the return or report should not be filed.

(5) A copy of the petition and a certified copy of the order must be served upon the taxpayer. Service may be made pursuant to the provisions of Rule 4D(1)(b), M.R.Civ.P. If the taxpayer fails to acknowledge service, the sheriff shall serve a copy of the petition and a certified copy of the order on the taxpayer pursuant to Rule 4D(2) or (3), M.R.Civ.P.

(6) At the hearing on the order to show cause, evidence produced that the department's records show that the return or the report has not been filed is prima facie evidence that the return or report has not been filed.

(7) Upon finding by a preponderance of the evidence that the taxpayer has not filed the return or report as required by law, the court may issue a further order compelling the filing of the return or report, and the taxpayer's failure to comply with the order may thereafter be proceeded against as a contempt.

(1) If any person, without purposely or knowingly violating any requirement imposed by this chapter, fails to file a return of income on or before its due date (determined with regard to an extension of time granted for filing the return), there shall be imposed a penalty of 5% of any balance of tax unpaid with respect to such return as of its due date, but in no event shall the penalty for failure to file a return by its due date be less than $5. The department may abate the penalty if the taxpayer establishes that the failure to file on time was due to reasonable cause and was not due to neglect on his part. If any person, without purposely or knowingly violating any requirement imposed by this chapter, fails to pay any tax on or before its due date (determined with regard to an extension of time granted for filing the return), there shall be added to the tax a penalty of 10% of said tax, but not less than $5, and interest shall accrue on the tax at the rate of 9% per annum for the entire period it remains unpaid. (4) With respect to the imposition of a civil penalty, evidence produced by the department to the effect that a tax has not been paid, that a return has not been filed, or that information has not been supplied as required under the provisions of this chapter is prima facie evidence that the tax has not been paid, the return has not been filed, or the information has not been supplied.

(1) The term "corporation" includes associations, joint-stock companies, common-law trusts and business trusts which do business in an organized capacity, and all other corporations whether created, organized, or existing under and pursuant to the laws, agreements, or declarations of trust of any state, country, or the United States.

(2) The terms "engaged in business" and "doing business" both mean actively engaging in any transaction for the purpose of financial or pecuniary gain or profit.

(3) Except as provided in 15-31-103 or 33-2-705(4) or as may be otherwise specifically provided, every corporation engaged in business in the state of Montana shall annually pay to the state treasurer as a license fee for the privilege of carrying on business in this state such percentage or percentages of its total net income for the preceding taxable year at the rate hereinafter set forth. In the case of corporations having income from business activity which is taxable both within and without this state, the license fee shall be measured by the net income derived from or attributable to Montana sources as determined under part 3. Except as provided in 15-31-502, this tax is due and payable on the 15th day of the 5th month following the close of the taxable year of the corporation; however, the tax becomes a lien as provided in this chapter on the last day of the taxable year in which the income was earned and is for the privilege of carrying on business in this state for the taxable year in which the income was earned.

(4) Every bank organized under the laws of the state of Montana, of any other state, or of the United States and every savings and loan association organized under the laws of this state or of the United States is subject to the Montana corporation license tax provided for under this chapter. For taxable years beginning on and after January 1, 1972, this subsection is effective in accordance with Public Law 91-156, section 2 (12 U.S.C. 548).

15-31-103. Research and development firms exempt from taxation — application. (1) A research and development firm organized to engage in business in the state of Montana for the first time is not subject to any of the taxes imposed by this chapter on net income earned from research and development activities during its first 5 taxable years of activity in Montana. For purposes of 15-31-401 and this section, "taxable year" means a research and development firm's taxable year for federal income tax purposes.

(2) (a) To be considered a research and development firm, the chief executive officer of the firm or his agent shall file with the department of revenue an application for treatment as a research and development firm.

(b) The application must be made on a form to be provided by the department. The form must include, at a minimum:

(i) the name and address of each officer of the research and development firm;

(ii) the name of the research and development firm as required for the purpose of incorporation in 35-1-202;

(iii) the address of its initial registered office required for the purpose of incorporation as required in 35-1-202;

(iv) the date the articles of incorporation were filed with the secretary of state as required in 35-1-203; and

(v) other information the department requires to effectively administer the provisions of this section.

(c) The application must be filed with the department before the end of the first calendar quarter during which the research and development firm engages in business in Montana.

(3) On receipt of the information required in subsection (2)(b), provided that it was filed in the time allowed under subsection (2)(c), the department shall designate the applicant as a research and development firm for the purposes of this section.

(4) Failure by an applicant to provide information required by the department under subsection (2)(b) or, except as provided in subsection (5), failure to file within the time allowed under subsection (2)(c) automatically disqualifies the applicant from being designated and treated as a research and development firm for the purposes of this section.

(5) The director of the department may grant an extension of time for an applicant to file an application for treatment as a research and development firm, provided the extension is given in writing and the extension does not extend beyond 30 days from the date the application was required to be filed under subsection (2)(c).

(6) For the purpose of calculating or otherwise determining the period for which a deduction, exclusion, exemption, or credit may be taken under the provisions of this chapter, the department shall disregard a research and development firm's first 5 taxable years of activity in Montana and administer the deduction, exclusion, exemption, or credit as if the corporation did not exist during those taxable years. This treatment of a research and development firm extends to net operating loss carryback and net operating loss carryforward provisions allowed under this chapter.

Upon application, a corporation shall be allowed an automatic extension of time for filing its return of 1 to 6 months following the date prescribed for filing of its tax return. The application is to be made on such forms as the department shall prescribe.

(3) The department may grant an additional extension of time for the filing of a return whenever in its judgment good cause exists.

(4) In cases wherein receivers, trustees in bankruptcy, or assignees are operating the property or business of a corporation subject to the license fee imposed by this chapter, such receiver, trustee, or assignee shall make the return in the same manner and form as such corporation is hereinbefore required to make return, and any license fee due on the basis of such returns made by the receiver, trustee, or assignee shall be assessed and collected in the same manner as if assessed directly against the corporation of whose business or property they have custody and control and shall be paid by such receiver, trustee, or assignee out of the property of the company in his hands, prior to the claims of creditors or stockholders.

15-31-119. Net operating losses — carryovers and carrybacks. (1) The net operating loss deduction is the aggregate of net operating loss carryovers to the taxable period plus the net operating loss carrybacks to the taxable period.

(2) The term "net operating loss" means the excess of the deductions allowed by this section over the gross income, with the modifications specified in subsection (6).

(3) If for any taxable period beginning after December 31, 1970, a net operating loss is sustained, the loss must be a net operating loss carryback to each of the three taxable periods preceding the taxable period of the loss and must be a net operating loss carryover to each of the five taxable periods following the taxable period of the loss.

(4) A net operating loss for any taxable period ending after December 31, 1975, in addition to being a net operating loss carryback to each of the three preceding taxable periods, must be a net operating loss carryover to each of the seven taxable periods following the taxable period of the loss.

(5) Except as provided in subsection (11), the portion of the loss that must be carried to each of the other taxable years must be the excess, if any, of the amount of the loss over the sum of the net income for each of the prior taxable periods to which the loss was carried. For purposes of the preceding sentence, the net income for the prior taxable period must be computed with the modification specified in subsection (6)(b) and by determining the amount of the net operating loss deduction without regard to the net operating loss for the loss period or any taxable period thereafter, and the net income so computed may not be considered to be less than zero.

(6) The modifications referred to in subsection (2) are as follows:

(a) net operating loss deduction may not be allowed.

(b) The deduction for depletion may not exceed the amount that would be allowable if computed under the cost method.

(c) Any net operating loss carried over to any taxable years beginning after December 31, 1978, must be calculated under the provisions of this section effective for the taxable year for which the return claiming the net operating loss carryover is filed.

(7) A net operating loss deduction must be allowed only with regard to losses attributable to the business carried on within the state of Montana.

(8) In the case of a merger of corporations, the surviving corporation may not be allowed a net operating loss deduction for net operating losses sustained by the merged corporations prior to the date of merger. In the case of a consolidation of corporations, the new corporate entity may not be allowed a deduction for net operating losses sustained by the consolidated corporations prior to the date of consolidation.

(9) Notwithstanding the provisions of 15-31-531, interest may not be paid with respect to a refund of tax resulting from a net operating loss carryback or carryover.

(10) The net operating loss deduction may not be allowed with respect to taxable periods that ended on or before December 31, 1970, but must be allowed only with respect to taxable periods beginning on or after January 1, 1971.

(11) A taxpayer entitled to a carryback period for a net operating loss may elect to forego the entire carryback period. If the election is made, the loss

may be carried forward only. The election must be made on or before the date on which the return is due, including any extension of the due date, for the tax year of the net operating loss for which the election is to be in effect. The election is irrevocable for the year made.

15-31-123. Investment credit. (1) The purpose of this section is to allow small businesses to take an investment credit as provided for in subsection (3) and to stimulate capital investment by the small business sector.

(2) For the purposes of this section, "small business" means a business that does not have:

(a) more than 10 shareholders;

(b) a person who is not an individual (other than an estate or other than a trust described in subsection (8)) as a shareholder;

(c) a nonresident alien as a shareholder; and

(d) more than one class of stock.

(3) There is allowed as a credit against the taxes imposed by 15-31-101, 15-31-121, and 15-31-122 a percentage of the credit allowed with respect to certain depreciable property under section 38 of the Internal Revenue Code of 1954, as amended, or as section 38 may be renumbered or amended. However, rehabilitation costs as set forth under section 46(a)(2)(F) of the Internal

Revenue Code of 1954, or as section 46(a)(2)(F) may be renumbered or amended, are not to be included in the computation of the investment credit. The credit is allowed for the purchase and installation of certain qualified property defined by section 38 of the Internal Revenue Code of 1954, as amended, if the property meets all of the following qualifications:

(a) it was placed in service in Montana; and

(b) it was used for the production of Montana income.

(4) The amount of the credit allowed for the taxable year is 5% of the amount of credit determined under section 46(a)(2) of the Internal Revenue Code of 1954, as amended, or as section 46(a)(2) may be renumbered or amended.

(5) Notwithstanding the provisions of subsection (4), the investment credit allowed for the taxable year may not exceed $500.

(6) If property for which an investment credit is claimed is used both inside and outside this state, only a portion of the credit is allowed. The credit must be apportioned according to a fraction the numerator of which is the number of days during the taxable year the property was located in Montana and the denominator of which is the number of days during the taxable year the taxpayer owned the property. The investment credit may be applied only to the tax liability of the taxpayer who purchases and places in service the property for which an investment credit is claimed.

(7) The investment credit allowed by this section is subject to recapture as provided for in section 47 of the Internal Revenue Code of 1954, as amended, or as section 47 may be renumbered or amended.

(8) (a) For purposes of subsection (2)(b), any of the following trusts may be a shareholder without disqualifying the business for the investment credit:

(i) a trust all of which is treated as owned by the grantor under sections 671 through 678 of the Internal Revenue Code;

(ii) a trust created primarily to exercise the voting power of stock transferred to it;

(iii) any trust with respect to stock transferred to it pursuant to the terms of a will, but only for the 60-day period beginning on the day on which such stock is transferred to it.

(b) In the case of a trust described in subsection (8)(a)(ii), each beneficiary of the trust shall be treated as a shareholder.

15-31-131. Credit for dependent care assistance. (1) There is a credit against the taxes otherwise due under this chapter allowable to an employer for amounts paid or incurred during the taxable year by the employer for dependent care assistance actually provided to or on behalf of an employee if the assistance is furnished by a registered or licensed day-care provider and pursuant to a program that meets the requirements of section 89(k) and 129(d)(2) through (6) of the Internal Revenue Code.

(2) (a) The amount of the credit allowed under subsection (1) is 15% of the amount paid or incurred by the employer during the taxable year, but the credit may not exceed $1,250 of day-care assistance actually provided to or on behalf of the employee.

(b) For the purposes of this subsection, marital status must be determined under the rules of section 21(e)(3) and (4) of the Internal Revenue Code.

(c) In the case of an onsite facility, the amount upon which the credit allowed under subsection (1) is based, with respect to any dependent, must be based upon utilization and the value of the services provided.

(3) An amount paid or incurred during the taxable year of an employer in providing dependent care assistance to or on behalf of any employee does not qualify for the credit allowed under subsection (1) if the amount was paid or incurred to an individual described in section 129(c)(1) or (2) of the Internal Revenue Code.

(4) An amount paid or incurred by an employer to provide dependent care assistance to or on behalf of an employee does not qualify for the credit allowed under subsection (1) if the amount is paid or incurred pursuant to a salary reduction plan or is paid or incurred for services not performed within this state.

(5) If the credit allowed under subsection (1) is claimed, the amount of any deduction allowed or allowable under this chapter for the amount that qualifies for the credit (or upon which the credit is based) must be reduced by the dollar amount of the credit allowed. The election to claim a credit allowed under this section must be made at the time of filing the tax return.

(6) The amount upon which the credit allowed under subsection (1) is based may not be included in the gross income of the employee to whom the dependent care assistance is provided. However, the amount excluded from the income of an employee under this section may not exceed the limitations provided in section 129(b) of the Internal Revenue Code. For purposes of Title 15, chapter 30, part 2, with respect to an employee to whom dependent care assistance is provided, "wages" does not include any amount excluded under this subsection. Amounts excluded under this subsection do not qualify as expenses for which a deduction is allowed to the employee under 15-30-121.

(7) Any tax credit otherwise allowable under this section that is not used by the taxpayer in a particular year may be carried forward and offset against the taxpayer's tax liability for the next succeeding tax year. Any credit remaining unused in the next succeeding tax year may be carried forward and used in the second succeeding tax year, and likewise through the fifth year succeeding the tax year in which the credit was first allowed or allowable. A credit may not be carried forward beyond the fifth succeeding tax year.

(8) If the taxpayer is an S corporation, as defined in section 1361 of the Internal Revenue Code, and the taxpayer elects to take tax credit relief, the election may be made on behalf of the corporation's shareholders. A shareholder's credit must be computed using the shareholder's pro rata share of the corporation's costs that qualify for the credit. In all other respects, the effect of the tax credit applies to the corporation as otherwise provided by law.

(9) For purposes of the credit allowed under subsection (1):

(a) The definitions and special rules contained in section 129(e) of the Internal Revenue Code apply to the extent applicable.

(b) "Employer" means an employer carrying on a business, trade, occupation, or profession in this state.

(1) Corporations which are affiliated may not file a consolidated return unless at least 80% of all classes of stock of each corporation involved is owned directly or indirectly by one or more members of the affiliated group.

(2) Corporations may not file a consolidated return unless the operation of the affiliated group constitutes a unitary business and, except for a unitary business operation described in subsection (2)(b), permission to file a consolidated return is given by the department of revenue. For purposes of this section, a "unitary business operation" means one in which:

(a) the business operations conducted by the corporations in the affiliated group are interrelated or interdependent to the extent that the net income of one corporation cannot reasonably be determined without reference to the operations conducted by the other corporations; or

(b) all of the corporations in the affiliated group are incorporated and operate exclusively in Montana, are not multistate corporations, and have filed a consolidated federal return for the tax year.

(3) The election to file a consolidated return is binding as long as the affiliated group continues to file a federal consolidated return.

(4) If the conditions of subsections (1) and (2) of this section are met, the department may require corporations to file a consolidated return when the department considers a consolidated return necessary.

(5) Any corporation liable to report under this chapter and owning or controlling, either directly or indirectly, at least 80% of all classes of stock of each corporation involved may be required to make a consolidated report showing the combined net income, such assets of the corporation as are required for the purposes of this chapter, and such other information as the department may require, but excluding intercorporate stockholdings and intercorporate accounts. Any corporation liable to report under this chapter and owned or controlled, either directly or indirectly, by another corporation may be required to make a report consolidated with the owning company, showing the combined net income, such assets of the corporation as are required for the purposes of this chapter, and such other information as the department may require, but excluding intercorporate stockholdings and intercorporate accounts. In case it shall appear to the department that any arrangement exists in such a manner as to improperly reflect the business done, the segregable assets, or the entire net income earned from business done in this state, the department is authorized and empowered to equitably adjust the tax in such manner as it may determine.

(6) (a) A majority of the corporation license tax collected from financial institutions is paid to local government areas in which each financial institution is located. However, consolidated returns for financial institutions do not reflect the true tax attributable to each local government. In addition, consolidated returns would permit financial institutions to offset income against losses of nonfinancial institutions, thereby distorting the true income of each financial organization.

(b) In accordance with subsection (6)(a), financial institutions are prohibited from filing consolidated returns under this section.

15-31-142. Reports upon merger of corporations. If any corporation shall acquire, either directly, indirectly, or by merger or consolidation, the major portion of the actively employed assets of another corporation or of corporations doing any business in this state during any year or shall merge or consolidate another corporation, it shall within 30 days after such acquisition, merger, or consolidation file a report and include therein a statement showing its own and the consolidated entire net income of all such corporations for preceding calendar or fiscal years to the extent that all such income has not been used or included in measuring a corporation excise tax to this state. It shall, in any event, be liable for and pay all taxes that would have been due and payable by the corporation or corporations on or before the first day of January next succeeding had the corporation or corporations whose assets were acquired or which were merged or consolidated continued in business and as though there had been no interruption or change of the business thereof or discontinuance of the privilege of doing business. It shall also include in its own next annual return, in addition to its own entire net income, so much of the entire net income of corporations whose assets it acquired or which were merged or consolidated as shall not have been used or included in measuring a corporation excise tax to this state and shall be taxed upon such combined entire net income for the year to ensue.

History: En. Sec. 6, Ch. 166, L. 1933; re-en. Sec. 2303.2, R.C.M. 1935; R.C.M. 1947, 84-1510.

15-31-143. Return and payment on corporate dissolution. (1) It is hereby declared that the policy of the state of Montana, both at the time of the enactment of the corporation license tax law and at all times since, has been and still is that every corporation doing business in Montana shall pay an excise tax for the exercise of such privilege and that the amount of such tax shall be based upon the total taxable net income of such corporations during the entire period of time they are engaged in business in this state. No remission of that obligation for the last year in which a corporation engages in business in Montana was intended by the original enactment of this section.

(2) Therefore, every corporation which shall be dissolved or cease to do business in Montana at any time during any year shall, before such dissolution or cessation of business, make a return and pay the corporation license tax determined on the basis of its net income for the final period in which it did business in this state at the rate provided in 15-31-121 and 15-31-122, in addition to all other corporation license taxes for which such corporation may then be liable.

Part 3

Allocation and Apportionment of Income

15-31-301. Corporations subject to allocation and apportionment. (1) Any corporation having income from business activity which is taxable both within and without this state shall allocate and apportion its net income as provided in this part.

(2) A corporation engaged in a unitary business within and without Montana must apportion its business income as provided for under 15-31-305. A business is unitary when the operation of the business within the state is dependent upon or contributory to the operation of the business outside the state or if the units of the business within and without the state are closely allied and not capable of separate maintenance as independent businesses.

(3) A corporation not engaged in a unitary business must allocate its business income by means of separate accounting methods, provided its books and records are so kept that the income and expenses attributable to business operations within the state can be properly segregated from total income and expense. If the corporation's books and records do not permit such proper segregation, its business income must be apportioned according to the provisions of 15-31-305.

History: En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(1).

15-31-302. Definitions. (1) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(2) "Nonbusiness income" means all income other than business income.

(3) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

(4) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services.

(5) "Sales" means all gross receipts of the taxpayer not allocated under 15-31-304.

(6) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

15-31-303. When taxable in another state. For the purposes of allocation and apportionment of income, a corporation is taxable in another state if:

(1) by reason of the corporation's business activities carried on in that state it is subjected to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(2) that state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether, in fact, the state does or does not subject the taxpayer to a net income tax.

15-31-304. Allocation of nonbusiness income. (1) Rents and royalties from real or tangible personal property, capital gains, interest, dividends, or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in subsections (2) through (5) of this section.

(2) (a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state:

(i) if and to the extent that the property is utilized in this state; or

(ii) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

(3) (a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if:

(i) the property had a situs in this state at the time of the sale; or

(ii) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

(4) Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

(5) (a) Patent and copyright royalties are allocable to this state if and to the extent that:

(i) the patent or copyright is utilized by the payer in this state; or

(ii) the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

15-31-305. Apportionment of business income. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor and the denominator of which is 3.

History: **En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(9).**

15-31-306. Definition of property factor. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state in the production of business income during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used in the production of business income during the tax period.

History: **En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(10).**

15-31-307. Values used for property factor. (1) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at 8 times the net annual rental rate. The net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(2) The average value of property shall be determined by averaging the values at the beginning and ending of the tax period, but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

History: **En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(11), (12).**

15-31-308. Definition of payroll factor. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation attributable to the production of business income and the denominator of which is the total amount paid everywhere during the tax period for compensation attributable to the production of business income.

History: **En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(13).**

15-31-309. Payroll factor for compensation in this state. Compensation is paid in this state if:

(1) the individual's service is performed entirely within the state;

(2) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

(3) some of the service is performed in the state and:

(a) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or

(b) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed but the individual's residence is in this state.

History: En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(14).

15-31-310. Definition of sales factor. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

History: En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(15).

15-31-311. Sales factor for sales in this state. (1) Sales of tangible personal property are in this state if:

(a) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and:

(i) the purchaser is the United States government; or

(ii) the taxpayer is not taxable in the state of the purchaser.

(2) Sales, other than sales of tangible personal property, are in this state if:

(a) the income-producing activity is performed in this state; or

(b) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

History: En. Sec. 3, Ch. 166, L. 1933; re-en. Sec. 2297.1, R.C.M. 1935; amd. Sec. 1, Ch. 219, L. 1957; amd. Sec. 1, Ch. 143, L. 1969; amd. Sec. 55, Ch. 516, L. 1973; amd. Sec. 2, Ch. 5, L. 1974; R.C.M. 1947, 84-1503(16), (17).

15-31-312. Apportionment formula — relief provisions. If the allocation and apportionment provisions of this part do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(1) separate accounting, provided the taxpayer's activities in this state are separate and distinct from its operations conducted outside this state and are not a part of a unitary business operation conducted within and without this

state. For purposes of this part, a "unitary business" is one in which the business conducted within the state is dependent upon or contributory to the business conducted outside this state or if the units of the business within and without this state are closely allied and not capable of separate maintenance as independent businesses.

(2) the exclusions of any one or more of the factors;

(3) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(4) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

15-31-314 through 15-31-320 reserved.

15-31-321. Definitions. As used in 15-31-321 through 15-31-326, unless the context requires otherwise, the following definitions apply:

(1) "Affiliated corporation" means a United States parent corporation and any subsidiary of which more than 50% of the voting stock is owned directly or indirectly by another corporate member of the water's-edge combined group.

(2) "United States" means the 50 states of the United States and the District of Columbia.

(3) "Water's-edge combined group" means all corporations or entities included in the election of a taxpayer under 15-31-322.

History: En. Sec. 1, Ch. 616, L. 1987.

15-31-322. Water's-edge election. Notwithstanding any other provisions of law, a taxpayer subject to the taxes imposed under this chapter may apportion its income under this section. A return under a water's-edge election must include the income and apportionment factors of the following affiliated corporations only:

(1) a corporation incorporated in the United States in a unitary relationship with the taxpayer and eligible to be included in a federal consolidated return as described in sections 1501 through 1505 of the Internal Revenue Code that has more than 20% of its payroll and property assignable to locations inside the United States. For purposes of determining eligibility for inclusion in a federal consolidated return under this subsection (1), the 80% stock ownership requirements of section 1504 of the Internal Revenue Code must be reduced to ownership of over 50% of the voting stock directly or indirectly owned or controlled by an includable corporation.

(2) domestic international sales corporations, as described in sections 991 through 994 of the Internal Revenue Code, and foreign sales corporations, as described in sections 921 through 927 of the Internal Revenue Code;

(3) export trade corporations, as described in sections 970 and 971 of the Internal Revenue Code;

(4) foreign corporations deriving gain or loss from disposition of a United States real property interest to the extent recognized under section 897 of the Internal Revenue Code;

(5) a corporation incorporated outside the United States if over 50% of its voting stock is owned directly or indirectly by the taxpayer and if more than 20% of the average of its payroll and property is assignable to a location inside the United States.

History: **En. Sec. 2, Ch. 616, L. 1987.**

15-31-323. Apportionment factors. For purposes of 15-31-322(1) and (5), the location of payroll and property is determined under the individual state's laws and regulations that set forth the apportionment formulas used to assign net income subject to taxes on or measured by net income. If a state does not impose a tax on or measured by net income, apportionment is determined under this chapter.

History: **En. Sec. 3, Ch. 616, L. 1987.**

15-31-324. Water's-edge election period — consent. (1) A water's-edge election may be made by a taxpayer and is effective only if every affiliated corporation subject to the taxes imposed under this chapter consents to the election. Consent by the common parent of an affiliated group constitutes consent of all members of the group. An affiliated corporation that becomes subject to taxes under this chapter subsequent to the water's-edge election is considered to have consented to the election.

(2) Each water's-edge election must be for 3-year renewable periods, except as follows:

(a) No water's-edge election may be made for an income year beginning before October 1, 1987.

(b) A water's-edge election may be changed by a taxpayer prior to the end of each 3-year period only with the permission of the department of revenue. In granting a change of election, the department shall impose reasonable conditions that are necessary to prevent the avoidance of tax or clearly reflect income for the election period prior to the change.

History: **En. Sec. 4, Ch. 616, L. 1987.**

15-31-325. Treatment of dividends. For purposes of 15-31-321 through 15-31-326, dividends must be treated as follows:

(1) Dividends received from corporations incorporated outside the United States, to the extent taxable, are considered income subject to apportionment.

(2) The after-tax net income of United States corporations excluded from eligibility as affiliated corporations under 15-31-322(1) and possession corporations described in sections 931 through 934 and 936 of the Internal Revenue Code are considered dividends received from corporations incorporated outside the United States.

(3) Amounts included in income under sections 951 through 962 and 964 of the Internal Revenue Code are considered dividends from corporations incorporated outside the United States.

(4) Eighty percent of all dividends apportionable under this section must be excluded from income subject to apportionment.

(5) "Deemed" distributions, as set forth in section 78 of the Internal Revenue Code, and corresponding amounts with respect to dividends considered received under subsection (2) of this section must be excluded from the income of the water's-edge combined group.

(6) The dividends apportionable under this section are in lieu of any expenses attributable to dividend income.

(7) A dividend from a corporation required to be combined in the water's-edge combined group must be eliminated from the calculation of apportionable income.

History: **En. Sec. 5, Ch. 616, L. 1987.**

15-31-326. Domestic disclosure spreadsheet. The department of revenue may require taxpayers making a water's-edge election to submit within 6 months after the taxpayer files its federal income tax return a domestic disclosure spreadsheet to provide full disclosure of the income reported to each state for the year, the tax liability for each state, the method used for allocating or apportioning income to the states, and the identity of the water's-edge corporate group and those of its United States affiliated corporations.

(2) Income from sources within this state includes income from tangible or intangible property located in or having a situs in this state and income from any activities carried on in this state, regardless of whether carried on in intrastate, interstate, or foreign commerce, but does not include interest paid on loans held by out-of-state financial institutions recognized as such in the state of their domicile, secured by mortgages, trust indentures, or other security interests on real or personal property located within the state, if the loan is originated by a lender doing business in Montana and assigned out-of-state and there is no activity conducted by the out-of-state lender in Montana except periodic inspection of the security.

15-31-503. Deficiency assessment — hearing — interest. (1) If the department of revenue determines that the amount of tax due is greater than the amount disclosed by the return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after the mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in its protest an oral hearing or an opportunity to present additional evidence relating to its tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If such protest is filed, the department shall reconsider the proposed assessment and, if the taxpayer has so requested, shall grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented in the event of an oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail notice and demand to the taxpayer for the payment thereof, and the tax shall be due and payable at the expiration of 10 days from the date of such notice and demand. Interest on any deficiency assessment shall bear interest from the date specified in 15-31-502 for payment of the tax. A certificate by the department of the mailing of the notices specified in this subsection shall be prima facie evidence of the computation and levy of the deficiency in tax and of the giving of the notices.

For the purposes of this section, a return filed before the last day prescribed for filing shall be considered as filed on such last day. Where, before the expiration of the period prescribed for assessment of the tax, the taxpayer consents in writing to an assessment after the time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The limitations prescribed for giving notice of a proposed assessment of additional tax shall not apply when:

(a) the taxpayer has by written agreement suspended the federal statute of limitations for collection of federal tax, provided the suspension of the limitation set forth in this section shall last:

(i) only so long as the suspension of the federal statute of limitation; or

(ii) until 1 year after any federal changes have become final or any amended federal return is filed as a result of such suspension of the federal statute, whichever is the latest in time; or

(b) a taxpayer has failed to file a report of changes in federal taxable income or an amended return as required by 15-31-506 until 5 years after the federal changes become final or the amended federal return was filed, whichever the case may be.

(2) No refund or credit shall be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires the later, unless before the expiration of such period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) of this section to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed in the event no claim is filed shall automatically be so extended.

15-31-510. Estimated payments — interest penalty — tax returns — penalty — interest. (1) For corporations failing to make estimated payments according to the schedule provided in 15-31-502(2), there is assessed a 20% per annum underpayment interest penalty calculated as follows:

(a) For purposes of this subsection (a), the amount of underpayment is in excess of the amount of the installment that would be required to be paid if the estimated tax were equal to 80% of the tax shown on the return for the taxable year or, if no return was filed, 80% of the tax for the year over the amount, if any, of the installment paid on or before the last date prescribed for payment.

(b) Notwithstanding the provisions of subsection (1)(a), the interest penalty with respect to an underpayment of any installment may not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of the installment equals or exceeds the amount that would have been required to be paid on or before that date if the estimated tax were the lesser of the following:

(i) the tax shown on the return of the corporation for the preceding taxable year if a return showing a liability for tax was filed for the preceding taxable year and the preceding year was a taxable year of 12 months;

(ii) an amount equal to the tax computed at the rates applicable to the taxable year, but otherwise on the basis of the facts shown on the return of the corporation for, and the law applicable to, the preceding taxable year; or

(iii) an amount equal to 80% of the tax for the taxable year, computed by placing on an annualized basis the taxable income:

(A) for the first 3 months of the taxable year in the case of the installment required to be paid in the 4th month;

(B) for the first 3 months or for the first 5 months of the taxable year in the case of the installment required to be paid in the 6th month;

(C) for the first 6 months or for the first 8 months of the taxable year in the case of the installment required to be paid in the 9th month; and

(D) for the first 9 months or for the first 11 months of the taxable year in the case of the installment required to be paid in the 12th month of the taxable year.

(c) For purposes of subsection (1)(b)(iii), the taxable income must be placed on an annualized basis by:

(i) multiplying by 12 the taxable income referred to in subsection (1)(b)(iii); and

(ii) dividing the resulting amount by the number of months in the taxable year (3, 5, 6, 8, 9, or 11, as the case may be) referred to in subsection (1)(b)(iii).

(d) Notwithstanding subsections (1)(a) through (1)(c), the interest penalty with respect to an underpayment of any installment may not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of the installment equals or exceeds 80% of the amount determined under subsection (1)(e).

(e) To determine the amount under this subsection (e) for any installment:

(i) take the taxable income for all months during the taxable year preceding the filing month;

(ii) divide the amount by the base period percentage for all months during the taxable year preceding the filing month;

(iii) determine the tax on the amount calculated under subsection (1)(e)(ii); and

(iv) multiply the tax computed under subsection (1)(e)(iii) by the base period percentage for the filing month and all months during the taxable year preceding the filing month.

(f) For purposes of this subsection (1):

(i) the base period percentage for any period of months is the average percentage that the taxable income for the corresponding months in each of the 3 preceding taxable years bears to the taxable income of the 3 preceding years;

(ii) the term "filing month" means the month in which the installment is required to be paid;

(iii) this subsection (1) applies only if the base period percentage for any 6 consecutive months of the taxable year equals or exceeds 70%; and

(iv) the department of revenue may by rule provide for the determination of the base period percentage in the case of reorganizations, new corporations, and other similar circumstances.

(2) If the tax for any corporation is not paid on or before the due date of the return as provided in 15-31-111(2), there is assessed a penalty of 10% of the amount of the tax due, unless it is shown that the failure was due to reasonable cause and not to neglect.

(3) If any tax due under this section is not paid when due, by reason of extension granted or otherwise, interest is added to the tax due at the rate of 12% a year from the due date until paid.

Provided that if any domestic corporation shall fail for a period of 5 consecutive years to either file a return or to pay the corporation license tax, the department of revenue shall notify such corporation by mail addressed to the latest address on file in its office that such corporation will become dissolved if it fails to file all delinquent reports and pay all delinquent corporation license taxes within a period of 60 days from and after the mailing of such notice. If such delinquent reports are not made and all delinquent corporation licenses are not paid before the expiration of said 60-day period, the department shall certify this fact to the secretary of state, and upon receipt of such certificate, the corporation shall be dissolved and the secretary of state shall indicate, by his records, such dissolution.

(2) The department shall transmit the name of each such corporation to the secretary of state, who shall immediately record the same in such manner that it may be available to the public. The suspension, forfeiture, or dissolution herein provided for shall become effective immediately when such record is made, and the certificate of the secretary of state shall be conclusive evidence of such suspension, forfeiture, or dissolution.

15-31-524. Reviver of corporation after suspension or forfeiture. Any corporation which has suffered the suspension or forfeiture referred to in the preceding section may be relieved therefrom upon making application therefor in writing supported by a certificate from the department of revenue showing that the required return has been made and filed and/or that the tax and interest and penalties have been paid, for which the suspension or forfeiture occurred. Application for reviver may be made by any stockholder or creditor of the corporation or by a majority of the surviving trustees or directors; and the same shall be filed with the secretary of state, for which he shall receive a filing and recording fee of $15. In case the application is made more than 1 year from the date the suspension or forfeiture occurred, the applicant shall pay twice the amount of the tax and penalties due the state for the taxable year with respect to which the suspension or forfeiture occurred. Upon such payment, the secretary of state shall issue a certificate of reviver for which he shall collect a fee of $15 and thereupon the applicant shall be revived. The reviver shall be without prejudice to any action, defense, or right which has accrued by reason of the original suspension or forfeiture. (1) Within 30 days after receiving corporation license tax returns and payments from banks or savings and loan associations, the department of revenue shall transmit to the county treasurer of the county in which the business is located the revenues calculated under 15-31-702(1)(b).

(2) If the department of revenue determines, under the provisions of 15-31-503 and 15-31-531, that a bank or savings and loan association owes more taxes than shown on the original return or has paid more than the tax, penalty, or interest due in any year, it shall notify the bank or savings and loan association. Additional payment is due within 10 days after receipt of the final determination of taxes due. County treasurers shall issue warrants for their portion of the overpayment received and interest, as provided in 15-31-531.

(2) The corporation license taxes distributed under subsection (1)(b) shall be allocated to each taxing jurisdiction in the proportion that its mill levy for that fiscal year bears to the total mill levy of the taxing authorities of the district in which the bank or savings and loan association is located.

(3) "Taxing jurisdictions" means, for the purposes of this section, all taxing authorities within a county permitted under state law to levy mills against the taxable value of property in the taxing district in which the bank or savings and loan association is located.

(4) If a return filed by a bank or savings and loan association involves branches or offices in more than one taxing jurisdiction, the department of revenue shall provide a method by rule for equitable distribution among those taxing jurisdictions.

Part 1

Investment in Energy Conservation or Alternative Energy

15-32-101. Purpose. The purpose of this part is to encourage the use of alternative energy sources and the conservation of energy through incentive programs. Such incentives are to be made available to the energy user on a basis which requires him to take the initiative in obtaining a particular incentive. This part allows but does not require a public utility to extend credit for energy conservation investments.

History: En. 84-7401 by Sec. 1, Ch. 548, L. 1975; amd. Sec. 7, Ch. 576, L. 1977; R.C.M. 1947, 84-7401.

15-32-102. Definitions. As used in this part, the following definitions apply:

(1) "Building" means a single or multiple dwelling, including a mobile home, or a building used for commercial, industrial, or agricultural purposes, which is enclosed with walls and a roof.

(2) "Capital investment" means any material or equipment purchased and installed in a building or land with or without improvements.

(3) "Energy conservation purpose" means one or more of the following results of an investment: reducing the waste or dissipation of energy or reducing the amount of energy required to accomplish a given quantity of work.

(4) "Passive solar system" means a direct thermal energy system that uses the structure of a building and its operable components to provide heating or cooling during the appropriate times of the year by using the climate resources available at the site. It includes only those portions and components of a building that are expressly designed and required for the collection, storage, and distribution of solar energy and that are not standard components of a conventional building.

(5) "Low emission wood or biomass combustion device" means a stove or furnace or a catalytic converter added to a stove or furnace which burns wood or other nonfossil biomass and which has an emission rate of less than 6 grams per hour when tested in conformance with the standard method for measuring the emissions and efficiencies of residential wood stoves as adopted by the department of health and environmental sciences pursuant to 15-32-203.

(6) "Recognized nonfossil forms of energy generation" means:

(a) a system for the utilization of solar energy including passive solar systems, wind, solid wastes, or the decomposition of organic wastes for capturing energy or converting energy sources into usable sources;

(b) a system for the production of electric power from solid wood wastes;

(c) a low-emission wood or biomass combustion device; or

(d) a small system for the utilization of water power by means of an impoundment not over 20 acres in surface area.

History: En. 84-7402 by Sec. 2, Ch. 548, L. 1975; R.C.M. 1947, 84-7402; amd. Sec. 1, Ch. 652, L. 1979; amd. Sec. 1, Ch. 513, L. 1985; amd. Sec. 16, Ch. 83, L. 1989.

15-32-103. Deduction for energy-conserving investments. (1) In addition to all other deductions from gross corporate income allowed in computing net income under chapter 31, part 1, a taxpayer may deduct a portion of his expenditure for a capital investment in a building for an energy conservation purpose, in accordance with the following schedule:

If the installation or investment is made in a residential building:	If the installation or investment is made in a building not used as a residence:
100% of first $1,000 expended	100% of first $2,000 expended
50% of next $1,000 expended	50% of next $2,000 expended
20% of next $1,000 expended	20% of next $2,000 expended
10% of next $1,000 expended	10% of next $2,000 expended

(2) This tax treatment is subject to approval of the department as provided in 15-32-106 and may not be claimed for so much of the expenditure

and capital investment as is financed by a state, federal, or private grant for energy conservation.

History: En. 84-7403 by Sec. 3, Ch. 548, L. 1975; amd. Sec. 1, Ch. 576, L. 1977; R.C.M. 1947, 84-7403; amd. Sec. 5, Ch. 480, L. 1981; amd. Sec. 1, Ch. 133, L. 1989.

Compiler's Comments

1989 Amendment: In (2), after "approval of the department", deleted "of an application".

15-32-104. Limitations on deduction and credit. Tax treatment under 15-32-103 and 15-32-109 is limited to:

(1) capital investments made after January 1, 1975;

(2) persons and firms not primarily engaged in the provision of gas or electricity derived from fossil fuel extraction or conventional hydroelectric development; and

(3) a ceiling of $100,000 in tax savings per year to any one person or firm.

History: En. 84-7406 by Sec. 6, Ch. 548, L. 1975; R.C.M. 1947, 84-7406; amd. Sec. 6, Ch. 480, L. 1981.

15-32-105. Application to new construction — rules. (1) It is the intent of the legislature that no deduction or credit under this part be allowed for capital investment for an energy conservation practice in the new construction of a building if that capital investment would have been made under established standards of new construction. The department of revenue shall adopt rules to implement this legislative intent. Such rules shall be based on the best currently available methods of analysis, including those of the national bureau of standards, the department of housing and urban development, and other federal agencies and professional societies and materials developed by the department. Provisions shall be made for an annual updating of rules and standards as required.

(2) The department may adopt rules to define standard components of conventional buildings and to establish other necessary elements of the definition of passive solar system consistent with the intent of 15-32-102.

History: En. Sec. 6, Ch. 576, L. 1977; amd. Sec. 7, Ch. 480, L. 1981.

15-32-106. Procedure for obtaining benefit of deduction or credit. The department of revenue shall provide forms on which a taxpayer may apply for a tax credit under 15-32-109. The department of revenue shall approve a deduction or credit under 15-32-103 or 15-32-109 which demonstrably promotes energy conservation or utilizes a recognized nonfossil form of energy generation. The department of revenue may refer a deduction or credit involving energy generation to the department of natural resources and conservation for its advice, and the department of natural resources and conservation shall respond within 60 days. The department of revenue may refer a deduction or credit involving energy conservation to the department of administration for its advice, and the department of administration shall respond within 60 days. The department of revenue may deny a deduction or credit which it finds to be impractical or ineffective.

History: En. 84-7404 by Sec. 4, Ch. 548, L. 1975; R.C.M. 1947, 84-7404; amd. Sec. 8, Ch. 480, L. 1981; amd. Sec. 2, Ch. 133, L. 1989.

Compiler's Comments

1989 Amendment: In first sentence substituted "a tax credit" for "tax treatment" and deleted a reference to 15-32-103; deleted former second sentence that read: "Application shall be made to the department of revenue"; in second sentence substituted "a deduction or credit under 15-32-103 or 15-32-109" for "an application"; and in each of the last three sentences substituted "a deduction or credit" for "an application".

15-32-107. Loans by utilities and financial institutions — tax credit for interest differential. (1) A public utility providing electricity or natural gas may install or pay for the installation of energy conservation materials or recognized nonfossil forms of energy generation systems in a dwelling. The utility may agree with the occupant of the dwelling that the occupant shall reimburse the utility for its expenditure in periodic installment payments added to the occupant's regular bill for electricity or natural gas. The utility may charge interest not exceeding the equivalent of 7% per year on the declining balance of the sum advanced for the installation of energy conservation materials and recognized nonfossil forms of energy generation systems.

(2) A financial institution, as defined in 32-6-103, may offer and make loans at an interest rate not less than 2 percentage points below the discount rate on 90-day commercial paper in effect at the federal reserve bank in the ninth federal reserve district.

(3) Except as provided in subsection (6), a public utility or a financial institution lending money under this section may compute the difference between interest it actually receives on such transactions and the interest which would have been received at the prevailing average interest rate for home improvement loans, as prescribed in rules made by the public service commission. The utility may apply the difference so computed as a credit against its tax liability for the electrical energy producer's license tax under 15-51-101 or for the corporation license tax under chapter 31, part 1. The public service commission shall regulate rates in such a manner that a utility making loans under this section may not make a profit as the result of this section. The financial institution may apply the difference so computed as a credit against its tax liability for the corporation license tax under chapter 31, part 1.

(4) A utility may not claim a tax credit under this section exceeding $750,000 in any tax year. A financial institution may not claim a tax credit under this section exceeding $2,000 in any tax year.

(5) The public service commission may make rules to implement this section as it shall apply to public utilities only.

(6) A public utility whose purchases of or investments in conservation are placed in the rate base as provided in Title 69, chapter 3, part 7, may not receive a tax credit under subsection (3).

15-32-108. Extension of existing classifications. Any classification of property under the provisions of section 3, Chapter 548, Laws of 1975, that existed prior to January 1, 1977, approved by the department of revenue before April 19, 1977, shall continue in effect until December 31, 1982. On January 1, 1983, the taxable percentage of such property shall be determined under chapter 6, part 1, or that part as it may be recodified or amended.

History: **En. Sec. 9, Ch. 576, L. 1977; R.C.M. 1947, 84-7403.1; amd. Sec. 26, Ch. 581, L. 1979.**

15-32-109. Credit for energy-conserving expenditures. (1) Subject to the restrictions of subsections (2) and (3), a resident individual taxpayer may take as a credit against the taxpayer's tax liability under chapter 30 a portion of his expenditure for a capital investment in a building for an energy conservation purpose, determined as follows:

(a) in the case of an expenditure for a residential building, the lesser of:

(i) $150; or

(ii) 5% of the expenditure; and

(b) in the case of an expenditure for a building not used as a residence, the lesser of:

(i) $300; or

(ii) 5% of the expenditure.

(2) The credit or the sum of the credits under subsection (1):

(a) may not exceed the taxpayer's tax liability; and

(b) is subject to the provisions of 15-32-104.

(3) There is no carryback or carry-forward of the credit permitted under this section, and the credit must be applied in the year the expenditure is incurred, as determined by the taxpayer's accounting method.

History: En. Sec. 1, Ch. 480, L. 1981.

Part 2

Tax Credit for Installing Alternative Energy System

15-32-201. Amount of credit — to whom available. A resident individual taxpayer who completes installation of an energy system using a recognized nonfossil form of energy generation, as defined in 15-32-102, in such taxpayer's principal dwelling prior to January 1, 1993, or who acquires title to a dwelling prior to January 1, 1993, that is to be used as the taxpayer's principal dwelling and is equipped with an energy system for which the credit allowed by this part has never been claimed, is entitled to claim a tax credit in an amount equal to 10% of the first $1,000 and 5% of the next $3,000 of the cost of such system, including installation costs, less grants received or, if the federal government provides for a tax credit substantially similar in kind (not in amount), then a tax credit in an amount equal to 5% of the first $1,000 and 2 ½% of the next $3,000 of the cost of such system, including installation costs, less grants received, against the income tax liability imposed against such taxpayer pursuant to chapter 30.

History: En. 84-7414 by Sec. 1, Ch. 574, L. 1977; R.C.M. 1947, 84-7414(1); amd. Sec. 1, Ch. 480, L. 1983; amd. Sec. 2, Ch. 513, L. 1985.

15-32-202. Taxable years in which credit may be claimed — carryover. The tax credit is to be deducted from the taxpayer's income tax liability for the taxable year in which the energy system was acquired by the taxpayer. If the amount of the tax credit exceeds the taxpayer's income tax liability for the taxable year, the amount which exceeds the tax liability may be carried over for deduction from the taxpayer's income tax liability in the next succeeding taxable year or years until the total amount of the tax credit has been deducted from tax liability. Notwithstanding the foregoing provision, no tax credit may be carried over for deduction after the fourth taxable year succeeding the taxable year in which the energy system was acquired.

History: **En. 84-7414 by Sec. 1, Ch. 574, L. 1977; R.C.M. 1947, 84-7414(2).**

15-32-203. Department to make rules. (1) The department of revenue shall prescribe rules necessary to carry out the purposes of this part.

(2) The department of health and environmental sciences shall adopt rules establishing emission testing and emission certification standards for low emission wood or biomass combustion devices and maintain a list of such devices that are certified.

History: **En. 84-7415 by Sec. 3, Ch. 574, L. 1977; R.C.M. 1947, 84-7415; amd. Sec. 3, Ch. 513, L. 1985.**

Part 3

Tax Deduction for Purchasing Montana Produced Organic Fertilizer

15-32-301. Purpose. The purpose of this part is to promote the use of organic matter produced by Montana industries and municipalities to revitalize Montana lands and to assist in making organic fertilizer economically competitive with inorganic fertilizer.

History: **En. Sec. 1, Ch. 533, L. 1981.**

15-32-302. Definitions. As used in this part, the following definitions apply:

(1) "Raw organic matter" means unprocessed plant or animal waste products.

(2) "Organic fertilizer" means raw organic matter that has been processed and aged for use in increasing soil condition and fertility, and includes soil amendments as that term is defined in 80-10-101.

History: **En. Sec. 2, Ch. 533, L. 1981.**

15-32-303. Deduction for purchase of Montana produced organic fertilizer. In addition to all other deductions from adjusted gross individual income allowed in computing taxable income under Title 15, chapter 30, or from gross corporate income allowed in computing net income under Title 15, chapter 31, part 1, a taxpayer may deduct his expenditures for organic fertilizer produced in Montana and used in Montana if the expenditure was not otherwise deducted in computing taxable income.

History: **En. Sec. 3, Ch. 533, L. 1981.**

Part 4

Wind-Generated Electricity

15-32-401. Purpose and statement of policy. The purpose of this part is to encourage the development of a wind energy industry in Montana without adversely affecting tax revenues received from existing economic activity in the state. Because of the wind energy potential within the state, it is desirable to encourage wind energy generation for the purpose of attracting wind energy manufacturing industries to the state. It is also desirable for new or expanded industry to secure wind-generated electricity on a direct contract sales basis without adversely affecting rates charged to other electricity users. Sound fiscal policy requires that encouragement be given to a wind energy industry without subtracting from existing sources of revenue to the state.

History: **En. Sec. 1, Ch. 648, L. 1983.**

15-32-402. Commercial investment credit — wind-generated electricity. (1) An individual, corporation, partnership, or small business corporation as defined in 15-31-201 that makes an investment of $5,000 or more in certain depreciable property qualifying under section 38 of the Internal Revenue Code of 1954, as amended, for a commercial system located in Montana which generates electricity by means of wind power is entitled to a tax credit against taxes imposed by 15-30-103 or 15-31-121 in an amount equal to 35% of the eligible costs, to be taken as a credit only against taxes due as a consequence of taxable or net income produced by one of the following:

(a) manufacturing plants located in Montana that produce wind energy generating equipment;

(b) a new business facility or the expanded portion of an existing business facility for which the wind energy generating equipment supplies, on a direct contract sales basis, the basic energy needed; or

(c) the wind energy generating equipment in which the investment for which a credit is being claimed was made.

(2) For purposes of determining the amount of the tax credit that may be claimed under subsection (1), eligible costs include only those expenditures that qualify under section 38 of the Internal Revenue Code of 1954, as amended, and that are associated with the purchase, installation, or upgrading of:

(a) generating equipment;

(b) safety devices and storage components;

(c) transmission lines necessary to connect with existing transmission facilities; and

(d) transmission lines necessary to connect directly to the purchaser of the electricity when no other transmission facilities are available.

(3) Eligible costs under subsection (2) must be reduced by the amount of any grants provided by the state or federal government for the system.

History: **En. Sec. 2, Ch. 648, L. 1983.**

15-32-403. Limitation on credit. Whenever any federal wind energy tax credits for a system that generates electricity by means of wind power are allowed or allowable under section 48(1) of the Internal Revenue Code or any other federal law, the state credit allowed by 15-32-402 must be reduced by the amount of federal credits so that the effective credit does not exceed 60% of the eligible costs.

History: **En. Sec. 3, Ch. 648, L. 1983.**

15-32-404. Carryover of credit. The tax credit allowed under 15-32-402 is to be deducted from that portion of the taxpayer's tax liability as set forth in 15-32-402(1) for the taxable year in which the equipment invested in by the taxpayer is placed in service. If the amount of the tax credit exceeds the taxpayer's tax liability for the taxable year, the amount that exceeds the tax liability may be carried over for credit against the taxpayer's tax liability in the next succeeding taxable year or years until the total amount of the tax credit, subject to the limitation of 15-32-403, has been deducted from tax liability. However, no credit may be carried beyond the seventh taxable year succeeding the taxable year in which the equipment was placed in service.

History: En. Sec. 4, Ch. 648, L. 1983.

15-32-405. Exclusion from other tax incentives. If a credit is claimed for an investment pursuant to this part, no other state energy or investment tax credit, including but not limited to the tax credits allowed by 15-30-162 and 15-31-123 through 15-31-125, may be claimed for the investment. Property tax reduction allowed by 15-6-201(3) may not be applied to a facility for which a credit is claimed pursuant to this part.

History: En. Sec. 5, Ch. 648, L. 1983; amd. Sec. 8, Ch. 648, L. 1983.

15-32-406. Separation of credit portion. In the case of a business, a portion of which qualifies for the credit pursuant to 15-32-402 and a portion of which does not qualify for the credit, taxes due from each portion must be separated by using the three-factor formula provided in 15-31-305.

History: En. Sec. 6, Ch. 648, L. 1983.

15-32-407. Rules authorized. The department of revenue is authorized to adopt rules to implement this part. The purpose of such rules must be to insure the following:

(1) proper and efficient administration of this part;

(2) proper reporting of information and payment of any amounts due by persons claiming the credit pursuant to this part;

(3) the claiming of the credit only against taxes due as a consequence of income produced by new economic activity in the state as described in 15-32-402.

History: En. Sec. 7, Ch. 648, L. 1983.

15-33-101. Short title. This part may be cited as the "Small Business Investment Incentive Act".

History: **En. Sec. 1, Ch. 571, L. 1981.**

15-33-102. Purpose. The purpose of this part is to encourage private sector investment in venture capital firms called small business investment companies, which are organized for the purpose of diversifying and strengthening employment opportunities of companies within Montana. This part, by establishing limited tax exemptions, demonstrates a recognition by the legislature that significant incentives must be offered to attract private risk capital to manufacturing, agricultural, and timber product processing companies when the alternative investments for private risk capital are natural resource ventures, which often yield extremely high rates of return. The legislature further recognizes the necessity of tax incentives for investors in manufacturing, agricultural, and timber product processing, given the hardship caused many Montana communities by their reliance on an economic base dominated by single, large industries.

History: **En. Sec. 2, Ch. 571, L. 1981.**

15-33-103. Definition. For the purposes of this part, "small business investment company" or "SBIC" means a small business investment company as defined in section 103 of the federal Small Business Investment Act of 1958, as amended.

History: **En. Sec. 3, Ch. 571, L. 1981.**

15-33-104. Reporting — recordkeeping by the department. The chairman or president of each small business investment company shall report on a form established by the department on a monthly basis the name of each investor, the amount of the investment made, and the date of investment.

History: **En. Sec. 4, Ch. 571, L. 1981.**

15-33-105. Rulemaking authority. The department of revenue may adopt rules necessary to carry out the provisions of this part.

15-33-106. Capital gains — dividends exempted. Any capital gains or dividend income realized by an individual or a corporation from an investment in an SBIC organized in accordance with this part is exempt from taxation under the provisions of Title 15, chapters 30 and 31.

15-35-101. Legislative findings and declarations of purpose. (1) The legislature finds that while coal is extracted from the earth like metal minerals, there are differences between coal and metal minerals such that they should be classified in different categories for taxation purposes. The legislature finds that while coal can be utilized like petroleum products, there are differences between coal and petroleum such that they should be classified in different categories for taxation purposes. The legislature further finds that:

(a) coal is the only mineral which can supply energy while being easily found in abundance in Montana;

(b) coal is the only mineral which is so often marketed through sales contracts of many years' duration;

(c) coal, unlike most minerals, varies widely in composition and consequent value when marketed;

(d) coal in Montana is subject to regional and national demands for development which could affect the economy and environment of a larger portion of the state than any other mineral development has done;

(e) subbituminous coal and lignite coal in Montana have sufficiently different markets and value and therefore require different production taxes;

(f) coal produced in underground mines has higher production costs and underground producers are able to pay lesser amounts of royalty and production tax than strip-mine producers can pay; and

(g) coal production in Montana has been subject to an uncoordinated array of taxes which overlap one another and yield revenue in an inconsistent and unpredictable manner.

(2) The legislature declares that the purposes of this chapter are to:

(a) allow the severance taxes on coal production to remain a constant percentage of the price of coal;

(b) stabilize the flow of tax revenue from coal mines to local governments through the property taxation system;

(c) simplify the structure of coal taxation in Montana, reducing tax overlap and improving the predictability of tax projections; and

(d) accomplish the foregoing purposes by establishing categories of taxation which recognize the unique character of coal as well as the variations found within the coal industry.

History: En. 84-1312 by Sec. 1, Ch. 525, L. 1975; R.C.M. 1947, 84-1312; amd. Sec. 1, Ch. 608, L. 1987.

15-35-102. Definitions. As used in this chapter, the following definitions apply:

(1) "Agreement" means a signed contract that is valid under Montana law between a coal mine operator and a purchaser or broker for the sale of coal that is produced in Montana.

(2) (a) "Base consumption level" for a purchaser, except as provided in subsection (2)(b), applies only for the term of an agreement in effect as of December 31, 1984, and means the lesser of:

(i) the volume of coal purchased during calendar year 1986 from all Montana coal mine operators; or

(ii) the greater of:

(A) the arithmetic average volume of coal purchased during calendar years 1983 and 1984 from all Montana coal mine operators; or

(B) 90% of the maximum tonnage provided for in any agreement executed prior to January 1, 1985, for which the highest scheduled minimum quantity of coal stipulated by the terms of the agreement as they existed on January 1, 1985, has not been purchased at any time during the term of the agreement, plus the arithmetic average volume of coal purchased during calendar years 1983 and 1984 from all Montana coal mine operators under all other agreements.

(b) If the volume calculated in subsection (2)(a)(i) is less than one-third of the volume calculated in subsection (2)(a)(ii), the base consumption level is the volume calculated in subsection (2)(a)(ii).

(3) (a) Except as provided in subsection (3)(b), "base production level" for a coal mine operator applies only for the term of an agreement in effect as of December 31, 1984, and means the lesser of:

(i) the arithmetic average volume of coal produced in Montana and sold to a purchaser in calendar years 1983 and 1984; or

(ii) the volume of coal produced in Montana and sold to a purchaser in 1986.

(b) If the amount calculated in subsection (3)(a)(ii) is less than one-third of the amount calculated in subsection (3)(a)(i), the base production level is the amount calculated in subsection (3)(a)(i).

(4) "Broker" means any person who resells Montana coal.

(5) "Contract sales price" means either the price of coal extracted and prepared for shipment f.o.b. mine, excluding that amount charged by the seller to pay taxes paid on production, or a price imputed by the department under 15-35-107. Contract sales price includes all royalties paid on production, no matter how such royalties are calculated. However, with respect to royalties paid to the government of the United States, the state of Montana, or a federally recognized Indian tribe, the contract sales price includes only:

(a) for quarterly periods ending on and after September 30, 1984, 15 cents per ton plus 75% of the difference between 15 cents per ton and the amount of such federal, state, and tribal government royalties actually paid;

(b) for quarterly periods ending on and after September 30, 1985, 15 cents per ton plus 50% of the difference between 15 cents per ton and the amount of such federal, state, and tribal government royalties actually paid;

(c) for quarterly periods ending on and after September 30, 1986, 15 cents per ton plus 25% of the difference between 15 cents per ton and the amount of such federal, state, and tribal government royalties actually paid; and

(d) for quarterly periods ending on and after September 30, 1987, 15 cents per ton.

(6) "Department" means the department of revenue.

(7) "Energy conversion process" includes any process by which coal in the solid state is transformed into slurry, gas, electric energy, or any other form of energy.

(8) "Incremental production" means that quantity of coal produced annually by a coal mine operator and sold to a qualified purchaser that exceeds the base production level of the coal mine operator for that purchaser, but only to the extent the quantity of coal exceeds that purchaser's base consumption level from all Montana producers.

(9) "Produced" means severed from the earth.

(10) "Purchaser" means a person who purchases or contracts to purchase Montana coal directly from a coal mine operator or indirectly from a broker and who utilizes that coal in any industrial, commercial, or energy conversion process. A coal broker or any other third party intermediary is not a purchaser under the provisions of this chapter.

(11) "Qualified purchaser" means a purchaser whose purchases of Montana coal in any given year exceed his base consumption level. A purchaser of Montana coal who enters into a coal agreement with another purchaser or a broker that causes a reduction in the base consumption level of a purchaser is not a qualified purchaser.

(12) "Strip mining" is defined in 82-4-203 and includes "surface mining".

(13) "Taxes paid on production" includes any tax paid to the federal, state, or local governments upon the quantity of coal produced as a function of either the volume or the value of production and does not include any tax upon the value of mining equipment, machinery, or buildings and lands, any tax upon a person's net income derived in whole or in part from the sale of coal, or any license fee.

(14) "Ton" means 2,000 pounds.

(15) "Underground mining" means a coal mining method utilizing shafts and tunnels and as further defined in 82-4-203.

History: En. 84-1313 by Sec. 2, Ch. 525, L. 1975; amd. Sec. 1, Ch. 156, L. 1977; R.C.M. 1947, 84-1313; amd. Sec. 1, Ch. 377, L. 1983; amd. Sec. 2, Ch. 636, L. 1985; amd. Sec. 51, Ch. 370, L. 1987; amd. Sec. 2, Ch. 608, L. 1987; amd. Sec. 1, Ch. 31, L. 1989.

Compiler's Comments

1989 Amendment: In definition of base consumption level and in definition of base production level inserted "applies only for the term of an agreement in effect as of December 31, 1984, and". Amendment effective February 24, 1989.

Retroactive Applicability: Section 6, Ch. 31, L. 1989, provided in part: "(1) [This act] . . . applies retroactively, within the meaning of 1-2-109, to January 1, 1989.

(2) [This act] applies to all coal severance tax revenue recorded on or after January 1, 1989, regardless of when the tax obligation accrued."

15-35-103. Severance tax — rates imposed. (1) Subject to the provisions of 15-35-202 allowing a new coal production incentive tax credit, a severance tax is imposed on each ton of coal produced in the state in accordance with the following schedule:

(a) After June 30, 1988, and before July 1, 1990:

Heating quality (Btu per pound of coal):	Surface Mining	Underground Mining
Under 7,000	17% of value	3% of value
7,000 and over	25% of value	4% of value

(b) After June 30, 1990, and before July 1, 1991:

Heating quality (Btu per pound of coal):	Surface Mining	Underground Mining
Under 7,000	13% of value	3% of value
7,000 and over	20% of value	4% of value

(c) After June 30, 1991:

Heating quality (Btu per pound of coal):	Surface Mining	Underground Mining
Under 7,000	10% of value	3% of value
7,000 and over	15% of value	4% of value

(2) "Value" means the contract sales price.

(3) The formula which yields the greater amount of tax in a particular case shall be used at each point on these schedules.

(4) A person is not liable for any severance tax upon 50,000 tons of the coal he produces in a calendar year, except that if he produces more than 50,000 tons of coal in a calendar year, he will be liable for severance tax upon all coal produced in excess of the first 20,000 tons.

(5) A new coal production incentive tax credit may be claimed on certain coal as provided in 15-35-202.

(2) (a) (i) On or before October 1, 1988, the department shall determine the total number of tons of coal produced in Montana and sold from July 1, 1987, through June 30, 1988. If the department finds that these sales exceed 32.2 million tons (which is the average total yearly coal sales for calendar years 1983, 1984, 1985, and 1986), the rate of the coal severance tax is as set forth in subsections (2)(b) through (2)(d).

(ii) If any facility that burned Montana coal at any time from July 1, 1987, to June 30, 1988, does not operate during a portion of that period due to mechanical failure or catastrophic act of God, the department shall determine the average monthly sales of Montana coal to the facility during its operation and multiply this figure by 12. The department shall include the product of this calculation in making its determination of coal produced in Montana and sold from July 1, 1987, through June 30, 1988.

15-35-104. Quarterly statement and payment of tax. Each coal mine operator shall compute the severance tax due on each quarter-year's worth of production on forms prescribed by the department. The statement shall indicate the tonnage produced, the average Btu value of the production, the contract sales price received for the production, and such other information as the department may require. Each coal mine operator shall provide a statement of the tons of coal sold to each purchaser for the quarter. The completed form in duplicate, with the tax payment, shall be delivered to the department not later than 30 days following the close of the quarter. The form shall be signed by the operator if the operator is an individual or by an officer of the coal mine operator if the operator is a business entity. A person operating more than one coal mine in this state may include all of his mines in one statement. The department may grant a reasonable extension of time for filing statements and payment of taxes due upon good cause shown therefor.

Interest shall be computed from the date the severance tax was due to the date of payment. The department shall mail to the person required to file a quarterly report and pay any severance tax, a letter setting forth the amount of tax, penalty, and interest due, and the letter shall further contain a statement that if payment is not made, a warrant for distraint may be filed. The penalty amount may be waived by the department if reasonable cause for the failure or neglect to file the quarterly statement is provided to the department.

15-35-106. Annual testing of samples. The Montana state bureau of mines and geology shall test coal production subject to this chapter and may make rules governing the collection of test data. A person subject to this chapter shall submit to the bureau on or before August 1 each year a sample of mine-run, "as is" coal from each mine producing that year. Additional samples shall be submitted at the request of the bureau. The bureau shall compute the Btu per pound of each sample received and forward this information to the department prior to September 1 each year.

15-35-107. When value of coal may be imputed — procedure. (1) The department may or shall at the request of the taxpayer impute a value to the coal which approximates market value f.o.b. mine in a case where:

(a) the operator of a coal mine is using the produced coal in an energy-conversion or other manufacturing process;

(b) the operator of a coal mine refines the coal by drying, cleaning, or other processing designed to improve the quality of the coal;

(c) a person sells coal under a contract which is not an arm's-length agreement; or

(d) a person neglects or refuses to file a statement under 15-23-701 or a statement and tax return under this chapter.

(2) For purposes of subsection (1)(b), "market value f.o.b. mine" means the value of the coal subsequent to primary and secondary crushing but prior to drying, cleaning, or other processing.

(3) When imputing value, the department may apply the factors used by the federal government under 26 U.S.C., section 613, or that provision as it may be labeled or amended, in determining gross income from mining or the department may apply any other or additional criteria it considers appropriate. Each subject taxpayer shall upon request by the department furnish a copy of its federal income tax return, with any amendments, filed for the year in which the value of coal is being imputed and copies of the contracts under which it is selling coal at the time. When the department's estimate of market value is contested in any proceeding, the burden of proof is on the contesting party.

15-35-112. Deficiency assessment — hearing — interest. (1) When the department of revenue determines that the amount of tax due is greater than the amount disclosed by a return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. The tax is due and payable at the expiration of 10 days from the date of such notice and demand. Interest on any deficiency assessment shall bear interest until paid at the rate of 1% a month or fraction thereof, computed from the original due date of the return.

History: **En. Sec. 1, Ch. 14, L. 1983.**

15-35-113. Credit for overpayment — interest on overpayment. (1) If the department of revenue determines that the amount of tax, penalty, or interest due for any year is less than the amount paid, the amount of the overpayment shall be credited against any tax, penalty, or interest then due from the taxpayer and the balance refunded to the taxpayer or its successor through reorganization, merger, or consolidation or to its shareholders upon dissolution.

(2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-35-112 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law shall not be considered an overpayment with respect to which interest is allowable.

History: **En. Sec. 2, Ch. 14, L. 1983.**

15-35-114. Statute of limitations. (1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing

the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

Part 2

New Coal Production Incentive Tax Credit Act

15-35-201. Short title. This part may be cited as the "New Coal Production Incentive Tax Credit Act of 1985".

History: En. Sec. 1, Ch. 636, L. 1985.

15-35-202. New coal production incentive tax credit allowed — application limited. (1) A coal mine operator is entitled to a new coal production incentive tax credit against the tax imposed under 15-35-103 of:

(a) 40% for incremental production sold after June 30, 1988, and before July 1, 1990; and

(b) 25% for incremental production sold after June 30, 1990, and before July 1, 1991.

(2) A coal mine operator is entitled to a new coal production incentive tax credit against the tax imposed under 15-35-103 on incremental production for the entire term of an agreement, except as provided in subsection (3), and is entitled to adjustment of the base consumption level and the base production level, as defined in 15-35-102, if the incremental production resulted from coal purchases under:

(a) an existing agreement which was extended after December 31, 1984, and before July 1, 1991, for at least a 5-year period; or

(b) a new agreement that was executed after December 31, 1984, and before July 1, 1991.

(3) No credit may be claimed for coal produced prior to January 1, 1985.

History: En. Sec. 3, Ch. 636, L. 1985; amd. Sec. 5, Ch. 608, L. 1987; amd. Sec. 3, Ch. 31, L. 1989.

1989 Amendment: Deleted former (1)(a) and (1)(b) that read: "(a) 33 ⅓% for incremental production sold during calendar years 1985 and 1986;

(b) 50% for incremental production sold from January 1, 1987, until June 30, 1988; and"; in (1)(a) substituted "after June 30, 1988, and before July 1, 1990" for "from July 1, 1988, until June 30, 1990" and deleted reference to tax credit applicable if the production quota was not met; inserted (1)(b) establishing 25% tax credit for incremental production sold after June 30, 1990, and before July 1, 1991; near end of introductory clause in (2) inserted "and is entitled to adjustment of the base consumption level and the base production level, as defined in 15-35-102"; in (2)(a) and (2)(b) changed dates from "between January 1, 1985, and December 31, 1988" to "after December 31, 1984, and before July 1, 1991"; deleted former (2)(b) that read: "(b) The rate of credit allowed under subsection (2)(a) is:

(i) 33 ⅓% for incremental production sold from January 1, 1985, until December 31, 1986;

(ii) 50% for any incremental production sold from January 1, 1987, until June 30, 1988;

(iii) 40% for any incremental production sold from July 1, 1988, until June 30, 1990. However, if the production quota established in 15-35-103(2)(a)(i) is not met, the tax credit for this period is 50% for fiscal year 1989 and 40% for fiscal year 1990.

(iv) 25% for any incremental production sold from July 1, 1990, until June 30, 1991; and

(v) 25% after June 30, 1991, if the production quota in 15-35-103(2)(a)(i) has not been met"; and made minor changes in form. Amendment effective February 24, 1989.

Retroactive Applicability: Section 6, Ch. 31, L. 1989, provided in part: "(1) [This act] . . . applies retroactively, within the meaning of 1-2-109, to January 1, 1989.

(2) [This act] applies to all coal severance tax revenue recorded on or after January 1, 1989, regardless of when the tax obligation accrued."

15-35-203. Calculation and application of credit. (1) The amount of new coal production incentive tax credit that a coal mine operator may claim against the tax imposed in 15-35-103 is calculated by:

(a) determining the incremental production for each of his qualified purchasers that was produced during a calendar year;

(b) distributing the incremental production among the quarters in the calendar year in the same proportion as the total volume of coal sold each quarter to each respective purchaser and summing the amounts for all purchasers to determine the coal mine operator's incremental production for each quarter;

(c) determining the arithmetic average severance tax per ton calculated prior to application of the credit on coal sold to each qualified purchaser each quarter during the calendar year;

(d) multiplying the incremental production for a quarter for a purchaser by the average severance tax per ton for that purchaser and multiplying the total by the appropriate percentage as provided in 15-35-202 for each quarter; and

(e) totaling the amount so calculated for all qualified purchasers for all four quarters of the calendar year.

(2) When filing the quarterly statement required in 15-35-104, a coal mine operator may claim against the coal severance tax calculated for that quarter an amount equal to 25% of the new coal production incentive tax credit allowed on incremental production that occurred during the previous calendar year.

(3) If in any calendar year a purchaser exceeds his base consumption level and he has purchased from more than one Montana coal mine operator during the year, the credit on the incremental production must be divided among the operators on a pro rata basis. To determine each coal mine operator's pro rata share of the tax credit, each operator shall divide his incremental production by the sum of all coal mine operators' incremental production for that purchaser and multiply the quotient by the purchases in excess of the base consumption level for that purchaser.

(4) Neither a coal mine operator nor a purchaser is entitled to a direct payment for the credit allowed in 15-35-202. A credit terminates if not taken during the year following the year in which the incremental production occurred.

(5) Each coal mine operator must reduce the delivered price of coal sold to each qualified purchaser by an amount equal to the credit received on incremental production sold to that purchaser.

History: **En. Sec. 4, Ch. 636, L. 1985; amd. Sec. 6, Ch. 608, L. 1987.**

15-35-204. Reporting requirements for credit — duty of department. (1) Every Montana coal mine operator must provide to the department:

(a) on or before April 30, 1985, a list showing the amount of coal produced and sold in calendar years 1983 and 1984 to every purchaser, including purchasers who obtained coal from the coal mine operator through a broker; and

(b) with the quarterly statement required by 15-35-104, a list of the number of tons produced and sold to every purchaser during the quarter and the severance tax calculated prior to the application of the credit on these tons.

(2) To be eligible for the tax credit provided for in 15-35-202, a coal mine operator must furnish to the department:

(a) on or before April 30, 1985, copies of all existing coal sales agreements;

(b) with the quarterly statement required by 15-35-104, a copy of any new coal sales agreements or extensions of existing agreements executed during the quarter;

(c) on or before January 31 of each year:

(i) a list of incremental production for all qualified purchasers during the previous calendar year;

(ii) a written statement from each qualified purchaser verifying the volume of coal purchased in that year from all Montana coal mine operators; and

(iii) the necessary information on incremental production purchased through a broker to verify that such incremental production did not cause a reduction in the base consumption level of any other purchaser of Montana coal; and

(d) any other data, reports, evidence, or production data that may be necessary for the department to determine whether a purchaser is a qualified purchaser and the base consumption level for each purchaser.

(3) By July 1, 1985, the department shall prepare and publish for informational purposes only an unaudited compilation of the base production level for each coal mine operator and a compilation of the base consumption level for each purchaser.

(4) Any coal mine operator or purchaser may, for the purpose of determining the eligibility of coal production for the new production incentive tax credit, file with the department a petition for a declaratory ruling as provided in 2-4-501. The department shall issue a ruling on the petition within 90 days of the date the petition was filed with the department.

History: **En. Sec. 5, Ch. 636, L. 1985.**

15-35-205. Returns and taxpayer information open to public inspection — certain exceptions. (1) All information filed with the department in accordance with 15-35-204 is public record and open to public inspection, except the information required under 15-35-204(1)(b) and the coal sales agreements specified in 15-35-204(2)(a) and (2)(b).

(2) Except during proceedings before the state tax appeal board pursuant to 15-2-201, the information required under 15-35-204(1)(b) and the coal sales agreements specified in 15-35-204(2)(a) and (2)(b) are open to inspection only upon the order of the governor, under rules to be prescribed by the department, or upon order of a court of competent jurisdiction.

Payment of taxes by electronic funds transfer, Title 15, ch. 1, part 8.

15-36-101. Definitions and rate of tax — local government severance tax. (1) Every person engaging in or carrying on the business of producing petroleum, other mineral or crude oil, or natural gas within this state or engaging in or carrying on the business of owning, controlling, managing, leasing, or operating within this state any well or wells from which any merchantable or marketable petroleum, other mineral or crude oil, or natural gas is extracted or produced sufficient in quantity to justify the marketing of the same must, except as provided in 15-36-121, each year when engaged in or carrying on the business in this state pay to the department of revenue a severance tax for the exclusive use and benefit of the state of Montana plus a local government severance tax in lieu of a tax on net proceeds for the exclusive use and benefit of local government. The severance tax and the local government severance tax are computed at the following rates:

(a) except as provided in subsections (1)(b), (1)(c), and (1)(d), 5% of the total gross value of all the petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 8.4% on production other than interim production and new production, from each lease or unit; but in determining the amount of severance tax, there must be excluded from consideration all petroleum or other crude or mineral oil produced and used by the person during the year in connection with his operations in prospecting for, developing, and producing the petroleum or crude or mineral oil;

(b) 2.65% of the total gross value of all natural gas produced, plus the local government severance tax of 15.25% on natural gas production other than interim production or new production, from each lease or unit; but in determining the amount of severance tax, there must be excluded from consideration all gas produced and used by the person during the year in connection with his operations in prospecting for, developing, and producing the gas or petroleum or crude or mineral oil; and there must also be excluded from consideration all gas, including carbon dioxide gas, recycled or reinjected into the ground;

(c) 2.5% of the total gross value of the incremental petroleum and other mineral or crude oil produced, plus the local government severance tax of 4.2% on production other than interim production and new production, from each lease or unit in a tertiary recovery project after July 1, 1985. For purposes of this section, a tertiary recovery project must meet the following requirements:

(i) the project must be approved as a tertiary recovery project by the department of revenue. The approval may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(ii) the property to be affected by the project must be adequately delineated according to the specifications required by the department; and

(iii) the project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the department to be significant in light of all the facts and circumstances, in the amount of crude oil which may potentially be recovered. For the purpose of this section, tertiary recovery methods include but are not limited to:

(A) miscible fluid displacement;
(B) steam drive injection;
(C) micellar/emulsion flooding;
(D) in situ combustion;
(E) polymer augmented water flooding;
(F) cyclic steam injection;
(G) alkaline or caustic flooding;
(H) carbon dioxide water flooding;
(I) immiscible carbon dioxide displacement; or
(J) any other method approved by the department as a tertiary recovery method.

(d) except as provided in 15-36-121(2), 3% of the total gross value of all the petroleum and other mineral or crude oil production after the first 5 barrels, plus the local government severance tax of 4.2% on all production other than interim production and new production, produced by a stripper well, as defined in 15-36-121, that produces more than 5 barrels a day during the period beginning April 1, 1989, and ending March 31, 1991.

(2) For purposes of this section, the term "incremental petroleum and other mineral or crude oil" means the amount of oil, as determined by the department of revenue, to be in excess of what would have been produced by primary and secondary methods. The determination arrived at by the department must be made only after notice and hearing and shall specify through the life of a tertiary project, calendar year by calendar year, the combined amount of primary and secondary production that must be used to establish the incremental production from each lease or unit in a tertiary recovery project.

(3) Nothing in this part may be construed as requiring laborers or employees hired or employed by any person to drill any oil well or to work in or about any oil well or prospect or explore for or do any work for the purpose of developing any petroleum or other mineral or crude oil to pay the severance tax, nor may work done or the drilling of a well or wells for the purpose of prospecting or exploring for petroleum or other mineral or crude oils or for the purpose of developing them be considered to be the engaging in or carrying on of the business. If, in the doing of any work, in the drilling of any oil well, or in prospecting, exploring, or development work, any merchantable or marketable petroleum or other mineral or crude oil in excess of the quantity required by the person for carrying on the operation is produced sufficient in quantity to justify the marketing of the petroleum or other mineral or crude oil, the work, drilling, prospecting, exploring, or development work is considered to be the engaging in and carrying on of the business of producing petroleum or other mineral or crude oil within this state within the meaning of this section.

(4) Every person required to pay the severance tax under this section shall pay the tax in full for his own account and for the account of each of the other owner or owners of the gross proceeds in value or in kind of all the marketable petroleum or other mineral or crude oil or natural gas extracted and produced, including owner or owners of working interest, royalty interest,

overriding royalty interest, carried working interest, net proceeds interest, production payments, and all other interest or interests owned or carved out of the total gross proceeds in value or in kind of the extracted marketable petroleum or other mineral or crude oil or natural gas, except that any of the interests that are owned by the federal, state, county, or municipal governments are exempt from taxation under this chapter. Unless otherwise provided in a contract or lease, the pro rata share of any royalty owner or owners will be deducted from any settlements under the lease or leases or division of proceeds orders or other contracts. *(Subsection (1)(d) terminates on occurrence of contingency—sec. 7, Ch. 656, L. 1987.)*

1989 Special Session Amendment: At beginning of (1) inserted exception clause; inserted (2) relating to quarterly payment of local government severance tax; and made minor changes in phraseology. Amendment effective August 11, 1989, and applies retroactively to net proceeds taxes, severance taxes, and local government taxes on oil and gas, other than interim production and new production, produced after December 31, 1988.

15-36-103. Determination of gross value of product. The total gross value of all petroleum and other mineral or crude oil or natural gas produced each year shall be determined by taking the total number of barrels or cubic feet thereof produced each month during such year at the average value at the mouth of the well during the month the same is produced, as determined by the department of revenue; provided, however, that in computing the total number of barrels of petroleum and other mineral or crude oil or cubic feet of gas produced, there shall be deducted therefrom so much thereof as is used by such person in connection with the operation of the well from which said oil or gas is produced or for pumping said petroleum or other mineral or crude oil or gas from the said well to a tank or pipeline.

15-36-104. Record of product — carriers to furnish data. Every such person shall keep a record in such form as the department of revenue may require of all petroleum and other mineral or crude oil or natural gas extracted or produced by such person in this state, and such records shall at all times during the business hours of the day be subject to inspection by the department or its agents or employees. It shall be the duty of railroad, pipeline, and transportation companies carrying crude or mineral oil or natural gas to furnish to the department, whenever requested to do so, all data relative to the shipment of such products that may be required to properly enforce the provisions of this part. The failure of any railroad, pipeline, or transportation company to comply with the provisions of this section shall make such company liable to a penalty of $100 for each day it fails to furnish such statement.

15-36-105. Statement to accompany payment — records — collection of tax — refunds. (1) Each person shall, within 60 days after the end of each following quarter, complete on forms prescribed by the department of revenue a statement showing the total number of barrels of merchantable or marketable petroleum and other mineral or crude oil or cubic feet of natural gas produced or extracted by the person in the state during each month of the quarter and during the whole quarter, the average value of the production during each month, and the total value of the production for the whole quarter, together with the total amount due to the state as severance taxes and local government severance taxes for the quarter, and shall within such 60 days deliver the statement and, except as provided in 15-36-102(2) and 15-36-121, pay to the department the amount of the taxes shown by the statement to be due to the state for the quarter for which the statement is made. The statement must be signed by the individual or the president, vice-president, treasurer, assistant treasurer, or managing agent in this state of the association, corporation, joint-stock company, or syndicate making the statement. Any person engaged in carrying on business at more than one place in this state or owning, leasing, controlling, or operating more than one oil or gas well in this state may include all operations in one statement. The department shall receive and file all statements and collect and receive from the person making and filing a statement the amount of tax payable by the person, if any, as appears in the statement.

(2) It is the duty of the department to examine each of the statements and compute the taxes thereon, and the amount computed by the department is the tax imposed, assessed against, and payable by the taxpayer making the statement for the quarter for which the statement is filed. If the tax found to be due is greater than the amount paid, the excess must be paid by the taxpayer to the department within 10 days after written notice of the amount of the deficiency is mailed by the department to the taxpayer. If the tax imposed is less than the amount paid, the difference must be applied as a credit against tax liability for subsequent quarters or refunded if there is no subsequent tax liability.

(3) If the tax is not paid on or before the due date, there must be assessed a penalty of 10% of the amount of the tax, unless it is shown that the failure was due to reasonable cause and not due to neglect. If any tax under this chapter is not paid when due, interest must be added to the tax at the rate of 1% a month or fraction thereof, computed on the total amount of severance tax and penalty from the due date until paid.

15-36-112. Disposition of oil and gas severance taxes — calculation of unit value for local government severance tax. (1) Each year the department of revenue shall determine the amount of tax collected under this chapter from within each school district.

(2) For purposes of the distribution of local government severance taxes collected under 15-36-101, the department shall determine the unit value of oil and gas for each school district as follows:

(a) The unit value for petroleum and other mineral or crude oil for each district is the quotient obtained by dividing the net proceeds taxes calculated on petroleum or mineral or crude oil produced in that district in calendar year 1988 by the number of barrels of petroleum or other mineral or crude oil produced in that district during 1988.

(b) The unit value for natural gas is the quotient obtained by dividing the net proceeds taxes calculated on natural gas produced in that district in calendar year 1988 by the number of cubic feet of natural gas produced in that district during 1988.

(3) The severance taxes collected under this chapter are allocated as follows:

(a) The local government severance tax is statutorily appropriated, as provided in 17-7-502, for allocation to the county for distribution as provided in subsection (4)(a)(ii);

(b) Any amount not allocated to the county under subsection (3)(a) is allocated to the state general fund.

(4) (a) For the purpose of distribution of the local government severance tax, the department shall adjust the unit value determined under this section according to the ratio that the local government severance taxes collected during the quarters to be distributed plus accumulated interest earned by the state and penalties and interest on delinquent local government severance taxes bears to the total liability for local government severance taxes for the quarters to be distributed. The taxes must be calculated and distributed as follows:

(i) By November 30 of each year, the department shall calculate and distribute to each eligible county the amount of local government severance tax, determined by multiplying unit value as adjusted in this subsection (4)(a) times the units of production on which severance tax was owed during the calendar quarters ending March 31 and June 30 of the preceding calendar year.

(ii) By May 31 of each year, the department shall calculate and distribute to each eligible county the amount of local government severance tax, determined by multiplying unit value as adjusted in this subsection (4)(a) times the units of production on which severance tax was owed during the 2 calendar quarters immediately following those quarters referred to in subsection (4)(a)(i).

(b) Any amount by which the total tax liability exceeds or is less than the total distributions determined in subsections (4)(a)(i) and (4)(a)(ii) must be calculated and distributed in the following manner:

(i) The excess amount or shortage must be divided by the total units of production to obtain the tax value per unit of production.

(ii) The tax value per unit of production must be multiplied by the units of production in that taxable period in each school district that had production in that period, and this amount must be added to or subtracted from the distribution to each respective district.

(5) The county treasurer shall distribute the money received under subsection (3)(a) to the taxing jurisdictions that levied mills against production

during fiscal year 1989 in the same manner that all other property tax proceeds were distributed during fiscal year 1989 in the taxing jurisdiction, except that no distribution may be made to a municipal taxing jurisdiction.

1989 Special Session Amendment: At end of (1) substituted "school district" for "county"; inserted (2) relating to determination of unit value for purposes of distributing local government severance taxes; at beginning of (3)(a) substituted "The local government severance tax" for "the amount, if any, by which the tax collected from within a county for any fiscal year exceeds the total amount collected from within that county for the previous fiscal year, by reason of increased production and not because of increase in or elimination of federal price ceilings on oil and gas"; inserted (4) relating to distribution of local government severance tax to eligible counties; substituted (5) relating to distribution of local government severance tax to certain taxing jurisdictions for former language relating to disposition of tax to counties and incorporated cities and towns (see 1987 MCA for former text); corrected internal references; and made minor changes in phraseology. Amendment effective August 11, 1989, and applies retroactively to net proceeds taxes, severance taxes, and local government taxes on oil and gas, other than interim production and new production, produced after December 31, 1988.

15-36-113. Deficiency assessment — hearing — interest. (1) When the department of revenue determines that the amount of tax due is greater than the amount disclosed by a return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. The tax is due and payable at the expiration of 10 days from the date of such notice and demand. Interest on any deficiency assessment shall bear interest until paid at the rate of 1% a month or fraction thereof, computed from the original due date of the return.

History: **En. Sec. 1, Ch. 14, L. 1983.**

15-36-114. Credit for overpayment — interest on overpayment. (1) If the department of revenue determines that the amount of tax, penalty, or interest due for any year is less than the amount paid, the amount of the overpayment shall be credited against any tax, penalty, or interest then due from the taxpayer and the balance refunded to the taxpayer or its successor through reorganization, merger, or consolidation or to its shareholders upon dissolution.

(2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-36-113 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

15-36-121. Exemption from severance tax. (1) It is the public policy of this state to promote a sufficient supply of natural gas to provide for the residents of this state, to lessen Montana's dependence on imported natural gas, and to encourage the exploration for and development and production of natural gas, petroleum, and other mineral and crude oil within the state.

(2) All new production, as defined in 15-23-601, from a well during the 24 months immediately following the date of notification to the department of revenue that an oil well is flowing or being pumped or that a gas well has been connected to a gathering or distribution system is exempt from all of the severance tax imposed by 15-36-101, provided the notification was made after March 31, 1987, and before July 1, 1991.

(3) All the natural gas produced from any well that has produced 60,000 cubic feet or less of natural gas a day for the calendar year prior to the current year shall be taxed as provided in this section. Production must be determined by dividing the amount of production from a lease or unitized area for the year prior to the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365. The first 30,000 cubic feet of average daily production per well is exempt from all of the severance tax imposed by 15-36-101. Everything over 30,000 cubic feet of gas produced is taxed at 1.59% plus a local government severance tax of 7.625%.

(4) The first 5 barrels of average daily production from a stripper well are exempt from all of the severance tax imposed by 15-36-101, except the local government severance tax.

(5) For the purposes of this section, "stripper well" means a well that produces less than 10 barrels per day, determined by dividing the amount of production from a lease or unitized area for the year prior to the current calendar year by the number of producing wells in the lease or unitized area, and by dividing the resulting quotient by 365.

(6) Notwithstanding the provisions of subsections (2) through (4), all reporting requirements under the severance tax remain in effect. *(Subsections (2) and (4) terminate on occurrence of contingency—sec. 7, Ch. 656, L. 1987.)*

15-36-122. Statute of limitations. (1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought

Every person whose license tax has been determined and assessed by the department of revenue under any of the provisions of this part who feels aggrieved by the determination and assessment of the department as to the amount of gross value of product or as to the amount of the license tax may, at any time within 10 days after the receipt of the required notice of such determination and assessment, file with the state tax appeal board a petition for a hearing, in which petition must be stated the grounds and reasons therefor and the manner in which the amount of the gross value of product or the amount of the license tax, or both, should be changed or corrected. If from such examination it does not appear to the satisfaction of the state tax appeal board that the department has erred in any manner, the board shall grant the hearing, fix a day when the board will take up and hear such matter, and give notice to such person of such date of hearing as the board considers reasonable. At the hearing of such petition, any taxpayer interested and the department may introduce witnesses and present testimony on any material matters connected with such return and license tax, and after considering such evidence the board shall fix and determine the gross value of product and reassess the amount of the license tax to be paid by such person and give notice thereof to such person and the department.

15-37-114. Deficiency assessment — hearing — interest. (1) When the department of revenue determines that the amount of tax due is greater than the amount disclosed by a return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. The tax is due and payable at the expiration of 10 days from the date of such notice and demand. History: En. Sec. 1, Ch. 14, L. 1983.

15-37-115. Credit for overpayment — interest on overpayment. (1) If the department of revenue determines that the amount of tax, penalty, or interest due for any year is less than the amount paid, the amount of the overpayment shall be credited against any tax, penalty, or interest then due from the taxpayer and the balance refunded to the taxpayer or its successor through reorganization, merger, or consolidation or to its shareholders upon dissolution.

(2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-37-114 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law

shall not be considered an overpayment with respect to which interest is allowable.

History: **En. Sec. 2, Ch. 14, L. 1983.**

15-37-116. Statute of limitations. (1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

(b) to the state special revenue fund to the credit of a hard-rock mining impact trust account, 1.5% of total collections each year;

(ii) all money not allocated to the account pursuant to subsection (1)(d)(i) to be further allocated as follows, except that more than one entity may share an allocation if a jurisdictional revenue disparity is identified pursuant to subsection (2):

(B) 33 ⅓% is allocated to the elementary school districts within the county that have been affected by the development or operation of the metal mine; and

(C) 33 ⅓% is allocated to the high school districts within the county that have been affected by the development or operation of the metal mine.

(2) When an impact plan for a large-scale mineral development approved pursuant to 90-6-307 identifies a jurisdictional revenue disparity, the county shall distribute the proceeds allocated under subsection (1)(d) in a manner similar to that provided for property tax sharing under Title 90, chapter 6, part 4.

(3) The department shall return to the county in which metals are produced the tax collections allocated under subsection (1)(d). The allocation to the county described by subsection (1)(d) is a statutory appropriation pursuant to 17-7-502.

15-38-102. Legislative policy. It is the policy of the state of Montana to indemnify its citizens for the loss of long-term value resulting from the depletion of its mineral resource base and for environmental damage caused by mineral development. This policy of indemnification is achieved by establishing a permanent resource indemnity trust from the proceeds of a tax levied on mineral extraction and by allocating spendable trust revenues:

(1) to protect and restore the environment from damages resulting from mineral development; and

(2) to support a variety of development programs that benefit the economy of the state and the lives of Montana citizens.

History: En. 84-7002 by Sec. 2, Ch. 497, L. 1973; R.C.M. 1947, 84-7002; amd. Sec. 11, Ch. 418, L. 1987.

15-38-103. Definitions. As used in this chapter, the following definitions apply:

(1) "Department" means department of revenue.

(2) "Gross value of product" means, except as provided in 15-38-126, the market value of any merchantable mineral extracted or produced during the taxable year.

(3) "Mineral" means any precious stones or gems, gold, silver, copper, coal, lead, petroleum, natural gas, oil, uranium, or other nonrenewable merchantable products extracted from the surface or subsurface of the state of Montana.

(4) "Total environment" means air, water, soil, flora, and fauna and the social, economic, and cultural conditions that influence communities and individual citizens.

History: En. 84-7003 by Sec. 3, Ch. 497, L. 1973; amd. Sec. 23, Ch. 52, L. 1977; R.C.M. 1947, 84-7003; amd. Sec. 11, Ch. 531, L. 1989.

15-38-104. Tax on mineral production. (1) Except as provided in subsection (2), the annual tax to be paid by a person engaged in or carrying on the business of mining, extracting, or producing a mineral is $25, plus an additional amount computed on the gross value of product that was derived from the business work or operation within this state during the calendar year immediately preceding at the rate of ½ of 1% of the amount of gross value of product at the time of extraction from the ground, if in excess of $5,000. Unless otherwise provided in a contract or lease, the pro rata share of any royalty owner or owners may be deducted from any settlements under the lease or leases or division of proceeds orders or other contracts.

(2) The annual tax to be paid by a person engaged in or carrying on the business of mining, extracting, or producing talc is $25 plus an additional amount computed on the gross value of product for talc derived from the business work or operation within this state during the calendar year immediately preceding at the rate of 4%.

(5) the gross yield or value in dollars and cents.

15-38-106. Payment of tax — records — collection of taxes — refunds. (1) The tax imposed by this chapter shall be paid by each person to which the tax applies, on or before March 31, on the value of product in the year preceding January 1 of the year in which the tax is paid. The tax shall be paid to the department at the time the statement of yield for the preceding calendar year is filed with the department.

(2) The department shall deposit the proceeds of the tax in the resource indemnity trust fund of the nonexpendable trust fund type. Every person to whom the tax applies shall keep records in accordance with 15-38-105, and the records are subject to inspection by the department upon reasonable notice during normal business hours.

(3) The department shall examine the statement and compute the taxes thereon, and the amount computed by the department shall be the taxes imposed, assessed against, and payable by the taxpayer. If the tax found to be due is greater than the amount paid, the excess shall be paid by the taxpayer to the department within 30 days after written notice of the amount of deficiency is mailed by the department to the taxpayer. If the tax imposed is less than the amount paid, the difference must be applied as a tax credit

against tax liability for subsequent years or refunded if requested by the taxpayer.

15-38-107. Procedure in case of failure to file statement. (1) If any person fails, refuses, or neglects to make and file a statement and return it within the time prescribed, the department shall immediately after such time has expired determine, as nearly as may be possible from any returns or reports filed with the state or from any other information which the department may be able to obtain, the gross yield of the mineral of such person from such business during the calendar year immediately preceding the year in which the statement is to be filed and shall fix the amount of the tax due to the state from such person for such calendar year and shall add to the amount of such tax a penalty of $25 or 10%, whichever is greater.

(2) If any person fails, refuses, or neglects to pay the tax when due, the department shall immediately determine, as nearly as may be possible from any information which the department may be able to obtain, the total gross value of product of the person from the business during the year for which the tax is due and shall fix the amount of tax due to the state and shall add to the amount a penalty of 10% plus interest at the rate of 1% a month or fraction thereof computed on the total amount of tax and penalty. Interest shall be computed from the date the tax was due to the date of payment.

(3) The department shall mail to the person failing to file an annual statement or pay any tax a letter setting forth the amount of tax, penalty, and interest due. The letter shall advise that if payment is not received, a warrant for distraint may be filed.

(4) Penalties may be waived by the department if reasonable cause for the failure and neglect to file the statement required by 15-38-105 or the failure to pay the tax required by 15-38-106 is provided to the department.

15-38-110. Deficiency assessment — hearing — interest. (1) When the department of revenue determines that the amount of tax due is greater than the amount disclosed by a return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. The tax is due and payable at the expiration of 10 days from the date of such notice and demand. Interest on any deficiency assessment shall bear interest until paid at the rate of 1% a month or fraction thereof, computed from the original due date of the return.

History: En. Sec. 1, Ch. 14, L. 1983.

15-38-111. Credit for overpayment — interest on overpayment. (1) If the department of revenue determines that the amount of tax, penalty, or interest due for any year is less than the amount paid, the amount of the overpayment shall be credited against any tax, penalty, or interest then due from the taxpayer and the balance refunded to the taxpayer or its successor through reorganization, merger, or consolidation or to its shareholders upon dissolution.

(2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-38-110 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law

shall not be considered an overpayment with respect to which interest is allowable.

History: En. Sec. 2, Ch. 14, L. 1983.

15-38-112. Statute of limitations. (1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

The notification to transfer portions of the additional 1% license fee must be filed within 30 days after each payment is made to subcontractors. In the event that the 1% of gross receipts, as defined in 15-50-101, is not withheld as provided, the contractor shall make payment of these amounts to the department within 30 days after the date on which the contractor receives each increment of payment for work performed by the contractor.

15-51-109. Deficiency assessment — hearing — interest. (1) When the department of revenue determines that the amount of tax due is greater than the amount disclosed by a return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. (2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-51-109 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law shall not be considered an overpayment with respect to which interest is allowable.

History: **En. Sec. 2, Ch. 14, L. 1983.**

15-51-111. Procedure to compute tax in absence of statement. If any person fails, neglects, or refuses to file any statement required by 15-51-101 within the time therein required, the department of revenue shall, after such time has expired, proceed to inform itself as best it may regarding the number of KWH produced by such person in this state during such quarter and compute the amount of taxes due to the state from such person for such quarter and add the penalty and interest as required by 15-51-103. The department shall mail to the person required to file a quarterly report and pay such tax a letter setting forth the amount of tax, penalty, and interest due, and the letter must further contain a statement that if payment is not made, a warrant for distraint may be filed. The 10% penalty may be waived by the department if reasonable cause for failure and neglect to file the statement required by 15-51-101 is provided to the department.

15-51-112. Warrant for distraint. If all or part of the tax imposed by this chapter is not paid when due, the department may issue a warrant for distraint as provided in Title 15, chapter 1, part 7. The resulting lien has precedence over any other claim, lien, or demand thereafter filed and recorded.

History: **En. 84-1611 by Sec. 6, Ch. 401, L. 1977; R.C.M. 1947, 84-1611; amd. Sec. 24, Ch. 439, L. 1981.**

15-51-113. Penalty for violation — enforcement. History: **En. Sec. 9, Ch. 51, Ex. L. 1933; re-en. Sec. 2343.9, R.C.M. 1935; R.C.M. 1947, 84-1609.**

For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law shall not be considered an overpayment with respect to which interest is allowable.

15-53-111. Penalty and interest for delinquency — waiver. (1) License taxes due under this chapter become delinquent if not paid within 60 days after the end of each calendar quarter. The department of revenue shall add to the amount of all delinquent telephone company license taxes a penalty of 10% of the amount of license taxes plus interest at the rate of 1% per month or fraction thereof computed on the total amount of license taxes and penalty. Interest is computed from the date the license taxes were due to the date of payment.

(2) The 10% penalty may be waived by the department if reasonable cause for the failure or neglect to file the statement required by 15-53-102 or pay the tax due is provided to the department.

History: **En Sec. 2, Ch. 294, L. 1979.**

15-53-112. Estimation of tax upon failure to file statement or pay tax — notice. (1) If a person fails, neglects, or refuses to file the statement required by 15-53-102 within the time required or fails to pay the tax required by this chapter on or before the date payment is due, the department of revenue shall proceed to inform itself as best it may regarding the total gross income of the person from its telephone business within this state during the quarter.

(2) The department shall compute the amount of license taxes due from the person and shall mail to the person a letter and tax assessment statement setting forth the amount of delinquent license tax, penalty, and interest due. The letter shall advise that if payment is not made, a warrant for distraint may be filed.

(1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

Part 1

General Provisions

Part Cross-References

Payment of taxes by electronic funds transfer, Title 15, ch. 1, part 8.

15-55-101. Definitions. The following words and phrases, when used in this chapter, shall have the following definitions:

(1) The term "department" shall mean the state department of revenue of the state of Montana.

(2) "Freight line companies" means any person or persons, joint-stock company, association, or corporation, wherever organized or incorporated, not being the owner, lessee, or operator of any railroad, engaged in the business of operating cars or engaged in the business of furnishing or leasing cars, not otherwise listed for taxation in Montana, for the transportation of freight (whether said cars be owned by such company or any other person or company) over any railway line or lines, in whole or in part within this state, such line or lines not being owned, leased, or operated by such company, whether such cars be termed flat, coal, ore, tank, stock, gondola, furniture, or refrigerator cars or by some other name.

(3) The terms "gross earnings" or "total gross earnings" shall be construed to mean all earnings on business beginning and ending within this state and a proportion, based upon the proportion of mileage within the state to the

entire mileage over which such business is done, of all earnings on interstate business passing through, into, or out of this state.

History: **En. Sec. 1, Ch. 137, L. 1949; amd. Sec. 152, Ch. 516, L. 1973; R.C.M. 1947, 84-4818.**

15-55-102. Rate of license tax on freight line companies. Every freight line company shall pay annually for each calendar year a sum in the nature of a tax in the amount of 5 ½% of the total gross earnings received from all sources by reason of the use or operation of such cars within this state by such freight line company which shall be in lieu of all other taxes upon such property of any freight line company so paying the same, provided for the purpose of taxation, all cars used exclusively within the state or used partially within and partially without the state are hereby declared to have situs within the state, the value thereof for such taxation to be determined as provided for in this chapter.

History: **En. Sec. 2, Ch. 137, L. 1949; amd. Sec. 1, Ch. 346, L. 1969; R.C.M. 1947, 84-4819.**

15-55-103. Withholding tax, payment, hearings, and ad valorem basis. (1) Every railroad company so using or leasing said cars, upon payment therefor to such company, shall withhold from such payment 5 ½% of as much thereof as shall constitute gross earnings of such freight line company within this state. On or before March 1, each year, such railroad company shall make and file with the department a consolidated statement, in a form to be prescribed by the department, showing the amount of such payments for the next preceding calendar year ending December 31 and the amounts so withheld and due the state.

(2) For good cause the department may grant a reasonable extension for filing, but not to exceed 30 days.

(3) Such railroad company at the time of filing such statement shall remit the amounts so withheld and due the state. Upon receipt of such payment, the department shall issue its receipt in triplicate, one copy of which shall be mailed to such railroad company, one to the freight line company for which such tax is paid, and one to be retained in the office of the department. The mailing of such receipt to such freight line company shall constitute notice of the filing of said statement and payment of said tax.

(4) If any railroad company shall fail to make or file such report or if the department be dissatisfied with any report filed, the department shall have the power to conduct a hearing and investigation for the purpose of ascertaining from whatever sources to which it has access the gross earnings of such freight line company from the use or operation of such cars within the borders of this state. In conducting such hearing and investigation, the department shall have power by subpoena to require officers, agents, employees, or receivers of such railroad company or of such freight line company to attend before the department and to bring with him or them for inspection by the department any books, papers, or documents in his or their possession or under his or their control, in any manner affecting said tax, and to testify under oath concerning any matter relating to the organization or business of such freight line company within this state. Any person who shall fail, neglect, or refuse to attend before the department when subpoenaed so to do or who shall fail, neglect, or refuse to bring with him and submit for inspection by the department any books, papers, or documents in his possession or under

his control affecting the organization or business of such freight line company within this state or who shall refuse to testify or refuse to answer any question which may be asked him concerning the organization or business shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not less than $100 or more than $1,000 or be imprisoned in the county jail for not less than 30 days or more than 6 months.

(5) Every freight line company, as hereinbefore defined, shall be liable for the payment of the difference, if any, between 5 ½% of all gross earnings in this state and the amounts withheld and remitted to the state by railroads and shall be liable for the payment of any additional taxes which the department may find due under its authority to raise or lower the rate to conform to the taxes which would be payable if the cars were taxed on an ad valorem basis.

History: En. Sec. 3, Ch. 137, L. 1949; amd. Sec. 2, Ch. 346, L. 1969; amd. Sec. 1, Ch. 339, L. 1971; amd. Sec. 153, Ch. 516, L. 1973; R.C.M. 1947, 84-4820.

15-55-104. Computation of tax. Upon the filing of the reports herein provided for, the department shall compute and determine the amount of the tax and, on or before May 1, notify such railroad company and freight line company if such report or payment of tax be incorrect or insufficient, and such railroad company shall be liable for any additional tax found to be owing the state.

History: En. Sec. 4, Ch. 137, L. 1949; amd. Sec. 154, Ch. 516, L. 1973; amd. Sec. 4, Ch. 36, L. 1977; R.C.M. 1947, 84-4821.

15-55-105. Ad valorem basis as maximum tax. It is hereby declared to be the intention of the legislature that the tax herein imposed be not greater than the amount of tax such freight line company would pay if its cars were taxed on an ad valorem basis. No tax other than as in this chapter imposed shall be assessed against the business or income of any such freight line company.

History: En. Sec. 5, Ch. 137, L. 1949; amd. Sec. 92, Ch. 405, L. 1973; R.C.M. 1947, 84-4822(part).

15-55-106. Appeals and refunds. (1) Any such freight line company or railroad company, on or before June 1 of the year in which the tax herein imposed has been paid, may file written complaint with the state tax appeal board concerning the correctness of the rate used or the correctness of the amount of the tax imposed or any other matter affecting the complainant under the provisions of this chapter.

(2) Upon filing such complaint, the state tax appeal board shall set the same for hearing and shall give written notice thereof to the complainant at least 10 days before the date set for hearing thereon. Upon the hearing of any such complaint, the state tax appeal board shall take testimony to determine whether the amount of the tax, as computed and determined by the department of revenue, is greater than the general ad valorem tax for all purposes would be on the cars of such freight line company subject to taxation in Montana if assessed and taxed on an ad valorem basis. In such cases the state tax appeal board shall have the power and it shall be its duty to lower or raise the rates herein specified to conform to the facts disclosed at such hearing and to make the amount of the tax due equivalent to such ad valorem tax.

If the state tax appeal board shall then determine that the amount of the tax imposed and collected was excessive, the claimant shall be entitled to a refund to the extent of such excess.

(3) Within 6 months after such determination, the claimant may present to the department a sworn claim for such refund, setting forth the amount thereof. The state auditor shall draw his warrant upon the state treasurer for the amount of such claim, and the same shall be paid in the same manner as other claims against the state are paid.

(4) In order to determine the amount of tax such freight line company would pay, the department may value all cars of any such company as a unit and allocate to Montana that proportion of the total value which the Montana car mileage bears to the total car mileage of the cars of any such freight line company during the 12-month period ending December 31 of the preceding year and may then apply to such value the average total rate of all general property taxes levied for the preceding year by the taxing authorities of the state, counties, school districts, municipalities, and other taxing subdivisions for state, county, school and municipal, and other purposes.

History: En. Sec. 5, Ch. 137, L. 1949; amd. Sec. 92, Ch. 405, L. 1973; R.C.M. 1947, 84-4822(part); amd. Sec. 11, Ch. 20, L. 1985.

(1) If the taxes and penalties provided for in this chapter to be paid by the railroad company on the property of such freight line company remain unpaid more than 90 days from the due date, the department shall cause an action to be brought to recover the amount of such delinquent taxes and penalties in the district court of any county within the state of Montana in which service can be had on the railroad company which is liable for the payment of such taxes or penalties or in which the property of such delinquent railroad company can be seized under attachment or garnishment proceedings in the manner prescribed by law.

(2) In the event the state tax appeal board, under its authority to raise or lower the rate of the taxes which would be payable on the cars of such freight line company if taxed upon an ad valorem basis, finds, after a hearing as herein provided, taxes due from any such freight line company in excess of the 5 ½% of all gross revenue in this state which is required to be paid by the railroad companies, such additional tax as so determined is due and payable by the freight line company upon which the assessment is made, and if such tax remains unpaid for more than 90 days after notification of such assessment by the state tax appeal board, the board shall cause an action to be brought to recover the amount of such additional tax in the district court of any county within the state of Montana in which service can be had on the freight line company liable for the tax or in which the property of such delinquent freight line company can be seized under attachment or garnishment proceedings in the manner prescribed by law.

The department shall add to the amount of all delinquent freight line company license taxes a penalty of 10% of the amount of license taxes plus interest at the rate of 1% per month or fraction thereof computed on the total amount of license taxes and penalty. Interest is computed from the date the license taxes were due to the date of payment.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. The tax is due and payable at the expiration of 10 days from the date of such notice and demand. (2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-58-110 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law

15-59-211. Renumbered 15-59-221 by Code Commissioner, 1983.

15-59-212. Deficiency assessment — hearing — interest. (1) When the department of revenue determines that the amount of tax due is greater than the amount disclosed by a return, it shall mail to the taxpayer a notice of the additional tax proposed to be assessed. Within 30 days after mailing of the notice, the taxpayer may file with the department a written protest against the proposed additional tax, setting forth the grounds upon which the protest is based, and may request in his protest an oral hearing or an opportunity to present additional evidence relating to his tax liability. If no protest is filed, the amount of the additional tax proposed to be assessed becomes final upon the expiration of the 30-day period. If a protest is filed, the department must reconsider the proposed assessment and, if the taxpayer has so requested, must grant the taxpayer an oral hearing. After consideration of the protest and the evidence presented at any oral hearing, the department's action upon the protest is final when it mails notice of its action to the taxpayer.

(2) When a deficiency is determined and the tax becomes final, the department shall mail a notice and demand for payment to the taxpayer. The tax is due and payable at the expiration of 10 days from the date of such notice and demand. Interest on any deficiency assessment shall bear interest until paid at the rate of 1% a month or fraction thereof, computed from the original due date of the return.

History: En. Sec. 1, Ch. 14, L. 1983.

15-59-213. Credit for overpayment — interest on overpayment. (1) If the department of revenue determines that the amount of tax, penalty, or interest due for any year is less than the amount paid, the amount of the overpayment shall be credited against any tax, penalty, or interest then due from the taxpayer and the balance refunded to the taxpayer or its successor through reorganization, merger, or consolidation or to its shareholders upon dissolution.

(2) Except as provided in subsection (3), interest shall be allowed on overpayments at the same rate as is charged on deficiency assessments provided in 15-59-212 due from the due date of the return or from the date of overpayment (whichever date is later) to the date the department approves refunding or crediting of the overpayment.

(3) (a) Interest shall not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment.

(b) No interest shall be allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) A payment not made incident to a bona fide and orderly discharge of an actual tax liability or one reasonably assumed to be imposed by this law shall not be considered an overpayment with respect to which interest is allowable.

History: En. Sec. 2, Ch. 14, L. 1983.

15-59-214. Statute of limitations. (1) Except as otherwise provided in this section, no deficiency may be assessed or collected with respect to the year for which a return is filed unless the notice of additional tax proposed to be assessed is mailed within 5 years from the date the return was filed. For the purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) No refund or credit may be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim therefor or the department of revenue has determined the existence of the overpayment and has approved the refund or credit thereof. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department.

History: En. Sec. 1, Ch. 194, L. 1983.

(a) $54,000 shall be designated for the purposes and functions of the Montana rural technical assistance transportation program in Bozeman;

(b) $6,323,000 shall be divided among the various counties in the following manner:

(i) 40% in the ratio that the rural road mileage in each county, exclusive of the federal-aid interstate system and the federal-aid primary system, bears to the total rural road mileage in the state, exclusive of the federal-aid interstate system and the federal-aid primary system;

(ii) 40% in the ratio that the rural population in each county outside incorporated cities and towns bears to the total rural population in the state outside incorporated cities and towns;

(iii) 20% in the ratio that the land area of each county bears to the total land area of the state;

(c) $7,623,000 shall be divided among the incorporated cities and towns in the following manner:

(i) 50% of the sum in the ratio that the population within the corporate limits of the city or town bears to the total population within corporate limits of all the cities and towns in Montana;

(2) All funds hereby allocated to counties, cities, and towns shall be used for the construction, reconstruction, maintenance, and repair of rural roads, city or town streets and alleys or for the share which such city, town, or county might otherwise expend for proportionate matching of federal funds allocated for the construction of roads or streets which are part of the federal-aid primary or secondary highway system or urban extensions thereto, except that the governing body of a town or third-class city, as defined in 7-1-4111, may each year expend no more than 25% of the funds allocated to that town or third-class city for the purchase of capital equipment and supplies to be

used for the maintenance and repair of town or third-class city streets and alleys.

(3) Upon receipt of the allocation provided herein, the governing bodies of the recipient counties, cities, and towns shall inform the department of highways of the purposes for which the funds will be expended so that the county commissioners, the governing body, and the department of highways may coordinate the expenditure of public funds for road improvements.

(4) All funds hereby allocated to counties, cities, and towns shall be disbursed to the lowest responsible bidder according to applicable bidding procedures followed in all cases where the contract for construction, reconstruction, maintenance, or repair is in excess of $4,000.

Each jurisdiction shall forward the findings of the audits performed on persons based in the jurisdiction to each jurisdiction in which the person has taxable use of motor fuel. For a person not based in Montana who has taxable use of motor fuel in Montana, the department may serve the audit findings received from another jurisdiction in the form of an assessment on the person, as though an audit was conducted by the department.

Such refund or drawback should in no instance exceed the tax paid or to be paid to the state and no refund shall be allowed of that portion of the tax per gallon upon aviation gasoline allocated to the department of commerce by 67-1-301.

(2) Any distributor paying the gasoline license tax to this state erroneously shall be allowed a credit or refund of the amount of tax so paid.

(c) The department may require a distributor to submit periodic reports listing accounts that are delinquent for 90 days or more.

15-70-222. Required records. (1) Gasoline purchased and delivered into bulk storage for use in motor vehicles on public roads and nonhighway use must be fully accounted for by detailed withdrawal records to accurately show the manner in which used. Gasoline on hand, determined by actual measurement, shall be deducted from a claim and shall be reported as an opening inventory on the next claim.

(2) If separate storage tanks are maintained on claimant's premises for use in licensed vehicles and in unlicensed equipment, the bulk delivery invoices shall be so marked by the dealer at the time of delivery. No further record is required, provided refunds are claimed only on the number of gallons delivered into the unlicensed equipment tank. Withdrawal of gasoline from the unlicensed vehicle tank for licensed vehicles will invalidate this method of determining refundable gallonage.

(3) Special storage facilities used for certain periods must be identified and explained. If such storage is used entirely for off-highway purposes and is not used in licensed vehicles, no records will be required other than purchase invoices showing the delivery into such storage.

(4) Service stations, bulk dealers, and marinas must prepare a separate and complete invoice for each withdrawal of gasoline for own use upon which a refund is to be claimed.

(5) When no highway use of gasoline is deducted from the claim, the applicant must substantiate purchases of gasoline and miles traveled for licensed motor vehicles upon request of the department of revenue.

(6) Any person who operates a licensed motor vehicle on and off the public roads for commercial purposes may claim refund of the state license tax on the gasoline used to operate the vehicle on roads or property in private ownership if such person has maintained the following records:

(a) the total number of miles traveled on and off public roads by each licensed vehicle;

(b) total gallons of gasoline used in each vehicle;

(c) purchase invoices supporting all gasoline handled through bulk storage, as well as all fuels purchased at service stations or received from other sources.

(7) An exporter or any other person who transports gasoline out of Montana for sale, use, or consumption outside of Montana shall maintain detailed and contemporaneous records of withdrawal, transportation, ownership, and delivery of the gasoline to destinations outside of Montana as required by the department of revenue.

(1) An applicant whose use qualifies as agricultural use may apply for a refund of 60% of the applicable tax on the gallons of gasoline as indicated by bulk delivery invoices or by evidence of keylock or cardtrol purchases as an estimate of off-roadway use.

(2) If any invoice or evidence is either lost or destroyed, the purchaser may support his claim for refund by submitting an affidavit relating the circumstances of such loss or destruction and by producing such other evidence as may be required by the department of revenue.

(3) An applicant whose use does not qualify as agricultural use may not estimate and must maintain records as required by 15-70-222.

15-70-225. Application for refund or credit — filing — correction by department. (1) The application for refund shall be a signed statement, on a form furnished by the department of revenue. Except for a claim for a credit of taxes paid on unpaid accounts, the form must be accompanied by the original bulk delivery invoice or invoices issued to the claimant at the time of each purchase and delivery, showing the total amount of gasoline purchased, the total amount of gasoline on which a refund is claimed, and the amount of the tax claimed for refund. A claim for a credit for taxes paid on accounts for which the distributor received no compensation must be accompanied by documents or copies of documents showing that the accounts were worthless and claimed as bad debts on the distributor's federal income tax return. Any further information pertaining to a claim shall be furnished as required by the department.

(2) A bulk delivery invoice issued by a dealer for a sale that does not qualify as a bulk delivery under 15-70-201 is not valid for refund purposes.

(3) All applications for refunds shall be filed with the department within 14 months after the date on which the gasoline was purchased as shown by invoices or after the date on which the tax was erroneously paid. A distributor may file a claim for refund of taxes erroneously paid or for a credit for

taxes paid by him on unpaid accounts within 3 years after the date of payment.

(4) Should the department find that the statement contains errors which are not fraudulently inserted, it may correct the statement and approve it as corrected or the department may require the claimant to file an amended statement.

15-70-303, for an authorization. The authorization requires the holder to prepay an annual tax on the special fuel placed in bulk storage and used, in part, in the holder's special fuel-powered vehicles, rather than apply for a special fuel user's permit.

(b) If a holder elects to obtain an authorization, he shall prepay the tax at the rate of $120 for each passenger car or pickup within the weight limit specified in subsection (1)(a). The tax must be paid on a calendar-year basis and must be prorated from the date of authorization for each vehicle. A person whose purchases of special fuel are predominantly for highway or nonagricultural use does not qualify for the special fuel tax.

(c) Whenever the holder of an authorization ceases to farm within this state, he shall notify the department within 15 days after discontinuance. The holder shall surrender to the department the authorization issued to him by the department. The department shall refund the portion of the prepaid tax attributable to the remaining portion of the calendar year.

15-70-326. Computation. The tax imposed by this part shall be computed as follows:

(1) with respect to special fuel used by the seller thereof as a special fuel dealer, by multiplying the tax rate per gallon provided in this part by the number of gallons of special fuel delivered or placed by him into the supply tank or tanks of a motor vehicle;

(2) with respect to special fuel as to which the tax has not been paid to a special fuel dealer in this state and which has been consumed by the purchaser thereof as a special fuel user, by multiplying the tax rate per gallon provided in this part by the number of gallons of special fuel consumed by him in the propulsion of motor vehicles on the highways of this state.

History: En. Sec. 6, Ch. 162, L. 1955; amd. Sec. 9, Ch. 70, L. 1963; amd. Sec. 1, Ch. 52, L. 1969; amd. Sec. 2, Ch. 61, L. 1969; amd. Sec. 4, Ch. 277, L. 1971; amd. Sec. 83, Ch. 516, L. 1973; amd. Sec. 1, Ch. 258, L. 1977; amd. Sec. 1, Ch. 377, L. 1977; R.C.M. 1947, 84-1835(b).

15-70-327. Payment — deductions. The tax return shall be accompanied by remittance covering the tax due hereunder on account of the use as defined in 15-70-301 of special fuels during the preceding period. A licensed special fuel dealer is allowed a deduction equal to 1% of the first 6 cents per gallon of the taxes paid by the dealer under 15-70-321 as an allowance for shrinkage, spillage, and evaporation of special fuels and other losses beyond the dealer's control.

15-70-328. Credits. (1) Any licensed special fuel user or licensed special fuel dealer who has paid a special fuel tax either directly or to the vendor from whom it was purchased shall receive credit in the amount of any tax paid on special fuel exported for use outside of this state or for any use off the public roads and highways of this state or for any overpayment of special fuel taxes not due to the state. Special fuel carried from this state in the fuel tank of a motor vehicle is deemed to be exported from this state.

(2) Any licensed special fuel user who purchases a temporary special fuel permit and thereafter applies for a special fuel vehicle permit for the same vehicle in less than 11 days after the temporary permit is issued shall receive credit in the amount of the temporary permit fee.

(3) (a) A special fuel dealer who has paid a special fuel tax is entitled to a credit of the tax paid to the department on those sales of special fuels for which the dealer has received no consideration from or on behalf of the purchaser. The dealer shall have declared the accounts of the purchaser worthless and claimed those accounts as bad debts for federal income tax purposes.

(b) If a credit has been granted under this subsection (3), any amount collected on the accounts that were declared worthless must be reported to the department and the tax due on the collected amount must be paid to the department.

(c) The department may require a dealer to submit periodic reports listing accounts that are delinquent for 90 days or more.

1989 Amendment: Inserted (3) providing a credit for special fuel taxes paid by a dealer for unpaid accounts.

15-70-329. Procedures for credits. (1) Should a licensed special fuel user or licensed special fuel dealer desire to receive refund of special fuel taxes or of the temporary permit fee, the user or dealer shall make a signed and written request to the department requesting those amounts then due. Any amount determined to be creditable by the department under 15-70-328 shall first be credited on any amounts then due and payable from the special fuel dealer or special fuel user to whom the refund is due, and the department shall then certify the balance to the credit of the dealer or user. A warrant shall be drawn upon the state treasurer for the amount of such claim, and same shall be paid in the same manner as other claims against the state are paid.

(2) In case any special fuel user or special fuel dealer fails or neglects to file a request for refund of special fuel taxes within 12 months from the date

his special fuel license became canceled, the department shall be under no obligation to make a refund.

(1) In case of any special fuel dealer or special fuel user who refuses or fails to file a return required by this part within the time prescribed by 15-70-103 and 15-70-325, there is hereby imposed a penalty of $25 or a sum equal to 10% of the tax due, whichever is greater, together with interest at the rate of 1% on the tax due for each calendar month or fraction thereof during which such refusal or failure continues; provided, however, that if any such special fuel dealer or special fuel user shall establish to the satisfaction of the department that his failure to file a return within the time prescribed was due to reasonable cause, the department shall waive the penalty provided by this section.

(2) Where a special fuel dealer or a special fuel user files a return but fails to pay in whole or in part the tax due hereunder, there shall be added to the amount due and unpaid interest at the rate of 1% per month or fraction thereof from the date such tax was due to the date of payment in full thereof.

If it be determined by the department that the tax reported by any special fuel dealer or special fuel user is deficient, it shall proceed to assess the deficiency on the basis of information available to it and there shall be added to this deficiency interest at the rate of 1% per month or fraction thereof from the date the return was due.

History: En. Sec. 6, Ch. 162, L. 1955; amd. Sec. 9, Ch. 70, L. 1963; amd. Sec. 1, Ch. 52, L. 1969; amd. Sec. 2, Ch. 61, L. 1969; amd. Sec. 4, Ch. 277, L. 1971; amd. Sec. 83, Ch. 516, L. 1973; amd. Sec. 1, Ch. 258, L. 1977; amd. Sec. 1, Ch. 377, L. 1977; R.C.M. 1947, 84-1835(f).

(1) If any special fuel dealer or special fuel user, whether or not he is licensed as such, fails, neglects, or refuses to file a special fuel tax return when due, the department shall on the basis of information available to it determine the tax liability of the special fuel dealer or special fuel user for the period during which no return was filed, and to the tax as thus determined, the department shall add the penalty and interest provided in 15-70-330(1).

(2) An assessment made by the department pursuant to this section or to 15-70-331 shall be presumed to be correct, and in any case where the validity of the assessment is drawn in question, the burden shall be on the person who challenges the assessment to establish by a fair preponderance of the evidence that it is erroneous or excessive as the case may be.

History: En. Sec. 6, Ch. 162, L. 1955; amd. Sec. 9, Ch. 70, L. 1963; amd. Sec. 1, Ch. 52, L. 1969; amd. Sec. 2, Ch. 61, L. 1969; amd. Sec. 4, Ch. 277, L. 1971; amd. Sec. 83, Ch. 516, L. 1973; amd. Sec. 1, Ch. 258, L. 1977; amd. Sec. 1, Ch. 377, L. 1977; R.C.M. 1947, 84-1835(g).

15-70-502. Purpose. The purpose of this part is to establish schedules for the tax incentive for the production of alcohol to be blended for gasohol and to provide for the proper administration and enforcement of the tax incentive. The schedules for the tax incentive are designed to stimulate the development of alcohol fuel production in Montana while limiting the cost to the state of the tax incentive to amounts that are reasonable in relation to the highway revenue needs of Montana.

History: **En. Sec. 2, Ch. 649, L. 1983.**

15-70-503. Definitions. As used in this part, the definitions in 15-70-201 and the following definitions apply:

Every alcohol distributor, prior to doing business, shall file with the department an application for a license, using forms prescribed and furnished by the department and setting forth such information as may be requested by the department. Upon approval of the application, the department shall issue the distributor a nonassignable license that continues in force until surrendered or canceled.

History: **En. Sec. 4, Ch. 649, L. 1983.**

15-70-512. Distributor's statement. Each alcohol distributor shall, not later than the 25th day of each calendar month, render to the department a statement, signed by him, that includes the following:

(1) the number of gallons of alcohol manufactured or imported by the distributor during the preceding calendar month;

(2) the name of each gasohol dealer to whom he sold alcohol and the number of gallons sold to each dealer; and

(3) such other information as the department may reasonably require to administer the tax laws of this state.

History: **En. Sec. 5, Ch. 649, L. 1983.**

15-70-513. Recordkeeping requirements. The records of each alcohol distributor and gasohol dealer must be kept for a period of not more than 3 years and must include receipts, invoices, and such other information as the department may require.

History: **En. Sec. 6, Ch. 649, L. 1983.**

15-70-514. Examination of records. The department or its authorized representative may examine the books, papers, records, and equipment of any alcohol distributor or gasohol dealer.

15-70-515 through 15-70-520 reserved.

15-70-521. Denaturing alcohol — refund authorized. Any alcohol distributor who, for the purpose of denaturing alcohol distilled in Montana, purchases gasoline on which the Montana gasoline tax has been paid is entitled to a refund, computed as allowed in 15-70-221, of tax paid on the gasoline used.

History: **En. Sec. 8, Ch. 649, L. 1983.**

15-70-522. Tax incentive for production of alcohol. (1) (a) Provided the alcohol was produced in Montana from Montana agricultural products, including Montana wood or wood products, there is a tax incentive payable to alcohol distributors for distilling alcohol that:

(i) was blended with gasoline for sale as gasohol in Montana; or

(ii) was exported from Montana and has been blended with gasoline for sale as gasohol.

(b) Payment shall be made by the department of revenue out of the amount collected under 15-70-204.

(2) Except as provided in subsections (3) through (5), the tax incentive on each gallon of alcohol distilled in accordance with subsection (1) is:

(a) beginning July 1, 1983, 70 cents per gallon;

(b) beginning April 1, 1985, 50 cents per gallon;

(c) beginning April 1, 1987, 30 cents per gallon; and

(d) beginning July 1, 1993, and thereafter, there is no tax incentive.

(3) The incentive schedule provided for in subsection (2) shall be modified in response to market conditions as follows:

(a) If for any 2 consecutive calendar quarters ending on or before September 30, 1984, the gallons of gasohol sold or that have received the benefit of the tax incentive during those quarters comprise 8% or more but less than 11% of the total gallons of nonaviation gasoline and gasohol sold in Montana, the tax incentive for alcohol shall be 50 cents per gallon, effective beginning the second calendar quarter after the 2 consecutive calendar quarters during which the gallons of gasohol sold or that have received the benefit of the tax incentive during those quarters comprised 8% or more but less than 11% of the total gallons of nonaviation gasoline and gasohol sold in Montana.

(b) If for any 2 consecutive calendar quarters ending on or before September 30, 1986, the gallons of gasohol sold or that have received the benefit of the tax incentive during those quarters comprise 11% or more but less than 18% of the total gallons of nonaviation gasoline and gasohol sold in Montana, the tax incentive for alcohol shall be 30 cents per gallon effective beginning the second calendar quarter after the 2 consecutive calendar quarters during which the gallons of gasohol sold or that have received the benefit of the tax incentive during those quarters comprised 11% or more but less than 18% of the total gallons of nonaviation gasoline and gasohol sold in Montana.

(c) If for any 2 consecutive calendar quarters ending on or before September 30, 1988, the gallons of gasohol sold or that have received the benefit of the tax incentive during those quarters comprise 18% or more of the total gallons of nonaviation gasoline and gasohol sold in Montana, the tax incentive for alcohol shall be eliminated effective beginning the second calendar quarter after the 2 consecutive quarters during which the gallons of gasohol sold or that have received the benefit of the tax incentive during those quarters comprised 18% or more of the total gallons of nonaviation gasoline and gasohol sold in Montana.

(d) Each quarter, the department shall compute the share of the total nonaviation gasoline and gasohol market that is represented by gasohol, according to the information contained in gasoline distributors' returns and the applications for payment of the alcohol production tax incentive. Alcohol that is exported from Montana and eligible for the tax incentive must be included in the computations.

(4) Regardless of the alcohol tax incentive provided in subsection (2) or (3), the total payments made for the incentive under this part may not exceed $1,250,000 in any consecutive 12-month period beginning April 1, 1985.

(5) No alcohol distributor may receive tax incentive payments under subsection (2) that exceed $1,000,000 in any consecutive 12-month period beginning April 1, 1985, except as follows. If total tax incentive payments to all eligible alcohol distributors in any consecutive 12-month period beginning April 1, 1985, do not reach the percentage of production maximums in subsection (3) or the maximum dollar amount in subsection (4), an alcohol distributor who has received the maximum payment of $1,000,000 as herein provided may receive additional tax incentive payments subject to the percentage of production maximums in subsection (3) or the maximum dollar amount in subsection (4).

History: En. Sec. 9, Ch. 649, L. 1983; amd. Sec. 3, Ch. 697, L. 1985; amd. Sec. 1, Ch. 593, L. 1989.

(a) 16% of the retail selling price on all liquor sold and delivered in the state by a company that manufactured, distilled, rectified, bottled, or processed, and sold more than 200,000 proof gallons of liquor nationwide in the calendar year preceding imposition of the tax pursuant to this section;

(2) The department shall retain the amount of such excise tax received in a separate account and shall deposit with the state treasurer, to the credit of

the general fund, such sums collected and received not later than the 10th day of each and every month.

16-1-402. Payment of excise tax by carriers. (1) Every airline or railroad operating in the state of Montana and selling liquor purchased outside this state for consumption within this state shall pay to the department the excise taxes and state markup which would be applicable to such liquor if purchased from the state liquor store.

(2) The amount of such excise taxes and state markup payable shall be determined by multiplying the following factors:

(a) the average liquor used per departure;

(b) the number of departures from Montana on which liquor is served;

(c) the ratio of Montana revenue passenger miles to system revenue passenger miles; and

(d) the applicable excise tax and state markup rates.

(3) From said product, the carrier shall subtract the amount of excise taxes and state markup on purchases of liquor made within this state.

History: En. 4-4-110 by Sec. 115, Ch. 387, L. 1975; R.C.M. 1947, 4-4-110.

16-1-403. Excise tax accounting methods — report forms. (1) The method provided in 16-1-402 shall be presumed to determine fairly and correctly the liquor purchased outside this state and sold for consumption within this state. Any carrier aggrieved by the application of the method may petition the department for use of some other method. Thereupon, if the department finds that the application of the method will be unjust to the carrier, it may allow the use of the method petitioned for by the carrier or may use such other method as will fairly reflect the liquor purchased outside this state and served for consumption within this state.

(2) The department shall prescribe report forms which shall be used by the carriers in reporting their sales and computing their liability for excise taxes and markup. Report forms shall be filed and payment of excise taxes and state markup shall be made on a quarterly basis. The filing of report forms and payment of excise taxes and state markup shall be made not later than the last day of the month immediately following the close of each quarterly period.

16-1-404. License tax on liquor — amount — distribution of proceeds. (1) The department is hereby authorized and directed to charge, receive, and collect at the time of sale and delivery of any liquor under any provisions of the laws of the state of Montana a license tax of:

(a) 10% of the retail selling price on all liquor sold and delivered in the state by a company that manufactured, distilled, rectified, bottled, or processed, and sold more than 200,000 proof gallons of liquor nationwide in the calendar year preceding imposition of the tax pursuant to this section;

(b) 8.6% of the retail selling price on all liquor sold and delivered in the state by a company that manufactured, distilled, rectified, bottled, or processed, and sold not more than 200,000 proof gallons of liquor nationwide in the calendar year preceding imposition of the tax pursuant to this section.

(2) The license tax shall be charged and collected on all liquor brought into the state and taxed by the department. The retail selling price shall be computed by adding to the cost of said liquor the state markup as designated by the department. The license tax shall be figured in the same manner as the state excise tax and shall be in addition to said state excise tax. The department shall retain in a separate account the amount of the license tax so received. Thirty percent of these revenues are statutorily appropriated, as provided in 17-7-502, to the department and shall be allocated to the counties according to the amount of liquor purchased in each county to be distributed to the incorporated cities and towns, as provided in subsection (3). Four and one-half percent of these revenues are statutorily appropriated, as provided in 17-7-502, and shall be allocated to the counties according to the amount of liquor purchased in each county, and this money may be used for county purposes. The remaining revenues shall be deposited in the state special revenue fund to the credit of the department of institutions for the treatment, rehabilitation, and prevention of alcoholism. Provided, however, in the case of purchases of liquor by a retail liquor licensee for use in his business, the department shall make such regulations as are necessary to apportion that proportion of license tax so generated to the county where the licensed establishment is located, for use as provided in 16-1-405. That proportion of the license tax is statutorily appropriated, as provided in 17-7-502, to the department, which shall pay quarterly to each county treasurer the proportion of the license tax due each county to be allocated to the incorporated cities and towns of the county.

(3) The license tax proceeds allocated to the county under subsection (2) for use by cities and towns shall be distributed by the county treasurer to the incorporated cities and towns within 30 days of receipt from the department. The distribution of funds to the cities and towns shall be based on the proportion that the gross sale of liquor in each city or town is to the gross sale of liquor in all of the cities and towns of the county.

(4) The license tax proceeds that are allocated to the department of institutions for the treatment, rehabilitation, and prevention of alcoholism shall be credited quarterly to the department of institutions. The legislature may appropriate a portion of the license tax proceeds to support alcohol programs. The remainder shall be distributed as provided in 53-24-206.

16-3-217. Purposes. The legislature finds and declares that the purposes of 16-3-218 through 16-3-226 are to assure continued interbrand competition in malt beverage sales through competing independent wholesalers and to assure breweries the ability to protect the reputations of their products through quality control arrangements.

History: En. Sec. 1, Ch. 61, L. 1987.

16-3-218. "Distribute" defined. As used in 16-3-219, 16-3-220, 16-4-103, and 16-4-108, "distribute" means to deliver beer or wine to a retailer's premises licensed to sell beer or table wine.

History: En. Sec. 3, Ch. 61, L. 1987.

16-3-219. Dock sales restricted. A beer wholesaler or a table wine distributor may not deliver beer or wine to a licensed retailer at any location other than the retailer's licensed premises, except that a retailer located within the territory for which a wholesaler has been appointed to distribute a brand may personally or through his employee obtain from the wholesaler's warehouse quantities of beer not exceeding three barrels in packaged or draft form. An all-beverages licensee may upon presentation of his license or a photocopy of his license personally obtain from any wholesaler's warehouse such quantities of beer as he and the wholesaler may agree to buy and sell.

History: En. Sec. 4, Ch. 61, L. 1987.

16-3-220. Wholesalers' service obligations — applicability. (1) A wholesaler appointed to distribute a brand of beer within a territory specified by agreement pursuant to 16-3-221(3) shall call on and offer that brand to at least 75% of the retailers within that territory at least every 3 weeks.

(2) If a retailer's account with a wholesaler is current as required under 16-3-243, the wholesaler may not refuse to sell the retailer any brand of beer for which the wholesaler has been appointed for the territory in which the retailer is located. The wholesaler shall offer to deliver the beer to such retailer at least every 3 weeks.

(3) This section applies to all beer distribution agreements entered into, assigned, or amended after July 1, 1986. It does not apply to a distribution agreement for a named brand entered into before July 1, 1986, but does not

prohibit a brewer party to such an agreement from requiring the appointed wholesaler to fulfill similar service obligations in the territory.

History: **En. Sec. 5, Ch. 61, L. 1987.**

16-3-221. Illegal acts by brewers or beer importers. It is unlawful for any brewer or beer importer or any officer, agent, or representative of any brewer or beer importer to:

(1) coerce, or attempt to coerce, or persuade any person licensed to sell beer at wholesale to enter into any agreement or to take any action which would violate or tend to violate any of the laws of this state or any rules promulgated by the department;

(2) sell its products in the state without a written contract, which conforms to the provisions of 16-3-221 through 16-3-226, with each appointed licensed wholesale distributor;

(3) designate or allow more than one wholesale distributor to sell or distribute a specific brand of the brewer's or beer importer's products to retail licensees in the same area, provided that nothing herein shall prohibit the brewer or beer importer from designating more than one wholesale distributor to sell or distribute different brands of the same manufacturer to retail licensees in the same area; and

(4) cancel or terminate, except for just cause or in accordance with the current terms and standards established by the brewer or beer importer then equally applicable to all wholesalers, any agreement or contract, written or oral, or the franchise of any wholesaler existing on January 1, 1974, or thereafter entered into to sell beer manufactured by the brewer or imported by the beer importer. A brewer or beer importer may, notwithstanding the preceding sentence, make reasonable classifications among wholesalers. If a brewer or beer importer cancels or terminates a wholesaler's franchise, the brewer or beer importer has the burden of proving the classification was reasonable and not arbitrary. After July 1, 1974, the provisions of 16-3-221 through 16-3-226 shall be a part of any franchise, contract, agreement, or understanding, whether written or oral, between any wholesaler of beer licensed to do business in this state and any manufacturer or beer importer doing business with the licensed wholesaler just as though the provisions had been specifically agreed upon between the wholesaler and the manufacturer or beer importer.

(1) that the brewer or beer importer or any officer, agent, or representative of any brewer or beer importer and the wholesaler involved mutually shall determine the size or extent of the area in which the wholesaler may sell or distribute the products of the brewer or beer importer to the retail licensees. Said territory will be the territory agreed upon between the wholesaler and brewer or the wholesaler and beer importer and may not be changed without the mutual consent of both the wholesaler and brewer or the wholesaler and beer importer.

(2) the agreed-upon brands of the brewer or beer importer to be sold by the wholesaler;

(3) that the brewer or beer importer recognizes that the wholesaler is free to manage his business in the manner the wholesaler deems best and that this prerogative vests in the wholesaler the exclusive right to establish selling prices, to select the brands he wishes to handle, to determine the effort and resources the wholesaler will exert to develop and promote the sale of the brewer's or beer importer's products handled by the wholesaler;

(4) a procedure for the review of alleged wholesaler deficiencies, including the submission in writing to the wholesaler by the brewer or beer importer of said deficiencies, if the deficiencies are susceptible of correction and if the wholesaler desires to correct said deficiencies, and that a reasonable period of time shall be given the wholesaler for rectification of said deficiencies prior to any notice of intent to terminate;

(5) a termination clause providing that the brewer or beer importer shall deliver, in writing, to the wholesaler a 60-day notice of intent to terminate the agreement, contract, or franchise.

Provided, however, the consent of the brewer or beer importer in writing is required for such transferee to continue as a wholesaler of said brewer or beer importer, which consent shall consider the personal, financial, and managerial responsibilities and capabilities of such transferee and which consent shall not unreasonably be withheld.

16-3-224. Contractual or franchise relationship — existence by actions. The doing or accomplishing of any of the following acts constitutes prima facie evidence of a contractual or franchise relationship between a licensed wholesaler and a brewer or beer importer within the contemplation of 16-3-221 through 16-3-226:

16-3-225. Injunction to prevent franchise cancellation. Any court of competent jurisdiction may enjoin the cancellation or termination of a franchise or agreement between a wholesaler and a brewer or between a wholesaler and a beer importer at the instance of a wholesaler who is or would be adversely affected by the cancellation or termination. In granting an injunction, the court shall provide that the brewer or beer importer shall not supply the customers or territory of the wholesaler who is servicing the territory or customers through other distributors or means while the injunction is in effect.

16-4-105. Limit on retail beer licenses — wine license amendments — off-premises consumption. (1) Except as otherwise provided by law, a license to sell beer at retail or beer and wine at retail, in accordance with the provisions of this code and the rules of the department, may be issued to any person, firm, or corporation who is approved by the department as a fit and proper person, firm, or corporation to sell beer, except that:

(a) the number of retail beer licenses that the department may issue for premises situated within incorporated cities and incorporated towns and within a distance of 5 miles from the corporate limits of such cities and towns shall be determined on the basis of population prescribed in 16-4-502 as follows:

(i) in incorporated towns of 500 inhabitants or less and within a distance of 5 miles from the corporate limits of such towns, not more than one retail beer license, which may not be used in conjunction with a retail all-beverages license;

(ii) in incorporated cities or incorporated towns of more than 500 inhabitants and not over 2,000 inhabitants and within a distance of 5 miles from the corporate limits of such cities or towns, one retail beer license for each 500 inhabitants, which may not be used in conjunction with retail all-beverages licenses;

(iii) in incorporated cities of over 2,000 inhabitants and within a distance of 5 miles from the corporate limits of such cities, four retail beer licenses for the first 2,000 inhabitants, two additional retail beer licenses for the next 2,000 inhabitants or major fraction thereof, and one additional retail beer license for each additional 2,000 inhabitants, which may not be used in conjunction with retail all-beverages licenses;

(b) the number of the inhabitants in such cities and towns, exclusive of the number of inhabitants residing within a distance of 5 miles from the corporate limits thereof, shall govern the number of retail beer licenses that may be issued for use within such cities and towns and within a distance of 5 miles from the corporate limits thereof. If two or more incorporated municipalities are situated within a distance of 5 miles from each other, the total number of retail beer licenses that may be issued for use in both of such municipalities and within a distance of 5 miles from their respective corporate limits shall be determined on the basis of the combined populations of both of such municipalities and may not exceed the foregoing limitations. The distance of 5 miles from the corporate limits of any incorporated city or incorporated town shall be measured in a straight line from the nearest entrance of the premises proposed for licensing to the nearest corporate boundary of such city or town.

(c) retail beer licenses of issue on March 7, 1947, and retail beer licenses issued under 16-4-110, which are in excess of the foregoing limitations shall be renewable, but no new licenses may be issued in violation of such limitations;

(d) such limitations do not prevent the issuance of a nontransferable and nonassignable retail beer license to an enlisted men's, noncommissioned officers', or officers' club located on a state or federal military reservation on May 13, 1985, or to a post of a nationally chartered veterans' organization or a lodge of a recognized national fraternal organization if such veterans' or fraternal organization has been in existence for a period of 5 years or more prior to January 1, 1949;

(e) the number of retail beer licenses that the department may issue for use at premises situated outside of any incorporated city or incorporated town and outside of the area within a distance of 5 miles from the corporate limits thereof or for use at premises situated within any unincorporated town shall be as determined by the department in the exercise of its sound discretion, except that no retail beer license may be issued for any premises so situated unless the department determines that the issuance of such license is required by public convenience and necessity.

(2) A person holding a license to sell beer for consumption on the premises at retail may apply to the department for an amendment to the license permitting the holder to sell wine as well as beer. The division may issue such amendment if it finds, on a satisfactory showing by the applicant, that the sale of wine for consumption on the premises would be supplementary to a restaurant or prepared-food business. A person holding a beer-and-wine license may sell wine for consumption on or off the premises. Nonretention of the beer license, for whatever reason, shall mean automatic loss of the wine amendment license.

(3) A retail license to sell beer or table wine, or both, in the original packages for off-premises consumption only may be issued to any person, firm, or corporation who is approved by the department as a fit and proper person, firm, or corporation to sell beer or table wine, or both, and whose premises proposed for licensing are operated as a bona fide grocery store or a drugstore licensed as a pharmacy. (1) It is the intent and purpose of this section to encourage the growth of quality recreational resort facilities in undeveloped areas of the state and to provide for the orderly growth of existing recreational sites by the establishment of resort areas within which retail all-beverages licenses may be issued by the department under the terms and as more particularly prescribed below. In addition to the licenses as otherwise set forth in this code, the department may issue resort retail all-beverages licenses in a resort area.

(2) For the purposes of this section, a resort area is defined as a recreational facility meeting the qualifications determined by the department as hereinafter provided.

(3) The department shall determine that the area for which licenses are to be issued is a resort area, such determination to be made under and pursuant to rules to be first promulgated on or before December 31, 1975.

(4) In addition to the other requirements of this code, a resort area, for the purposes of qualification for the issuance of a resort retail all-beverages license, must have a current actual valuation of resort or recreational facilities, including land and improvements thereon, of not less than $500,000, at least half of which valuation must be for a structure or structures within the resort area, and must be under the sole ownership or control of one person or entity at the time of the filing of the resort area plat referred to in subsection (5) of this section. The word "control" shall mean lands held under lease, option, or permit.

(5) The resort area must be determined by the resort developer or landowner by a plat setting forth the resort boundaries, designating the ownership of the lands within the resort area, which plat must be verified by the resort developer or landowner and filed with the department prior to the filing of any applications by individuals for licenses within the resort area. Such plat must show the location and general design of the buildings and other improvements to be built in said area in which resort retail all-beverages licenses are to or may be located. A master plan for the development of the area may be filed by the resort developer in satisfaction of this section.

(6) Upon such filing the department shall forthwith schedule a public hearing to be held in Helena, Montana, to determine whether the facility proposed by the resort developer or landowner is a resort area within the meaning of the rules of the department. At least 30 days prior to the date of the hearing, the department shall publish notice thereof, with a description of the location of the proposed resort area, in a newspaper published in the county or counties in which the resort is located, once a week for 4 consecutive

weeks. Each resort developer or landowner shall, at the time of filing his application, pay to the department an amount sufficient to cover the costs of said publication.

(7) Persons may present statements to the department at the hearing in person or in writing in opposition or support of the plat.

(8) Within 30 days of the hearing, the department shall accept or reject the plat. If rejected the department must state its reasons and set forth the conditions, if any, under which the plat will be accepted, and the decision of the department may be reviewed pursuant to the review procedure set forth in 16-4-406.

(9) Once filed with the department, the boundaries of a resort may not be changed without full hearing as above provided and the prior approval of the department, which approval shall be according to public convenience and necessity.

(10) (a) When the department has accepted a plat and a given resort area has been determined, applications may then be filed with the department by persons for the issuance of resort retail all-beverages licenses within the resort area.

(b) Each applicant must submit plans showing the location, appearance, and floor plan of the premises for which application for a license is made.

(c) If an applicant otherwise qualifies for a resort license but the premises to be licensed are still in construction or are otherwise incomplete at the time of such application, the department shall issue a letter stating that the license will be issued at such time as the qualifications for a licensed premises have been met, setting forth such time limitations and requirements as the department may establish.

(11) In addition to the restrictions on sale or transfer of a license as provided in 16-4-204 and 16-4-404, no resort retail all-beverages license may be sold or transferred for operation at a location outside of the boundaries of the resort area.

(12) A resort retail all-beverages license shall not be subject to the quota limitations set forth in 16-4-201, and if the requirements of this section have been met, a resort retail all-beverages license shall be issued by the department on the basis that the department has determined that such license is justified by public convenience and necessity, in accordance with the procedure required in 16-4-207.

Policy and Definitions

16-10-101. Short title. This chapter shall be known, designated, and cited as "The Montana Cigarette Sales Act".

History: En. Sec. 1, Ch. 258, L. 1965; R.C.M. 1947, 51-302.

16-10-102. Declaration of policy. The advertising, offering for sale, or sale of cigarettes below cost in the retail and wholesale trades with the intent of injuring competitors or lessening competition is an unfair and deceptive business practice. It is the policy of the state to promote the public welfare, and it is the purpose of this chapter to carry out that policy in the public interest, stabilize the sale of cigarettes, and maximize and protect the state revenues from this source.

History: En. Preamble, Ch. 258, L. 1965; R.C.M. 1947, 51-301; amd. Sec. 5, Ch. 5, L. 1979.

16-10-103. Definitions. When used in this chapter, the following words and phrases shall have the meaning ascribed to them in this section except where the context clearly indicates a different meaning:

(1) "Person" shall mean and include any individual, firm, association, company, partnership, corporation for profit or nonprofit corporation, joint-stock company, club, agency, syndicate, cooperative, municipal corporation or other political subdivision of this state, trust, receiver, trustee, fiduciary, and conservator.

(2) "Wholesaler" shall include any person who:

(a) purchases cigarettes directly from the manufacturer;

(b) purchases cigarettes from any other person who purchases from the manufacturer and who acquires such cigarettes solely for the purpose of bona fide resale to retail dealers; or

(c) services retail outlets by the maintenance of an established place of business for the purchase of cigarettes, including but not limited to the maintenance of warehousing facilities for the storage and distribution of cigarettes.

Nothing contained herein shall prevent a person from qualifying in different capacities as both "wholesaler" and "retailer" under the applicable provisions of this chapter.

(3) "Retailer" shall mean and include any person who operates a store, stand, booth, or concession for the purpose of making sales of cigarettes at retail.

(4) "Administrative agency" or "department" shall mean the state department of revenue of Montana and, where the meaning of the context so requires, all deputies and employees duly authorized by such department.

(5) "Cigarettes" shall mean any roll for smoking made wholly or in part of tobacco, irrespective of size or shape and whether or not such tobacco is flavored, adulterated, or mixed with any other ingredient, the wrapper or cover of which is made of paper or any other substance or material except tobacco.

(6) "Sale" shall mean any transfer for a consideration, exchange, barter, gift, offer for sale, and distribution, in any manner or by any means whatever.

(7) "Sell at wholesale", "sale at wholesale", and "wholesale sales" shall mean and include any bona fide transfer of title to cigarettes for a valuable consideration, made in the ordinary course of trade or in the usual conduct of the wholesaler's business, to a retailer for the purpose of resale.

(8) "Sell at retail", "sale at retail", and "retail sales" shall mean and include any transfer of title to cigarettes for a valuable consideration, made in the ordinary course of trade or usual conduct of the seller's business, to the purchaser for consumption or use.

(9) "Basic cost of cigarettes" shall mean the invoice cost of cigarettes to the retailer or wholesaler, as the case may be, or the replacement cost of cigarettes to the retailer or wholesaler, as the case may be, in the quantity last purchased, whichever is lower.

(10) (a) The term "cost to the wholesaler" shall mean the "basic cost of cigarettes" to the wholesaler plus the "cost of doing business by the wholesaler" as evidenced by the standards and methods of accounting regularly employed by the wholesaler in his determination of costs for income tax reporting purposes for the total operation of his establishment and shall include within said costs, without limitation, labor costs (including salaries of executives and officers), rent, depreciation, selling costs, maintenance of equipment, delivery costs, all types of licenses, business taxes, insurance, and advertising. The cost of doing business by a wholesaler shall also include any rebates, patronage dividends, or concessions, no matter how defined, and any and all other indirect or overhead costs with respect to the operation of the establishment of the wholesaler, expressed as a percentage and applied to the "basic cost of cigarettes".

(b) In the absence of the filing with the department of proof which the department declares to be satisfactory of a lesser or higher cost of doing business by the wholesaler making the sale, the "cost of doing business by the wholesaler" shall be presumed to be 5% of the "basic cost of cigarettes" to the wholesaler plus cartage to the retail outlet if performed or paid for by the wholesaler, which cartage cost, in the absence of the filing with the department of satisfactory proof of a lesser or higher cost, shall be considered to be ¾ of 1% of the "basic cost of cigarettes" to the wholesaler.

(11) (a) The term "cost to the retailer" shall mean the "basic cost of cigarettes" to the retailer plus the "cost of doing business by the retailer" as evidenced by the standards and methods of accounting regularly employed by the retailer in his determination of costs for income tax reporting purposes for the total operation of his establishment and shall include within said costs, without limitation, labor costs (including salaries of executives and officers), rent, depreciation, selling costs, maintenance of equipment, delivery costs, all types of licenses, business taxes, insurance, and advertising, including any rebates or concessions, no matter how defined, and any and all other indirect or overhead costs with respect to the operation of the establishment of the retailer, expressed as a percentage and applied to the "basic costs of cigarettes"; provided, however, that any retailer who purchases from the manufacturer or from any other person at or at less than or about the price normally and usually charged for purchases in wholesale quantities shall, in determining "cost to the retailer" pursuant to this subsection, add the "cost of doing business by the wholesaler", as determined in subsection (10)(b) of this section, to the "basic cost of cigarettes" to said retailer, as well as the "cost of doing business by the retailer".

(b) In the absence of the filing with the department of satisfactory proof of a lesser or higher cost of doing business by the retailer making the sale, the "cost of doing business by the retailer" shall be presumed to be 10% of the "basic cost of cigarettes" to the retailer.

(c) In the absence of the filing with the department of satisfactory proof of a lesser or higher cost of doing business, the "cost of doing business by the retailer" who, in connection with the retailer's purchase, received not only the discounts ordinarily allowed upon purchases by a retailer but also, in whole or part, the discounts ordinarily allowed upon purchases by a wholesaler shall be presumed to be 10% of the sum of the "basic cost of cigarettes" and the "cost of doing business by the wholesaler".

(12) "Business day" shall mean any day other than a Sunday or a legal holiday.

Sales Price of Cigarettes

16-10-201. Wholesaler-to-wholesaler sales. When one wholesaler sells cigarettes to any other wholesaler, the former shall not be required to include in his selling price to the latter "cost to the wholesaler", as provided by 16-10-103(10), except that no such sale shall be made at a price less than the "basic cost of cigarettes", as defined in 16-10-103(9), but the latter wholesaler, upon resale to a retailer, shall be considered to be the wholesaler governed by the provisions of 16-10-103(10).

History: En. Sec. 4, Ch. 258, L. 1965; R.C.M. 1947, 51-305.

16-10-202. Selling cigarettes in combination with other articles. In all advertisements, offers for sale, or sales involving two or more items at a combined price, at least one of which is cigarettes, and in all advertisements, offers for sale, or sales involving the giving of any gift or concession of any kind whatever (whether it be coupons or otherwise), if such rebate or concession offered or given in connection with the sale of cigarettes (which are sold by said wholesaler or retailer in the ordinary course of his trade or business) is not offered or given by the wholesaler or retailer in the same ratio with respect to all other merchandise to which such rebate or concession may lawfully be given, the retailer's or wholesaler's combined selling price shall not be below the "cost to the retailer" or the "cost to the wholesaler", respectively, of the total costs of all articles, products, commodities, gifts, and concessions included in such transactions.

History: En. Sec. 5, Ch. 258, L. 1965; R.C.M. 1947, 51-306.

16-10-203. Sales to meet competition permitted. (1) (a) Any retailer may advertise, offer to sell, or sell cigarettes at a price made in good faith to meet the price of a competitor who is selling the same article at cost to him as a retailer as prescribed in this chapter.

(b) Any wholesaler may advertise, offer to sell, or sell cigarettes at a price made in good faith to meet the price of a competitor who is rendering the same type of service and is selling the same article at cost to him as a wholesaler as prescribed in this chapter.

(c) The price of cigarettes advertised, offered for sale, or sold under the exceptions specified in 16-10-304 shall not be considered the price of a competitor and shall not be used as a basis for establishing prices below cost, nor shall the price established at a bankrupt sale be considered the price of a competitor within the purview of this section.

(2) In the absence of proof of the "price of a competitor" under this section, the "lowest cost to the retailer" or the "lowest cost to the wholesaler", as the case may be, determined by any "cost survey" made pursuant to 16-10-303, may be considered to be the "price of a competitor" within the meaning of this section.

History: En. Sec. 7, Ch. 258, L. 1965; R.C.M. 1947, 51-308.

16-10-204. Determining cost — fictitious prices — free merchandise. (1) In determining "cost to the retailer" and "cost to the wholesaler", the department or a court shall receive and consider as bearing on the bona fides of such cost evidence tending to show that any person complained against under any of the provisions of this chapter purchased cigarettes, with respect to the sale of which complaint is made, at a fictitious price or upon terms or in such a manner or under such invoices as to conceal the true cost, discounts, or terms of purchase and shall also receive and consider as bearing on the bona fides of such cost evidence of the normal, customary, and prevailing terms and discounts in connection with other sales of a similar nature in the trade area or state.

(2) Merchandise given gratis or payment made to a retailer or wholesaler by the manufacturer thereof for display, advertising, promotion purposes, or otherwise shall not be considered in determining the cost of cigarettes to the retailer or wholesaler.

History: En. Sec. 9, Ch. 258, L. 1965; R.C.M. 1947, 51-310.

16-10-205. Purchases outside ordinary trade channels. In establishing the cost of cigarettes to the retailer or wholesaler, the invoice cost of said cigarettes purchased at a forced, bankrupt, or closeout sale or other sale outside of the ordinary channels of trade may not be used as a basis for justifying a price lower than one based upon the replacement cost of the cigarettes to the retailer or wholesaler in the quantity last purchased through the ordinary channels of trade.

History: En. Sec. 10, Ch. 258, L. 1965; R.C.M. 1947, 51-311.

Part 3

(ii) offer a rebate in price, give a rebate in price, offer a concession of any kind, or give a concession of any kind or nature whatever in connection with the sale of cigarettes which are sold by said wholesaler or retailer in the ordinary course of his trade or business if such rebate or concession offered or given in connection with the sale of cigarettes is not offered or given by the wholesaler or retailer in the same ratio with respect to all other merchandise to which such rebate or concession may lawfully be given;

(b) for any retailer to:

(i) induce or attempt to induce or procure or attempt to procure the purchase of cigarettes at a price less than "cost to the wholesaler", as defined in this chapter;

(ii) induce or attempt to induce or procure or attempt to procure any rebate or concession of any kind or nature whatever in connection with the purchase of cigarettes.

(2) Evidence of advertisement, offer to sell, or sale of cigarettes by any retailer or wholesaler at less than cost to him or evidence of any offer of a rebate in price or the giving of a rebate in price or an offer of a concession

or the giving of a concession of any kind or nature whatever in connection with the sale of cigarettes which are sold by said wholesaler or retailer in the ordinary course of his trade or business, if such rebate or concession offered or given in connection with the sale of cigarettes is not offered or given by the wholesaler or retailer in the same ratio with respect to all other merchandise to which such rebate or concession may lawfully be given, or the inducing or attempt to induce or the procuring or the attempt to procure the purchase of cigarettes at a price less than cost to the wholesaler or the retailer shall be prima facie evidence of intent to injure competitors or substantially lessen competition.

History: **En. Sec. 11, Ch. 258, L. 1965; R.C.M. 1947, 51-312.**

17-2-101. Title and purpose. Sections 17-2-101 through 17-2-107 may be cited as the “Treasury Fund Structure Act”. The purpose of these sections is to simplify the accounting system and treasury fund structure of the state, to make possible the full utilization of modern accounting methods, to provide the legislature with a greater measure of control over public moneys, and to enable the financial records of the state to accurately reflect the state’s revenues, expenditures, expenses, and financial position in accordance with generally accepted accounting principles.

History: En. Sec. 1, Ch. 147, L. 1963; R.C.M. 1947, 79-409; amd. Sec. 1, Ch. 540, L. 1979; amd. Sec. 1, Ch. 28, L. 1981.

17-2-102. Fund structure. (1) There are in the state treasury only the following fund categories and types:

(a) governmental fund category, which includes:

(i) the general fund, which accounts for all financial resources except those required to be accounted for in another fund;

(ii) the special revenue fund type, which accounts for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. The financial activities of the special revenue fund type shall be subdivided for operational purposes into the following funds to serve the purpose indicated:

(A) The state special revenue fund consists of money from state and other nonfederal sources deposited in the state treasury that is earmarked for the purposes of defraying particular costs of an agency, program, or function of state government. Other nonstate and nonfederal revenue deposited in the state special revenue account is not subject to the emergency budget amendment provisions of 17-7-403.

(B) The federal special revenue fund consists of money deposited in the treasury from federal sources, including trust income, that is used for the operation of state government.

(iii) the capital projects fund type, which accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds or trust funds; and

(iv) the debt service fund type, which accounts for the accumulation of resources for and the payment of general long-term debt principal and interest;

(b) proprietary fund category, which includes:

(i) the enterprise fund type, which accounts for operations:

(A) that are financed and operated in a manner similar to private business enterprises whenever the intent of the legislature is that costs (i.e., expenses, including depreciation) of providing goods or services to the general public on a continuing basis are to be financed or recovered primarily through user charges; or

(B) whenever the legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes; and

(ii) the internal service fund type, which accounts for the financing of goods or services provided by one department or agency to other departments or agencies of state government or to other governmental entities on a cost-reimbursed basis;

(c) the fiduciary fund category, which includes trust and agency fund types used to account for assets held by state government in a trustee capacity or as an agent for individuals, private organizations, other governmental entities, or other funds. These include the:

(i) expendable trust fund type;

(ii) nonexpendable trust fund type;

(iii) pension trust fund type; and

(iv) agency fund type.

(d) the higher education funds, which include:

(i) the current fund, which accounts for moneys deposited in the state treasury which are used to pay current operating costs relating to instruction, research, public service, and allied support operations and programs conducted within the Montana university system and vocational-technical centers. The financial activities of the current fund shall be subdivided, for operation purposes, into the four following subfunds to serve the purpose indicated:

(A) The unrestricted subfund segregates that portion of the current fund's financial resources that can be expended for general operations and is free of externally imposed restrictions, except those imposed by the legislature.

(B) The restricted subfund segregates that portion of the current fund's financial resources that can be expended for general operations but only for purposes imposed by sources external to the board of regents and the legislature.

(C) The designated subfund segregates that portion of the current fund's financial resources that is associated with general operations but is separately classified in order to accumulate costs that are to be recharged as allocated to other funds or subfunds; identifies financial activities related to special organized activities of educational departments wherein the activity is fully supported by supplemental assessments; and identifies special supply and facility fees that are approved for collections beyond normal course fees and their disposition.

(D) The auxiliary subfund segregates that portion of the current fund's financial resources that is devoted to providing essential on-campus services primarily to students, faculty, or staff wherein a fee, which is directly related to but does not necessarily equal the cost of the service provided, is charged to the consumer.

(ii) the student loan fund, which accounts for moneys deposited in the state treasury which may be loaned to students, faculty, or staff for purposes related to education, organized research, or public services by the Montana university system and vocational-technical centers;

(iii) the endowment fund, which accounts for moneys deposited in the state treasury by the Montana university system and vocational-technical centers wherein the principal portion of the amount received is nonexpendable but is available for investment, thus producing consumable income. Expendable earnings on endowment funds are to be transferred to appropriate operating funds pursuant to prevailing administrative requirements.

(iv) the annuity and life income fund, which accounts for moneys deposited in the state treasury by the Montana university system and vocational-technical centers under an agreement whereby the moneys are made available on condition that the receiving unit of the Montana university system or vocational-technical center binds itself to pay stipulated amounts periodically to the donor or others designated by the donor over a specified period of time;

(v) the plant fund, which accounts for those financial resources allocated to or received by the Montana university system and vocational-technical centers for capital outlay purposes or to retire long-term debts associated with construction or acquisition of fixed assets and the net accumulative results of these activities; and

(vi) the agency fund, which accounts for moneys deposited in the state treasury wherein the Montana university system or a vocational-technical center acts in the capacity of a custodian or fiscal agent for individual students, faculty, staff, and qualified organizations.

(2) In addition to the funds provided for in subsection (1) of this section, there are in the state treasury the following account groups:

(a) the fixed assets account group, which is a self-balancing group of accounts set up to establish accounting control and accountability for the state's general fixed assets, except those accounted for in proprietary funds, trust funds, and the higher education funds designated in subsections (1)(d)(i)(D), (1)(d)(iii), and (1)(d)(v) of this section; and

(b) the long-term debt account group, which is a self-balancing group of accounts set up to establish accounting control and accountability for the state's unmatured general long-term liabilities, except those accounted for in proprietary funds, trust funds, and the higher education funds designated in subsections (1)(d)(i)(D), (1)(d)(iii), and (1)(d)(v) of this section.

(2) Any laws enacted in the future or any contracts entered into in the future in pursuance of law that require the segregation of moneys in the state treasury by means of a separate treasury fund shall be interpreted as permitting the segregation of such moneys by means of a subfund or account within one of the funds created by 17-2-102.

(3) Each federal grant or other federal money within any subfund or account of one of the funds created by 17-2-102(1)(a) through (1)(c) must be identifiable as a separate accounting entity, reporting center, responsibility center, or revenue identification code, and an account must be made of each such grant or other money by income and expenditure for each federal grant year or fiscal year as may be applicable.

(4) Unless otherwise specifically provided in the statutes pertaining to the tax, the portion of taxes collected by the state that, pursuant to a statute, are to be wholly or partially allocated or distributed to units of local government, school districts, authorities, or other local governmental entities shall be accounted for in the state special revenue fund established in 17-2-102.

17-2-105. Maintenance of fund and account records and interfund loans. (1) The state treasurer shall record receipts and disbursements for treasury funds and shall maintain fund records in such a manner as to reflect the total cash and invested balance of each fund. The state treasurer shall also maintain records of individual funds within the debt service, agency, capital projects, and trust fund types in such a manner as to reflect the total cash and invested balance of each fund. When necessary to meet federal or other requirements that moneys be segregated in the treasury, the state treasurer may establish accounts, funds, or subfunds within any fund type listed in 17-2-102.

(2) For the purpose of supplying deficiencies in the general fund, the state treasurer may temporarily borrow from other treasury funds, providing that the loan is recorded in the state accounting records. Such loan shall bear no interest, and no fund shall be so impaired that all proper demands thereon cannot be met.

History: (1)En. Sec. 6, Ch. 147, L. 1963; amd. Sec. 1, Ch. 268, L. 1971; amd. Sec. 98, Ch. 326, L. 1974; Sec. 79-414, R.C.M. 1947; (2)En. Sec. 7, Ch. 147, L. 1963; amd. Sec. 2, Ch. 268, L. 1971; amd. 17-2-106. Creation and abolition of new accounts. (1) Moneys deposited in each fund except the general fund shall be segregated by the department of administration by specific accounts based on source, function, or department. When moneys deposited in the state treasury cannot logically be credited to an existing account or when it is impractical or undesirable for an agency of state government to segregate moneys in its own accounts, the department of administration, in its discretion, may create new accounts consistent with the definitions in 17-2-102. However, the department of administration shall create as few new accounts as practicable.

(2) The department of administration shall periodically examine all accounts and shall abolish or consolidate inactive or unnecessary accounts.

(3) When moneys have been appropriated from several sources for the operation of a state agency, the department of administration may establish an account to receive, hold, and disburse moneys appropriated for the operation of the agency and regulate the transfer of moneys to the account in accordance with the laws governing the expenditure of state moneys.

History: (1), (2)En. Sec. 5, Ch. 147, L. 1963; amd. Sec. 27, Ch. 326, L. 1974; Sec. 79-413, R.C.M. 1947; (3)En. Sec. 6, Ch. 147, L. 1963; amd. Sec. 1, Ch. 268, L. 1971; amd. Sec. 98, Ch. 326, L. 1974; Sec. 79-414, R.C.M. 1947; R.C.M. 1947, 79-413, 79-414(4).

17-2-107. Accurate accounting records and interentity loans. (1) The department of administration shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in such a manner as to reflect the total cash and invested balance of each fund and each accounting entity. The department of administration shall adopt the necessary procedures to insure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenues.

(2) (a) When the expenditure of an appropriation from a fund designated in 17-2-102(1)(a) through (1)(c) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department of administration may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(1)(d)(i)(A) through (1)(d)(vi) is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4), of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

(ii) One accounting entity within each fund or subfund designated in 17-2-102(1)(d)(i)(A) through (1)(d)(vi) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.

(c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances the director of the department of administration or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(1)(d)(i)(D) and (1)(d)(ii) through (1)(d)(vi) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool. Except for investment earnings on restricted donations, all designated and restricted subfund investment earnings, other than investment earnings on student activity fees used to support student governments at units of the university system, are credited to the state general fund.

(5) If for two consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department of administration or the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans.

(6) If for two consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(1)(d)(i) through (1)(d)(vi) has a negative cash balance, the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity's negative cash balance or solvency.

(7) (a) An accounting entity in a fund designated in 17-2-102(1)(a) through (1)(c) may not have a negative cash balance at fiscal yearend. The department of administration may, however, allow an accounting entity to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.

(b) (i) Except as provided in subsection (7)(b)(ii), a unit of the university system or vocational-technical center shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(1)(d)(i)(A) through (1)(d)(i)(D) and (1)(d)(ii) through (1)(d)(vi).

(ii) If a fund or subfund inadvertently has a negative cash balance, the department of administration may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department of social and rehabilitation services may maintain positive cash balances in the federal and state special revenue funds with long-term repayment whenever necessary due to the timing for transmittal of obligated

matching funds if it can be demonstrated to the satisfaction of the department of administration that the total loan balance does not exceed total receivables from federal and county governments and receivables have been billed on a timely basis. The loan must be repaid under such terms and conditions as may be determined by the department of administration or by specific legislative authorization.

(1) A state agency must make all reasonable efforts to collect money owed to it and must determine that the money and any interest or penalties therefor are uncollectible in accordance with criteria for uncollectibility formulated by that agency.

(2) Once a state agency has determined an account owed to it uncollectible, it shall certify to the state auditor the amount of the money, interest, and penalties, as accurately as can be determined. The state auditor may require submission by the agency of all relevant evidence and other information regarding the debt and may examine the records of any other state agency which may be pertinent in determining the uncollectibility of the debt unless examination is specifically prohibited by law.

(3) If the state auditor finds that the debt is uncollectible in accordance with the criteria for uncollectibility of money due that state agency, he shall direct the agency to write off the debt on its accounts and transfer the debt to him.

(4) Debts described in 17-4-105(4) need not be determined uncollectible for purposes of this section.

17-4-105. *(Temporary)* **Authority to collect debt — offsets.** (1) Once a debt of a state agency has been transferred to the department, the department shall have the authority to collect it, including the power to offset tax refunds due to individuals against the debt transferred by the state agency to the department provided the department may not exercise this right of offset until the debtor has first been notified by the department and given an opportunity for a hearing. The department may contract with commercial collection agencies for recovery of debts owed the state.

(2) Upon notification by the department, the state auditor shall offset any amount due a state agency from a person or entity against any amount owing such person or entity by any state agency. The state auditor shall deduct from the claim and draw his warrants for the amounts offset in favor of the respective state agencies to which due and for any balance in favor of the claimant. Whenever insufficient to offset all amounts due state agencies, the amount available shall be applied in such manner as the state auditor, in his discretion, shall determine.

(3) If, in the discretion of the state auditor, the person or entity refuses or neglects to file his claim within a reasonable time, the head of the state agency owing the amount shall file the claim on behalf of such person or entity; if approved by the department of administration, it shall have the same force and effect as though filed by such person or entity. The amount due any person or entity from the state or any agency thereof is the net amount otherwise owing such person or entity after any offset as in this section provided.

(4) The department may establish and maintain a procedure to offset against a debtor's income tax refund any debt which is assigned to the state pursuant to 53-2-613 or which the department is attempting to collect on behalf of an individual who has applied for service under 40-5-203. Such debt must have accrued through written contract, court judgment, or administrative order and be in the form of a liquidated sum due and owing for the support of a minor child.

17-4-105. *(Effective January 1, 1990)* **Authority to collect debt — offsets.** (1) Once a debt of a state agency has been transferred to the state auditor, he shall have the authority to collect it. The state auditor may contract with commercial collection agencies for recovery of debts owed the state.

(2) The state auditor shall offset any amount due a state agency from a person or entity against any amount, including refunds or taxes, owing the person or entity by any state agency, provided the state auditor may not exercise this right of offset until the debtor has first been notified by the state auditor and been given an opportunity for a hearing. No offset may be made against any amount paid out as child support collected by the department of social and rehabilitation services. The state auditor shall deduct from the claim and draw his warrants for the amounts offset in favor of the respective state agencies to which due and for any balance in favor of the claimant. Whenever insufficient to offset all amounts due state agencies, the amount

available shall be applied first to debts owed by reason of the nonpayment of child support and then in such manner as the state auditor, in his discretion, shall determine.

(3) (a) The department retains the power to offset tax refunds due individuals against taxes owed the state, provided the department may not exercise this right of offset until the taxpayer has been notified by the department and been given the opportunity to request a review.

(b) Within 30 days following mailing of notification, the taxpayer may request a review of the asserted liability. If a review is requested, the department shall conduct an informal review conference, which is not subject to the contested case procedures of the Montana Administrative Procedure Act.

(c) Appeal from the decision of the department after the review conference may be taken to the state tax appeal board.

(d) A taxpayer is not entitled to a review conference for a tax offset if the tax liability has been the subject matter of any proceeding conducted for the purpose of determining its validity and any decision made as a result of that proceeding has become final.

(4) (a) A debt resulting from or relating to a child support obligation owed to the department of social and rehabilitation services or being collected by the department of social and rehabilitation services on behalf of any person or agency may be offset by the state auditor if:

(i) the debt is being enforced or collected by the department of social and rehabilitation services under Title IV-D of the Social Security Act;

(ii) the debt is for repayment of child support payments retained contrary to the assignment at 53-2-613; or

(iii) the debt is for costs of fees under any contract, judgment, or administrative order entered in the course of child support enforcement by the department of social and rehabilitation services.

(b) The debt need not be determined to be uncollectible as provided for in 17-4-104 before being transferred to the state auditor for offset. The debt must have accrued through written contract, court judgment, or administrative order.

(c) Within 30 days following the notification provided in subsection (2), the person owing a debt described in subsection (4)(a) may request a hearing. The hearing must be conducted by teleconferencing methods and is subject to the provisions of the Montana Administrative Procedure Act. The department of social and rehabilitation services shall adopt rules necessary to determine the hearing procedures.

(5) If, in the discretion of the state auditor, the person or entity refuses or neglects to file his claim within a reasonable time, the head of the state agency owing the amount shall file the claim on behalf of such person or entity; if approved by the department of administration, it shall have the same force and effect as though filed by such person or entity. The amount due any person or entity from the state or any agency thereof is the net amount otherwise owing such person or entity after any offset as in this section provided.

1989 Amendments: Chapter 419 in (1), in two places, changed references to Department of Revenue to State Auditor and in first sentence, after "authority to collect it", deleted "including the power to offset tax refunds due to individuals against the debt transferred by the state agency to the department provided the department may not exercise this right of offset until the debtor has first been notified by the department and given an opportunity for a hearing"; in (2), at beginning, deleted "upon notification by the department", after "any amount" inserted "including refunds or taxes", at end of first sentence, after "any state agency", inserted provisional clause relating to notification and opportunity for hearing, inserted second sentence relating to amounts collected as child support, and in last sentence inserted clause giving child support debts priority; inserted (3) relating to offset of individual tax refunds against taxes owed the state; inserted (4) relating to debts resulting from child support obligations; deleted former (4) that read: "(4) The department may establish and maintain a procedure to offset against a debtor's income tax refund any debt which is assigned to the state pursuant to 53-2-613 or which the department is attempting to collect on behalf of an individual who has applied for service under 40-5-203. Such debt must have accrued through written contract, court judgment, or administrative order and be in the form of a liquidated sum due and owing for the support of a minor child"; and made minor changes in phraseology.

Section 28, Ch. 702, L. 1989, in (2) and (4) changed references to Department of Revenue to references to Department of Social and Rehabilitation Services. The direction to the Code Commissioner erroneously provided that the change be made in 17-4-105(3)(d). The apparent intent was to change the reference in 17-4-105(4). The Code Commissioner also changed a similar reference in (2) to reflect the intent of sec. 28, Ch. 702, L. 1989. Amendment effective January 1, 1990.

17-5-1103. Declarations of state interest — purposes. (1) Sections 103 and 103A of the code provide that interest with respect to certain obligations may not be exempt from the income tax if they are not in registered form. It is therefore a matter of state concern that public entities be authorized to provide for the issuance of obligations in such form. It is a purpose of this part to authorize all public entities to establish and maintain a system pursuant to which obligations may be issued in registered form within the meaning of sections 103 and 103A of the code.

(2) Obligations have traditionally been issued in bearer rather than in registered form, and a change from bearer to registered form will significantly affect the relationships, rights, and duties of issuers of and the persons that deal with obligations and, by such effect, the costs. Such effects will impact the various issuers and varieties of obligations differently, depending on their legal and financial characteristics, their markets, and their adaptability to recent and prospective technological and organizational developments. It is therefore a matter of state concern that public entities be provided flexibility in the development of systems of registration and control over system incidents, so as to accommodate differing impacts. It is a purpose of this part to provide for the establishment and maintenance, and amendment from time to time, of differing systems of registration of obligations, including system incidents, so as to accommodate the differing impacts upon issuers and varieties of obligations.

(2) Nothing in this part limits or prevents the issuance of obligations in any other form or manner authorized by law.

(3) The provisions of this part may be applied to obligations that have previously been approved by vote, referendum, or hearing, authorizing or permitting the authorization of obligations in bearer and registered form or in bearer form only, and such obligations need not be resubmitted for a further vote, referendum, or hearing for the purpose of authorizing or permitting the authorization of obligations in registered form only.

17-5-1111. System of registration. (1) Each issuer is authorized to establish and regularly maintain a system of registration with respect to each public obligation that it issues. The system may be either a system pursuant to which only certificated public obligations are issued or a system pursuant to which both certificated and uncertificated public obligations are issued. The issuer may discontinue and reinstitute either system from time to time.

(2) The system must be established and regularly maintained or amended, discontinued, or reinstituted for the issuer by the official or official body.

Such description may be by reference to a program of the issuer that is established by the official or official body.

(4) The system must define the method or methods by which transfer of the public obligations is effective with respect to the issuer, which method or methods are exclusive (substantial compliance being essential to a valid transfer) and by which payment of principal and any interest must be made. The system may permit the issuance of public obligations in any denomination to represent several public obligations of smaller denominations. The system may also provide for the form of any certificated public obligations, for differing record and payment dates, for varying denominations, and for accounting, canceled certificate destruction, and other incidental matters.

(5) Under a system pursuant to which both certificated and uncertificated public obligations are issued, both types of public obligations may be regularly issued or one type may be regularly issued and the other type issued only under described circumstances or to particular described categories of owners. Under a system pursuant to which uncertificated public obligations are regularly issued, provisions may be made for registration of pledges and releases.

(6) The system may include covenants of the issuer as to amendments, discontinuances, and reinstitutions and the effect of such on the exemption of interest from the income tax provided for by the code.

(7) If the effect of a conversion from one of the forms of public obligations provided for in this part to a form not provided for in this part is that interest will continue to be exempt from the income tax provided for by the code, this part does not preclude such conversion.

(8) To the extent not inconsistent with this part, the rights provided by other laws with respect to obligations in other forms must be provided with respect to obligations in forms that may be used under this part.

(3) Subject to the limitations contained in this section and the standards and limitations prescribed in the authorizing resolution, the board in its discretion may provide for the notes described in subsection (2) to be issued and sold, in whole or in part, from time to time. The board may delegate to the administrator of the board the power to determine the time or times of sale, the manner of sale, the amounts, the maturities, the rate or rates of interest, and such other terms and details of the notes as considered appropriate by the board or the administrator in the event of such delegation. The board in its discretion but subject to the limitations contained in this section may also provide in the resolution authorizing the issuance of notes for:

(a) the employment of one or more persons or firms to assist the board in the sale of the notes;

(b) the appointment of one or more banks or trust companies, either inside or outside the state of Montana, as depository for safekeeping and as agent for the delivery and payment of the notes;

17-6-201. Unified investment program — general provisions. (1) The unified investment program directed by Article VIII, section 13, of the 1972 Montana constitution to be provided for public funds shall be administered by the board of investments in accordance with the prudent expert principle, which requires any investment manager to:

(a) discharge his duties with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a prudent person acting in a like capacity with the same resources and familiar with like matters exercises in the conduct of an enterprise of a like character with like aims;

(b) diversify the holdings of each fund within the unified investment program to minimize the risk of loss and to maximize the rate of return, unless under the circumstances it is clearly prudent not to do so; and

(c) discharge his duties solely in the interest of and for the benefit of the funds forming the unified investment program.

(2) Retirement funds may be invested in common stocks of any corporation provided that no investment may be made at any time which would cause the book value of such investments in any retirement fund to exceed 50% of the book value of such fund or would cause the stock of one corporation to exceed 2% of the book value of such retirement fund.

(3) (a) Nothing contained in this section prevents the investment in any business activity in Montana, including activities that continue existing jobs or create new jobs in Montana.

(b) The board is urged under the prudent expert principle to invest up to 3% of retirement funds in venture capital companies. Whenever possible, preference should be given to investments in those venture capital companies which demonstrate an interest in making investments in Montana.

(c) In discharging its duties, the board shall consider the preservation of purchasing power of capital during periods of high monetary inflation.

(4) The board has the sole authority to invest state funds. No other agency may invest such state funds. The board shall direct the investment of state funds in accordance with the laws and constitution of this state. The board has the power to veto any investments made under its general supervision.

(5) The board shall:

(a) assist agencies with public money to determine if, when, and how much surplus cash is available for investment;

(b) determine the amount of surplus treasury cash to be invested;

(c) determine the type of investment to be made;

(d) prepare the claim to pay for the investment; and

(e) keep an account of the total of each investment fund and of all the investments belonging to such fund and a record of the participation of each treasury fund account therein.

(6) The board may:

(a) execute deeds of conveyance transferring all real property obtained through foreclosure of any investments purchased under the provisions of 17-6-211 when full payment has been received therefor;

(b) direct the withdrawal of any funds deposited by or for the state treasurer pursuant to 17-6-101 and 17-6-105;

(c) direct the sale of any securities in the program at their full and true value when found necessary to raise money for payments due from the treasury funds for which the securities have been purchased.

(7) The cost of administering and accounting for each investment fund shall be deducted from the income therefrom, except that such costs of the nonexpendable trust funds shall be paid from income otherwise receivable from the pooled investment fund, and the amounts required for this purpose shall be appropriated by the legislature from the respective investment funds.

(8) (a) The director of the department of administration annually may prepare a statewide cost allocation plan to distribute program costs incurred by state agencies that are funded through the general fund to the programs served by the agencies. Except as provided in subsection (8)(b), the cost to an agency of providing services to a program funded through an account in the state special revenue fund as defined in 17-2-102 must be deducted by the board from the account's investment earnings according to the statewide cost allocation plan. Amounts deducted by the board must be credited to the general fund.

(b) No deduction for program costs as provided in subsection (8)(a) may be made if an account's cash on hand is pooled for investment in the treasury cash account defined in 17-6-202.

The board shall by rule establish the maximum ratio between guaranty funds available and loans or bonds to be guaranteed. The board may covenant in bond issues to maintain such ratio. Unless bonds issued to finance a project are secured by a common capital reserve account and a common guaranty fund, the maximum amount of the guaranty authorized by this section may not exceed $3,000,000 with respect to the bonds or loans to finance the project.

The board may agree in connection with the issuance of bonds or notes secured by such account or fund to make such loans. Loans must be on such terms and conditions as the board determines and must be repaid from revenues of the board realized from the exercise of its powers under 17-5-1501 through 17-5-1529, subject to the prior pledge of the revenues to the bonds and notes.

(4) The board shall allow the Montana board of science and technology development provided for in 2-15-1818 to administer $7.5 million of the in-state investment fund for seed capital project loans pursuant only to the provisions of Title 90, chapter 3. This authority does not extend beyond June 30, 1994. Until such time as the Montana board of science and technology development makes a loan pursuant to those provisions, the funds under its administration must be invested by the board of investments pursuant to the provisions of 17-6-201.

(a) by the approving authority, except a budget amendment to spend funds which were not available for legislative consideration;

(b) by the approving authority, which contains any significant ascertainable commitment for any present or future increased general fund support;

(c) by the approving authority, for the expenditure of money in the state special revenue fund unless an emergency justifies such expenditure;

(d) by the approving authority, unless it will provide additional services;

(e) by the approving authority, for any matter of which the requesting agency had knowledge at a time when the proposal could have been presented to an appropriation subcommittee, the house appropriations committee, or the senate finance and claims committee of the most recent legislative session open to that matter; or

(f) to extend beyond June 30 of the last year of any biennium.

(2) All budget amendments shall itemize planned expenditures by fiscal year.

(3) Each budget amendment must be submitted by the approving authority to the budget director and the office of the legislative fiscal analyst.

History: En. Sec. 2, Ch. 536, L. 1983.

17-7-403. Budget amendment certification. In approving a budget amendment, the approving authority shall make the following certifications and in addition shall provide all other information required below as an integral part of the certification:

(1) The approving authority shall certify that:

(a) specific additional services will be provided as a result of the expenditures to be permitted under this budget amendment and shall also list each specific service to be so provided;

(b) the specific services to be provided under this budget amendment are necessary;

(c) the agency requesting this budget amendment has no other reasonable alternative available to provide the additional services. Such certification shall specifically include determinations by the approving authority that the agency cannot provide all or specific parts or amounts of the additional services with existing personnel because of the present required workload of existing personnel or that the agency is unable within its existing funding to fund all or part of such additional services from any source lawfully available to it.

(d) the budget amendment makes no ascertainable present or future significant commitment for increased general fund support.

(2) The approving authority shall include in its certification the specific criteria by which the effectiveness of the additional services will be evaluated and shall state a specific followup date on which the written evaluation of such services, using the listed criteria, will be presented to the legislative fiscal analyst. The written evaluation must be presented to the legislative fiscal analyst on or before that date.

(3) For budget amendments to spend money in the state special revenue fund, the approving authority shall certify that an emergency justifies the expenditure and shall state the specific nature of the emergency, the date on which the requesting agency became aware of the emergency, and the manner in which the requesting agency became aware of the emergency.

History: En. Sec. 3, Ch. 536, L. 1983.

(2) If the approving authority denies the request for a budget amendment, he shall immediately forward a notice of denial to the legislative fiscal analyst.

(3) If the approving authority intends to make certification of the budget amendment, immediately upon his completion of the certification he shall forward the certification and all supporting documentation to the legislative fiscal analyst. The approving authority may not approve the budget amendment until he receives the legislative finance committee's written report for that budget amendment unless:

(a) the report is not received within 90 calendar days from the date the certification and supporting documentation were forwarded to the finance committee, in which case the approving authority may approve the budget amendment; or

(b) there has been a waiver of review and report as provided in subsection (6).

(4) The legislative fiscal analyst shall review each proposed budget amendment that has been certified by the approving authority for compliance with statutory budget amendment requirements and standards and shall present a written report of this review to the legislative finance committee. Within 10 days after the meeting of the legislative finance committee that considered the budget amendment, the legislative fiscal analyst shall submit the committee's report to the approving authority.

(5) Upon receipt of the legislative finance committee's written report, the approving authority may approve or deny the budget amendment or may return the budget amendment to the requesting agency for further information. If the approving authority has returned the budget amendment to the requesting agency and the requesting agency resubmits the budget amendment to the approving authority, all procedures set out in this section apply to the resubmitted budget amendment.

(6) If an emergency occurs that poses a serious threat to the life, health, or safety of the public, the legislative fiscal analyst may waive his written review and the legislative finance committee's written report required by this section. Upon receipt of such waiver, the approving authority may approve the budget amendment on completion of his certification. Such a waiver, however, affects only the legislative fiscal analyst's written review and the legislative finance committee's written report on the budget amendment, and all other budget amendment requirements and standards remain in effect. After such a waiver, the legislative fiscal analyst may complete the written review.

(7) Nothing in this part confers any authority on the legislative finance committee to approve or deny budget amendments.

(1) Except as herein provided, no moneys received by the state treasurer may be paid out by him except upon state warrant issued by the state auditor or on electronic funds transfer authorized by the state auditor. The state auditor may not issue his warrant or authorize an electronic funds transfer upon the state treasurer except upon a claim duly approved by the department of administration in accordance with the laws governing the expenditure of state moneys; however, interest and principal on the public debt may be paid by treasurer's check from the moneys pledged for such payment, and the provisions of this section do not apply to warrants issued upon contingent revolving accounts that are in the custody of the state treasurer.

18-2-103. Supervision of construction of buildings. (1) For the construction of a building costing more than $25,000, the department of administration shall:

(a) review and accept all plans, specifications, and cost estimates prepared by architects or consulting engineers;

(b) approve all bond issues or other financial arrangements and supervise and approve the expenditure of all moneys;

(c) solicit, accept, and reject bids and award all contracts to the lowest qualified bidder considering conformity with specifications and terms and reasonableness of bid amount. However, any contract award that is protested or any contract that is awarded to a bidder other than the lowest bidder is subject to approval by the board of examiners.

(d) review and approve all change orders up to $25,000. Any change order over $25,000 must be with the consent of the board of examiners. The department may refer change orders under $25,000 that affect the project scope or other unusual change orders to the board of examiners for consideration. The board of examiners shall act within 14 working days after processing completion by the department.

(e) accept the building when completed according to accepted plans and specifications.

(2) The department may delegate on a project-by-project basis any powers and duties under subsection (1) to other state agencies, including units of the Montana university system, upon terms and conditions specified by the department. However, any powers and duties subject to the approval of the board of examiners may not be delegated.

(3) For repair and maintenance projects, the supervision, approval, and consent of the board of examiners are not required.

(4) Before any contract under subsection (1) is awarded, two formal bids must have been received, if reasonably available.

(5) The department need not require the provisions of Montana law relating to advertising, bidding, or supervision where proposed construction costs are $25,000 or less. However, with respect to a project having a proposed cost of $25,000 or less but more than $5,000, the agency awarding the contract must procure at least three informal bids from contractors licensed in Montana, if reasonably available.

(6) For the construction of buildings owned or to be owned by a school district, the department of administration shall, upon request, provide inspection to insure compliance with the plans and specifications for the construction of such buildings. "Construction" shall include construction, repair, alteration, equipping, and furnishing during construction, repair, or alteration. Sojourners or persons who come to Montana solely in pursuance of any contract or agreement to perform such labor shall under no circumstance be deemed to be bona fide residents of Montana within the meaning and for the purpose of this part.

(6) "Heavy highway construction wage rates" means wage rates, including fringe benefits for health and welfare and pension contributions and travel allowance provisions, determined and established statewide for heavy highway construction projects such as alteration or repair of roads, streets, highways, alleys, runways, trails, parking areas, or utility rights-of-way.

In each district, the standard prevailing rate of wages is a weighted average wage rate based on all of the hours worked on work of a similar character performed in the district.

(b) When work of a similar character is not being performed in the district, the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions and travel allowance provisions, shall be those rates established by collective bargaining agreements in effect in the district for each craft, classification, or type of worker needed to complete the contract.

(2) All public works contracts under subsection (1), except those for heavy highway construction, must contain a provision requiring the contractor to pay the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions and travel allowance provisions, in effect and applicable to the district in which the work is being performed.

Termination Provision Amended: Section 3, Ch. 329, L. 1989, amended sec. 6, Ch. 303, L. 1987, so that this section was not terminated.

18-4-302. Methods of source selection. (1) Unless otherwise authorized by law, all state contracts for supplies and services must be awarded by competitive sealed bidding, pursuant to 18-4-303, except as provided in 18-4-133, 18-4-304 through 18-4-306, chapters 5 and 8 of this title, and subsections (2) and (3). Supplies or services offered for sale, lease, or rental by public utilities are exempt from this requirement if the prices of the supplies or services are regulated by the public service commission or other governmental authority.

(2) At the time the department or a purchasing agency opens bids or proposals, if a supplier's current publicly advertised or established catalog price is received at or before the time the bids or proposals are opened and is less than the bid of the lowest responsible and responsive bidder or offeror or improves upon the conditions for the best proposal received using the same factors and weights included in the proposal, the department or purchasing agency may reject all bids and purchase the supply from that supplier without meeting the requirements of 18-4-303 through 18-4-306.

(3) An office supply procured by the department's central stores program through bulk purchase or procured under a term contract may be purchased by a purchasing agency, without meeting the requirements of 18-4-303 through 18-4-306, from a supplier whose publicly advertised or established

catalog price is less than the price offered by the central stores program or under the term contract and conforms in all material respects to the terms, conditions, and quality offered by the central stores program or under the term contract. A state office supply term contract must include a provision by which the contracting parties acknowledge and agree to the provisions of this subsection.

Amendment effective July 1, 1989.

Applicability: Section 5, Ch. 329, L. 1989, provided: "[This act] applies to a term contract entered into after [the effective date of this act]." Effective July 1, 1989.

18-4-303. Competitive sealed bidding. (1) An invitation for bids must be issued and must include a purchase description and conditions applicable to the procurement.

(2) Adequate public notice of the invitation for bids must be given a reasonable time prior to the date set forth therein for the opening of bids, in accordance with rules adopted by the department. Notice may include publication in a newspaper of general circulation at a reasonable time prior to bid opening.

(3) Bids must be opened publicly in the presence of one or more witnesses at the time and place designated in the invitation for bids. Each bidder has the right to be present, either in person or by agent, when the bids are opened and has the right to examine and inspect all bids. The amount of each bid and such other relevant information as may be specified by rule, together with the name of each bidder, must be recorded. The record must be open to public inspection. After the time of award, all bids and bid documents must be open to public inspection in accordance with the provisions of 2-6-102.

(4) Bids must be unconditionally accepted without alteration or correction, except as authorized in this chapter. Bids must be evaluated based on the requirements set forth in the invitation for bids, which may include criteria to determine acceptability, such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose. Those criteria that will affect the bid price and be considered in evaluation for award must be objectively measurable, such as discounts, transportation costs, and total or life-cycle costs. The invitation for bids shall set forth the evaluation criteria to be used.

Only criteria set forth in the invitation for bids may be used in bid evaluation.

(5) Correction or withdrawal of inadvertently erroneous bids, before or after award, or cancellation of awards or contracts based on such bid mistakes may be permitted in accordance with rules adopted by the department. After bid opening no changes in bid prices or other provisions of bids prejudicial to the interest of the state or fair competition may be permitted. Except as otherwise provided by rule, all decisions to permit the correction or withdrawal of bids or to cancel awards or contracts based on bid mistakes must be supported by a written determination made by the department.

(6) The contract must be awarded with reasonable promptness by written notice to the lowest responsible and responsive bidder whose bid meets the requirements and criteria set forth in the invitation for bids, including the preferences established by Title 18, chapter 1, part 1. If all bids exceed available funds as certified by the appropriate fiscal officer and the low responsive and responsible bid does not exceed such funds by more than 5%, the director or the head of a purchasing agency is authorized, in situations where time or economic considerations preclude resolicitation of a reduced scope, to negotiate an adjustment of the bid price, including changes in the bid requirements, with the low responsive and responsible bidder in order to bring the bid within the amount of available funds.

(7) When it is considered impractical to initially prepare a purchase description to support an award based on price, an invitation for bids may be issued requesting the submission of unpriced offers, to be followed by an invitation for bids limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation.

18-4-304. Competitive sealed proposals. (1) When, under rules adopted by the department, the director, the head of a purchasing agency, or a designee of either officer above the level of the procurement officer determines in writing that the use of competitive sealed bidding is either not practicable or not advantageous to the state, a contract may be entered into by competitive sealed proposals. The department may provide by rule that it is either not practicable or not advantageous to the state to procure specified types of supplies and services by competitive sealed bidding.

(2) Proposals must be solicited through a request for proposals.

(3) Adequate public notice of the request for proposals must be given in the same manner as provided in 18-4-303(2).

(4) Proposals must be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals must be prepared in accordance with rules adopted by the department and must be open for public inspection after contract award.

(5) The request for proposals must state the relative importance of price and other evaluation factors.

(6) As provided in the request for proposals and under rules adopted by the department, discussions may be conducted with responsible offerors who

submit apparently responsive proposals for the purpose of clarification, to assure full understanding of and responsiveness to the solicitation requirements. Offerors must be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted, after submissions and prior to award, for the purpose of obtaining best and final offers. In conducting discussions, there may be no disclosure of any information derived from proposals submitted by competing offerors. The department may require the submission of cost or pricing data in connection with an award under this section.

(7) The award must be made to the responsible offeror whose proposal is determined in writing to be the most advantageous to the state, taking into consideration price, including the preference in 18-1-102, and the evaluation factors set forth in the request for proposals. No other factors or criteria may be used in the evaluation. The contract file shall contain the basis on which the award is made.

The department may require the submission of cost or pricing data in connection with an award under this section.

(2) The department shall maintain or shall require the head of a purchasing agency to maintain a record listing all contracts made under this section for a minimum of 4 years. The record must contain:

(a) each contractor's name;

(b) the amount and type of each contract; and

(c) a listing of the supplies or services procured under each contract.

(3) The record must be available for public inspection.

18-4-308. Nonresponsibility of bidders and offerors — nondisclosure. (1) A written determination of nonresponsibility of a bidder or offeror must be made in accordance with rules adopted by the department. The unreasonable failure of a bidder or offeror to promptly supply information in connection with an inquiry with respect to responsibility may be grounds for a determination of nonresponsibility with respect to such bidder or offeror.

(2) Information furnished by a bidder or offeror pursuant to this section may not be disclosed outside of the department or the purchasing agency without prior written consent by the bidder or offeror.

18-4-309. Prequalification of suppliers. Prospective suppliers may be prequalified for particular types of supplies and services. Solicitation mailing lists of potential contractors must include but not be limited to such prequalified suppliers.

History: En. Sec. 20, Ch. 519, L. 1983.

18-4-310. Types of contracts. Subject to the limitations of this section, any type of contract that will promote the best interests of the state may be used, except that the use of a cost-plus-percentage-of-cost contract is prohibited. A cost-reimbursement contract may be used only when a determination is made in writing that such contract is likely to be less costly to the state than any other type or that it is impracticable to obtain the supplies or services required except under such a contract.

History: En. Sec. 21, Ch. 519, L. 1983.

18-4-311. Approval of accounting system. Except with respect to firm fixed-price contracts, no contract type may be used unless it has been determined in writing by the department that:

(1) the proposed contractor's accounting system will permit timely development of all necessary cost data in the form required by the specific contract type contemplated; and

(2) the proposed contractor's accounting system is adequate to allocate costs in accordance with generally accepted accounting principles.

History: En. Sec. 22, Ch. 519, L. 1983.

18-4-312. Bid and contract performance security. (1) For state contracts for the procurement of services in the amount of $10,000 or less or of supplies, the department may in its discretion require the filing of:

(a) bid security;

(b) contract performance security to guarantee the faithful performance of the contract and the payment of all laborers, suppliers, materialmen, mechanics, and subcontractors; or

(c) both bid and contract performance security.

(2) For state contracts for the procurement of services exceeding $10,000, the department shall require bid security and contract performance security, except for purchases described in 18-4-305 and 18-4-306.

(3) If security is required under subsection (1) or (2), the following types of security may be required to be deposited with the state:

(a) a good and sufficient bond with a licensed surety company as surety;

(b) an irrevocable letter of credit not to exceed $100,000 in accordance with the provisions of Title 30, chapter 5, part 1;

(c) lawful money of the United States;

(d) a cashier's check, certified check, bank money order, or bank draft, drawn or issued by any banking corporation incorporated under the laws of Montana or by a banking association located in Montana; or

(e) certificates of deposit or money market certificates issued by any bank or savings and loan association licensed to do business in Montana.

(4) The amount and type of the security mentioned above must be determined by the department to be sufficient to cover the risk involved to the state, except that the same shall not be less than 10% of the bid price for bid security and 25% of the total contract price for contract performance security, and must be payable to the state of Montana. In determining the amount and type of contract performance security required for each contract, the department shall consider the nature of the performance and the need for future protection to the state. In determining the need for and amount of bid security, the department shall consider the risks involved to the state if a successful bidder or offeror fails to enter into a formal contract; such considerations shall include but are not limited to the type of supply or service being procured, dollar amount of the proposed contract, or delivery time requirements. The department may adopt rules to assist it in making these determinations and in protecting the state in dealing with irrevocable letters of credit. Bid and contract security requirements must be included in the invitations for bids or requests for proposals.

(5) If a bidder or offeror to whom a contract is awarded fails or refuses to enter into the contract or provide contract performance security, as required by the invitation for bid or request for proposal, after notification of award, the department may, in its discretion, require the bidder to forfeit his bid security to the state and become immediately liable on the bid bond, but not in excess of the sum stated therein. The liability of the bidder or offeror, the maker of the security or bid bond, or the liability on the bid bond shall not exceed the amount specified in the invitation for bid or request for proposal.

(6) Negotiable instruments provided as bid security must be refunded to those bidders or offerors whose bids or proposals are not accepted.

(7) The provisions of Title 18, chapter 1, part 2, and Title 18, chapter 2, parts 2 and 3, do not apply to procurements under this chapter.

A contract, lease, or rental agreement may be extended or renewed, notwithstanding the time limits stated in this section, if the terms of the extension or renewal, if any, are included in the solicitation and funds are available for the first fiscal period at the time of the agreement. Payment and performance obligations for succeeding fiscal periods are subject to the availability and appropriation of funds therefor.

(2) Prior to the extension or renewal of a contract, it must be determined in writing that:

(a) estimated requirements cover the period of the contract and are reasonably firm and continuing; and

(b) the contract will serve the best interests of the state by encouraging effective competition or otherwise promoting economies in state procurement.

Such a designation shall be made prior to the advertisement for bids in a daily state newspaper, and when the advertisement is published, it shall indicate the purchases which have been designated small business set-asides. To effectuate the purposes of this part, a department shall exercise this authority whenever there is a reasonable expectation that bids will be obtained from at least three small businesses capable of furnishing the desired property or service at a fair and reasonable price.

(2) In the case of purchase designated as small business set-asides, invitations to bid shall be confined to small businesses, and bids from other businesses shall be rejected. The purchase, contract, or expenditure of funds shall be awarded to the lowest responsible bidder among the small businesses (considering conformity with specifications and terms) in accordance with the rules for purchasing published by the department.

(2) If a department withdraws the designation of small business set-aside, it shall notify the bidders of the reason why the bids were rejected. Invitations to bid containing the same or rewritten specifications and terms shall then be reissued under the Montana Small Business Purchasing Act, without the designation of small business set-aside.

(1) The department shall certify for the purposes of this part and the federal Randolph-Sheppard Act, as amended, those persons who are blind persons as defined in this part who the department has determined are in need of vocational opportunities and are qualified to operate vending facilities.

(2) Any person or vendor operating a vending facility under the auspices of the blind vendor program administered by the department prior to October 1, 1981, may be certified as a blind vendor for the purposes of this part.

(3) Only certified blind persons are eligible for the vocational opportunities provided in this part.

History: **En. Sec. 6, Ch. 175, L. 1981.**

18-5-407 through 18-5-410 reserved.

18-5-411. Administration of vending facilities — state properties. (1) The department of administration or any other department of state government that administers state property subject to this part shall transfer to the department the management and control of any vending facility that the department has determined is an appropriate facility for the purposes of this part and that the department has determined is needed for the purposes of this part.

(2) A lease or contract for the operation of a vending facility entered into prior to October 1, 1981, is not subject to this part while the lease or contract remains in effect. In addition, this part may not be interpreted to require or authorize the failure to renew any contract for a vending facility on state property in effect on October 1, 1981, if the contract contains a provision permitting the renewal of the contract for a specific term at the option of the vendor or the state or both. In any case where the department determines that a private vendor operating a vending facility on state property on October 1, 1981, who but for this part could reasonably be expected to renew his contract for the vending facility, would be subjected to economic hardship should the contract be allowed to expire at the end of its term, the department may agree to a one-time renewal of that vendor's contract for the vending facility for a period not to exceed 4 years.

(3) The department of administration or any other department of state government that administers state property subject to this part shall give reasonable notice to the department of the expiration or termination of any lease or contract in effect for a vending facility.

(4) Upon receipt of the notice, the department shall give reasonable notice to the department of administration or other department of state government that sent the notice required in subsection (3) stating that the department has determined that the vending facility is either appropriate and needed for the purposes of this part or that it is not.

(5) A state agency administering state property shall consult with the department when planning for a new state building, planning for remodeling of or addition to an existing state building, or negotiating the lease of a building for state use, to determine what vending facilities might be appropriate for the site and plan for such vending facilities.

(6) The department shall administer those vending facilities which are determined to be appropriate and necessary.

History: En. Sec. 5, Ch. 175, L. 1981.

History: En. Sec. 9, Ch. 175, L. 1981.

18-5-413. Implementation of Randolph-Sheppard Act, as amended. (1) The department may enter into agreements with the federal government as provided for in the Randolph-Sheppard Act, as amended, for administering the Randolph-Sheppard Act for all state or federal purposes.

Cross-References

18-5-415. Operation of facilities. (1) The department is not subject to any requirements for competitive bidding on state leases or services to the state on vending facilities that are to be made available to certified blind persons or when purchasing initial supplies for the purpose of assisting a blind vendor.

(2) The department may temporarily operate a vending facility administered by the department if there is no certified blind person qualified to operate that facility.

(3) Neither a blind vendor nor the department is required to pay for rent, utilities, janitorial services in accessible public areas, or building maintenance costs for the space occupied by a vending facility on state property. The department may charge a use fee in lieu of rental, on a basis to be determined by the department, in the case of any blind vendor operating a vending facility on state property whose net income for at least 10 of the preceding 12 months has exceeded twice the poverty level income for a nonfarm family of four as determined by the federal government.

(4) The department may purchase, sell, lease, maintain, and manage as necessary the equipment, stocks, and supplies required for the operation of those vending facilities administered as provided for in this part.

(5) The department shall, by rule, provide for appropriate allocation between the department and the blind vendors of liability for the operation of vending facilities operated pursuant to this part.

(6) After consultation with departments that are served by vending facilities subject to this part, the department may take action as necessary to assure the quality of services being provided by blind vendors.

History: **En. Secs. 5, 7, Ch. 175, L. 1981.**

18-5-416. Vending machines. The department may, except on state property, directly or through contractual arrangements, operate a facility consisting solely of vending machines if it has determined that operation by a blind vendor would be inappropriate. The department shall not directly operate vending machines on any state property where the department does not directly operate vending machines on October 1, 1981, unless, after competitive bid, the department is unable to obtain a suitable private contractor to operate vending machines on the state property. The department shall not, except through competitive bid, authorize a blind vendor to operate on state property a vending facility which consists solely or primarily of vending machines and which does not require the active presence of a vendor during its hours of operation.

(2) If a contract is void under this section, the state or state agency may not make any payments under the contract from any state or federal funds held in or outside the state treasury if violation of this part was caused by the consultant.

(3) If a contract is void under this section because of a violation of this part by the state agency, the state shall pay the consultant for all work performed up to the date that the consultant is informed in writing of the violation by the state agency.

(4) "Department" means the department of administration created by 2-15-1001.

(5) "Eligible deferred compensation plan" means a plan meeting the requirements of section 457 of the Internal Revenue Code.

(6) "Employee" means any person, including independent contractors and elected officials, receiving compensation from the state or a political subdivision for performing services.

19-2-102. Deferred compensation programs permitted — rules. (1) The state or a political subdivision may establish deferred compensation plans that are eligible under section 457 of the Internal Revenue Code of 1954, as amended or superseded, and in compliance with regulations of the U.S. department of the treasury. Eligible deferred compensation plans for employees may be established in addition to any retirement, pension, or other benefit plan administered by the state or a political subdivision.

(2) An employee may enter into a written agreement with the state or a political subdivision to defer a part of his compensation for the purpose of investment as provided by this chapter. The total amount deferred may not exceed the employee's annual salary and may not exceed the amounts permitted under applicable sections of the Internal Revenue Code.

(3) Compensation deferred pursuant to this chapter is included as compensation for the purpose of computing retirement or pension benefits.

(4) The amount of compensation deferred under this chapter may be used to purchase:

(a) shares in a state deferred compensation investment fund established pursuant to Title 17 for the purpose of administering a state-invested deferred compensation plan. All contributions made by participants in the state deferred compensation investment fund and all interest or increase in the fund shall be credited to the fund. These funds may be commingled with other state investment funds, but separate accounts must be maintained for participants in the state deferred compensation investment fund. The assets of the fund must be maintained for the benefit of participants and may not be diverted except for paying the reasonable expenses for administering the state deferred compensation investment fund.

(c) life insurance contracts and fixed annuity and variable annuity contracts from companies that are licensed to do business in the state and subject to regulation by the insurance commissioner; or

(d) any combination of subsections (a), (b), or (c) above, as specified by the participant. The shares, accounts, or contracts so purchased are the exclusive property of and stand in the name of the state of Montana or a political subdivision until distributed to an employee in a manner provided in the plan agreement established by the administrator.

(5) The administrator may allocate any necessary costs against the assets and interest earnings accumulated in funds, accounts, or contracts established under this chapter.

(6) The department or appropriate officer of a political subdivision shall promulgate rules not inconsistent with this chapter for the proper administration of deferred compensation plans established under this chapter.

Contracts with Political Subdivisions

Part Cross-References

Contracts, Title 28, ch. 2 and 3.

19-3-201. Contracts with political subdivisions. (1) Any municipal corporation, county, or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of said contracting employer, subject to the provisions of this chapter. The contract may include any provisions which are consistent with this chapter and necessary in the administration of the retirement system as it affects the contracting employer and its employees.

(2) The approval of the contract shall be subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract shall not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at such election shall include the summary of the retirement system as set forth in the resolution. The election shall be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract shall be by ordinance adopted by the affirmative vote of two-thirds of the members of the legislative body, not less than 20 days after the adoption of the resolution or by an ordinance adopted by a majority vote of the electorate of the contracting employer voting thereon.

(b) The contract shall specify that all employees of the contracting employer or such groups of employees as agreed to between the board and the contracting employer shall become members. The groups of employees to be included shall be by departments, duties, age, or other similar classifications and not by individual employees. The board shall have the right to disapprove any classification into groups if, in its opinion, said classification affects adversely the interest of the retirement system. Membership in the retirement system shall be compulsory for all employees included under the contract.

(c) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

(3) The termination of the contract shall be subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of a contracting employer shall adopt a resolution giving notice to its employees that it intends to terminate retirement coverage.

(b) All employees covered under the retirement system shall receive notice of the termination resolution and be permitted to vote for or against the resolution by secret ballot.

(c) If a majority of covered employees votes for termination, the legislative body, not less than 20 days after the approval of the resolution by the employees, may adopt by a ⅔ majority a resolution terminating PERS coverage effective the last day of that month and forward the resolution and a certified copy of the election results to the board.

(d) Upon receipt of the termination resolution, the board may request an actuarial valuation of the liabilities of the terminating agency to the retirement system, and the board may withhold approval of the termination of contract until satisfactory arrangements are made to provide funding for any excess accrued liabilities not previously funded by the terminating agency.

19-3-203. Conversion of local or state retirement plan. (1) Should the legislative body of any city, county, or public agency having an existing retirement, pension, or annuity fund or system, hereafter referred to as the local system, desire to make the members of the local system members of the public employees' retirement system, it may enter into a contract for that purpose with the board in the manner provided in 19-3-201. However, the employees voting as provided in 19-3-201(2)(a) shall be limited to active members of the local system, and approval shall require an affirmative vote of two-thirds of such employees.

(2) All active members of the local system shall become members of the retirement system and shall no longer be members of the local system. The pensions being paid to pensioners or annuitants of the local system on the effective date of the contract shall be continued and paid at their existing rates by the public employees' retirement system. The liability for such pensions shall be computed by the actuary and charged to the contracting employer. All cash and securities held by the local system shall be transferred to the retirement system as of the effective date of the contract and credited to the employer. The value of said securities shall be determined by the board.

(3) The trustees or other administrative head of the local system as of the effective date of the contract shall certify the proportion, if any, of the funds of the system that represents the accumulated contributions of the active members and the relative shares of the members as of that date. Such shares shall be charged to the employer and credited to the respective individual accounts of such members in the public employees' retirement system and administered as if said contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section will be offset, with interest, against future required employer contributions. Any excess of employer charges over credits under this section shall be payable by the contracting employer, with interest, on a monthly basis as specified in the contract.

19-3-403. Exclusions. The following persons may not become members of the retirement system:

(1) elective officers who have not filed with the board written requests to become members, except that a person so excluded from membership may later become a member by otherwise becoming an employee or by written request after a subsequent election to office, and if he affirmatively exercises the option, the contributions of the employer because of his membership shall be the same as they would have been had he not been so excluded;

(2) inmates of state institutions who are allowed compensation for such service as they are able to perform;

(3) persons in state institutions principally for the purpose of training, but who receive compensation;

(4) independent contractors, unless there is a written contract which specifies the creation of an employer-employee relationship for purposes of retirement coverage under The Public Employees' Retirement System Act;

(5) employees serving in employment which does not exceed the equivalent of 120 working days in any fiscal year who have not filed with the board a written request to become members. A member so excluded from membership by this subsection may later become a member by otherwise becoming an employee or by written request after the initial date of exclusion. If he affirmatively exercises the option and pays the employee contribution plus interest, the contributions of the employer, because of his membership, shall be the same as they would have been had he not been so excluded plus accrued interest on all employer contributions from the date the contributions would have been made to the date of payment.

(6) employees in service on July 1, 1945, or prior thereto who filed with the board elections not to become members, except that a person so excluded

from membership may become a member and be eligible thereafter to receive the same benefits that he would have received if he had never filed an election not to be a member by meeting the requirements prescribed in 19-3-505 and 19-3-506;

(7) persons directly appointed by the governor who do not file with the board an election in writing to become members;

(8) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any state government, or political subdivision thereof and who are receiving credit in the other system for service, it being the purpose of this subsection to prevent a person from receiving credit for the same service in two retirement systems supported wholly or in part by public funds, except when the service qualifies, is applied for, and purchased pursuant to 19-3-503. A member of the retirement system who, because of his employment by the state, is required to become a member of any other system described in this subsection shall be considered, solely for the purposes of making normal contributions, as permanently separated from service. Exclusion under this subsection is subject to the following exceptions:

(a) When an employer has entered into a collective bargaining agreement which includes provisions for payments or contributions by the employer in lieu of wages to a retirement or pension plan qualified by the internal revenue service for its employees, the employees remain eligible, if otherwise qualified, for membership in the retirement system, and the payments or contributions in lieu of wages may not be considered a part of the employees' compensation for purposes of computing the employer or employee contributions to the retirement system.

(b) For the purpose of this subsection (8), persons receiving pensions, retirement allowances, or other payments from any source on account of employment other than as an employee as defined in this chapter are not considered, because of such receipt, members of any other retirement or pension system.

(9) court commissioners or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(10) persons who become employees after they have reached their 60th birthday and have no creditable service in this system and who do not file with the board an election to become members;

(11) employees of county hospitals or county rest homes in the sixth- and seventh-class counties, unless they elect to file with the board an election in writing to become members;

(12) persons employed for 6 months or less by the legislature or the legislative council to perform work related to the legislative session who do not file with the board an election in writing to become members;

(13) full-time students employed at and attending the same public elementary school, high school, vocational-technical center, or community college or any unit of the state university system, except that a person so excluded from membership as a student of a public community college or a unit of the state university system who later becomes a member by otherwise becoming an employee may affirmatively exercise the option of qualifying the service

excluded by this subsection by applying to the board in writing after becoming a member and become eligible to receive credit for the excluded service under the provisions of 19-3-505;

(14) the chief administrative officer of any city or county where the chief administrative officer has filed an election in writing with the board to be excluded from membership, this election to be filed no later than July 1, 1979, or 30 days after initial employment by a county or city, whichever is later;

(15) all former members receiving a retirement allowance, other than as a beneficiary, serving in employment if that employment does not exceed 60 working days in any calendar year. These former members must be reinstated into membership on the 61st working day in any calendar year unless they elect to return to membership prior to that day.

19-3-502. Absence in military service. (1) Any period of absence from compensated employment with an employer for one of the following reasons, occurring either during a war involving the United States as a belligerent or during any other national emergency and 90 days thereafter, is considered service for the purpose of qualification for retirement and death benefits but not for calculation of retirement benefits:

(a) by reason of having been ordered on duty with the armed forces of the United States;

(b) by reason of voluntary service in said forces or on ships operated by or for the United States government; or

(c) by reason of direct assignment to the department of defense for duties pursuant to the national defense efforts where a leave of absence has been granted by the employer.

(2) Any member so absent has the right to contribute to the retirement system, either during his period of absence or upon his return to service, at times and in the manner fixed by the board, amounts equal to the contributions which would have been made by him to the system on the basis of his compensation at the commencement of his absence. If he does contribute, he shall receive credit for service for such time in the same manner as if he had not been absent from service. Whenever a member elects to continue his contributions, the employer shall thereupon contribute an amount equal to what its employer contributions would have been had the member not been absent from service.

19-3-503. Election to qualify military service for full credit. (1) (a) A member with 10 years or more of state service qualified under this chapter may, at any time prior to retirement, make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the period of armed conflict, December 7, 1941, to August 15, 1945, for the purpose of calculating retirement benefits, up to a maximum of 5 years, if he is not otherwise eligible to receive credit for this same service pursuant to 19-3-502.

(b) To qualify this service he must contribute to the retirement fund the amount determined by the board to be due based on his compensation and normal contribution rate as of his 11th year and as many succeeding years as are required to qualify this service, with interest from the date he becomes eligible for this benefit to the date he contributes. He may not qualify more of this service than he has state service in excess of 10 years.

(2) If a member has retired from active duty in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the period of armed conflict, December 7, 1941, to August 15, 1945, with a normal service retirement benefit, he may not qualify his military service under subsection (1) of this section. However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) of this section if his active duty in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the armed conflict, December 7, 1941, to August 15, 1945, is not more than 25% of the total sum of all years of military service including reserve and active duty time.

(1) Time, not to exceed 5 years, during which a member is absent from service by reason of injury or illness determined within 1 year after the end of such absence as arising out of and in the course of his employment shall be considered as spent in service for the purpose of qualification for service retirement benefits under Title 19, chapter 3, part 9, or survivorship allowances under Title 19, chapter 3, part 12, but not for the calculation of such benefits unless the member complies with subsections (2) through (4) of this section, in which case the absence shall be considered as time spent in service for both the calculation and qualification of benefits.

(2) (a) Any member absent because of an employment-related injury which entitles him to workers' compensation payments may contribute to the retirement system, upon his return to service, an amount equal to the contributions which would have been made by him to the system on the basis of his compensation at the commencement of his absence plus interest accruing from 1 year from the date after he returns to covered employment to the date he contributes for his period of absence.

(b) Whenever a member elects to contribute under subsection (2)(a), the employer shall contribute an amount equal to what its employer contributions would have been had the member not been absent from service. In addition, the employer may contribute an amount equal to the interest accruing on the employer's contribution calculated in the same manner as interest on the employee's contribution under subsection (2)(a). If the employer elects not to pay the interest costs, this amount must be paid by the employee.

(3) At some time after returning to covered employment, a member must file with the board a written notice of his intent to pay the contributions under subsection (2).

(4) Payment of the employee's contributions which are due because of the period of absence may be made in one sum at the time of filing the notice or on an installment basis before termination of covered employment.

(5) A member so absent loses his right to contribute under this section if all of his accumulated normal contributions are refunded pursuant to 19-3-703.

19-3-505. Qualification of service with employer. (1) Subject to the provisions of this section, any person who has service with an employer which is not creditable service may convert all or a portion of such service to membership service by filing written notice thereof with the board.

(2) (a) The person must pay to the retirement system the sum of the amount which he and his employer would have contributed during the period of service so converted if the employer had then been an employer and the interest which would have accumulated thereon to the time of such payment; provided that the employer may pay the employer's portion including accrued interest.

(b) The employer must establish a policy as to the retroactive employer contributions and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination will be subject to the determination of the board. All successful appeals will obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing such appeal with the board. Each appeal will be heard on its individual merits and will not bind the employer to pay all retroactive payments for all former and present employees.

(3) A member may secure service credit not previously credited by submitting salary information certified by the member's employer or former employer to the board. The board will determine the eligibility of all service credit requests as prescribed in 19-3-304.

(4) Payment may be made in one sum at the time of filing notice or on an installment basis before termination of covered employment. Failure to make regular monthly payments in any month where the member receives his normal compensation shall thereafter forfeit such person's right to make any further installment payments, unless permission is granted to do so by the board.

19-3-510. Service in the United States government. (1) A member who is assigned to an agency of the United States government under Title IV, the Intergovernmental Personnel Act of 1970, may qualify such federal service as creditable service in the public employees' retirement system under subsection (2) of this section, provided that:

(a) the member has accrued 5 years or more of service in the public employees' retirement system; and

(b) the member returns to full-time employment with the prior state or local government employer for at least 1 year after completing service in the United States government.

(2) A member of the public employees' retirement system who is assigned to an agency of the United States government has the option to:

(a) continue his payments into the account; or

(b) qualify this service under 19-3-505 within 2 years after his return to active status as a state or local government employee.

(3) Salary earned while on assignment to an agency of the United States government must be considered compensation for the purposes of the public employees' retirement system and may be included in the determination of final compensation as defined in 19-3-104, provided that the final compensation cannot exceed 100% of the member's highest annual compensation earned as a state or local government employee.

History: **En. Sec. 1, Ch. 261, L. 1981.**

19-3-511. Transfer of service credits from teachers' retirement system. (1) A member may at any time before his retirement make a written election with the board to qualify in the public employees' retirement system all of his creditable service in the teachers' retirement system. The amount that must be paid to the retirement system to qualify this service under this section is the sum of subsections (2) and (3).

(2) The teachers' retirement system shall transfer to the public employees' retirement system an amount equal to 5% of the average final compensation, as defined in 19-4-101, earned by the member multiplied by the total years of creditable service being transferred plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the teachers' retirement system. If the member had less than 3 full years of membership service, the average final compensation must be based on the compensation reported to the teachers' retirement board by the employer.

(3) (a) The employee shall pay an amount equal to his accumulated contributions at the time he terminated active membership, as defined in 19-4-302, plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the teachers' retirement system.

(b) If the sum of the rates provided in 19-3-701 and 19-3-801 exceeded the sum of the rates provided in 19-4-602 and 19-4-605 at the time the employee terminated active membership, as defined in 19-4-302, the employee shall pay an amount in addition to that required in subsection (3)(a) to receive full credit for the service transferred. This additional amount is equal to:

(i) the final compensation as determined in subsection (2) multiplied by the total years of creditable service being transferred multiplied by the difference between the sum of the rates provided for in 19-3-701 and 19-3-801 and the sum of the rates provided in 19-4-602 and 19-4-605; plus

(ii) accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the retirement system.

(c) If the member chooses not to make the contribution provided for in this section, he shall receive credit for the service transferred based on the ratio between the retirement systems' employee and employer contribution rates provided for in 19-3-701, 19-3-801, 19-4-602, and 19-4-605.

(4) The amount of creditable service granted in subsection (1) must be on a month-by-month basis. Military service credit transferred from the teachers' retirement system must be included in the 5-year maximum military service credit provided for in 19-3-503.

(5) Subject to the provisions of 19-3-304, the board is the sole authority in determining the amount of creditable service qualified under this section and the amount paid to the retirement system under subsections(2) and (3).

(6) If a member who has creditable service in the teachers' retirement system dies before he qualifies this service in the public employees' retirement system and if the service credits from both systems, when combined, entitle his beneficiary to a death benefit, the payment of the death benefit is the liability of the public employees' retirement system. Before payment of the death benefit, the teachers' retirement board must transfer to the public employees' retirement system the contributions necessary to qualify this service in the public employees' retirement system as provided in subsections (2) and (3).

(4) Service qualified under this section may not be:

(a) credited in any other retirement system under Title 19; or

(b) used to qualify a member to purchase military service under 19-3-503.

(5) Service qualified under this section may not be used in calculating a member's retirement allowance unless his last 5 years of creditable service were earned under the public employees' retirement system. If a member's qualified service may not be used in calculating his retirement allowance, he may choose to:

19-3-801. Employer contribution rates — actuarial determination. (1) Each employer shall contribute to the cost of benefits under the system. The amount of the employer contributions shall be computed by applying to member's compensation the sum of the current service contribution rate and the unfunded liability contribution rate. The sum of these rates is 6.417% from July 1, 1983, to June 30, 1992. The sum of the rates increases to 6.55% on July 1, 1992, and to 6.70% on July 1, 1993.

(2) The actuary shall determine the current service contribution rate to be that level percentage of the present value of the future compensation of the average new member entering the system which equals the then present value of the excess of all prospective benefits in respect of such member over the member's own normal contributions.

(3) The actuary shall determine the minimum unfunded liability contribution rate to be that level percentage of the present value of the prospective compensation of all members for the 40-year period following the date of the determination which is equal to the unfunded liability on that date. The unfunded liability at any time is the excess of the present value of all future benefits payable in respect of all persons then entitled to benefits under the system over the sum of the retirement fund and the present values of the future current service contributions and normal contributions payable in respect of all such persons.

19-3-1101. Optional retirement allowance. (1) The retirement allowance of a member who so elects shall be converted, in lieu of all other benefits under this chapter, into an optional retirement allowance which is the actuarial equivalent of the regular retirement allowance. The optional retirement allowance is a reduced amount payable during the member's lifetime with a subsequent benefit as follows:

(a) option 2—a continuation of the reduced retirement allowance during the lifetime of his named contingent annuitant;

(b) option 3—a continuation of one-half of the reduced retirement allowance during the lifetime of his named contingent annuitant;

(c) option 4—such other actuarially equivalent benefit as may be approved by the board.

(2) Election of an optional retirement allowance must be by written application filed prior to the first payment of the regular retirement allowance.

(3) If either the member or his contingent annuitant dies before the member has received the first payment under option 2 or 3, the election of the option is automatically canceled.

(4) If a member dies after retirement and within 30 days from the date his election or changed election of an optional retirement allowance is received by the board, then the election is void and the death is considered as that of a member before retirement.

(5) (a) Upon written request to the board, a retired member who is receiving an optional retirement allowance may designate a different contingent annuitant, select a different option, or convert his optional retirement allowance to a regular retirement allowance if:

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(b) Upon receipt of the request, the board shall actuarially adjust the member's monthly retirement allowance to reflect the change.

19-3-1102. Medical examination of disability retiree — cancellation and reinstatement. (1) The board may, in its discretion, require the recipient of a disability retirement allowance to undergo a medical examination. The examination must be made by a physician or surgeon appointed by the board, at the place of residence of the recipient or another place mutually agreed upon. Upon the basis of the examination, the board shall determine whether the recipient is unable, by reason of physical or mental incapacity, to perform either the duties of the position held by him when he retired or the duties proposed to be assigned to him. If the board determines that the recipient is not incapacitated or if the recipient refuses to submit to medical examination, his retirement allowance must be canceled.

(2) If the board determines that a recipient of a disability retirement allowance should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating his monthly allowance. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, he may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose disability retirement allowance is canceled because the board has determined that he is no longer incapacitated must be reinstated to the position held by him immediately before his retirement or to a position in the same classification with duties within his capacity if he had been an employee of the state or of the university. If he had been an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the retirement allowance has been canceled and that the former employee is eligible for reinstatement to duty. The fact that he was retired for disability may not prejudice any right to reinstatement to duty that he may have or claim to have.

(4) If a recipient whose disability retirement allowance is canceled is not reemployed in a position subject to the retirement system, his service is considered, for the purposes of 19-3-703, to have been discontinued coincident with the commencement of his retirement allowance.

19-4-101. Definitions. As used in this chapter, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Accumulated contributions" means the sum of all the amounts deducted from the compensation of a member or paid by a member and credited to his individual account in the annuity savings fund, together with interest. Regular interest shall be computed and allowed to provide a benefit at the time of retirement.

(2) "Actuarial equivalent" means a benefit of equal value when computed, with regular interest, on the basis of the 1971 Group Annuity Mortality Table, with ages set back 4 years and an interest rate of 8% compounded annually.

(3) "Annuity" means the payments made to a beneficiary for life which are derived from a member's accumulated contributions.

(4) "Annuity reserve" means the present value of all payments to be made on account of a member's annuity computed, with regular interest, on the basis of the mortality tables adopted by the retirement board.

(5) (a) "Average final compensation" means the average of the earned compensation of a member during the 3 consecutive years of full-time service which yield the highest average and on which contributions have been made as required by 19-4-602.

(b) In determining a member's retirement allowance under 19-4-802 or 19-4-804, the amount of each year's earned compensation that may be used in the calculation of average final compensation may not exceed the member's earned compensation from the preceding year by more than 10%, except as provided by rule by the retirement board.

(c) Earned compensation in excess of the amount specified in subsection (5)(b) is considered termination pay as provided in subsection (5)(d).

(d) If the earned compensation includes any termination pay, the member shall select one of the following options:

(i) use the total termination pay in the calculation of the average final compensation. The member and the employer shall pay contributions to the retirement system as are determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time the termination pay is received.

(ii) use a yearly amount of termination pay added to each of the 3 consecutive years' salary used in the calculation of the average final compensation, if the member has 4 or more years of service with the employer from which the termination pay was received. The amount of compensation used in the calculation of average final compensation must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer must pay contributions on the termination pay according to the rates provided for in 19-4-602(1) and 19-4-605(1).

(iii) exclude the termination pay from the average final compensation. No contribution is required of either the employer or member, and contributions made under 19-4-602 and 19-4-605 must be refunded.

(e) For purposes of this subsection, termination pay includes any form of termination pay or any lump-sum payment for deferred compensation, sick leave, or accumulated vacation credit, or any other payment for time not worked other than compensation received while on sick leave or authorized leave of absence.

(6) "Beneficiary" means a person in receipt of a pension, annuity, retirement allowance, or other benefit provided by the retirement system.

(7) "Creditable service" is that service defined by 19-4-401.

(8) "Earned compensation" means the full compensation, pay, or salary actually paid to a member and reported to the retirement system, including amounts paid under a salary reduction agreement, a cafeteria plan, a tax sheltered annuity, a deferred compensation program, and the value of any housing provided by the employer. The employer shall fix the value of any housing provided. The term does not include any other amounts paid in kind or fringe benefits not actually paid to a member. The earned compensation of a member who had less than 3 consecutive years of full-time service during the

5 years preceding his retirement is the compensation, pay, or salary which he would have earned had his part-time service been full-time service. The earned compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary which he would have received had he completed the full year, except that any termination pay, as defined in subsection (5)(e), received by the member is limited to the amount actually paid and is not the amount he would have earned had he completed the full year.

(9) "Employer" means the state of Montana, the trustees of a district, or any other agency or subdivision of the state which employs a person who is designated a member of the retirement system.

(10) "Full-time service" means service which is full-time and which extends over a normal academic year of at least 9 months. With respect to those members employed by the office of the superintendent of public instruction, any other state agency or institution, or the office of a county superintendent, "full-time service" means service which is full-time and which totals at least 9 months in any one year.

(11) "Member" means a person who has an individual account in the annuity savings fund. An active member is a person included under the provisions of 19-4-302. An inactive member is a person included under the provisions of 19-4-303.

(12) "Part-time service" means service which is less than full-time or which totals less than 9 months in any one year. Part-time service shall be credited in the proportion that the actual time worked bears to full-time service.

(13) "Pension" means the payments made to a beneficiary for life which are paid out of the pension accumulation fund.

(14) "Pension reserve" means the present value of all payments to be made on account of a pension computed, with regular interest, on the basis of the mortality tables adopted by the retirement board.

(15) "Prior service" means employment of the same nature as service defined in subsection (20) of this section but rendered before September 1, 1937.

(16) "Regular interest" means interest at 4% per annum compounded annually or at such other rate as may be set by the retirement board in accordance with 19-4-501(2).

(17) "Retirement allowance" means the annuity plus the pension.

(18) "Retirement board" means the retirement system's governing board provided for in 2-15-1010.

(4) For a member completing only part-time service during the qualifying period, the first full year's teaching salary used to calculate the cost to purchase creditable service is the salary that he would have earned if his first year part-time salary had been full-time.

(1) (a) A member who became a member before July 1, 1989, may apply for creditable service in the retirement system for out-of-state employment service that would have been acceptable under the provisions of this chapter if the service had been performed in the state of Montana. If the member contributed to a public retirement plan, other than social security, while performing the out-of-state service, he must receive a refund of his contributions for the out-of-state service before qualifying service under this section. The member must be awarded creditable service, conditional upon his completing 5 years of active membership in Montana, for the number of years, not exceeding 5, that the retirement board determines to be creditable service, if he contributes to the retirement system as provided in subsection (2).

(b) For the purpose of this section, out-of-state employment includes service performed outside the United States in a federal or other public or private school or institution if the service would have been acceptable under this chapter if performed in the state of Montana.

The contribution rate must be the rate in effect at the time he is eligible for the service.

(b) To qualify service performed outside the United States in a federal or other public or private school or institution, the member must contribute for each year of service to be qualified an amount equal to the combined employer and employee contribution for his first full year's teaching salary earned in Montana after his out-of-state service or after July 1, 1989, whichever date is later, plus interest at the rate the contribution would have earned had the contribution been in his account from the date he was eligible to qualify the service. The contribution rate must be the rate in effect at the time he is eligible to qualify the service or the rate in effect on July 1, 1989, whichever date is later.

(3) The contributions required under subsection (2) may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

19-4-409. Transfer of service credits from public employees' retirement system. (1) A member may at any time before his retirement make a written election with the retirement board to qualify in the teachers' retirement system all of his creditable service in the public employees' retirement system. The amount that must be paid to the retirement system to qualify this service under this section is the sum of subsections (2) and (3).

(2) The public employees' retirement system shall transfer to the teachers' retirement system an amount equal to 5% of the final compensation, as defined in 19-3-104, earned by the member multiplied by the total years of creditable service being transferred plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the public employees' retirement system. If the member had less than 3 full years of membership service, the final compensation must be based on the compensation reported to the public employees' retirement board by the employer.

(3) (a) The employee shall pay an amount equal to his accumulated contributions at the time he terminated active membership under 19-3-406 plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the public employees' retirement system.

(b) If the sum of the rates provided in 19-4-602 and 19-4-605 exceeded the sum of the rates provided in 19-3-701 and 19-3-801 at the time the employee terminated active membership under 19-3-406, the employee shall pay an amount in addition to that required in subsection (3)(a) to receive full credit for the service transferred. This additional amount is equal to:

(i) the final compensation as determined in subsection (2) multiplied by the total years of creditable service being transferred multiplied by the difference between the sum of the rates provided in 19-4-602 and 19-4-605 and the sum of the rates provided in 19-3-701 and 19-3-801; plus

(ii) accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the retirement system.

(c) If the member chooses not to make the contribution as provided in this section, he shall receive credit for the service transferred, based on the ratio between the retirement systems' employee and employer contribution rates provided for under 19-3-701, 19-3-801, 19-4-602, and 19-4-605.

(4) A member who qualifies service from the public employees' retirement system in the teachers' retirement system must complete 5 years of membership service in the teachers' retirement system to qualify or purchase military service, out-of-state teaching service, employment while on leave, and private school employment.

(5) The retirement board shall determine the service credits that may be transferred.

(6) If a member who has creditable service in the public employees' retirement system dies before he qualifies this service in the teachers' retirement system and if his service credits from both systems, when combined, entitle his beneficiary to a death benefit, the payment of the death benefit is the liability of the teachers' retirement system. Before payment of the death benefit, the public employees' retirement board must transfer to the teachers' retirement system the contributions necessary to qualify this service in the teachers' retirement system as provided in subsections(2) and (3).

(7) If the retirement board determines that an individual's membership was erroneously classified, the member's accumulated contributions and service must be transferred to the teachers' retirement system and any employee and employer contributions due as calculated in 19-4-602 and 19-4-605 are the liability of the employee and the employing entity where the error occurred, respectively.

(2) The retirement board annually shall establish the rate of regular interest.

(5) All the reserves established by part 6 of this chapter shall be accounts in the pension trust fund type of the treasury fund structure of the state.

19-4-602. Annuity savings fund — member's contribution. The annuity savings fund is a fund in which the contributions for the members to provide for their annuities shall be accumulated in individual accounts for each member. The normal contribution of each member is 7.044% of his earned compensation. Contributions to and payments from the annuity savings fund shall be made in the following manner:

(1) (a) Each employer, pursuant to section 414(h)(2) of the federal Internal Revenue Code of 1954, as amended and applicable on July 1, 1985, shall pick up and pay the contributions which would be payable by the member under this section for service rendered after June 30, 1985.

(b) The member's contributions picked up by the employer must be designated for all purposes of the retirement system as the member's contributions, except for the determination of a tax upon a distribution from the retirement system. These contributions must become part of the member's accumulated contributions but must be accounted for separately from those previously accumulated.

(c) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's wages as defined in 19-1-102 and his earned compensation as used to define his average final compensation in 19-4-101. The employer shall deduct from the member's compensation an amount equal to the amount of the member's contributions picked up by the employer and remit the total of the contributions to the retirement board.

(d) The deductions shall be made notwithstanding that the minimum compensation provided by law for a member may be reduced thereby. Every member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims whatsoever for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(2) In addition to the normal contributions and subject to the approval of the retirement board, any member may redeposit in the annuity savings fund, by a single payment or by an increased rate of contribution, an amount equal to any accumulated contributions which he has previously withdrawn, plus interest in the amount the contributions would have earned had the contributions not been withdrawn.

(3) The accumulated contributions of a member withdrawn by him or paid to his estate or to his designated beneficiary in event of his death shall be paid from the annuity savings fund. Upon the retirement of a member, his accumulated contributions shall be transferred from the annuity savings fund to the pension accumulation fund.

The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by him when he retired. If the recipient refuses to submit to a medical examination, his retirement allowance must be canceled when he is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement allowance should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating his monthly allowance. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, he may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose retirement allowance is canceled because the board has determined that he is no longer incapacitated must be reinstated to the position held by him immediately before his retirement or to a position in the same classification within his capacity, whichever is first open. The fact that he was retired for disability may not prejudice any right to reinstatement to duty that he may have or claim to have.

(4) The department of justice may request a medical or psychological review as to the ability of the recipient to return to work as a member of the highway patrol. If the board's findings are upheld, the department shall pay the cost of the review.

19-7-306. Reinstatement after withdrawal of contributions. (1) A member may deposit in the retirement fund, in one sum or on an installment basis before termination of covered employment, an amount equal to that which was withdrawn at the last termination of membership plus an amount equal to the interest which would have been credited to the account had the member not withdrawn the contributions upon termination of membership, subject to minimum monthly or semimonthly payments as fixed by the board.

(2) If a member who is reentering the retirement system after a termination of membership does not elect to make or does not make the redeposit, he must reenter as a new member without credit for any service except the prior service credited before the termination. If a member does make the redeposit, his membership is continuous and unbroken by the last termination.

(3) Regardless of whether the redeposit is made, the documents held by the retirement system, as executed by the member prior to termination of membership, shall be held by the system for the same purposes as prior to the termination and beneficiaries nominated shall remain unchanged.

19-7-308. Service under municipal police officers' retirement system prior to or following city-county consolidation. (1) A law enforcement officer who has not changed his employment but who has, because of a city-county consolidation, been transferred either from a city police force to a county sheriff's department or from a county sheriff's department to a city police force as a law enforcement officer is eligible for a service retirement benefit if his combined service in the sheriffs' retirement system and the municipal police officers' retirement system satisfies the minimum membership service requirement of the system to which he last made contributions. A sheriff who has elected to continue membership in the public employees' retirement system under 19-7-301 may continue his election. However, credit for service in the PERS which has not been transferred prior to January 1, 1979, may not be transferred.

(2) Eligibility for and calculation of disability retirement, death benefits, and refund of contributions are governed by the provisions of the retirement system to which the officer last made contributions.

(3) The service retirement benefit of an officer described in subsection (1) shall be calculated separately for each system based on the service credited under each system. The calculation for the sheriffs' retirement system portion of the benefit must include the appropriate reduction in the retirement allowance for an optional retirement allowance elected under 19-7-701. The final salary or final average salary for each calculation shall be based on the highest salary earned while a member of either system. Each system shall pay its proportionate share, based on the number of years of service credited, of the combined benefit. The combined benefit may not exceed 60% of the final salary or final average salary.

(4) Upon the death of an officer receiving a service retirement allowance under this section, the beneficiary and the continued benefit must be determined separately for each system as follows:

(a) For the municipal police officers' retirement system portion of the benefit, the officer's surviving spouse, if there is one, shall, for as long as the spouse remains unmarried, receive from the fund a sum equal to the municipal police officers' retirement system portion of the officer's service retirement allowance as calculated at the time of his retirement. If the officer leaves one or more dependent children, then upon his death, if he leaves no surviving spouse or upon the death or remarriage of the surviving spouse, the officer's surviving dependent child, or children collectively if there are more than one, shall receive the same monthly payments a surviving spouse would receive for as long as the child or one of the children remains dependent as defined in 19-9-104. The payments must be made to the child's appointed guardian for the child's use. If there is more than one dependent child, upon each child no longer qualifying as dependent under 19-9-104, the pro rata payments to that child must cease and be made to the remaining children until all the children are no longer dependent.

(b) For the sheriffs' retirement system portion of the benefit, the officer's beneficiary, designated under 19-7-602, shall receive:

(i) an annuity as determined under 19-7-701, if the officer elected an optional retirement allowance; or

(ii) if the officer did not elect an optional retirement allowance, any payment owed the officer, including the excess, if any, of his accumulated deductions standing to his credit at the time of retirement less payments made to the officer.

19-7-309. Qualification of service from other Montana public retirement systems. (1) (a) A member may, at any time before his retirement, make a written election with the board to qualify all or any portion of his creditable service in the public employees', highway patrol officers', firefighters' unified, game wardens', or municipal police officers' retirement system for which he has received a refund of his membership contributions. To qualify this service, he must contribute to the retirement fund the actuarial cost of granting the service in the sheriffs' retirement system, as determined by the board, based on his compensation earned as a member of the former system and the normal contribution rate according to the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b). This service may not be credited in more than one retirement system under Title 19.

(b) Upon receiving the member's payment under subsection (1)(a), the administrator shall transfer from the member's former retirement system to the sheriffs' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the sheriffs' retirement system, according to the most recent actuarial valuation, based on the salaries earned by the employee as a member of the former system.

(2) (a) A member may, at any time before his retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide salary and employment documentation certified by his public employer. The board may grant service credit subject to the provisions of 19-7-201(2) upon contribution by the employee of the actuarial cost of granting this service in the sheriffs' retirement system, as determined by the board, based on the employee's compensation earned during this period of service and the normal contribution rate according to the most recent actuarial valuation of the system.

(b) The board is the sole authority under this subsection (2) in determining what constitutes full-time public service.

(c) This service may not be credited in more than one retirement system under Title 19.

History: En. Sec. 3, Ch. 145, L. 1981; amd. Sec. 3, Ch. 331, L. 1983; amd. Sec. 1, Ch. 217, L. 1989.

19-7-310. Election to qualify previous military service. (1) A member with 15 years or more of service may, at any time prior to his retirement, make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits, up to a maximum of 5 years, if he is not otherwise eligible to receive credit. To qualify military service, he must contribute to the account the actuarial cost of granting the service, to be determined by the board based on his compensation and normal contribution rate as of his 16th year and as many succeeding years as are required to qualify this service, plus accrued interest. Interest accrues from the date on which the member has completed the number of service years in excess of 15 needed to qualify the military service to the date he contributes. He may not qualify more of his military service than he has service in the sheriffs' retirement system in excess of 15 years. Military service purchased under this section may not be used in determining eligibility for a service retirement.

(2) If a member has retired from active duty in the armed forces of the United States with normal service retirement benefits, he may not qualify his military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) if his active duty in the armed forces of the United States is not more than 25% of the total of all his years of military service, including reserve and active duty time.

1989 Amendments: Chapter 122 inserted (1)(a) relating to member initially elected or appointed before July 1, 1989, who has completed at least 24 years of service; in (1)(b) substituted "member initially elected or appointed on or after July 1, 1989" for "sheriff in service", decreased years of service to 24 years from 25 years, and decreased age to 50 years from 55 years; and in (2) made minor change in phraseology relating to application in writing. Amendment effective July 1, 1989.

Chapter 196 near middle of (1), after "55 years", inserted "and terminated covered employment" and at end, after "board", deleted "submitted not less than 30 days or more than 90 days from the desired date of retirement"; at beginning of (3)(a) inserted exception clause, after "allowance" substituted "may" for "must", and at end, after "service", inserted "or, if requested by the terminated member in writing, on the first day of the month following receipt of the written application"; inserted (3)(b) that read: "(b) The retirement allowance for an eligible terminated member must commence no later than the first day of the month following the member's 65th birthday"; inserted (3)(c) regarding optional retirement of an elected official; and made minor changes in phraseology and punctuation. 19-8-712. Medical examination of disability retiree — cancellation of allowance. (1) The board, in its discretion, may require the recipient of a disability retirement allowance to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by him when he retired. If the board determines that the recipient is not incapacitated, his disability retirement allowance must be canceled when he is offered a position under subsection (3). If the recipient refuses to submit to a medical examination, his retirement allowance must be canceled when he is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement allowance should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating his monthly allowance. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, he may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose retirement allowance is canceled because the board has determined that he is no longer incapacitated must be reinstated to the position held by him immediately before his retirement or to a position in the same classification within his capacity, whichever is first open. The fact that he was retired for disability may not prejudice any right to reinstatement to duty that he may have or claim to have.

(4) The department of fish, wildlife, and parks may request a medical or psychological review as to the ability of the recipient to return to work as a game warden. If the board's findings are upheld, the department of fish, wildlife, and parks shall pay the cost of the review.

The first, which includes local police retirement funds, applies to such cities, other than those of the first and second class, that wish to adopt it. The second, created by this chapter, applies to first- and second-class cities, those other cities that wish to adopt it, and any city that has adopted the abovementioned statewide police reserve fund.

19-9-503. Unfunded liabilities. (1) It is found and declared by the legislature that many cities operating under prior plans have excess and unfunded liabilities under such prior plans, which liabilities cannot be amortized by the percentage contributions set forth in 19-9-702 and 19-9-703.

(2) The administrator shall, on or before October 1, 1977, determine the excess and unfunded liability of each city which participates in the plan created by this chapter. The determination of the administrator, in the absence of fraud, abuse of discretion, or arithmetic error, is final and binding on each city. Each city found by the administrator to have an excess and unfunded liability under a prior plan which as of July 1, 1977, is not funded by sums on deposit or funds available for deposit with the administrator shall pay an additional sum over a period of time to amortize its excess liability as determined by the administrator. If any city and the administrator are unable by January 1, 1978, to negotiate and reduce to writing the terms of an agreement satisfactory to both of them for the city to amortize its excess liability, the administrator shall require such city to pay an additional sum to amortize its excess liability on July 1, 1977, over a period of not more than 40 years.

(3) Each city found by the administrator to be paying an amount in excess of the amount necessary to amortize its liabilities under the prior plan and under this chapter shall receive a credit in the accounts of the administrator for any such excess payments.

(4) The excess unfunded liability for each city shall be revaluated by the administrator on July 1, 1980, as part of the normal actuarial valuations required in 19-9-504 reflecting the change in the contribution rates made in 19-9-601, 19-9-702, and 19-9-703, as amended by Chapter 375, Laws of 1979, and each city's funding position will be changed using the procedures of 19-9-107. The resulting report will be made available to the cities no later than October 1, 1980.

(5) If a majority of the cities participating in the municipal police officers' retirement system do not agree with the results of the revaluation outlined in subsection (4), they may, by mutual agreement of the cities, select a qualified actuary, as defined in 19-9-504, to perform a second actuarial valuation as of July 1, 1980, with the conclusions of the second actuarial valuation to replace the actuarial valuation discussed in subsection (4). The cost of the second actuarial valuation shall be paid by all cities participating in the system in proportion to their active membership in the system as of July 1, 1980.

(6) (a) On April 1, 1983, the administrator shall revaluate the excess unfunded liability for each city based on the actuarial valuation required in 19-9-504 for the period ended June 30, 1982. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by him when he was retired. If an inactive member is determined by the board to be no longer totally and permanently disabled, his disability retirement allowance must be canceled when he is offered a position under 19-9-905. If he refuses to submit to a medical examination, his disability retirement allowance shall cease as of the date of such determination. He shall be notified of the determination by the board. (2) The city may request a medical or psychological review as to the ability of the member to return to work as a police officer. If the board's findings are upheld, the city shall pay the costs of the review.

(1) The payment for each fiscal year to the police officers, surviving spouses, or dependent children described in subsections (2)(a) through (2)(c) may be not less than one-half of the base salary paid in the previous calendar year in the appropriate city or town to newly confirmed police officers, except that for the fiscal year beginning July 1, 1979, all retirees and their beneficiaries who received a supplement to their retirement allowance on July 1, 1978, and are receiving an allowance on July 1, 1979, shall receive a 3% increase in their retirement allowance in lieu of any other increase.

(2) On or before April 1 of each year, the department of administration shall make a report including the following information:

(a) the names of all police officers who are receiving payments from the plan as of the date of the report and were receiving payments from a prior plan before July 1, 1975;

(c) the names of all surviving spouses or dependent children who are receiving payments from the plan and who were receiving payments from a prior plan before July 1, 1975, or in the case of dependent children, whose parent, the spouse of a police officer, was receiving payments from a prior plan before July 1, 1975;

(e) the base salary for the previous calendar year of a newly confirmed police officer of each city or town participating in the plan.

(3) The department of administration shall compute the difference between each amount reported under subsections (2)(d)(i) through (2)(d)(iii) and one-half the base salary for the previous calendar year of a newly confirmed police officer of the appropriate city or town. The difference shall be reported to and paid by the state auditor out of the premium tax collected on insurance sold in this state to insure against the risks enumerated in 19-11-512(3) to the administrator after the end of each fiscal year, but no later than September 1. The premium tax amount paid by the state auditor is statutorily appropriated, as provided in 17-7-502. This payment is in addition to the payment to be made by the state auditor under 19-9-702. The administrator shall use the funds received under this subsection to supplement the monthly payments to persons described in subsections (2)(a) through (2)(c) so that the requirements of subsection (1) are met.

(4) In addition to the payments made by the auditor as provided in subsection (3), the auditor shall make annual payments of $100,000 after the end of each fiscal year but no later than September 1, until the sum of $500,000 has been paid to the administrator for deposit in the retirement account. These payments are statutorily appropriated as provided in 17-7-502. These payments are to be made to reimburse the retirement account for funds advanced to implement this section.

(5) If more than one dependent child is entitled to supplementary payments under this section by virtue of the death of a common parent police officer, the minimum payment to such dependent children under this section shall be determined as if there were one such dependent child and the supplementary payment shall be made to the dependent children collectively.

19-10-406. Election to qualify previous military service. (1) A member with 15 years or more of service as a police officer may, at any time prior to his retirement, make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits, up to a maximum of 5 years, if he is not otherwise eligible to receive credit. To qualify this service he must contribute to the account the actuarial cost of granting the service to be determined by the board based on his compensation and normal contribution rate as of his 16th year and as many succeeding years as are required to qualify this service, with interest from the date he becomes eligible for this benefit to the date he contributes. He may not qualify more of his military service than he has service as a police officer in excess of 15 years. Military service purchased under this section may not be used in the determination of eligibility for a service retirement requiring a minimum of 20 years service.

(2) If a member has retired from active duty in the armed forces of the United States with normal service retirement benefits, he may not qualify his military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) if his active duty in the armed forces of the United States is not more than 25% of the total of all his years of military service, including reserve and active duty time.

19-11-602. Service pension. (1) Each association shall pay, out of its disability and pension fund, a service pension to each of its members who elects to retire from active service after having completed 20 years or more of active duty and has reached the age of 50 years as a fully paid member of a paid or partly paid and partly volunteer fire department of the city or town in which the association was formed. The pension shall be equal to one-half of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(2) Effective July 1, 1974, a member who completes 20 years of service and elects to serve additional years shall receive the pension provided for in subsection (1) increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department. No member is eligible to receive a service pension prior to attaining the age of 50 years.

(3) The monthly pension paid to members retiring on or after July 1, 1973, must be at least one-half the regular monthly salary, excluding overtime and payments in lieu of sick leave and annual leave, paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to a member retiring prior to July 1, 1974, must be at least $200. In the case of volunteer firefighters, the pension may not exceed $150 a month.

(4) As of July 1, 1977, a member is not eligible to receive a service pension under this section unless he is making a monthly contribution to the disability and pension fund, as required by 19-11-501, and is on active duty as a fully paid member of a fire department when he reaches the age of 50 years.

(5) A member of a pure volunteer fire department who has served 20 years or more as an active member of the fire department is entitled to the benefits provided for in this chapter regardless of his age. A member of a pure volunteer fire department who has completed 10 years' service as an active member of the fire department but who is prevented from completing 20 years' service by dissolution or discontinuance of his volunteer fire department, personal relocation due to transfer or loss of employment, personal disability, or any other factor beyond his reasonable control may nevertheless qualify for a partial or reduced pension in an amount and to the extent determined by the board of trustees of the association, regardless of his age.

19-12-401. Eligibility for pension benefits. In order to qualify for participation in the volunteer firefighters' pension plan under 19-12-404, a volunteer firefighter must meet each of the following requirements:

(1) (a) To qualify for full participation, he must have completed a total of at least 20 years' service as an active volunteer firefighter and as an active member of a qualified volunteer fire company.

(b) If a firefighter is prevented from completing at least 20 years' service by dissolution or discontinuance of his volunteer fire company, personal relocation due to transfer or loss of employment, personal disability, or any other factor beyond his reasonable control, he may qualify for partial participation if he has completed at least 10 years' service. In that event, he is eligible for only a proportion of the benefits specified in 19-12-404, determined by multiplying the benefits by a fraction, the numerator of which is the number of years of active service completed and the denominator of which is 20.

(c) The years of active service are cumulative and need not be continuous. The service need not be acquired with one single fire company but may be a total of separate periods of active service with different fire companies in different fire districts.

(d) Effective March 1, 1965, the annual period of service for the purpose of this chapter is the fiscal year. No fractional part of any year may count toward the service requirement, and to receive credit for any particular year, a volunteer firefighter must serve with one particular volunteer fire company throughout that entire fiscal year.

(2) (a) Except as provided in subsection (2)(b), he must have attained the age of 55, but he need not be an active volunteer firefighter or an active member of any volunteer fire company when he reaches that age.

(b) An active member of a volunteer fire company whose duty-related injury results in a permanent total disability as defined in 39-71-116 is eligible to receive a partial pension regardless of his age calculated as follows:

(i) for a member with less than 10 years of service, a pension calculated as provided in subsection (1)(b) in which the numerator equals 10; or

(ii) for a member with 10 years or more of service, a pension calculated as provided in subsection (1)(b).

(3) During each of the years for which he claims credit under subsection (1), he must have completed a minimum of 30 hours of instruction in matters pertaining to firefighting under a program formulated and supervised by the chief or foreman of his volunteer fire company.

(4) Effective July 1, 1965, no volunteer firefighter may receive credit for any year of membership in a volunteer fire company unless, throughout the year:

(a) the company maintained firefighting equipment in serviceable condition of a value of $2,500 or more; and

(b) the company or the fire district served by it was rated in class 5, 6, 7, 8, 9, or 10 by the board of fire underwriters for the purpose of fire insurance premium rates.

(5) He must have ceased to be an active member of any volunteer fire company, and if he applies for and receives pension benefits hereunder, he will not thereafter be eligible to become an active member of any volunteer fire company.

19-12-403. Procedure for claiming pension benefits. (1) Anyone claiming eligibility under the volunteer firefighters' pension plan must file his claim with the board upon a form to be provided therefor by the board. The claim must be filed on or before May 1 of the calendar year in which the claimant seeks to qualify for participation in the pension plan.

(2) The claim must contain:

(a) the name, address, and date of birth of the claimant and of the volunteer firefighter, if he is not the claimant;

(b) the fiscal year during which eligibility will commence; and

(c) the years during which service as a volunteer firefighter was rendered and the names of the volunteer fire companies with which the service was rendered.

(3) The board may require such proof of age and service as it may consider proper, but it must accept a certificate filed under 19-12-402 or subsection (3) of section 22, Chapter 157, Laws of 1977, as prima facie proof of such service.

(4) If the claim is properly filed and the claimant is found by the board to be properly qualified to participate in the volunteer firefighters' pension plan, the name of the claimant shall be added to the list of qualified persons and the claimant will then be entitled to participate in the volunteer firefighters' pension plan as of the fiscal year beginning July 1 next following the filing of the claim.

(2) The payments shall be computed each year in the following manner:

(a) Whenever at the close of business on the last day of a fiscal year there is a balance in the volunteer firefighters' fund in excess of $1 million, the board shall set aside the smaller of the amount in excess of $1 million and an amount equal to 95% of the increase of the balance over the balance at the end of the preceding fiscal year for the payment by the board of pensions to qualified claimants during the immediately succeeding fiscal year. (b) The total pension payable to a qualified claimant under this section may not exceed $200 per month, and the amount to be set aside from the volunteer firefighters' fund may not exceed the amount necessary to pay the maximum of $200 per month to each claimant qualified as of the beginning of the fiscal year during which the payments are to be made.

(c) For the purpose of computation and payment of benefits under this section, if children of a volunteer firefighter become eligible for benefits, all the children of the volunteer firefighter shall be treated collectively as one claimant.

(3) If the amount set aside is sufficient to pay each qualified claimant at least $20 per month throughout the succeeding fiscal year, the pension shall be paid monthly on or before the last day of each month. If the amount set aside is not sufficient to pay each qualified claimant at least $20 per month, each qualified claimant's full pension for that year shall be paid to him in one lump payment on or before December 15 of that year.

19-13-101. Short title. This chapter may be cited as the "Montana Firefighters' Unified Retirement Act".

History: En. Sec. 1, Ch. 566, L. 1981.

19-13-102. Purpose — application of prior law. (1) Because cities other than those of the first or second class currently have fire department relief associations, the legislature finds and declares that the law regarding these associations cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes fire department relief associations, applies to cities other than those of the first or second class that wish to adopt it. The second, created by this chapter, applies to cities of the first or second class and those other cities that wish to adopt it. The purpose of the second system is to provide equity and security for retired firefighters who served cities of the first and second class and other cities electing to join the plan by creating a centrally administered system responsible for continuing all retirement payments from the assets of the system.

(2) Title 19, chapter 11, may not be applied in any way to a city operating under the plan created by this chapter except as otherwise provided.

History: **En. Sec. 2, Ch. 566, L. 1981.**

Any city that enacts such an ordinance and in which the fire department relief association passes such a resolution shall send certified copies thereof to the board and shall, as soon as possible thereafter, deposit with the board all cash and securities held by its fire department relief association. The value of the securities shall be determined by the board.

(2) The board of trustees of the fire department relief association as of the effective date of the election shall certify the proportion, if any, of the funds of the association that represents the accumulated contributions of the active members and the relative shares of the members as of that date. Following the transfer of the cash and securities required by subsection (1) and the certification required by this subsection, the fire department relief association may conclude its affairs. The shares of the members shall be charged to the employer and credited to the respective individual accounts of the members in the plan and administered as if the contributions had been made during membership in the plan. Any excess of employer credits over charges under this section will be offset, with interest, against future required

employer contributions. Any excess of employer charges over credits under this section are payable by the employer, with interest, on a basis determined by the procedure described in 19-13-503.

To qualify this service, he must contribute to the retirement fund the actuarial cost of granting the service in the firefighters' unified retirement system, as determined by the board, based on his compensation earned as a member of the former system and the normal contribution rate according to the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b). This service may not be credited in more than one retirement system under Title 19.

(b) Upon receiving the member's payment under subsection (1)(a), the administrator shall transfer from the member's former retirement system to the firefighters' unified retirement system an amount equal to the employer contributions made during the member's service, but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the firefighters' unified retirement system, according to the most recent actuarial valuation, based on the salaries earned by the employee as a member of the former system.

(2) (a) A member may, at any time before his retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide salary and employment documentation certified by his public employer. The board may grant service credit subject to the provisions of 19-13-202 upon contribution by the employee of the actuarial cost of granting this service in the firefighters' unified retirement system, as determined by the board, based on the employee's compensation earned during this period of service and the normal contribution rate according to the most recent actuarial valuation of the system.

(1) The plan shall pay to each firefighter retired before July 1, 1973, or his surviving spouse or children a monthly retirement allowance of not less than one-half the regular monthly salary paid to a confirmed active firefighter of the city that last employed him as a firefighter, as provided each year in the budget of that city. If the city that last employed him as a firefighter no longer employs a full-paid firefighter, the firefighter's or his beneficiary's allowance may not be less than one-half the average regular monthly salary paid to all newly confirmed full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter. In the case of volunteer firefighters, the retirement allowance may not exceed $75 per month. Distribution of the money provided for this purpose under 19-11-606(1) shall be made according to subsection (2).

(2) (a) At the beginning of each fiscal year the administrator shall request and, except as provided in subsection (2)(b), the state auditor shall issue from the state special revenue fund and deliver to the administrator an amount certified to be equal to the total annual dollar difference between the total retirement allowances paid to all retirees or their surviving spouses or children in the previous fiscal year and the total benefits payable on June 30, 1973. The administrator shall deposit this money into the fund.

(b) If insufficient money is contained in the state special revenue fund to pay the amount requested in subsection (2)(a), the auditor shall pay to the administrator the balance contained in the state special revenue fund. The administrator shall continue to request any portion of the amount requested under subsection (2)(a) not paid in previous fiscal years plus sufficient interest to reimburse the fund as defined in 19-13-104, and the auditor shall pay the requests as money in the state special revenue fund becomes available.

19-13-1007. Allowance adjustment. (1) For a member retiring on or after July 1, 1973, who was hired before July 1, 1981, or his surviving spouse or dependent children, the service retirement allowance provided in 19-13-704(1)(a), the disability retirement allowance provided in 19-13-803(1), and the survivorship allowance provided in 19-13-902(1) may not be less than one-half the monthly compensation paid to a newly confirmed, active firefighter of a city that last employed him as a firefighter, as provided each year in the budget of that city.

(2) For a member hired on or after July 1, 1981, or his surviving spouse or dependent children, the disability retirement allowance provided in 19-13-803(2) and the survivorship allowance provided in 19-13-902(2) may not be less than one-half the monthly compensation paid to a newly confirmed, active firefighter of a city that last employed him as a firefighter, as provided each year in the budget of that city.

(3) If after a member retires, the city that last employed him no longer employs a full-paid firefighter, the member's or his beneficiary's allowance under subsections (1) and (2) must be adjusted on the basis of the average monthly compensation paid to all newly confirmed full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter.

(4) If the employment of a vested member hired before July 1, 1981, is involuntarily discontinued before he reaches age 50 because of the termination of employment of all full-paid firefighters in the city that employed him, his service retirement allowance provided in 19-13-704(1)(b) and his spouse's or dependent child's survivorship allowance provided in 19-13-902(1) may not be less than:

(a) if the member has completed 20 years or more of service, one-half the average monthly compensation paid to all newly confirmed, full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter; or

(b) if the member has completed more than 10 but less than 20 years of service, 2% of the average monthly compensation paid to all newly confirmed, full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter, for each year of the member's service.

(5) In lieu of the benefit adjustment provided in subsection (4), a member may elect to receive an early retirement allowance, beginning upon termination of employment, that is the actuarial equivalent of the accrued portion of the service retirement allowance that would have been payable to him beginning at age 50.

History: En. Sec. 46, Ch. 566, L. 1981; amd. Sec. 3, Ch. 468, L. 1983.

19-13-1008. Maximum benefit limitation. No monthly benefit paid under the retirement system provided for in this chapter may exceed the annual limits on benefits as specified in section 415 of the Internal Revenue Code of 1986 and adjusted annually by the commissioner of internal revenue for calendar years 1988 and thereafter.

History: En. Sec. 1, Ch. 14, L. 1987.

19-13-1009. Supplement to retirement allowances for persons hired on or after July 1, 1981. (1) The administrator shall pay a supplemental allowance from the account provided for in 19-13-506 to each member hired on or after July 1, 1981, who has both completed 25 years of service and reached age 50 as an active firefighter or to his surviving spouse or dependent children. Except as provided in subsection (2), the supplemental allowance, when added to the service retirement allowance, must equal one-half the regular monthly compensation paid to a newly confirmed full-paid active firefighter of the city that last employed him as a firefighter as provided each year in the budget of that city. If after a member retires, the city that last employed him no longer employs a full-paid firefighter, the member's supplemental allowance must be calculated on the basis of the average monthly compensation paid to all newly confirmed full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter.

(2) If the amount available to the account is insufficient to fully fund the supplemental allowance provided for in subsection (1), the supplemental allowance for each eligible member must be reduced by an equal percentage so that the amount contained in the account is not exceeded.

19-21-101. Authority to establish optional retirement program. The board of regents may establish an optional retirement program, as provided in this chapter, for the administrative officers and members of the instructional and scientific staff of the Montana university system. The program may be an independent plan or part of a larger plan with respect to some or all of the benefits provided. The benefits under the program must be provided through individual annuity contracts, either fixed or variable, or a combination thereof, issued to and owned by the participants in the program.

History: **En. Sec. 1, Ch. 494, L. 1987.**

19-21-102. Definition of teachers' retirement system. In this chapter, "teachers' retirement system" means the teachers' retirement system provided for in Title 19, chapter 4.

History: **En. Sec. 2, Ch. 494, L. 1987.**

19-21-103. Duties of board of regents. The board of regents shall:

(1) provide for the administration of the program;

(2) designate the company or companies from which the contracts are to be purchased and approve the form and content of the contracts, taking into consideration the:

(a) nature and extent of the rights and benefits to be provided by the contracts for participants and their beneficiaries;

(b) relationship of these rights and benefits to the amount of contributions to be made;

(c) suitability of these rights and benefits to the needs of the participants and the interests of the Montana university system in the recruitment and retention of administrative officers and members of the instructional and scientific staff; and

(d) ability of the designated company or companies to provide these rights and benefits.

19-21-104 through 19-21-110 reserved.

19-21-111. Actuarial investigation to determine unfunded liability. (1) On June 30, 1990, the teachers' retirement board shall make an actuarial investigation of the teachers' retirement system to determine the past service unfunded liability of active, inactive, and retired members of the Montana university system. The valuation must determine the effect on the amortization of the unfunded liability of the teachers' retirement system caused by persons electing to participate in the optional retirement program. The board shall report its findings to the 52nd legislature.

(2) If the valuation determines that the percentage contribution established in 19-21-203(2)(b) has an adverse effect on the amortization of the unfunded liability, then the board of regents shall pay an additional sum over a period of 40 years to rectify the adverse effect.

(3) Changes in the teachers' retirement system occurring after July 1, 1987, that create additional unfunded liabilities may not be considered in the valuation, and the board of regents may not be required to pay any additional sum on that account except to the extent that those changes benefit members

of the teachers' retirement system who are employees of the Montana university system.

(4) If the valuation determines that the board of regents is paying an amount in excess of that needed to amortize the unfunded liability, the teachers' retirement board shall credit the board of regents for the excess payments. The board of regents shall credit the active participants in the optional retirement program with the excess payments.

History: **En. Sec. 9, Ch. 494, L. 1987.**

Part 2

Participation — Benefits

19-21-201. Participation in program. (1) Academic and professional administrative personnel with individual contracts under the authority of the board of regents are eligible for and may elect to participate in the optional retirement program instead of the teachers' retirement system. This election must be exercised:

(a) before January 1, 1988, for an eligible person hired before July 1, 1987;

(b) within 90 days after entry into service or before January 1, 1988, whichever is later, for a person hired in an eligible position on or after July 1, 1987; and

(c) within 30 days after receiving written notice of eligibility or before January 1, 1988, whichever is later, for an employee who becomes eligible to participate in the optional retirement program by reason of appointment, promotion, transfer, or reclassification to an eligible position.

(2) The election must be exercised by filing a written notice with the teachers' retirement system and the disbursing officer of the employer. The election is effective as of the date the notice is filed or January 1, 1988, whichever is later.

(3) If an eligible officer or staff member fails to exercise the election, as provided by this section, that person must remain or become a member of the teachers' retirement system.

(4) An election under this section is not effective unless the notice filed with the disbursing officer of the employer is accompanied by an appropriate application, if one is required, for the issuance of a contract or contracts under the program.

History: **En. Sec. 3, Ch. 494, L. 1987.**

19-21-202. Effect on rights under teachers' retirement system. (1) An election under 19-21-201 to participate in the optional retirement program is a waiver of all rights and benefits under the teachers' retirement system except as provided in this section.

(2) A member of the teachers' retirement system who elects to participate in the optional retirement program is considered, for the purpose of determining eligibility for rights and benefits under that system, to be no longer employed in a capacity that allows active membership in that system as of the effective date of the election. Thereafter, the member is considered an inactive member of the retirement system if qualified under 19-4-303, with

the rights and privileges provided under 19-4-603(1). A member who elects to participate in the optional retirement program who does not qualify as an inactive member under 19-4-303 is considered a terminated member of the retirement system under 19-4-304(4).

(3) A person who elects to participate in the optional retirement program is ineligible to be an active member of the teachers' retirement system while continuously employed in a position eligible to participate in the optional retirement program.

History: **En. Sec. 4, Ch. 494, L. 1987.**

19-21-203. Contributions. (1) Each optional retirement program participant shall contribute an amount equal to the member's contribution required under 19-4-602. The board of regents shall contribute an amount equal to the employer contribution required under 19-4-605.

(2) The board of regents' contribution must be apportioned and paid as follows:

(a) to the designated company or companies, an amount equal to the greater of:

(i) the employer contribution to the teachers' retirement system not used to amortize past service unfunded liability as that unfunded liability is limited by 19-21-111; or

(ii) an amount that, when added to the participant's contribution, is equal to 10% of the participant's earned compensation; and

(b) to the teachers' retirement system, the balance of the board of regents' contribution.

(3) The board of regents shall determine whether the participant's contribution is to be made by salary reduction under section 403(b) of the Internal Revenue Code of 1954 or by employer pick-up under section 414(h)(2) of that code.

(4) The disbursing officer of the employer or other official designated by the board of regents shall pay both the participant's contribution and the appropriate portion of the regents' contribution to the designated company or companies for the benefit of the participant.
